Set 1 · Story 1. Artificial Intelligence Is a Great Invention · Part 4 of 6

CCSS RI.5.4 · L.5.4

Directions. Read each short passage. Choose the best meaning of the bold word as it is used.

Q1 RI.5.4

The writer says AI is a great invention. Artificial intelligence, or AI **for short**, is a powerful and beneficial invention.

What does **for short** mean here?

- ○ **A.** as a shorter name
- ○ **B.** in a secret code
- ○ **C.** as a longer, full name
- ○ **D.** for a short time

Q2 RI.5.4

The writer believes AI is a good thing. Artificial intelligence, or AI for short, is a powerful and **beneficial** invention.

What does **beneficial** mean here?

- ○ **A.** useless and not worth anything
- ○ **B.** very strong and powerful
- ○ **C.** helpful and good for someone or something
- ○ **D.** new and hard to understand

Q3 RI.5.4

The writer compares AI to a helper. It's like a robot helper that is **designed** to excel at solving problems.

What does **designed** mean here?

- ○ **A.** to drive a car
- ○ **B.** to plan and make something for a certain purpose
- ○ **C.** to solve a hard problem
- ○ **D.** to break something on purpose

Q4 RI.5.4

The writer compares AI to a helper. It's like a robot helper that is designed to **excel** at solving problems.

What does **excel** mean here?

- ○ **A.** to be very good at something
- ○ **B.** to make a decision
- ○ **C.** to do badly at something
- ○ **D.** to learn a language

Q5 RI.5.4

AI is very smart. It can **transcend** what people think of as 'normal' for computers because it can think, learn, and even make decisions just like a human brain.

What does **transcend** mean here?

- ○ **A.** to stay far below what is expected
- ○ **B.** to go past the usual limits of something
- ○ **C.** to think like a human brain
- ○ **D.** to drive on a road

What does **realizing** mean here?

- **A.** to forget something completely
- **B.** to learn a new language
- **C.** to come to understand or notice something
- **D.** to play a game

Q12 RI.5.4

AI can do many kinds of work. While AI is a great invention to help with **manufacturing**, some people might worry that AI will take jobs from humans.

What does **manufacturing** mean here?

- **A.** the selling of goods in small shops
- **B.** the making of goods in large amounts, usually in factories
- **C.** the growing of food on farms
- **D.** the writing of computer programs

Q13 RI.5.4

AI creates opportunities for new kinds of jobs and careers. The world of AI is full of amazing **possibilities**, and we're just discovering what it can do.

What does **possibilities** mean here?

- **A.** machines that build cars
- **B.** jobs that humans do
- **C.** things that might happen or could be done
- **D.** rules that must never change

Q14 RI.5.4

The world of AI is full of possibilities. Maybe one day, you'll become the **illustrious** inventor of a new kind of AI that will make our lives even better.

What does **illustrious** mean here?

- **A.** famous and greatly admired for what you have done
- **B.** rude and unkind to others
- **C.** very rich
- **D.** able to invent new things

Q15 RI.5.4

AI still needs some improvements. Even so, the writer says people should **revere** the invention of AI.

What does **revere** mean here?

- **A.** to improve something
- **B.** to deeply respect and admire someone or something
- **C.** to make fun of someone or something
- **D.** to worry about something

CCSS RI.5.4 · L.5.4

Directions. Read each short passage. Choose the best meaning of the bold word as it is used.

Q1 RI.5.4

Marilyn Hamilton loved being active. She had a great time **soaring** in California's Sierra mountain range under her hang glider.

What does **soaring** mean here?

- ○ **A.** to ride a bicycle
- ○ **B.** to fly high and smoothly through the air
- ○ **C.** to fall straight down to the ground
- ○ **D.** to climb a steep mountain

Q2 RI.5.4

After a stay in the hospital and three weeks of **therapy**, Marilyn was given a wheelchair and encouraged to get on with her life.

What does **therapy** mean here?

