Module Overview

Essential Question: Why is it important to pass stories down to the next generation?
Quote: "Language grows out of life, out of its needs and experiences." — Anne Sullivan
Big Idea Words (4): myth, folklore, recount, inherit
Main Selections (workbook 4):

- When the Giant Stirred · Celia Godkin · Legend
- Why the Sky Is Far Away · retold by Marci Stillerman (illus. Salim Busuru) · Folktale (Nigerian)
- Cinder Al and the Stinky Footwear · Roger Lore (illus. Chin Ko) · Fairy Tale
- Compay Mono and Comay Jicotea · retold by Joe Hayes (illus. Lucia Franco) · Folktale (Cuban)

Note. The SoT lists 23 core vocabulary items on Worksheet A (4 Big Idea + 6 When the Giant Stirred + 3 Why the Sky Is Far Away + 4 Cinder Al + 6 Compay Mono), in myBook appearance order. This G3 Teacher's Guide labels each selection's panel "Critical Vocabulary" — the string "Power Words" does not appear in the source. The teacher "Words for Using ..." strategy boxes are NOT counted as core vocabulary. "Why We Share Stories" is the Big-Idea Short Read (no Critical Vocabulary panel) and carries the 4 Big Idea Words; it is excluded from the per-selection workbook units. Module 10 has NO video/media selection — all four main selections are READ texts.

Answer Distribution (75 Multiple-Choice Items)

Verified counts across Worksheets A (23), B (32), and D (20). Worksheet C is open-response IB and not counted in MCQ balance.

A · 19 · B · 19 · C · 19 · D · 18

These four totals are the count of correct-answer LETTERS (A/B/C/D) across all 75 multiple-choice items — 19 answers are "A", 19 are "B", 19 are "C", 18 are "D" (as even as 75 allows). Balance enforced via choice-order rotation only; correct-answer meanings and option texts are preserved from the Source of Truth. All 23 SoT vocabulary words covered on Worksheet A in myBook appearance order (Big Idea → When the Giant Stirred → Why the Sky Is Far Away → Cinder Al → Compay Mono).

Voca Trap Items (Worksheet A)

6 of 23 ≈ 26%, all flagged below. Trap pattern: polysemy / sound-alike / opposite-meaning baits drawn from the natural meaning field of each word — no hallucination.

- Q3 **recount** — sound/sense bait ("count the numbers over again" / "add up money") vs. "tell about something you have read"
- Q7 **belched** — literal "small burp" bait vs. "suddenly pushed out a large amount of smoke or fire"
- Q9 **appease** — opposite-meaning bait ("make the person even angrier") vs. "try to make the person less angry by giving in"
- Q13 **ominously** — sound/sense bait ("slow, sleepy way") vs. "makes you think that something bad might happen"
- Q16 **pungent** — sound-alike bait ("has a sharp point") vs. "has a strong smell that may be unpleasant"
- Q23 **crafty** — sound/sense bait ("good at making art and crafts") vs. "uses clever or tricky ways to get what he or she wants"
- Each bait is the everyday or look-alike sense; six cards (Q3, Q7, Q9, Q13, Q16, Q23) carry the Trap badge in Worksheet A.

Reading Trap Items (Worksheet B)

4 of 32 ≈ 13%, all flagged below. Trap pattern for Section B: THEME/MAIN-idea bait (a true detail mistaken for the theme) and length-balanced correct answers so a longest-option-wins guess fails. Distractors built from SoT only — no hallucination. Codes used are RL.3.1 / .2 / .3 / .5 / .6 for the four literary selections (one Legend + two Folktales + one Fairy Tale), with RI.3.3 used once for the informational Introduction note in Compay Mono. **RI.3.4, RI.3.7, and RL.3.7 are NOT used**, and there are no "from the text" snippet boxes.

