Module Overview

Essential Question: What makes a character interesting?
Quote: "Be true to yourself. Make each day a masterpiece." — John Wooden
Big Idea Words (4): individuality, unique, feature, personality
Main Stories (workbook 4):

- Marisol McDonald Doesn't Match · Monica Brown (illus. Sara Palacios) · Realistic Fiction
- Judy Moody, Mood Martian · Megan McDonald (illus. Peter H. Reynolds) · Realistic Fiction
- Stink and the Freaky Frog Freakout · Megan McDonald (illus. Peter H. Reynolds) · Realistic Fiction
- Scaredy Squirrel · Mélanie Watt (author & illustrator) · Fantasy

Note. The SoT lists 25 core vocabulary items on Worksheet A (4 Big Idea + 8 Marisol + 4 Judy Moody + 3 Stink + 6 Scaredy Squirrel), in myBook page-order. This G3 Teacher's Guide labels each story's panel "Critical Vocabulary" (the G3 equivalent of myBook "Power Words") — the string "Power Words" does not appear in the source. The 2-word "Words for Using Context Clues" teacher boxes are NOT counted as core vocabulary. "Zach Jumps In!" is the Big-Idea Short Read (no Critical Vocabulary panel) and carries the 4 Big Idea Words; it is excluded from the per-story workbook units. Worksheet E is intentionally omitted — this workbook series uses 4 worksheets (A·B·C·D).

Answer Distribution (77 Multiple-Choice Items)

Verified counts across Worksheets A (25), B (32), and D (20). Worksheet C is open-response IB and not counted in MCQ balance.

A · 20 · B · 19 · C · 19 · D · 19

Balance enforced via choice-order rotation only — correct-answer meanings and option texts are preserved from the Source of Truth. Worksheet B option order was re-shuffled to break a regular A-B-C-D cycle while holding the 8/8/8/8 spread (B: A 8 · B 8 · C 8 · D 8). All 25 SoT vocabulary words covered on Worksheet A in myBook page-order (Big Idea → Marisol → Judy Moody → Stink → Scaredy Squirrel).

Voca Trap Items (Worksheet A)

8 of 25 = 32%, at the 30% target. Trap pattern: polysemy / homograph / near-antonym distractors as flagged below. Distractors built from the natural meaning field of each word — no hallucination.

- Q5 **clash** — polysemy (a loud crashing sound) vs. colors that look wrong together
- Q10 **usual** — near-antonym bait ("never tried before" / "most difficult")
- Q12 **mismatched** — homograph bait ("won in a match" / "lit on fire") vs. do not belong together
- Q16 **snarled** — polysemy (a dog's angry growl) vs. twisted and tangled
- Q19 **protested** — polysemy (marched in a parade / guarded a building) vs. said you disagree
- Q22 **emergency** — near-antonym bait ("slow, calm afternoon") vs. needs quick action
- Q24 **distract** — near-antonym bait ("help them focus harder") vs. pull attention away
- Q25 **drastic** — near-antonym bait ("tiny change no one notices" / "keep the same") vs. very different

Reading Trap Items (Worksheet B)

12 of 32 = 38%, above the 30% target. Trap pattern for Section B: cross-text genre confusion (siblings of one module — three Realistic Fiction + one Fantasy), SoT-anchored point-of-view bait (first vs. third person), and length-balanced correct answers so a longest-option-wins guess fails. Distractors built from SoT only — no hallucination.