- ○ **A.** rest in a hotel room
- ○ **B.** practice for a tennis match
- ○ **C.** treatment that helps the body or mind heal, often through exercise
- ○ **D.** punishment for breaking a rule

Q3 RI.5.4

After a stay in the hospital and three weeks of therapy, Marilyn was given a wheelchair and encouraged to **get on with** her life.

What does **get on with** mean here?

- ○ **A.** to climb into a wheelchair
- ○ **B.** to stop and give up on something
- ○ **C.** to continue doing something, especially after a problem
- ○ **D.** to stay in a hospital

Q4 RI.5.4

Marilyn played on the courts in her wheelchair. It was **frustratingly** difficult, and she'd come home from the courts at the end of the day with badly blistered hands.

What does **frustratingly** mean here?

- **A.** in a way that makes you feel upset and stuck
- **B.** in a quick, sudden way
- **C.** in a calm, peaceful way
- **D.** with badly hurt hands

Q5 RI.5.4

Playing in her heavy wheelchair was frustratingly difficult. She'd come home from the courts at the end of the day with badly **blistered** hands.

What does **blistered** mean here?

- **A.** smooth and healthy, with no sores
- **B.** covered with small bubbles of skin filled with liquid
- **C.** cold and numb from the snow
- **D.** tired and sore from running

Q6 RI.5.4

Marilyn's first wheelchair was not easy to use. Its steel frame made it heavy (close to 60 pounds) and hard to **maneuver**.

What does **maneuver** mean here?

- **A.** to leave something sitting in one place
- **B.** to lift something heavy
- **C.** to paint something
- **D.** to move or steer something carefully

Q7 RI.5.4

Marilyn's heavy wheelchair was hard to move. Being **imprisoned** in that wheelchair was the exact opposite of being able to fly in a hang glider.

What does **imprisoned** mean here?

- **A.** to keep someone locked up or trapped
- **B.** to sit in a hospital bed
- **C.** to fly in a hang glider
- **D.** to send someone on a trip

Q8 RI.5.4

What does **persuaded** mean here?

- **A.** to build something new
- **B.** to stop someone from doing something
- **C.** to sell something
- **D.** to get someone to do something by giving good reasons

Q9 RI.5.4

Marilyn loved her new wheelchair. The only thing that stopped it from being **absolutely** perfect was that it was blue; she would have preferred yellow.

What does **absolutely** mean here?

- **A.** in bright colors
- **B.** only a little bit
- **C.** in every way, with nothing missing
- **D.** for a short time

Q10 RI.5.4

Marilyn's friends made hang gliders. She persuaded them to build her a new wheelchair using hang-glider **technology**.

What does **technology** mean here?

- **A.** the use of science to make useful tools and machines
- **B.** the act of steering a wheelchair
- **C.** the colors used to paint a chair
- **D.** the skill of flying a plane

Q11 RI.5.4

The new wheelchair worked very well. Hamilton and her friends knew they **were on to something**.

What does **were on to something** mean here?

- **A.** to be selling hang gliders
- **B.** to have found a good idea that could be important
- **C.** to be completely lost and confused
- **D.** to be sitting in wheelchairs

Q12 RI.5.4

Hamilton and her friends formed a company to make and sell 'Quickie' wheelchairs. They **specialized** in meeting the needs of athletes.

What does **specialized** mean here?

- **A.** to do a little of everything
- **B.** to focus on one special kind of work or product
- **C.** to sell wheelchairs in stores
- **D.** to play many sports

Q13 RI.5.4

Wheelchair sports take great ability. **Elite** wheelchair athletes have an awesome level of fitness, skill, and upper body strength.

What does **elite** mean here?

- **A.** very old and tired
- **B.** very rich and famous
- **C.** among the very best and most skilled
- **D.** just starting to learn

Q14 RI.5.4

Wheelchair athletes play by special rules. The **objective** is to carry the ball over the opponents' goal line.

What does **objective** mean here?