- Q8 **When the Giant Stirred theme** — "sea turtles," "black smoke and cinders," "loaded their boats" are true details, baited against the real theme: nature's endless cycle of destruction and renewal

- Q16 **Why the Sky Is Far Away theme** — "Oba gave a party," "sky tasted like honey," "gorgeous robes" bait vs. respect resources and take only what you need; waste has consequences
- Q24 **Cinder Al theme** — "pin five skunks," "biggest onion farm," "lavender soap" bait vs. familiar tales get retold with playful new twists across generations
- Q32 **Compay Mono theme** — "pumpkins in the east," "climbed the loft," "monkeys fear water" bait vs. trick others and you may be tricked; it is not wise to steal and lie

How the Four Worksheets Build Toward the EQ

This module asks **"Why is it important to pass stories down to the next generation?"** Each worksheet adds one layer of the answer, so the teacher can move from word knowledge to deep thinking in order:

- **A · Vocabulary** — students first own the four Big Idea Words of storytelling (myth, folklore, recount, inherit) and the words each tale uses (lagoon, garlands, belched, cinders, appease, barren, tempting, quantities, ominously, upcoming, proclamation, pungent, snickered, theft, inspected, sympathetic, suspicious, reputation, crafty). Without these words, students cannot retell or discuss the tales.
- **B · Reading Comprehension** — students gather evidence from all four selections: a Pacific-island legend (When the Giant Stirred), a Nigerian folktale (Why the Sky Is Far Away), a fractured fairy tale (Cinder Al), and a Cuban trickster folktale (Compay Mono and Comay Jicotea). Theme and point-of-view items prepare the thinking that Section C needs. All four are RL literary texts.
- **C · IB Critical Thinking** — students synthesize: they trace the island's cycle of CHANGE, the sky folktale's lesson about waste, how Cinder Al RETELLS Cinderella, how two cultures teach lessons through tales, and finally answer the EQ with two selections. The C activities grow straight out of the B evidence.
- **D · MAP Practice** — four NEW passages let students apply the same idea to tales they have not studied here (Anansi the spider, a grandmother's family stories, why the bear has a short tail, and how Cinderella crossed the sea), so the EQ becomes a transferable lens about why we pass stories down, not a single-text answer.

Teaching tip. If time is short, the EQ can be reached with Section A (words) + Section C Q5 (synthesis) alone — but Section B supplies the evidence that makes Q5 specific rather than generic.

How Every Item Is Grounded

Every item on this Answer Key traces to the Source-of-Truth JSON for G3 Module 10, built from the Teaching Pal OCR (4,019 lines, 34 pages) and verified against the PDF intro spreads (every Critical Vocabulary panel was read from a high-resolution crop). No characters, words, or events outside the Source of Truth were added.

- **Vocabulary (Worksheet A):** all 23 words come from the module's Big Idea Words (4: myth, folklore, recount, inherit) and the four "Critical Vocabulary" panels — When the Giant Stirred 6, Why the Sky Is Far Away 3, Cinder Al 4, Compay Mono 6. Each meaning is checked against the myBook inline definition. The teacher "Words for Using ..." strategy boxes are deliberately NOT counted as core vocabulary.
- **Terminology:** this G3 Teacher's Guide labels each panel "Critical Vocabulary," not "Power Words" — the workbook uses that exact label, matching the source.
- **Reading (Worksheet B):** the 32 items use RL.3 codes for the four literary selections (RL.3.1 / .2 / .3 / .5 / .6); RI.3.3 is used once where Compay Mono's printed Introduction explains the words *compay*/*comay*. Each correct answer is grounded in the Source of Truth; distractors are SoT-anchored, never invented. RI.3.4, RI.3.7, and RL.3.7 are not used, and there are no "from the text" snippet boxes.
- **Genre & credits:** When the Giant Stirred = Legend (Celia Godkin); Why the Sky Is Far Away = Folktale, "A Nigerian Folk Tale" (retold by Marci Stillerman, illus. Salim Busuru); Cinder Al and the Stinky Footwear = Fairy Tale (Roger Lore, illus. Chin Ko); Compay Mono and Comay Jicotea = Folktale / trickster tale (retold by Joe Hayes, illus. Lucia Franco). One legend + two folktales + one fairy tale — never labeled the same.
- **IB (Worksheet C):** the PYP concepts — Change/Causation, Ethics/Values, Communication/Storytelling, Culture/Heritage — follow the Source-of-Truth oral-tradition focus of this module. The Essential Question text on Q5 matches the workbook word for word.
- **MAP (Worksheet D):** four NEW passages (149 / 151 / 162 / 161 words), RIT 195→215, Lexile 410L–680L. None recall the four anchor selections; each applies the EQ to a fresh tale about storytelling.
- **Answer balance:** 75 multiple-choice items distribute as 19 "A" / 19 "B" / 19 "C" / 18 "D" (as even as 75 allows), achieved by choice-order rotation only — every meaning is preserved from the Source of Truth.