- Q5 **Marisol matches** — invented prize / Tato / puppy bait pulled from the wrong beats
- Q7 **genre · realistic fiction** — siblings: fantasy (Scaredy Squirrel), informational, animal-talk
- Q8 **Marisol BIG IDEA** — "everyone should match" inversion; puppy / Tato bait
- Q10 **Antarctica** — literal-country bait vs. the chill-out desk meaning
- Q15 **"She, Judy Moody"** — two-girls / hide-subject / Stink-narrator bait
- Q16 **Judy BIG IDEA** — school-pictures / copy-Jessica / one-day inversion bait
- Q22 **Stink main character** — Judy / Mouse / Webster bait (sibling-text characters)

- Q23 **genre · realistic fiction** — Scaredy-Squirrel fantasy / science-facts / talking-frog bait
- Q24 **Stink BIG IDEA** — quizzes-too-hard / frogs-best-pet / study-alone inversion bait
- Q29 **genre · fantasy** — realistic-fiction sibling / true-facts / real-girl bait
- Q31 **point of view** — first-person / bee-narrator / Marisol-narrator bait
- Q32 **Scaredy BIG IDEA** — stay-safe-never-change / kit-solves-all inversion bait

How the Four Worksheets Build Toward the EQ

This module asks **"What makes a character interesting?"** Each worksheet adds one layer of the answer, so the teacher can move from word knowledge to deep thinking in order:

- **A · Vocabulary** — students first own the words that describe character (individuality, unique, personality) and the words each story uses to show character (clash, moody, venturing, drastic). Without these words, students cannot name what makes a character interesting.
- **B · Reading Comprehension** — students gather evidence from all four stories: Marisol stays herself, Judy works to change her mood, Stink succeeds with help, Scaredy Squirrel turns a fear into a gift. Genre and point-of-view items (RL.3.5 / RL.3.6) prepare the craft thinking that Section C needs.
- **C · IB Critical Thinking** — students synthesize: they reflect on Marisol, take three perspectives on her, trace cause-and-effect in Judy's and Scaredy Squirrel's stories, and finally connect two characters to answer the EQ. The C activities grow straight out of the B evidence.
- **D · MAP Practice** — four NEW passages let students apply the same idea to characters they have never met (a boy who draws, a quiet girl, a barking cat, a boy who keeps trying), so the EQ becomes a transferable lens, not a single-text answer.

Teaching tip. If time is short, the EQ can be reached with Section A (words) + Section C Q5 (synthesis) alone — but Section B supplies the evidence that makes Q5 specific rather than generic.

MAP Mini-Passage Word Counts (Worksheet D)

- Passage 1 · The Boy Who Drew on Everything · **162 words** · Lexile 420–470L · RIT 195–201
- Passage 2 · Mia's Loud Idea · **160 words** · Lexile 480–530L · RIT 202–207
- Passage 3 · The Cat Who Wanted to Bark · **162 words** · Lexile 540–600L · RIT 208–212
- Passage 4 · Theo Tries Again · **161 words** · Lexile 610–680L · RIT 213–215

All four passages within target band 120–200 words; RIT 195→215; Lexile 420L–680L. Each passage models a different facet of the EQ — a talent that becomes a gift (individuality), a quiet child with a big idea (personality), an animal whose difference proves useful (unique), and a child who keeps trying despite fear (a memorable, interesting character). Passages are NEW — no recall of the four anchor stories.

How Every Item Is Grounded

Every item on this Answer Key traces to the Source-of-Truth JSON for G3 Module 1, built from the Teaching Pal OCR (5018 lines, 48 pages) and verified against the PDF intro spreads. No characters, words, or events outside the Source of Truth were added.

