Module Overview

Essential Question: How does food move from a farm to your plate?
Quote: "My grandfather used to say that once in your life you need a doctor, a lawyer, a policeman ... but every day, three times a day, you need a farmer." — Brenda Schoepp
Big Idea Words (4): agriculture, reap, nutrition, tilling
Main Selections (workbook 4):

- How Did That Get in My Lunchbox?: The Story of Food · Chris Butterworth (illus. Lucia Gaggiotti) · Informational Text
- Carrots, Farm to Fork · (HMH, no byline) · Media: Educational Video
- How Do You Raise a Raisin? · Pam Muñoz Ryan (illus. Craig Brown) · Informational Text with Poetry
- It's Our Garden: From Seeds to Harvest in a School Garden · George Ancona · Informational Text

Note. The SoT lists 22 core vocabulary items on Worksheet A (4 Big Idea + 6 How Did That Get in My Lunchbox? + 3 Carrots, Farm to Fork + 3 How Do You Raise a Raisin? + 6 It's Our Garden), in myBook appearance order. This G3 Teacher's Guide labels each selection's panel "Critical Vocabulary" — the string "Power Words" does not appear in the source. The teacher "Words for Using ..." strategy boxes are NOT counted as core vocabulary. "Great Ideas from Great Parents!" is the Big-Idea Short Read (no Critical Vocabulary panel) and carries the 4 Big Idea Words; it is excluded from the per-selection workbook units. Worksheet E is intentionally omitted — this workbook series uses 4 worksheets (A·B·C·D). Module 9 DOES include one numbered video selection (Carrots, Farm to Fork), kept separate from the opener intro video "From Corn to Pop."

Answer Distribution (74 Multiple-Choice Items)

Verified counts across Worksheets A (22), B (32), and D (20). Worksheet C is open-response IB and not counted in MCQ balance.

A · 19 · B · 19 · C · 18 · D · 18

These four totals are the count of correct-answer LETTERS (A/B/C/D) across all 74 multiple-choice items — 19 answers are "A", 19 are "B", 18 are "C", 18 are "D" (as even as 74 allows). Balance enforced via choice-order rotation only; correct-answer meanings and option texts are preserved from the Source of Truth. All 22 SoT vocabulary words covered on Worksheet A in myBook appearance order (Big Idea → How Did That Get in My Lunchbox? → Carrots, Farm to Fork → How Do You Raise a Raisin? → It's Our Garden).

Voca Trap Items (Worksheet A)

7 of 22 ≈ 32%, all flagged below. Trap pattern: polysemy / homophone / sound-alike / opposite-meaning baits drawn from the natural meaning field of each word — no hallucination.

- Q6 **dairy** — homophone bait ("diary," a daily book) vs. "a place where milk is prepared or made into products"
- Q8 **tingly** — sound/sense bait ("a small ringing sound" / "bright gold") vs. "stings a little or feels prickly"
- Q12 **prepping** — near-distractor bait ("putting it away to use later," i.e. storage) vs. "preparing it, getting it ready"
- Q16 **shrivel** — opposite-meaning bait ("grow bigger and rounder") vs. "dry out and get smaller and wrinkled"
- Q19 **transplanted** — near-distractor bait ("carried it across the room in a pot") vs. "took it from where it grew and planted it in a new place"
- Q21 **blooming** — opposite/seasonal bait ("leaves turn brown and fall") vs. "flowers are out and open"
- Q22 **kernels** — homophone bait ("colonels," officers who lead an army) vs. "the grains or seeds of plants such as corn or wheat"

Reading Trap Items (Worksheet B)

4 of 32 ≈ 13%, all flagged below. Trap pattern for Section B: MAIN-idea bait (a true detail mistaken for the main idea) and length-balanced correct answers so a longest-option-wins guess fails. Distractors built from SoT only — no hallucination. All four selections are informational (one is a video), so the codes used are RI.3.1 / .2 / .3 / .5 / .6 / .8. **RI.3.4, RI.3.7, RL.3.7, and all RL codes are NOT used**, and there are no "from the text" snippet boxes.

- Q8 **How Did That Get in My Lunchbox? MAIN idea** — "cheese was once milk" / "tomatoes in a tunnel" / "a miller grinds grain" are true details, baited against the real main idea: food does not grow in stores; it travels from farms through many people
- Q16 **Carrots, Farm to Fork MAIN idea** — "1 ton = 1 elephant" / "the farmer is Matthew Martin" / "carrots are washed" bait vs. a lot of the food we eat is grown by local farmers
- Q24 **How Do You Raise a Raisin? MAIN idea** — "grown eight feet apart" / "grow in Turkey and Greece" / "a burly worker shakes a vine" bait vs. raisins are dried grapes, and facts can be made fun through poetry
- Q32 **It's Our Garden MAIN idea** — "Will designed the layout" / "red wriggler worms" / "pizza in an horno" bait vs. a school garden grows food seed-to-harvest and brings the community together

How the Four Worksheets Build Toward the EQ

This module asks **"How does food move from a farm to your plate?"** Each worksheet adds one layer of the answer, so the teacher can move from word knowledge to deep thinking in order:

- **A · Vocabulary** — students first own the four Big Idea Words of farming (agriculture, reap, nutrition, tilling) and the words each selection uses (stalk, dairy, curds, tingly, scarlet, grove, rotation, prepping, storage, vine, burly, shrivel, layout, arbor, transplanted, mulch, blooming, kernels). Without these words, students cannot describe how food is grown and moved.
- **B · Reading Comprehension** — students gather evidence from all four selections: an informational text about a lunchbox, an educational video about carrots, an informational poem about raisins, and an informational photo-essay about a school garden. Structure and purpose items prepare the thinking that Section C needs. All four are informational (RI codes).
- **C · IB Critical Thinking** — students synthesize: they trace one food through a SYSTEM of people, follow the CHANGE from grape to raisin, see the COMMUNITY behind a school garden, CONNECT a video and a text, and finally answer the EQ with two selections. The C activities grow straight out of the B evidence.
- **D · MAP Practice** — four NEW passages let students apply the same idea to foods they have not studied here (honey, a rooftop garden, bread, and a farmers' market), so the EQ becomes a transferable lens about how food moves from a farm to your plate, not a single-text answer.