MAP Mini-Passage Word Counts (Worksheet D)

- Passage 1 · The Spider and the Stories · **149 words** · Lexile 410–460L · RIT 195–201
- Passage 2 · Grandmother's Stories · **151 words** · Lexile 470–530L · RIT 202–207
- Passage 3 · Why the Bear Has a Short Tail · **162 words** · Lexile 540–600L · RIT 208–212
- Passage 4 · The Tale That Crossed the Sea · **161 words** · Lexile 610–680L · RIT 213–215

Word counts match the workbook passage meta exactly. All four within target band 120–200 words; RIT 195→215; Lexile 410L–680L. Passages are NEW — no recall of the four anchor selections.

What This Module Does NOT Contain (Guardrails)

- No "Power Words" label — the G3 source says "Critical Vocabulary."
- No Worksheet E — this workbook series uses four worksheets (A · B · C · D).
- The module quote IS by a NAMED person, Anne Sullivan. It is NOT anonymous.
- "Why We Share Stories" is the Big-Idea Short Read (an informational essay, no Critical Vocabulary panel) and is excluded from the per-selection units; it carries the 4 Big Idea Words instead. One teacher callback miscalls it "Why We Tell Stories" — the correct title is "Why We Share Stories."

- Module 10 has NO video/media selection among its numbered selections. The only video is the module-opener "Get Curious" intro video "Tortoise and Hare" — it is not a body selection.
- Why the Sky Is Far Away has only 3 Critical Vocabulary words (tempting, quantities, ominously) and Cinder AI has only 4 (upcoming, proclamation, pungent, snickered) — the small panels are not padded to 6. Counts are 6/3/4/6 = 19 Critical Vocabulary; Big Idea (4) + Critical (19) = 23 total.
- "pungent" is BOTH a Cinder AI Critical Vocabulary word AND the lead word of Cinder AI's synonym/antonym strategy pair (pungent/odoriferous) — it is counted ONCE, in Critical Vocabulary.
- Credits read "retold by" for the two folktales (Marci Stillerman; Joe Hayes), not "by." When the Giant Stirred prints only "by Celia Godkin" (no separate illustrator line).
- Performance Task = "Write an Opinion Essay." It is not an expository or narrative essay.

Worksheet C — IB Critical Thinking · Answer Key

5 questions · PYP Key Concepts · DOK 2–4

Q1 Change / Causation DOK 3

In **"When the Giant Stirred,"** show what the island was like BEFORE the eruption, what the mountain DID, and what slowly happened AFTER.

MODEL ANSWER

The Island Before: The island was alive and beautiful. It had white, sandy beaches with coconut palms, leafy green forests with brightly colored butterflies and noisy parrots, and a cool, blue lagoon full of silvery fish. Gentle, smiling people lived in grass-thatched houses and got their food from the beaches, the forest, and the lagoon. They treated the cone-shaped mountain like a god and brought garlands of flowers to please it. **What the Mountain Did:** One day the mountain would not go back to sleep. It rumbled and roared, belched out black smoke, and rained cinders on the village. The chief saw the birds leave and led the people to safety on a new island. Then the volcano erupted, a great tidal wave swept the sea, and the old island became a barren, black rock where not a single living creature had survived. **The Island After:** Slowly, life returned. First little fishes swam back, then strange and wondrous animals and plants. Coconut palms grew, sea turtles returned, and butterflies and parrots came back, until the island was once again green and full of life. **Why pass it on:** This legend shows that all things in nature move in an endless cycle of destruction and renewal. People pass it down to explain the forces of nature and to remember that life can return after a disaster.