- **A.** the rules about what you cannot do
- **B.** the line at the start of the field
- **C.** the ball that players carry
- **D.** the goal or purpose you are trying to reach

What does **tips over** mean here?

- **A.** to roll straight forward
- **B.** to fold up flat
- **C.** to fall onto its side
- **D.** to stop suddenly

Q16 RI.5.4

The writer compares two kinds of wheelchairs. The reasons why a lightweight wheelchair is better for athletes than a **traditional** wheelchair are pretty easy to understand.

What does **traditional** mean here?

- **A.** light and fast
- **B.** strange and never seen before
- **C.** done or made in the usual way for a long time
- **D.** made for hang gliding

Q17 RI.5.4

The writer compares two kinds of wheelchairs. The reasons why a **lightweight** wheelchair is better for athletes than a traditional wheelchair are pretty easy to understand.

What does **turned a dream into a reality** mean here?

- **A.** to make something you hoped for actually happen
- **B.** to build a hang glider
- **C.** to give up on something you wanted
- **D.** to fall asleep and dream

Q20 RI.5.4

A regular wheelchair tips over fairly easily. The Quickie was made more **stable** by giving it a lower center of mass and a wider wheelbase.

What does **stable** mean here?

- **A.** fast and easy to steer
- **B.** steady and not likely to fall or move
- **C.** cozy and comfortable
- **D.** bright and shiny

Q21 RI.5.4

The Quickie was made for athletes. The Quickie also lets athletes **adjust** the height themselves.

What does **adjust** mean here?

- **A.** to buy a new one
- **B.** to change something a little so it fits or works better
- **C.** to break something on purpose
- **D.** to paint it

Q22 RI.5.4

The Quickie's wheels are tilted. This means that the wheels aren't **vertical**.

What does **vertical** mean here?

- **A.** very fast
- **B.** bent into a circle
- **C.** wide and heavy
- **D.** standing straight up and down

Q23 RI.5.4

The Quickie's wheels are tilted. This tilt forms a more **efficient** lever, delivering a harder push.

What does **efficient** mean here?

- **A.** very heavy
- **B.** very colorful
- **C.** working well without wasting time or energy
- **D.** slow and wasteful

Q24 RI.5.4

CCSS RI.5.4 · L.5.4

Directions. Read each short passage. Choose the best meaning of the bold word as it is used.

Q1 RI.5.4

From Icarus to the Wright brothers, thousands of adventurers have felt the urge to fly. This **passionate** impulse has resulted in many failures.

What does **passionate** mean here?

- ○ **A.** not caring about something at all
- ○ **B.** tired of trying
- ○ **C.** feeling very strong love or interest for something
- ○ **D.** afraid of high places

Q2 RI.5.4

Thousands of adventurers have felt the dangerous urge to soar with the birds. This passionate **impulse** has resulted in many failures.

What does **impulse** mean here?

- ○ **A.** a sudden strong wish to do something
- ○ **B.** a book about birds
- ○ **C.** a careful plan made over many years
- ○ **D.** a machine with wings

Q3 RI.5.4

Many people have been pioneers of aviation. Each has made a different **contribution**, sometimes right, sometimes wrong, to the pursuit of flight.

What does **contribution** mean here?

- ○ **A.** something you give or do to help a group or cause
- ○ **B.** a race between airplanes
- ○ **C.** something you take away from others
- ○ **D.** a long trip by sea

Q4 RI.5.4

Captain Arsenio left his old jobs behind. He entered the **distinguished** pages of aviation history.

What does **distinguished** mean here?

- **A.** unknown and easily forgotten
- **B.** honored and respected because of great work
- **C.** dangerous and scary
- **D.** funny and silly

Q5 RI.5.4

One day in 1782, Captain Arsenio decided to build the first in a long series of **eccentric** projects that would change his life.

What does **eccentric** mean here?