Teaching tip. If time is short, the EQ can be reached with Section A (words) + Section C Q5 (synthesis) alone — but Section B supplies the evidence that makes Q5 specific rather than generic.

Source-of-Truth Verification

Into Reading · Grade 3 · Module 9 · For Teacher Use

VERIFIED

How Every Item Is Grounded

Every item on this Answer Key traces to the Source-of-Truth JSON for G3 Module 9, built from the Teaching Pal OCR (4,093 lines, 36 pages) and verified against the PDF intro spreads (every Critical Vocabulary panel was read from a high-resolution crop). No characters, words, or events outside the Source of Truth were added.

- **Vocabulary (Worksheet A):** all 22 words come from the module's Big Idea Words (4: agriculture, reap, nutrition, tilling) and the four "Critical Vocabulary" panels — How Did That Get in My Lunchbox? 6, Carrots Farm to Fork 3, How Do You Raise a Raisin? 3, It's Our Garden 6. Each meaning is checked against the myBook inline definition. The teacher "Words for Using ..." strategy boxes are deliberately NOT counted as core vocabulary.
- **Terminology:** this G3 Teacher's Guide labels each panel "Critical Vocabulary," not "Power Words" — the workbook uses that exact label, matching the source.
- **Reading (Worksheet B):** all four selections are informational (one is a video), so the 32 items use only RI.3 codes (RI.3.1 / .2 / .3 / .5 / .6 / .8). Each correct answer is grounded in the Source of Truth; distractors are SoT-anchored, never invented. RI.3.4, RI.3.7, RL.3.7 and all RL codes are not used, and there are no "from the text" snippet boxes.
- **Genre & credits:** How Did That Get in My Lunchbox? = Informational Text (Chris Butterworth, illus. Lucia Gaggiotti); Carrots, Farm to Fork = Media: Educational Video (HMH, no byline); How Do You Raise a Raisin? = Informational Text with Poetry (Pam Muñoz Ryan, illus. Craig Brown); It's Our Garden = Informational Text (George Ancona). One informational + one video + one informational-with-poetry + one photo-essay — never labeled the same.
- **IB (Worksheet C):** the PYP concepts — Systems, Change, Community, Connection — follow the Source-of-Truth farming/science focus of this module. The Essential Question text on Q5 matches the workbook word for word.
- **MAP (Worksheet D):** four NEW passages (152 / 150 / 158 / 155 words), RIT 195→215, Lexile 410L–680L. None recall the four anchor selections; each applies the EQ to a fresh food story.
- **Answer balance:** 74 multiple-choice items distribute as 19 "A" / 19 "B" / 18 "C" / 18 "D" (as even as 74 allows), achieved by choice-order rotation only — every meaning is preserved from the Source of Truth.

MAP Mini-Passage Word Counts (Worksheet D)

- Passage 1 · From Bee to Jar · **152 words** · Lexile 410–460L · RIT 195–201
- Passage 2 · The Garden on the Roof · **150 words** · Lexile 470–530L · RIT 202–207
- Passage 3 · How Bread Is Made · **158 words** · Lexile 540–600L · RIT 208–212
- Passage 4 · The Farmers' Market · **155 words** · Lexile 610–680L · RIT 213–215

Word counts match the workbook passage meta exactly. All four within target band 120–200 words; RIT 195→215; Lexile 410L–680L. Passages are NEW — no recall of the four anchor selections.

What This Module Does NOT Contain (Guardrails)

- No "Power Words" label — the G3 source says "Critical Vocabulary."
- No Worksheet E — this workbook series uses four worksheets (A · B · C · D).
- The module quote IS by a NAMED person, Brenda Schoepp. It is NOT anonymous.
- "Great Ideas from Great Parents!" is the Big-Idea Short Read (an editorial letter, no Critical Vocabulary panel) and is excluded from the per-selection units; it carries the 4 Big Idea Words instead. The in-text "Margareta Flores, Parent" is a fictional letter-writer, not a credited author.
- Module 9 DOES have a numbered video selection — "Carrots, Farm to Fork" (Media: Educational Video) — with its own 3-word Critical Vocabulary panel. It is separate from the module-opener Get Curious intro video "From Corn

to Pop," which is not a body selection.

- Carrots, Farm to Fork has only 3 Critical Vocabulary words (rotation, prepping, storage) and How Do You Raise a Raisin? has only 3 (vine, burly, shrivel) — the smallest panels; they are not padded to 6. Counts are 6/3/3/6 = 18 Critical Vocabulary; Big Idea (4) + Critical (18) = 22 total.
- Matthew Martin is the real farmer interviewed on camera in the Carrots video; he is a video subject, NOT the author/producer (left unverified).
- Performance Task = "Write an Expository Essay." It is not an opinion essay (that is Module 10, "Tell a Tale," which is NOT covered here).

Worksheet A — Vocabulary · Answer Key

22 items · CCSS L.3.4 / L.3.5 / L.3.6

BIG IDEA WORDS

Q1 L.3.6

agriculture

B

Meaning: agriculture is the practice of farming, growing crops, and raising animals. **Source:** SoT Big Idea Word 1 — Vocabulary Card 9.1; highlighted in Great Ideas from Great Parents! *Distractors A/C/D give a store / weather / a tool.*

Q2 L.3.6

reap

A

Meaning: when you reap a crop, you cut and gather what you need from it. **Source:** SoT Big Idea Word 2. *Distractors B/C/D give plant / water / leave alone.*

Q3 L.3.6

nutrition

D

Meaning: nutrition is the process of eating the right kinds of foods to be healthy. **Source:** SoT Big Idea Word 3. *Distractors give a machine / a place to sleep / selling.*

Q4 L.3.5

tilling

C

Meaning: when you are tilling the land, you are preparing the soil for farming and raising crops. **Source:** SoT Big Idea Word 4. *Distractors give picking / carrying water / building a fence.*

CRITICAL VOCABULARY · HOW DID THAT GET IN MY LUNCHBOX?

Q5 L.3.4

stalk

A

Evidence: SoT — "A stalk is the main stem of a plant" (OCR line 691); "a bud grew from each flower stalk." *Distractors give a root / a leaf / a seed.*

Q6 L.3.5 TRAP

dairy

C

Evidence: SoT — "A dairy [is] a place where milk is prepared for drinking or is made into other products, like butter, cream, and cheese" (OCR lines 841–842). **Trap:** A baits the homophone "diary."