KEYWORDS (3)

before = green island, mountain as god

event = volcano erupts, barren rock

after = life slowly returns, a cycle

SCORING NOTES

- Full credit (3): the island before + what the mountain did + life returning after + why the cycle is worth passing on.
- Partial (2): before and event named but no "life returns" idea.
- Minimal (1): only "a volcano erupted" with no before or after.

Q2 Ethics / Values DOK 3

In **"Why the Sky Is Far Away,"** trace THREE steps: how the people acted, the warning they got, and what finally happened.

MODEL ANSWER

Step 1 · At First: Long ago the sky was close to the earth, and the people did not have to work for food. They simply cut away a piece of sky to eat, and it tasted like anything they wished. But over time they stopped appreciating this gift. They took their food for granted, wasted it, and threw what they did not eat onto the garbage heap. **Step 2 · The Warning:** The sky grew angry and dark. A voice boomed above King Oba's palace, warning that if the people kept wasting food, they would have no more of the sky to eat. For a while the people were careful and took only what they needed. **Step 3 · The Result:** At the yearly festival the people grew greedy again, pulled down great quantities of the sky, and threw the leftovers away. The sky boomed that it would no longer give them food: "You will have to work to eat." The sky rose high out of reach, and that is why the sky is now far away. **The lesson, and why pass it on:** The folktale teaches that we must respect the resources we are given and take only what we need, because waste has consequences. People pass it down so each new generation remembers not to be greedy or wasteful.

KEYWORDS (3)

at first = free food, then wasteful | warning = take only what you need | result = sky leaves, must work to eat

SCORING NOTES

- Full credit (3): all three steps (acted → warned → result) + the lesson about waste and why to pass it on.

Q3 Communication / Storytelling DOK 3

In **"Cinder Al and the Stinky Footwear,"** show what is the SAME as Cinderella, what is DIFFERENT, and why a storyteller might make these changes.

MODEL ANSWER

Same as Cinderella: Like the classic Cinderella, this tale has a hero who is teased and not appreciated by family, a royal person who hosts a ball, and a special piece of footwear that must be worn to find the right match. There is also a fairy godmother who helps the hero, and the story ends "happily ever after." **Different in This Version:** Everything is turned into a funny, "stinky" joke. The hero is a clean-loving boy named Cinder Al, not a girl. The ruler is Princess Peeyu, the stinkiest skunk-wrestler in Stinky Hollow, and she is looking for a stinky partner. The magical footwear is not a glass slipper but a pair of horribly smelly shoes. Al wins not by fitting the shoe but by cleaning it until it smells like roses, with help from his Fragrant Fairy Godmother. **Why a storyteller makes these changes:** A storyteller puts a new, humorous spin on a familiar tale so it feels fresh and fun. Changing the details keeps an old story alive and lets each generation enjoy it in a new way. **Why pass it on:** Retelling shows how stories grow and change as they are shared, while the heart of the tale stays the same.

KEYWORDS (3)

same = teased hero, ball, special shoe

different = stinky joke, Al, clean the shoe

why = new spin keeps a tale alive

SCORING NOTES

- Full credit (3): what is the same + what is different + why a storyteller makes such changes.
- Partial (2): same and different named but no "why retell" idea.
- Minimal (1): only "it is like Cinderella" with no details.

Step 2 · The twist.

Step 3 · Why-retell sentence.

강사: *"Finish: 'A storyteller changes an old tale so that ____.'"*

코멘트. 문장 완성 — '이야기꾼은 옛이야기를 ____하도록 바꾼다.'

STUDENT PROMPTS

Q4 Culture / Heritage DOK 3

Compare HOW **"Why the Sky Is Far Away"** (Nigeria) and **"Compay Mono and Comay Jicotea"** (Cuba) each teach a lesson through their characters.