- **Vocabulary (Worksheet A):** all 25 words come from the module's Big Idea Words (4: individuality, unique, feature, personality) and the four "Critical Vocabulary" panels — Marisol 8, Judy Moody 4, Stink 3, Scaredy Squirrel 6. Each meaning is checked against the myBook inline definition, with the OCR line cited on every card. The 2-word "Words for Using Context Clues" teacher boxes are deliberately NOT counted as core vocabulary.
- **Terminology:** this G3 Teacher's Guide labels each panel "Critical Vocabulary," not "Power Words" — the workbook uses that exact label, matching the source.
- **Reading (Worksheet B):** all 32 items use only RL.3 codes (RL.3.1 / .2 / .3 / .5 / .6). The codes RI.3.4, RI.3.7, and RL.3.7 are intentionally not used. No "from-the-text" snippet boxes appear anywhere. Each correct answer is grounded in a cited OCR line; distractors are Source-of-Truth-anchored, never invented.
- **Genre & credits:** Marisol / Judy Moody / Stink = Realistic Fiction; Scaredy Squirrel = Fantasy (the one non-realistic anchor). Monica Brown (illus. Sara Palacios); Megan McDonald (illus. Peter H. Reynolds) for both Judy and Stink; Mélanie Watt as author and illustrator of Scaredy Squirrel.
- **IB (Worksheet C):** the five PYP concepts — Reflection, Perspective, Causation, Causation, Connection — follow the Source-of-Truth ib_concepts mappings. The Essential Question text on Q5 matches the workbook word for word.
- **MAP (Worksheet D):** four NEW passages (162 / 160 / 162 / 161 words), RIT 195→215, Lexile 420L–680L. None recall the four anchor stories; each applies the EQ to a fresh character.
- **Answer balance:** 77 multiple-choice items distribute A 20 / B 19 / C 19 / D 19, achieved by choice-order rotation only — every meaning is preserved from the Source of Truth.

What This Module Does NOT Contain (Guardrails)

- No "Power Words" label — the G3 source says "Critical Vocabulary."
- No Worksheet E — this workbook series uses four worksheets (A · B · C · D).
- No media / fine-art selection — the only video is the "Get Curious" intro (Calamity Jane), which is not a workbook unit.
- "Zach Jumps In!" is the Big-Idea Short Read (no Critical Vocabulary panel) and is excluded from the per-story units; it carries the 4 Big Idea Words instead.
- "Rock, Paper, Scissors" (Stink) is a teacher multiple-meaning note, not a student vocabulary word — it is not on Worksheet A.

Worksheet C — IB Critical Thinking · Answer Key

5 questions · PYP Key Concepts · DOK 2–4

Q1 Reflection DOK 3

In **"Marisol McDonald Doesn't Match,"** reflect on how Marisol's feelings change when she is herself versus when she tries to match.

MODEL ANSWER

When she is herself (doesn't match): Marisol wears green polka dots with purple stripes, eats peanut butter and jelly burritos, speaks Spanish and English, and signs her name in cursive and print. She is happy, dancing, and proud. She thinks her clothes "go great together." **When she tries to match:** Marisol decides one day that she WILL match. But matching makes her feel flat and not like herself. She is not happy. By the end she declares, "I don't match because... I don't want to!" **What she learns:** Marisol learns that being herself — mismatched and "simply marvelous" — is what makes her happy. Trying to be like everyone else made her unhappy. This makes her an interesting character because she knows exactly who she is and chooses it on purpose, even when others tell her she is "wrong."

KEYWORDS (3)

herself = happy, proud | matching = unhappy, flat | chooses to be mismatched

SCORING NOTES

- Full credit (3): both sides described (herself = happy / matching = unhappy) + what Marisol learns.
- Partial (2): both sides but no reflection on what she learns.
- Minimal (1): only "she doesn't match" with no feeling contrast.

TEACHING STEPS

Step 1 · Two faces.

강사: *"Draw two faces — Marisol being herself / Marisol matching. Show the feeling on each."*

코멘트. 얼굴 둘 — 자기다운 Marisol / 맞추려는 Marisol. 각 표정 그리기.

Step 2 · One detail each.

강사: *"Under each face, write ONE thing she does or says."*

코멘트. 각 얼굴 아래에 그녀가 하거나 말한 것 한 가지.

Step 3 · Lesson sentence.

강사: *"Finish: 'Marisol is happiest when she ___.'"*

코멘트. 문장 완성 — Marisol은 ____ 할 때 가장 행복하다.

STUDENT PROMPTS

- "Why does matching make Marisol unhappy?"
  왜 맞추는 것이 Marisol을 불행하게 할까?
- "What is one way YOU are 'mismatched' and proud of it?"
  네가 남들과 다르면서 자랑스러운 점 하나는?

- "Is it brave to be yourself when others say you are wrong? Why?"
  남들이 틀렸다 해도 자기다운 게 용감한 걸까? 왜?