Q7 L.3.4

curds

B

Evidence: SoT — "Curds are the lumps that form in milk when it turns sour" (OCR line 891); the cheese maker scooped up the rubbery curds. *Distractors give bread / seeds / straw.*

Q8 L.3.5 TRAP

tingly

D

Evidence: SoT — "Something that feels tingly stings a little or feels prickly" (OCR line 892). **Trap:** A baits the sound of a small bell; C baits a color.

Q9 L.3.4

scarlet

A

Evidence: SoT — "If something is scarlet, it is a bright red color" (OCR lines 1055–1056); ripe, scarlet tomatoes. *Distractors give small / soft / high on a tree.*

Q10 L.3.4

grove

C

Evidence: SoT — "A grove [is] a group of trees that are close to one another" (OCR lines 1320–1321); the clementine grove. *Distractors give a basket / a machine / a road.*

CRITICAL VOCABULARY · CARROTS, FARM TO FORK

Q11 L.3.4

rotation

D

Evidence: SoT — "If things are in rotation, they take turns doing a job or serving a purpose" (OCR line 1775); the farmer plants crops in a rotation. *Distractors give stored / sold / planted once.*

Q12 L.3.5 TRAP

prepping

B

Evidence: SoT — "If you are prepping something, you are preparing it, or getting it ready, for [a use]" (OCR lines 1776–1777). **Trap:** A baits "storage" (put away to use later).

Q13 L.3.4

storage

A

Evidence: SoT — "When something is in storage, it is put away so it can be used later" (OCR line 1778); carrots are kept in storage. *Distractors give thrown out / cut up / replanted.*

CRITICAL VOCABULARY · HOW DO YOU RAISE A RAISIN?

Q14 L.3.4

vine

C

Evidence: SoT — "A vine is a long, thin stem of a plant that grows along the ground or up and around something" (OCR lines 2163–2164); grapes grow on a vine. *Distractors give a hole / a leaf / a basket.*

Q15 L.3.4

burly

D

Evidence: SoT — "Someone who is burly is big and strong" (OCR line 2315); a burly worker shook the grapes from the vine. *Distractors give shy / clever / slow.*

Q16 L.3.5 TRAP

shrivel

B

Evidence: SoT — "When things shrivel, they dry out and get smaller and wrinkled" (OCR lines 2459–2460); grapes shrivel into raisins. **Trap:** C reverses it ("grow bigger and rounder").

CRITICAL VOCABULARY · IT'S OUR GARDEN

Q17 L.3.4

layout

A

Evidence: SoT — "A layout is a drawing or plan that shows where things are or will be" (OCR lines 2908–2909); Will designed the layout. *Distractors give a tool / a seed / a list.*

Q18 L.3.4

arbor

C

Evidence: SoT — "An arbor is a shady passageway made of vines or branches" (OCR line 3000); students enter through an arbor. *Distractors give a pond / dead leaves / a stone fence.*

Q19 L.3.5 TRAP

transplanted

D

Evidence: SoT — "If you transplanted something, you took it from the place it was growing and planted it in a new place" (OCR lines 3102–3104). **Trap:** C baits "carried it across the room in a pot" (moving without replanting).

Q20 L.3.4

mulch

B

Evidence: SoT — "If you put mulch in your garden, you put straw or wood chips around your plants to help protect them" (OCR lines 3190–3191). *Distractors give digging / watering / weeding.*

Q21 L.3.5 TRAP

blooming

A

Evidence: SoT — "When trees or plants are blooming, their flowers are out and open" (OCR lines 3400–3401). **Trap:** B baits the opposite, autumn ("leaves turn brown and fall").

Q22 L.3.5 TRAP

kernels

B

Evidence: SoT — "Kernels are the grains or seeds of plants such as corn or wheat" (OCR line 3628); the corn was husked and the kernels came off. **Trap:** C baits the homophone "colonels."

Worksheet B — Reading Comprehension · Answer Key

32 items · CCSS RI.3.1 / .2 / .3 / .5 / .6 / .8

Selection 1 · How Did That Get in My Lunchbox?

INFORMATIONAL TEXT · 8 ITEMS

Q1 RI.3.2

C

Evidence: the text traces how each lunchbox food travels from a farm through many workers' hands to the plate (SoT theme; OCR lines 583–597, 1444–1457). *Others pick a stray detail.*

Q2 RI.3.1

A

Evidence: "It came from fields and farms, from orchards, from groves, and from dairies" (OCR lines 1444–1450); "food doesn't grow in stores!" (OCR line 597). *Others off-text.*

Q3 RI.3.3

B

Evidence: "A farmer planted seeds... The miller ground the grains into flour... The baker mixed the flour... and baked it" (OCR lines 679–707). *Others off-text.*

Q4 RI.3.3

D

Evidence: "Your cheese was once milk... they added a substance... called rennet... up the rubbery curds... and pressed them into blocks" (OCR lines 833–873). *Others off-text.*

Q5 RI.3.5

B

Text Structure: SoT — the author frames each food as a "How did the ___ get in your lunchbox?" question, then answers with the steps (OCR lines 679–707). *Others off-text.*

Q6 RI.3.3

D

Evidence: the clementines "came from... a grove" and, with the other foods, were brought by "pickers, packers, and truck drivers" to the store (OCR lines 1320–1324, 1450–1457). *Others off-text.*

Q7 RI.3.8

A

Support: "food doesn't grow in stores!"; each food was grown or made on a farm and then "So many people helped bring it to you" (OCR lines 597, 1444–1457). *Others true but off-point.*

Q8 RI.3.2 TRAP

C

Main Idea: food does not grow in stores — it travels from farms, orchards, groves, and dairies through many people before it reaches you (SoT theme; OCR lines 597, 1444–1457). **Trap:** A/B/D are true details, not the main idea.