MODEL ANSWER

Why the Sky Is Far Away · Nigeria: This Nigerian folktale teaches its lesson through the people and the personified sky. The people are given food freely by the sky, but they become greedy and wasteful. After warnings, the angry sky rises far away and makes them work for food. The lesson is to respect the resources you are given and take only what you need. **Compay Mono and Comay Jicotea · Cuba:** This Cuban trickster folktale teaches its lesson through two animal characters, the monkey and the turtle. The turtle pretends to be a good friend while stealing the monkey's crops; the monkey traps her, but she out-tricks him to escape into the river. The lesson is that if you try to trick others you might get tricked yourself, and it is not wise to steal and lie. **What both folktales show:** Even though one comes from Nigeria and one from Cuba, both use a story with characters to teach people how to behave. Folktales carry the beliefs and values of a culture, and each culture passes its tales down so children learn its lessons. **So:** Different cultures around the world use the same powerful tool — storytelling — to share what they believe is right.

KEYWORDS (3)

Nigeria = don't waste, take only what you need

Cuba = trick others, get tricked yourself

both: tales teach a culture's values

SCORING NOTES

- Full credit (3): the lesson EACH folktale teaches (Nigeria / Cuba) + how both use stories to pass on a culture's values.
- Partial (2): both described but only one lesson named.
- Minimal (1): only "both are folktales" with no comparison.

TEACHING STEPS

Step 1 · T-chart.

강사: *"Make a T-chart: Nigeria tale / Cuba tale. What lesson does each teach?"*

코멘트. T-차트 — 나이지리아 이야기 / 쿠바 이야기. 각자 어떤 교훈을 주나?

Step 3 · Both-tales sentence.

강사: *"Finish: 'Both cultures use a story to teach ____.'"*

코멘트. 문장 완성 — '두 문화 모두 이야기로 ____을 가르친다.'

ADVANCED Add When the Giant Stirred as a third culture's tale and its lesson.
When the Giant Stirred를 셋째 문화의 이야기로 추가하고 교훈 적기.

COMMON MISCONCEPTIONS

PITFALL "Only one of them teaches a lesson." Both folktales teach a clear lesson.
둘 중 하나만 교훈을 주는 게 아님 — 두 민담 모두 분명한 교훈을 줌.

PITFALL "Tales from different countries cannot be alike." They differ in story but share the same job: teaching values.

Q5 Culture / Storytelling DOK 4

Essential Question: Why is it important to pass stories down to the next generation? Use ideas from TWO of the selections in this module to answer.

MODEL ANSWER

It is important to pass stories down because they teach lessons, explain the world, share a culture, and bring people together. In **"Why the Sky Is Far Away,"** the Nigerian folktale teaches that we must respect the resources we are given and take only what we need; when the people wasted the sky's gift, the angry sky rose far away and they had to work for food. Passing this story on reminds each new generation not to be greedy. In **"When the Giant Stirred,"** the legend explains a volcanic eruption and shows that nature moves in an endless cycle of destruction and renewal. People pass it on to explain the forces of nature and to remember that life can return after a disaster. **My Big Idea:** We pass stories down so that the lessons, history, and beliefs of the people who came before us are not lost. As Anne Sullivan said, "Language grows out of life, out of its needs and experiences" — and every time we share a story, we keep it, and what it teaches, alive for the next generation.

KEYWORDS (3)

Sky Is Far Away = teaches not to waste

When the Giant Stirred = explains nature's cycle

Big Idea: stories keep lessons alive

SCORING NOTES

- Full credit (4): two selections named + what each shows about why we share stories + WHY it matters + a Big Idea answering the EQ.
- Partial (3): two selections + ideas + Big Idea weak.
- Developing (2): one selection only.
- Minimal (1): generic ("stories are fun") without naming a selection.