DIFFERENTIATION

STRUGGLING Provide two picture cards (happy Marisol with mixed clothes / plain matching Marisol). Sort and label the feeling.
그림 카드 둘 — 감정 분류·라벨.

ADVANCED Write a short note from Ms. Apple to Marisol that explains why being herself is a gift.
Ms. Apple가 Marisol에게 보내는 짧은 쪽지 쓰기.

COMMON MISCONCEPTIONS

PITFALL "Marisol changes and learns to match." She tries to match and learns the OPPOSITE — that she should stay herself.
맞추기를 배운 게 아님 — 자기다움을 지켜야 한다는 반대 교훈.

PITFALL "Not matching is a problem." For Marisol it is a strength and a joy, not a problem to fix.
안 맞는 것은 문제가 아니라 강점이자 기쁨.

LEARNER PROFILE LINK

REFLECTIVE Marisol thinks about how matching made her feel and chooses to be herself — reflective thinking.
맞췄을 때 느낌을 돌아보고 자기다움을 택함 — Reflective.

PRINCIPLED She stays true to who she is even under pressure.
압박 속에서도 자신에게 진실 — Principled.

KOREAN BRIDGE

표현 "Be true to yourself." → "너 자신에게 진실해라."
John Wooden 인용과 연결되는 핵심 문장.

단어 "mismatched / 안 어울리는 — unique / 유일한 — proud / 자랑스러운"
핵심 단어 영-한.

Q2 Perspective DOK 2

In **"Marisol McDonald Doesn't Match,"** show how the SAME girl looks through THREE pairs of eyes.

MODEL ANSWER

Tato (her cousin): Tato thinks Marisol "doesn't match" — her brown skin and carrot-colored hair don't go together to him. He sees her difference as a problem, something odd. **Ms. Apple (her teacher):** Ms. Apple writes Marisol an encouraging note. She sees Marisol as creative and special, and helps her feel good about who she is. She sees Marisol's difference as a gift. **Marisol herself:** Marisol sees herself as "a creative, unique, bilingual, Peruvian-Scottish-American, soccer-playing artist and simply marvelous." She is proud. She does not want to match. **Who I agree with:** Most students will agree with Marisol and Ms. Apple — the same girl who looks "mismatched" to Tato looks marvelous to herself. Perspective changes what people see, even when the girl is exactly the same.

KEYWORDS (3)

Tato = doesn't match | Ms. Apple = creative, special | Marisol = simply marvelous

SCORING NOTES

- Full credit (3): all three views named with one detail each + the student's own pick with a reason.
- Partial (2): three views but no personal choice.
- Minimal (1): only "people see her differently" with no detail.

TEACHING STEPS

Step 1 · Three pairs of glasses.

강사: *"Draw 3 pairs of glasses — Tato / Ms. Apple / Marisol. Through each, what do they SEE?"*

코멘트. 안경 3개 — Tato · Ms. Apple · Marisol. 각자 무엇을 보는지.

Step 2 · One word each.

강사: *"Under each pair, write ONE word for how that person sees Marisol."*

코멘트. 각 안경 아래 한 단어 — 그 사람이 보는 Marisol.

Step 3 · Star your view.

강사: *"Star the view you agree with. Write why."*

코멘트. 동의하는 시각에 별표 + 이유.

STUDENT PROMPTS

- "How can one girl look so different to three people?"
  한 아이가 세 사람에게 왜 그렇게 다르게 보일까?
- "Whose eyes would YOU want others to use when they look at you?"
  남들이 너를 볼 때 누구의 시선으로 보길 바라니?
- "Does Tato's view make Marisol wrong, or just different from him?"
  Tato의 시선이 Marisol을 틀리게 만드나, 그냥 다를 뿐인가?

DIFFERENTIATION

STRUGGLING Match 3 speech bubbles ("You don't match!" / "You are special." / "I am marvelous!") to the 3 speakers.

말풍선 3개를 3인물과 매칭.