Selection 2 · Carrots, Farm to Fork

MEDIA: EDUCATIONAL VIDEO · 8 ITEMS

Q9 RI.3.2

B

Evidence: the video follows real farmer Matthew Martin growing and selling carrots from field to fork (SoT theme; OCR lines 1712–1717, 1763–1766). *Others off-topic.*

Q10 RI.3.3

A

Evidence: "First, he prepares the ground and plants the seeds. Then in the fall, he digs up the carrots and washes them" (OCR lines 1712–1717). *Others off-text.*

Q11 RI.3.6

D

Author/Producer Purpose: SoT — the video includes "an interview with a real farmer" so viewers learn the real work of growing food from someone who does it (OCR lines 1763–1766). *Others misread the purpose.*

Q12 RI.3.3

C

Evidence: Matthew Martin "sells them at farmers' markets / to CSA homes" (SoT characters note; OCR line 1851). *Others off-text.*

Q13 RI.3.5

A

Graphic Feature: SoT — the video uses on-screen graphics (e.g. "1 ton = 1 elephant") to make a big amount easy to picture (SoT theme). *Others off-text.*

Q14 RI.3.1

C

Evidence: the narrator says to thank a farmer "because a lot of the food we eat is grown by farmers" (OCR lines 1728–1732). *Others off-text.*

Q15 RI.3.6

B

Media vs. Text: SoT — an educational video has "a narrator [who] explains the topic as images on the screen change," with real people, sound, and music (OCR lines 1636–1650). *Others off-text.*

Q16 RI.3.2 TRAP

D

Main Idea: a lot of the food we eat is grown by local farmers who work hard from field to fork (SoT theme; OCR lines 1728–1732, 1790). **Trap:** A/B/C are stray details.

Selection 3 · How Do You Raise a Raisin?

INFORMATIONAL TEXT WITH POETRY · 8 ITEMS

Q17 RI.3.2

A

Evidence: the dual-genre piece answers, with facts and rhyming poems, the question "How do you raise a raisin?" (SoT theme; OCR lines 2120–2132). *Others off-topic.*

Q18 RI.3.1

C

Evidence: "Raisins are dried grapes" (OCR line 2129). *Others off-text.*

Q19 RI.3.3

D

Evidence: "Farmers start a new crop of raisins by taking 'cuttings' from an older grapevine. These pieces of stem are planted in sand until they sprout" (OCR lines 2174–2179). *Others off-text.*

Q20 RI.3.3

B

Evidence: "Most grapes are turned into raisins the same way they've been for thousands of years: they are left to dry naturally in the sun" (OCR lines 2305–2307). *Others off-text.*

Q21 RI.3.5

D

Text Structure: SoT — each poem stanza asks a fanciful question and the prose answers with facts, making the information memorable (SoT theme; OCR lines 2120–2132). *Others off-text.*

Q22 RI.3.6

A

Author's Purpose: SoT — the author mixes poetry with facts so "real farming facts can be made fun and memorable through poetry" (SoT theme). *Others misread the purpose.*

Q23 RI.3.3

C

Evidence: grapes are "sun-dried for weeks on paper trays, then sorted and packaged" (SoT theme; OCR lines 2323–2327). *Others off-text.*

Q24 RI.3.2 TRAP

A

Main Idea: raisins are dried grapes, and real farming facts can be made fun and memorable through poetry (SoT theme; OCR lines 2129, 2305–2307). **Trap:** B/C/D are stray details.

Selection 4 · It's Our Garden

INFORMATIONAL TEXT · 8 ITEMS

Q25 RI.3.2

D

Evidence: the photo-essay follows a real school garden through the seasons "from seeds to harvest" (SoT theme; OCR lines 2896–2901). *Others off-topic.*

Q26 RI.3.3

B

Evidence: "Mrs. McCarthy, the third-grade teacher, dreamed of having a school garden... They all worked together to make her dream come true" (OCR lines 2896–2901). *Others off-text.*

Q27 RI.3.3

A

Evidence: "The compost is made up of soil, dead plants, and food scraps... red wriggler worms are busy... turning these ingredients into castings" (OCR lines 3006–3009). *Others off-text.*

Q28 RI.3.5

C

Text Structure: SoT — the author presents the garden "in sequential order" by season so readers understand the steps in the process (OCR lines 2776–2784). *Others off-text.*

Q29 RI.3.1

A

Evidence: "a three-sisters garden. Corn is planted together with pinto beans and squash" in "a traditional Native American way" (OCR lines 3537–3540). *Others off-text.*

Q30 RI.3.3

C

Evidence: students choose seeds from catalogs, plant, water, harvest, and put the garden to bed for winter (SoT theme; OCR lines 2993–2998, 3535–3541). *Others off-text.*

Q31 RI.3.8

B

Support: the garden is tended by Mrs. McCarthy, the principal, parents, gardener Miss Sue, and college volunteers Paul, Danielle, Autumn, and Allie (OCR lines 2896–2905). *Others true but off-point.*

Q32 RI.3.2 TRAP

D

Main Idea: a school garden teaches students how food grows from seeds to harvest and brings the whole community together (SoT theme; OCR lines 2896–2901). **Trap:** A/B/C are stray details.

Worksheet C — IB Critical Thinking · Answer Key

5 questions · PYP Key Concepts · DOK 2–4

Q1 Systems DOK 3

In **"How Did That Get in My Lunchbox?,"** pick ONE food and show where it STARTED, the PEOPLE who helped, and how it REACHED the lunchbox.

MODEL ANSWER

Where the Food Started: I will choose the bread in the sandwich. The bread started in a field as tiny seeds. A farmer planted the seeds in the spring, and the grain grew tall through the summer. Food like this does not grow in a store — it grows on a farm. **People Who Helped:** Many people each did one job. The farmer grew and harvested the grain. The miller ground the grains into flour. The baker mixed the flour with water and other things and baked it in a very hot oven. Then packers and truck drivers carried the bread to the store, where it was bought and packed into the lunchbox. **How It Reached You:** After all those steps, the bread finally reached the lunchbox and your plate. **Why it takes a whole system:** One person cannot do every job. It takes a whole system of farms, mills, bakeries, trucks, and stores — and many workers — to move one food from a farm to your plate. That is why the author says, "So many people helped bring it to you."

KEYWORDS (3)

start = a farm, not a store | people = farmer, miller, baker, drivers | system = many steps to one plate

SCORING NOTES

- Full credit (3): where the food started + people who helped + how it reached the lunchbox + why a whole system is needed.
- Partial (2): start and people named but no "system" idea.
- Minimal (1): only "it came from a farm" with no people or steps.