- **A.** plain and ordinary in every way
- **B.** strange or unusual in a way that is interesting
- **C.** very safe and careful
- **D.** very old and broken

Q6 RI.5.4

Captain Arsenio wrote in his diary: 'My days of sailing and scuba-diving are over; I **retire** with grace to begin a new stage in my life.'

What does **retire** mean here?

- **A.** to build a ship
- **B.** to get a promotion at a job
- **C.** to go scuba diving
- **D.** to stop working at a job, often when you are older

Q7 RI.5.4

Arsenio wrote that he would begin 'a new stage in my life that will undoubtedly **go down in history**.'

What does **go down in history** mean here?

- **A.** to fall to the ground
- **B.** to write a diary
- **C.** to be remembered for a very long time
- **D.** to be quickly forgotten

Q8 RI.5.4

Captain Arsenio kept a diary. His diary was found **by chance** just one year ago, under circumstances to be discussed later.

What does **by chance** mean here?

- **A.** without being planned; by luck
- **B.** after a long wait
- **C.** on purpose, after a careful search
- **D.** with great danger

Q9 RI.5.4

Captain Arsenio kept a diary. His diary was found by chance just one year ago, under **circumstances** to be discussed later.

What does **circumstances** mean here?

- **A.** the pages of a diary
- **B.** the wings of a machine
- **C.** the people who wrote a story
- **D.** the facts or conditions around an event

Q10 RI.5.4

Captain Arsenio's diary is very old. Fortunately, the text is still **legible**.

What does **legible** mean here?

- **A.** very old and precious
- **B.** full of drawings
- **C.** written in a secret code
- **D.** clear enough to be read

Q11 RI.5.4

The Motocanary flew a few feet and then crashed into a tree. Maybe the failure is due to Captain Arsenio's **misplaced** trust in the unreliable canaries.

What does **misplaced** mean here?

- **A.** full of happy hopes
- **B.** put away in a safe place
- **C.** given to the wrong person or thing
- **D.** very strong and brave

Q12 RI.5.4

The Motocanary demanded a lot of work. **Evidently**, it was harder for Captain Arsenio to find enough birds and tie them together with a rope than it was to achieve flight.

What does **evidently** mean here?

- **A.** in a way that is easy to see or understand
- **B.** with a lot of birds
- **C.** very slowly and carefully
- **D.** in a secret way that no one can tell

Q13 RI.5.4

The Motocanary flew a little. Although the discovery was **revolutionary**, it took two days to get the captain down from the tree in which he was stuck.

What does **revolutionary** mean here?

- **A.** careful and slow to change
- **B.** completely new and causing great change
- **C.** tied with a rope
- **D.** stuck high in a tree

Q14 RI.5.4

Arsenio wrote in his diary: 'I think that if I **concentrate** enough birds together, the sustaining force will help me win the clouds.'

What does **concentrate** mean here?

- **A.** to fly over clouds
- **B.** to bring many things together in one place
- **C.** to tie with rope
- **D.** to spread things far apart

Q15 RI.5.4

As **improbable** as it appears, this diary shows us that the Motocanary did fly for a few feet before crashing into a tree.

What does **improbable** mean here?

- **A.** not likely to happen or be true
- **B.** quite heavy
- **C.** silly and funny
- **D.** very loud

Q16 RI.5.4

Arsenio's first machine crashed into a tree. Good cardiovascular health would become a determining factor in Captain Arsenio's second **ambition**.

What does **ambition** mean here?

- **A.** a fear of trying anything new
- **B.** a healthy heart
- **C.** a heavy machine
- **D.** a strong wish to do something great

Q17 RI.5.4

Arsenio's second machine ran on his own legs. The **acceleration** of the runner would allow the wings to beat up and down in imitation of a bird's flight.

What does **acceleration** mean here?

- **A.** the height of a tree
- **B.** the act of slowing down to stop
- **C.** the act of going faster and faster
- **D.** the beating of wings

Q18 RI.5.4

Arsenio wrote: 'I can leave the ground by the effort of an energetic run, **transferred** to the little wings and multiplied thirty times by the transfer pulleys.'

