Passage 1 · The Liberty Bell

In the city of Philadelphia hangs a famous old bell. It is called the Liberty Bell. Long ago, the bell rang to call people together for important news. It rang for meetings and for special days. The bell is large and made of metal. Across the top are written the words "Proclaim Liberty." Liberty is another word for freedom. One day, after many years of ringing, a crack appeared in the side of the bell. The crack grew longer, and the bell could no longer ring. Today the Liberty Bell does not make a sound. But people still come from all over to see it. They look at the crack and read the word "Liberty." The bell reminds them of the freedom that Americans share. A bell that can no longer ring still has a strong voice. It speaks of liberty without making a sound.

Passage 4 · The National Anthem

Every country has a special song called a national anthem. The anthem of the United States is "The Star-Spangled Banner." It is sung before games and on important days. But where did the song come from? More than two hundred years ago, the United States was at war. One night, British ships fired on an American fort for hours. A man named Francis Scott Key watched from a ship far away. He was afraid the fort would fall. All night he waited in the dark. When morning came, Key looked toward the fort. There, in the early light, he saw the American flag still waving. The fort had held. Filled with joy and relief, Key wrote a poem about the flag he saw. Later, his words were set to music. That poem became the national anthem. So when Americans sing "The Star-Spangled Banner," they are remembering a flag that stood firm through a long, dark night.