TEACHING STEPS

Step 1 · Three boxes in order.

강사: *"Label three boxes: Start, People, Your Plate. What goes in each?"*

코멘트. 상자 세 칸 — 출발·도와준 사람·내 식탁. 각 칸에 들어갈 내용 적기.

Step 2 · One food, the workers.

강사: *"Pick one food. Underline each worker who touched it."*

코멘트. 음식 하나 고르기 — 그 음식을 거친 일꾼마다 밑줄.

Step 3 · System sentence.

강사: *"Finish: 'It takes many people because ____.'"*

코멘트. 문장 완성 — '여러 사람이 필요한 이유는 ____ 때문이다.'

STUDENT PROMPTS

- "Why does the author say food does not grow in stores?"
  저자는 왜 음식이 가게에서 자라지 않는다고 말할까?
- "What would happen if one worker in the chain stopped?"

이 사슬에서 한 사람이 멈추면 어떻게 될까?

- "What food do YOU eat that took many people to make?"
  네가 먹는 음식 중 여러 사람이 만든 것은 무엇이니?

DIFFERENTIATION

STRUGGLING Put 3 cards (farm / workers / lunchbox) in order.
카드 3장 — 농장·일꾼·도시락 순서 배열.

ADVANCED Compare the bread chain to the cheese chain (cow → dairy → blocks).
빵의 과정을 치즈의 과정(소→낙농장→덩어리)과 비교.

COMMON MISCONCEPTIONS

PITFALL "Food comes from the store." No — the store is the last stop; food starts on a farm.
음식이 가게에서 온다는 건 오해 — 가게는 마지막 단계, 시작은 농장.

PITFALL "One person makes the food." Many workers each do one job.
한 사람이 음식을 다 만드는 게 아님 — 여러 일꾼이 한 가지씩 맡음.

LEARNER PROFILE LINK

INQUIRERS Asking "Where did this really come from?" is true inquiry.
'이게 진짜 어디서 왔을까' 묻기 — Inquirer.

THINKERS Seeing a whole system of steps behind one food is real thinking.
음식 하나 뒤의 전체 시스템을 봄 — Thinker.

KOREAN BRIDGE

표현 "It takes a whole system of people to bring one food to your plate." → "음식 하나가 식탁에 오르려면 사람들의 전체 시스템이 필요하다."
시스템(Systems) 핵심 문장.

단어 "farmer / 농부 — miller / 방앗간 일꾼 — baker / 제빵사 — grove / 과수원"
핵심 단어 영-한.

Q2 Change DOK 3

In **"How Do You Raise a Raisin?,"** trace THREE steps in how a grape changes into a raisin, then explain what makes each step happen.

MODEL ANSWER

Step 1 · On the Vine: A raisin begins as a grape growing on a grapevine. Farmers start the crop by taking "cuttings" from an older grapevine and planting the pieces of stem in sand until they sprout. The grapes ripen on the vine in the sun. **Step 2 · In the Sun:** When the grapes are ripe, workers pick them and lay them on paper trays on the ground between the rows. The hot sun dries the grapes for weeks. As they lose their water, the grapes shrivel — they get smaller and wrinkled. **Step 3 · A Raisin:** After drying, the grape has become a raisin: a dried grape. The raisins are then sorted and packaged. **What makes the grape change:** The change happens because of the sun, the passing of time, and the work of farmers. The sun's heat dries the water out of the grape, time lets it shrivel slowly, and farmers grow, pick, dry, and pack it. Most grapes have been turned into raisins this same way for thousands of years.

KEYWORDS (3)

on the vine = a ripe grape | in the sun = dries and shrivels | a raisin = a dried grape

SCORING NOTES

- Full credit (3): all three steps (vine → sun → raisin) + what makes each step happen (sun, time, farmers).
- Partial (2): three steps named but no cause for the change.
- Minimal (1): only "a grape becomes a raisin" with no steps.

TEACHING STEPS

Step 1 · Three boxes in order.

강사: *"Label three boxes: On the Vine, In the Sun, A Raisin. What goes in each?"*

코멘트. 상자 세 칸 — 덩굴 위·햇볕 속·라이즌. 각 칸 채우기.

Step 2 · The cause of the change.

강사: *"Underline what dries the grape (the sun) and what it does (shrivel)."*

코멘트. 포도를 말리는 것(햇볕)과 그 결과(쪼그라듦)에 밑줄.

Step 3 · Change sentence.

강사: *"Finish: 'A grape becomes a raisin when ____.'"*

코멘트. 문장 완성 — '포도는 ____할 때 라이즌이 된다.'

STUDENT PROMPTS

- "Why does a grape shrivel in the sun?"
  포도는 왜 햇볕에서 쪼그라들까?
- "How long does the drying take?"
  말리는 데 얼마나 걸릴까?
- "What other foods change by drying?"
  말려서 변하는 다른 음식은 무엇이 있을까?

DIFFERENTIATION

STRUGGLING Put 3 picture cards (grape on vine / drying in sun / raisin) in time order.

그림 카드 3장 — 덩굴 포도·햇볕 건조·라이즌 순서 배열.

ADVANCED Explain why the author asks the question in a poem and answers it with facts.

저자가 왜 시로 묻고 사실로 답하는지 설명.

COMMON MISCONCEPTIONS

PITFALL "Raisins are baked or boiled." No — most are dried naturally in the sun.

라이즌이 굽거나 끓인 게 아님 — 대부분 햇볕에 자연 건조.

PITFALL "A raisin is a different fruit." A raisin IS a grape — a dried one.

라이즌이 다른 과일이 아님 — 라이즌은 말린 포도임.

LEARNER PROFILE LINK

KNOWLEDGEABLE Knowing the steps from vine to raisin builds real knowledge.

덩굴에서 라이즌까지의 단계를 앎 — Knowledgeable.

INQUIRERS The poem's playful question models a curious mind.

시의 장난스러운 질문이 호기심을 보여 줌 — Inquirer.

KOREAN BRIDGE

표현 "The sun and time slowly change a fresh grape into a dried raisin." → "햇볕과 시간이 신선한 포도를 천천히 말린 라이즌으로 바꾼다."

변화(Change) 핵심 문장.