What does **transferred** mean here?

- **A.** to run fast
- **B.** to multiply by thirty
- **C.** to keep something in one place
- **D.** to move something from one place to another

Q19 RI.5.4

Arsenio ran hard so his machine would fly. He wrote, 'But I'm not **elevating** yet.'

What does **elevating** mean here?

- **A.** to spin around in circles
- **B.** to beat wings
- **C.** to rise or lift up higher
- **D.** to run very fast

Q20 RI.5.4

Arsenio tested his running machine. He wrote: 'All systems go, the balance is controlled. The **prototype** is a success . . . up until this point.'

What does **prototype** mean here?

- **A.** the first model of an invention, made to test it
- **B.** a pair of springs
- **C.** a diary about flying
- **D.** the last copy sold in a store

Q21 RI.5.4

Arsenio's diary often says things are fine when they are not. This may be due to Captain Arsenio's **unflagging** optimism (or the many bumps on the head that he suffered from his experiments).

What does **unflagging** mean here?

- **A.** full of worry and fear
- **B.** never getting tired or weaker
- **C.** very noisy
- **D.** very bumpy

Q22 RI.5.4

Arsenio's diary often says things are fine when they are not. This may be due to Captain Arsenio's unflagging **optimism** (or the many bumps on the head that he suffered from his experiments).

What does **optimism** mean here?

- **A.** a long diary
- **B.** a bump on the head
- **C.** a feeling that good things will happen
- **D.** a feeling of being very hungry

Q23 RI.5.4

Arsenio's diary often says things are fine when they are not. This may be due to his unflagging optimism (or the many bumps on the head that he **suffered** from his experiments).

What does **suffered** mean here?

- **A.** to enjoy something pleasant
- **B.** to build a machine
- **C.** to experience pain or something bad
- **D.** to keep a diary

Q24 RI.5.4

Arsenio built another strange machine. No one knows what was going through Captain Arsenio's mind when he **conceived** of this contraption.

What does **conceived** mean here?

- **A.** to think of a new idea or plan
- **B.** to forget an idea completely
- **C.** to fix a broken spring
- **D.** to fly over a tree

Q25 RI.5.4

Arsenio placed so much emphasis on getting off the ground that he forgot a **substantial** part of the matter: how to keep himself in the air.

What does **substantial** mean here?

- **A.** hardly worth noticing
- **B.** large in amount or importance
- **C.** made of metal
- **D.** high in the air

Q26 RI.5.4

Arsenio wrote about his spring machine: 'The compression of two metal springs should do the trick; I **anticipate** a big leap.'

What does **anticipate** mean here?

- **A.** to expect something to happen
- **B.** to put wings on your back
- **C.** to be surprised by something
- **D.** to press metal springs

Q27 RI.5.4

Arsenio planned a big leap with springs. He wrote, 'But I will put little wings on my back, **just in case**.'

What does **just in case** mean here?

- **A.** in a big hurry
- **B.** without any reason at all
- **C.** as a way to be ready if something goes wrong
- **D.** after the fact

Q28 RI.5.4

In his diary, the captain notes a small problem with the Flying Runner. Then he writes, 'Yes, there's a tiny problem, but I have it **under control**. I will land now.'

What does **under control** mean here?

- **A.** moving very fast
- **B.** hidden beneath something
- **C.** broken into pieces
- **D.** being handled well and not causing trouble

Q29 RI.5.4

Arsenio's story is a mystery. No one knows **for certain** exactly what happened to Captain Arsenio and his flying machines.

What does **for certain** mean here?

- **A.** for a short time
- **B.** without any doubt
- **C.** in a different place
- **D.** only as a guess

Q30 RI.5.4

No one knows exactly what happened to Arsenio. All that is left is his diary, ninety pages of **consecutive** failures.

What does **consecutive** mean here?

- **A.** very long and boring
- **B.** happening only once
- **C.** written by hand
- **D.** coming one after another without a break