ADVANCED Add a 4th pair of eyes — Marisol's brother. How is his view like Tato's? How is it different?

오빠의 시선 추가 — Tato와 같고 다른 점.

COMMON MISCONCEPTIONS

PITFALL "Tato is mean." Tato is not cruel — he simply sees difference as a problem. Perspective, not meanness.

Tato는 못된 게 아님 — 다름을 문제로 볼 뿐. 관점의 차이.

PITFALL "Only one view can be right." Each person's view is real to them; the reader weighs them.

한 시각만 옳은 게 아님 — 각자에게 진짜, 독자가 판단.

LEARNER PROFILE LINK

OPEN-MINDED Seeing one girl through three pairs of eyes is open-minded thinking.

한 아이를 세 시선으로 보기 — Open-minded.

Q3 Causation DOK 3

In **"Judy Moody, Mood Martian,"** map the CHAIN of causes that puts Judy in a bad mood and then leads to her plan.

MODEL ANSWER

Cause (what came home): Judy's school pictures came home that day, and she did not like how she looked — like "a one-eyed pirate" and "Sasquatch." **Effect (in class):** Rocky grabbed her Sasquatch picture and passed it to Frank. Judy yelped and jumped up out of her seat instead of doing her math. **Then (Mr. Todd):** Mr. Todd sent her to "Antarctica" — the chill-out desk at the back of the room — for the third time that day. **Finally (her plan):** All this put her in a sourball mood. So Judy had an idea: she would try to be in a good mood for one whole week. **Which cause mattered most:** Most students will say the school pictures, because that one event started the whole chain — without the bad pictures, none of the rest would have happened. One small cause set off a whole bad day, which led to a big plan.

KEYWORDS (3)

cause = school pictures | effect = jumped up, sent to Antarctica | plan = good mood for a week

SCORING NOTES

- Full credit (3): all four links in order + which cause mattered most with a reason.
- Partial (2): the chain is there but the "most important cause" is missing or unexplained.
- Minimal (1): only "Judy was in a bad mood" with no chain.

TEACHING STEPS

Step 1 · Four arrows.

강사: *"Draw 4 boxes joined by arrows. Label them Cause / Effect / Then / Finally."*

코멘트. 화살표로 이은 박스 4개 — 원인 · 결과 · 그다음 · 마지막.

Step 2 · Fill each box.

강사: *"Put one event from the story in each box, in order."*

코멘트. 각 박스에 사건 하나씩, 순서대로.

Step 3 · Circle the first domino.

강사: *"Circle the cause that started it all. Write why it mattered most."*

코멘트. 모든 걸 시작한 원인에 동그라미 + 왜 가장 중요한지.

STUDENT PROMPTS

- "What would have happened if the pictures had looked great?"
  사진이 멋지게 나왔다면 어떻게 됐을까?
- "Was going to Antarctica a cause or an effect? Both?"
  Antarctica로 간 건 원인일까 결과일까? 둘 다?
- "Have you ever had one small thing set off a whole bad day?"
  작은 일 하나가 하루를 망친 적 있니?

DIFFERENTIATION

STRUGGLING Give 4 event cards out of order. Have the student put them in the right cause-effect order.

사건 카드 4장 — 순서대로 배열.

ADVANCED Draw a "good chain" — what small good cause could have started a GOOD day for Judy?

좋은 사슬 — 어떤 작은 원인이 좋은 하루를 시작했을까?

COMMON MISCONCEPTIONS

PITFALL "Mr. Todd caused the bad mood." Mr. Todd is part of the chain, but the pictures started it. Order matters.

Mr. Todd가 원인이 아님 — 사진이 시작. 순서가 중요.

PITFALL "Antarctica is a real place she visited." It is the nickname for the chill-out desk.

Antarctica는 실제 장소가 아니라 '진정 책상'의 별명.

LEARNER PROFILE LINK

THINKERS Tracing how one event leads to the next is cause-and-effect thinking.

Q4 Causation DOK 3

In **"Scaredy Squirrel,"** trace THREE steps that turn a scared squirrel into a brave one.