SYNTHESIS FRAME

SELECTION 1 IDEA	CONNECTING WORD	SELECTION 2 IDEA
Name why the story is worth passing on: When the Giant Stirred = explains nature's cycle; Why the Sky Is Far Away = teaches not to waste; Cinder Al = retelling keeps a tale alive and fun; Compay Mono = warns that tricksters get tricked.	BOTH / AND — joins two reasons we pass stories down (to teach a lesson AND to explain the world, or to share a culture AND to entertain) into one Big Idea answering the EQ.	A reason from a DIFFERENT selection than Selection 1 — so the two show two reasons stories are worth passing on.

REAL-WORLD CONNECTION

KOREA 우리에게도 대대로 전해지는 이야기가 있다 — 흥부와 놀부, 해와 달이 된 오누이처럼 교훈과 지혜를 담은 옛이야기. 할머니·할아버지가 들려준 이야기를 우리가 다시 아이들에게 전하며 그 가르침을 살아 있게 한다.

집안이나 우리 문화에서 '전해 내려온 이야기'를 떠올리기.

PERSONAL What is a story your family tells again and again? Why is it worth sharing?

너의 가족이 자꾸 들려주는 이야기는 무엇이고, 왜 나눌 가치가 있니?

RUBRIC

LEVEL	WHAT IT LOOKS LIKE
Exceeding (4)	Names 2 selections + why each is worth passing on (teach, explain, share a culture, entertain) + WHY it matters + a Big Idea answering the EQ.
Meeting (3)	Names 2 selections + why each is worth passing on + a Big Idea.
Approaching (2)	Names 2 selections but only retells the plot — no reason for sharing named.
Beginning (1)	Generic ("stories are fun") without text evidence.

> **Watch out:** Many G3 students will just retell what happened (the sky went away; the island erupted) and stop. Push them to name WHY a story is worth passing down — to teach a lesson, to explain the world, to share a culture, or to entertain — and to say why that matters. The full EQ asks WHY IT IS IMPORTANT to pass stories down, not just what happens in the story.

TEACHING STEPS

Step 1 · Two selection cards.

강사: *"Pick 2 selections. For each, write why it is worth passing down."*

코멘트. 선택지 둘 — 각자 왜 전해 줄 가치가 있는지 적기.

Step 2 · Why it matters.

강사: *"Under each, write WHY that reason matters for the next generation."*

코멘트. 각각 아래 — 그 이유가 다음 세대에 왜 중요한지.

Step 3 · Big Idea sentence.

강사: *"Write one sentence answering the EQ. Use both selections."*

코멘트. EQ에 답하는 한 문장 — 두 선택지 모두 사용.

STUDENT PROMPTS

- "What would be lost if a story were never told again?"
  어떤 이야기가 다시는 전해지지 않는다면 무엇을 잃게 될까?
- "Which tale in this module stuck with YOU the most?"
  이 모듈의 이야기 중 너에게 가장 남은 것은?
- "Why might a lesson be easier to remember inside a story?"
  교훈이 이야기 속에 있을 때 왜 더 기억하기 쉬울까?

DIFFERENTIATION

STRUGGLING Sentence frame: "In ____, the story teaches ____. In ____, the story explains ____. We should pass these stories down because ____."

3단 문장 골격.

ADVANCED Use THREE selections and sort them by why we share them (teach a lesson / explain the world / retell for fun).

선택지 셋 사용 — 나누는 이유별 분류(교훈·세계 설명·재미).

COMMON MISCONCEPTIONS

PITFALL "We share stories only to have fun." Entertainment is one reason, but stories also teach, explain, and pass on a culture.

이야기를 재미로만 나누는 게 아님 — 가르치고, 설명하고, 문화를 전하기도 함.

PITFALL "Retelling the plot answers the EQ." The EQ asks WHY we pass stories down, not just what happens.

줄거리 요약은 EQ 답이 아님 — '왜 전하는지'를 물음.

LEARNER PROFILE LINK

THINKERS Synthesizing two tales into one Big Idea about storytelling is the heart of critical thinking.

두 이야기를 한 Big Idea로 종합 — Thinker.

COMMUNICATORS Explaining why stories should be shared shows you value communication.

이야기를 나눠야 하는 이유를 설명 — Communicator.