단어 "vine / 덩굴 — shrivel / 쪼그라들다 — dry / 말리다 — cutting / 꺾꽂이용 줄기"

핵심 단어 영-한.

Q3 Community DOK 3

In **"It's Our Garden,"** show WHO works in the garden and WHAT they do, then tell why it belongs to the whole community.

MODEL ANSWER

Who Helps in the Garden: Many people help. Mrs. McCarthy, the third-grade teacher, first dreamed of the garden. The principal, the other teachers, and parents helped make it real. The gardener, Miss Sue, cares for the garden every day, and her husband, Will, designed the layout. College students named Paul, Danielle, Autumn, and Allie volunteer to guide the children. And, of course, the students themselves work in it. **What They Do Together:** The students choose seeds from catalogs, plant them, transplant the seedlings, water, add mulch, and pull weeds. They make compost with red wriggler worms, build a bean tepee, and grow a three-sisters garden of corn, beans, and squash. In the fall they harvest the food, and in winter they put the garden to bed. **Why it is "OUR" garden:** The author calls it "OUR" garden because the whole community made it and cares for it together — teachers, parents, volunteers, and children. Working together is also how the food grows well: many hands plant, water, and harvest, and everyone shares what the garden gives.

KEYWORDS (3)

who = teacher, Miss Sue, parents, students

what = plant, tend, harvest together

"our" = the whole community shares it

SCORING NOTES

- Full credit (3): who helps + what they do together + why it belongs to the whole community.
- Partial (2): people and jobs named but no "community" idea.
- Minimal (1): only "students grow plants" with no community.

TEACHING STEPS

Step 1 · Two columns.

강사: *"Make two columns: Who helps / What they do. Fill in both."*

코멘트. 두 칸 — 누가 돕나 / 무엇을 하나. 둘 다 채우기.

Step 2 · The word "Our."

강사: *"Circle the word 'Our' in the title. Who is 'we'?"*

코멘트. 제목의 'Our'에 동그라미 — '우리'는 누구일까?

Step 3 · Community sentence.

강사: *"Finish: 'It is OUR garden because ____.'"*

코멘트. 문장 완성 — '이것은 우리 정원이다. 왜냐하면 ____.'

STUDENT PROMPTS

- "Why did so many people help build the garden?"
  왜 그렇게 많은 사람이 정원을 만드는 걸 도왔을까?
- "How does sharing the work help the food grow?"
  일을 나누는 것이 음식이 자라는 데 어떻게 도움이 될까?
- "What could YOUR class grow together?"

너희 반은 함께 무엇을 기를 수 있을까?

DIFFERENTIATION

STRUGGLING Match 3 cards (Mrs. McCarthy / Miss Sue / students) to a job each does.

카드 3장 — 매카시 선생님·미스 수·학생을 맡은 일과 매칭.

ADVANCED Compare this garden community to the chain of workers in How Did That Get in My Lunchbox?

정원 공동체를 Lunchbox의 일꾼 사슬과 비교.

COMMON MISCONCEPTIONS

PITFALL "Only the gardener works in it." Teachers, parents, volunteers, and students all help.

정원사만 일하는 게 아님 — 교사·부모·자원봉사자·학생 모두 도움.

PITFALL "'Our' means one student's garden." 'Our' means the whole school community.

'우리'가 한 학생의 정원이 아님 — 학교 공동체 전체.

LEARNER PROFILE LINK

CARING Tending a garden for everyone shows care for the community.

모두를 위한 정원을 돌봄 — Caring.

COMMUNICATORS Working together takes sharing plans and jobs.

함께 일하려면 계획과 역할을 나눠야 함 — Communicator.

KOREAN BRIDGE

표현 "A garden grows best when the whole community works together." → "정원은 공동체 전체가 함께 일할 때 가장 잘 자란다."

공동체(Community) 핵심 문장.

단어 "layout / 배치도 — transplant / 옮겨 심다 — mulch / 멀치(덮개) — harvest / 수확하다"

핵심 단어 영-한.

Q4 Connection DOK 3

Compare HOW **Carrots, Farm to Fork** (a video) and **It's Our Garden** (a text) each show food being grown.

MODEL ANSWER

Carrots, Farm to Fork · A Video: This is an educational video. A narrator speaks while real moving pictures show a real carrot farmer, Matthew Martin, at work. We watch him prepare the ground, plant seeds, dig up carrots, and wash them, and we hear sound, music, and graphics like "1 ton = 1 elephant." Because it is a video, we can see and hear the real farm. **It's Our Garden · A Text:** This is a written informational photo-essay with words and photographs. The author tells, season by season, how a real school garden grows food from seeds to harvest, and names the people who help, like Mrs. McCarthy and Miss Sue. Because it is a text, we read the steps and look at still photos. **What both show:** Even though one is a moving video and one is a written photo-essay, both show real people growing real food on a real farm or garden, step by step. **So:** A video and a text can teach the same big idea — that food is grown by hard work, from the ground up — but a video lets you watch and listen, while a text lets you read and look closely.

KEYWORDS (3)

video = narrator, moving pictures, sound

text = words, photos, read the steps

both: real food grown step by step

SCORING NOTES

- Full credit (3): how EACH shows food growing (video vs. text) + the same idea both show about farming.
- Partial (2): both described but only one "growing food" idea.
- Minimal (1): only "both are about food" with no comparison.

TEACHING STEPS

Step 1 · T-chart.

강사: *"Make a T-chart: Video / Text. How does each show food growing?"*

코멘트. T-차트 — 영상 / 글. 각자 음식이 자라는 걸 어떻게 보여 주나?

Step 2 · See/hear or read/look?

강사: *"Mark which one you watch and listen to, and which one you read."*

코멘트. 보고 듣는 쪽과 읽는 쪽 표시.

Step 3 · Same idea sentence.

강사: *"Finish: 'Both the video and the text show that ____.'"*

코멘트. 문장 완성 — '영상과 글 모두 ____임을 보여 준다.'

STUDENT PROMPTS

- "What can a video show that a text cannot?"
  영상이 글로는 못 보여 주는 것은 무엇일까?
- "What can a text show that a video cannot?"
  글이 영상으로는 못 보여 주는 것은 무엇일까?
- "Which one helped YOU understand farming better, and why?"