MODEL ANSWER

Step 1 · The Bee: A killer bee appears. Scaredy Squirrel jumps in panic, knocking his emergency kit out of the tree. This was NOT part of the Plan — and now he is falling. **Step 2 · The Fall:** As he falls, something incredible happens. He starts to glide. He discovers he is no ordinary squirrel — he is a FLYING squirrel. The very thing he was afraid of (leaving the tree) shows him a gift he never knew he had. **Step 3 · The Change:** All this excitement inspires Scaredy Squirrel to make DRASTIC changes. He writes a new daily routine that now includes "jump into the unknown," "play dead," and "return home." He has gone from never leaving his tree to planning to leap from it. **Which step matters most:** Most students will say Step 2 (the Fall), because discovering he can fly is what changes everything — it turns his biggest fear into his biggest strength.

KEYWORDS (3)

bee = panic, jump | fall = discovers he can fly | change = new brave routine

SCORING NOTES

- Full credit (3): three steps named with one detail each + which step matters most and why.
- Partial (2): three steps but no reflection on the most important one.
- Minimal (1): only "he learns to fly" with no chain.

TEACHING STEPS

Step 1 · Three frames.

강사: *"Draw 3 comic frames — Bee / Fall / Change. Draw what happens in each."*

코멘트. 만화 3컷 — 벌·낙하·변화. 각 칸에 그림.

Step 2 · Feeling line.

강사: *"Under each frame, write how Scaredy Squirrel feels — scared, surprised, brave."*

코멘트. 각 칸 아래 감정 — 무서움·놀람·용감.

Step 3 · Turning point.

강사: *"Star the frame where everything changes. Write why."*

코멘트. 모든 게 바뀌는 칸에 별표 + 이유.

STUDENT PROMPTS

- "Would Scaredy Squirrel have learned he could fly if he never left the tree?"
  나무를 안 떠났다면 날 수 있다는 걸 알았을까?
- "How can a scary moment turn into a good thing?"
  무서운 순간이 어떻게 좋은 일로 바뀔까?
- "What is one thing YOU were scared of that turned out fine?"
  무서웠지만 결국 괜찮았던 일 하나는?

DIFFERENTIATION

STRUGGLING Provide 3 picture cards (bee / gliding / new list). Put them in order and tell the story aloud.

그림 카드 3장 — 순서 배열 후 말로 이야기.

ADVANCED Write Scaredy Squirrel's NEW daily routine in 4 steps, mixing safe habits with one brave new one.

새 하루 일과 4단계 — 안전 습관 + 용감한 새 행동.

COMMON MISCONCEPTIONS

PITFALL "Scaredy Squirrel planned to jump." He did NOT — the bee made him jump by accident. The change was a surprise.

계획한 게 아님 — 벌 때문에 우연히 뜀. 변화는 뜻밖.

PITFALL "He stops being careful." He still keeps safe habits — he just ADDS bravery. Change can mean adding, not erasing.

조심성을 버린 게 아님 — 용기를 더한 것. 변화는 더하기일 수도.

LEARNER PROFILE LINK

RISK-TAKERS Leaping into the unknown — and finding he can fly — is the courage of a risk-taker.

미지로 뛰어들어 날기를 발견 — Risk-taker의 용기.

REFLECTIVE Scaredy Squirrel rethinks his whole routine after his discovery.

발견 후 일과 전체를 다시 생각 — Reflective.

Q5 Connection DOK 4

Essential Question: What makes a character interesting? Use ideas from TWO of the characters in this module to answer.

MODEL ANSWER

A character is interesting when they are TRUE to themselves and when they CHANGE or grow in some way. In **"Marisol McDonald Doesn't Match"** by Monica Brown, Marisol is interesting because she is proudly herself — she wears mismatched clothes, speaks two languages, and eats peanut butter and jelly burritos. When she tries to match, she is unhappy, so she chooses to stay "simply marvelous." She knows exactly who she is. In **"Scaredy Squirrel"** by Mélanie Watt, Scaredy Squirrel is interesting because he CHANGES. He starts out too afraid to leave his tree, but after a bee makes him jump, he discovers he can fly. He turns his biggest fear into his biggest strength and makes a brave new routine. **My Big Idea:** A character grabs us when they show us who they really are — like Marisol — or when they grow into someone braver — like Scaredy Squirrel. The most interesting characters do not stay flat; they have a strong self, or they change. That is exactly what John Wooden meant: "Be true to yourself. Make each day a masterpiece."

KEYWORDS (3)

true to yourself (Marisol) | grows / changes (Scaredy Squirrel) | not flat — a strong self

SCORING NOTES

- Full credit (4): two characters named + evidence from each + a Big Idea that names what makes a character interesting (strong self OR change) + link to the EQ/quote.
- Partial (3): two characters + evidence + Big Idea weak.
- Developing (2): one character only.
- Minimal (1): generic ("characters are fun") without text evidence.

SYNTHESIS FRAME

CHARACTER 1 EVIDENCE

One detail: Marisol stays herself; Judy works to change her mood; Stink learns the frog sounds with help; Scaredy Squirrel discovers he can fly.

CONNECTING WORD

AND / BUT / SO — joins "true to self" and "grows/changes" into one Big Idea about interesting characters.

CHARACTER 2 EVIDENCE

One detail from a different story than Character 1 — so the two characters show two ways of being interesting.

PERSONAL Think of a real person you find interesting. Are they interesting because they are TRUE to themselves, or because they CHANGED and grew?

내가 흥미롭게 느끼는 실제 인물 — 나다움 때문인가, 성장 때문인가?

RUBRIC

LEVEL	WHAT IT LOOKS LIKE
Exceeding (4)	Names 2 characters + evidence from each + Big Idea naming BOTH a "true-to-self" and a "change/grow" way of being interesting + links to Wooden's quote.
Meeting (3)	Names 2 characters + what makes each interesting + a Big Idea.
Approaching (2)	Names 2 characters but only "they are interesting" — no specific evidence.
Beginning (1)	Generic ("characters are fun") without text evidence.

Watch out: Many G3 students will only retell what a character DID and stop. Push them to name WHY it makes the character interesting — a strong sense of self (Marisol) or real growth (Scaredy Squirrel, Judy, Stink). The full EQ needs the "why," not just the "what."

TEACHING STEPS

Step 1 · Two character cards.

강사: *"Pick 2 characters. For each, write ONE thing they do that makes them interesting."*

코멘트. 인물 둘 선택 — 각자 흥미로운 행동 한 가지.

Step 2 · True-self or change?

강사: *"Label each: is this character interesting because they are TRUE to themselves, or because they CHANGE?"*

코멘트. 각 인물 분류 — 나다움 때문? 변화 때문?

Step 3 · Big Idea sentence.

강사: *"Write one sentence answering 'What makes a character interesting?' Use both your characters."*

코멘트. '무엇이 인물을 흥미롭게 하나?' 한 문장 — 두 인물 모두 사용.

STUDENT PROMPTS

- "Is a character more interesting when they stay the same or when they change?"
  인물은 그대로일 때 흥미로운가, 변할 때 흥미로운가?
- "Which character in this module is MOST like you? Why?"
  이 모듈 인물 중 너와 가장 닮은 인물은? 왜?

3단 문장 골격.

ADVANCED Use THREE characters instead of two, and sort them into "true-to-self" and "grows/changes."

인물 셋 사용 — 나다움 / 성장으로 분류.

COMMON MISCONCEPTIONS

PITFALL "Interesting just means funny." Judy and Scaredy can be funny, but they are interesting because of who they are and how they grow.

'흥미로움'은 웃긴 게 다가 아님 — 정체성과 성장 때문.

PITFALL "Retelling the plot answers the EQ." The EQ asks WHY a character is interesting, not just what happened.

줄거리 요약은 EQ 답이 아님 — '왜 흥미로운가'를 물음.

LEARNER PROFILE LINK