어느 쪽이 농사를 더 잘 이해하게 했니? 왜?

DIFFERENTIATION

STRUGGLING Match 2 cards ("you watch and listen" / "you read and look") to the right selection.

카드 2장 — '보고 듣기'와 '읽고 보기'를 알맞은 선택지와 매칭.

ADVANCED Add How Did That Get in My Lunchbox? as a third example of "showing where food comes from."

Lunchbox를 '음식의 출처 보여 주기' 셋째 예로 추가.

COMMON MISCONCEPTIONS

PITFALL "Only the video is real." Both show real people and real food — one moves, one is written.

영상만 진짜인 게 아님 — 둘 다 실제 사람·음식, 하나는 움직이고 하나는 글.

PITFALL "A text can't show how food grows." It can, with words and photographs.

글이 음식 자라는 걸 못 보여 준다는 건 오해 — 글과 사진으로 보여 줌.

LEARNER PROFILE LINK

THINKERS Comparing a video and a text for one idea is real thinking.

영상과 글을 하나의 생각으로 비교 — Thinker.

OPEN-MINDED Seeing the same idea in two very different media is open-minded.

아주 다른 두 매체에서 같은 생각을 봄 — Open-minded.

KOREAN BRIDGE

표현 "A video and a text can teach the same idea about farming in different ways." → "영상과 글은 농사에 대한 같은 생각을 서로 다른 방식으로 가르칠 수 있다."

연결(Connection) 핵심 문장.

단어 "video / 영상 — narrator / 해설자 — photo-essay / 사진 에세이 — harvest / 수확"

핵심 단어 영-한.

Q5 Systems / Connection DOK 4

Essential Question: How does food move from a farm to your plate? Use ideas from TWO of the selections in this module to answer.

MODEL ANSWER

Food moves from a farm to your plate through many steps and the work of many people, season after season. In **"How Did That Get in My Lunchbox?,"** each food starts on a farm and travels through many hands — a farmer grows the grain, a miller grinds it, a baker bakes the bread, and packers and truck drivers carry it to the store. Food does not grow in stores. In **"It's Our Garden,"** a whole school community grows food right where they are: students and teachers plant seeds in spring, water and weed all summer, harvest corn, beans, and squash in the fall, and put the garden to bed in winter. **My Big Idea:** Food does not just appear on a plate. It begins with soil, seeds, sun, and seasons, and it moves to us through the hard work of farmers and many other people. Whether it travels a long way through farms, mills, and trucks, or grows in a garden right at school, every meal is the end of a long journey. As Brenda Schoepp said, "every day, three times a day, you need a farmer."

KEYWORDS (3)

Lunchbox = farm → workers → store → you

Garden = seeds → seasons → harvest

Big Idea: soil, seasons, and many hands

SCORING NOTES

- Full credit (4): two selections named + what each shows about how food moves + WHY it matters + a Big Idea answering the EQ.
- Partial (3): two selections + ideas + Big Idea weak.
- Developing (2): one selection only.
- Minimal (1): generic ("food comes from farms") without naming a selection.

SYNTHESIS FRAME

SELECTION 1 IDEA

Name what the selection shows about how food moves: How Did That Get in My Lunchbox? = a farm-to-store chain of many workers; Carrots, Farm to Fork = a real farmer grows and sells food; How Do You Raise a Raisin? = sun and time change a crop; It's Our Garden = a community grows food across the seasons.

CONNECTING WORD

BOTH / AND — joins two ideas about how food moves (a long chain of workers AND a season-by-season garden, or growing AND selling) into one Big Idea answering the EQ.

SELECTION 2 IDEA

An idea from a DIFFERENT selection than Selection 1 — so the two show two parts of how food gets from a farm to your plate.

REAL-WORLD CONNECTION

KOREA 우리 식탁의 음식도 한 곳에서 오지 않는다 — 시골 농부가 기른 쌀과 채소, 트럭으로 시장에 오는 과일, 텃밭에서 직접 기른 상추처럼. 라이즌처럼 햇볕과 시간으로 변하기도 하고, 학교 정원처럼 여럿이 함께 길러 나누기도 한다. 음식이 식탁에 오르기까지의 긴 여정을 떠올려 보자.

'내가 먹은 음식이 어디서 어떻게 왔는지' 한 가지를 추적해 보기.

PERSONAL What is one food you ate today, and where do you think it started?

오늘 먹은 음식 하나는 어디서 시작되었을까?

RUBRIC

LEVEL	WHAT IT LOOKS LIKE
Exceeding (4)	Names 2 selections + what each shows about how food moves (steps, people, seasons) + WHY it matters + a Big Idea answering the EQ.
Meeting (3)	Names 2 selections + what each shows + a Big Idea.
Approaching (2)	Names 2 selections but only retells the plot — no idea about how food moves named.
Beginning (1)	Generic ("food comes from farms") without text evidence.

Watch out: Many G3 students will just retell one fact (bread comes from wheat; the garden grows corn) and stop. Push them to explain HOW food moves — the steps, the people, the seasons, and the work — and to say WHY it matters. The full EQ asks HOW FOOD MOVES from a farm to your plate, not just what one food is.

TEACHING STEPS

Step 1 · Two selection cards.

강사: *"Pick 2 selections. For each, write what it shows about how food moves."*

코멘트. 선택지 둘 — 각자 음식이 어떻게 이동하는지 적기.

Step 2 · Why it matters.

강사: *"Under each, write WHY that idea matters for getting food to your plate."*

코멘트. 각각 아래 — 그 생각이 음식을 식탁에 올리는 데 왜 중요한지.

Step 3 · Big Idea sentence.

강사: *"Write one sentence answering the EQ. Use both selections."*

코멘트. EQ에 답하는 한 문장 — 두 선택지 모두 사용.

STUDENT PROMPTS

- "Does food move the same way for every kind of food?"
  모든 음식이 같은 방식으로 이동할까?
- "Which selection's journey surprised YOU the most?"
  어느 선택지의 여정이 너에게 가장 놀라웠니?
- "Why should we be thankful to farmers?"
  우리는 왜 농부에게 고마워해야 할까?

DIFFERENTIATION

STRUGGLING Sentence frame: "In ____, food moves by ____. In ____, food moves by ____. Both show that food moves from a farm to my plate through ____."

3단 문장 골격.

ADVANCED Use THREE selections and sort them by how food moves (a chain of workers / a real farmer / a season-by-season garden).

선택지 셋 사용 — 이동 방식별 분류(일꾼 사슬·농부·계절 정원).

COMMON MISCONCEPTIONS

PITFALL "Food just comes from the store." Stores are the last stop; food begins with soil, seeds, and farmers.

음식이 그냥 가게에서 온다는 건 오해 — 가게는 마지막, 시작은 흙·씨앗·농부.

PITFALL "Retelling the plot answers the EQ." The EQ asks HOW food moves, not just what one food is.

줄거리 요약은 EQ 답이 아님 — '어떻게 이동하는지'를 물음.

LEARNER PROFILE LINK

THINKERS Synthesizing two selections into one Big Idea about food is the heart of critical thinking.

두 선택지를 한 Big Idea로 종합 — Thinker.

CARING Explaining why we should thank farmers shows you value their work.

농부에게 고마워해야 하는 이유를 설명 — Caring.

KOREAN BRIDGE

표현 "Food moves from a farm to your plate through soil, seasons, and the work of many people." → "음식은 흙과 계절, 그리고 많은 사람의 노력을 거쳐 농장에서 식탁으로 온다."

M9 마무리 문장 — 학생 글쓰기 핵심.

인용 "...every day, three times a day, you need a farmer." — Brenda Schoepp → "...매일, 하루 세 번, 우리에겐 농부가 필요하다."

에피그래프 — 농부의 소중함.

Worksheet D — MAP Practice · Answer Key

20 items · RIT 195 → 215 · Lexile 410L–680L

MAP Mini-Passage Word Counts (Worksheet D)

- Passage 1 · From Bee to Jar · **152 words** · Lexile 410–460L · RIT 195–201
- Passage 2 · The Garden on the Roof · **150 words** · Lexile 470–530L · RIT 202–207
- Passage 3 · How Bread Is Made · **158 words** · Lexile 540–600L · RIT 208–212
- Passage 4 · The Farmers' Market · **155 words** · Lexile 610–680L · RIT 213–215

All four passages within target band 120–200 words; RIT 195→215; Lexile 410L–680L. Word counts match the workbook passage meta exactly. Each passage traces a different food from its source to the table — honey, a rooftop garden, bread, and a farmers' market. Passages are NEW — no recall of the four anchor selections.

PASSAGE 1 · FROM BEE TO JAR

Q1 RIT 195

A

Lexile 410L · Key Detail. "Honey begins with a flower." *Distractors B/C/D name a jar, a store, the bread.*

Q2 RIT 197

B

Lexile 420L · Key Detail. "Bees fly from flower to flower to drink a sweet liquid called nectar." *Trap A/C/D off-text.*

Q3 RIT 199

C

Lexile 440L · Cause & Effect. "The beekeeper wears special clothes so the bees do not sting." *Trap A/B/D off-text.*

Q4 RIT 200

D

Lexile 450L · Vocabulary. To "strain" honey is to pass it through something to take out the bits you do not want — here, the wax. *Trap A/B/C give the wrong picture.*

Q5 RIT 201

B

Lexile 460L · Main Idea. "Honey does not come from a store. It comes from nature and from hard work," traveling from flower to bee to beekeeper to your table. *Trap A/C/D narrow or off-topic.*

PASSAGE 2 · THE GARDEN ON THE ROOF

Q6 RIT 202

B

Lexile 470L · Key Detail. "In a busy city, there was very little open ground for a garden." *Trap A/C/D off-text.*

Q7 RIT 204

D

Lexile 490L · Key Detail. "The students carried up big boxes and filled them with soil. They planted seeds" on the flat, sunny roof. *Trap A/B/C off-text.*

Q8 RIT 205

A

Lexile 500L · Cause & Effect. "The warm sun and the fresh rain helped the plants grow," along with the students' daily watering and weeding. *Trap B/C/D off-text.*

Q9 RIT 206

C

Lexile 510L · Inference. The students "shared it in the lunchroom," so the garden helped the whole school, not just one person. *Trap A/B/D miss it.*

Q10 RIT 207

B

Lexile 530L · Main Idea. "You do not need a big field to grow food"; with a sunny spot, some soil, and a little care, even a city roof can become a garden. *Trap A/C/D narrow or off-topic.*

PASSAGE 3 · HOW BREAD IS MADE

Q11 RIT 208

C

Lexile 540L · Key Detail. "It starts in a field of wheat." *Trap A/B/D name a bakery, a store, a mill.*

Q12 RIT 209

A

Lexile 560L · Sequence. "At the mill, heavy stones or steel rollers crush the grain into a fine powder called flour." *Trap B/C/D off-text.*

Q13 RIT 210

D

Lexile 570L · Cause & Effect. "The yeast makes the dough rise and grow puffy." *Trap A/B/C off-text.*

Q14 RIT 211

B

Lexile 580L · Vocabulary. A "stalk" is the main stem of the plant — what the combine separates the grain from. *Trap A/C/D give the wrong picture.*

Q15 RIT 212

D

Lexile 600L · Main Idea. "From a seed in a field to a loaf on your plate, many steps and many workers help make your daily bread." *Trap A/B/C are single details.*

PASSAGE 4 · THE FARMERS' MARKET

Q16 RIT 213

A

Lexile 610L · Key Detail. "Every Saturday morning, the town square fills with tents and tables. This is the farmers' market." *Trap B/C/D off-text.*

Q17 RIT 214

C

Lexile 630L · Compare & Contrast. "At a market the food is grown nearby and picked only a day or two before," not shipped thousands of miles like at a store. *Trap A/B/D off-text.*

Q18 RIT 214

B

Lexile 650L · Cause & Effect. "Because it is so fresh, it often tastes better and keeps more of its nutrition." *Trap A/C/D off-text.*

Q19 RIT 215

D

Lexile 670L · Inference. "The money they spend goes straight to local farmers, which helps the whole town." *Trap A/B/C miss it.*

Q20 RIT 215

C

Lexile 680L · Main Idea. "Food does not begin on a shelf. It begins with the soil, the seasons, and the hands of a farmer." *Trap A/B/D are single details.*
