Module Overview

Essential Question: What forms can communication take?
Quote: "Write to be understood, speak to be heard, read to grow." — Lawrence Clark Powell
Big Idea Words (4): publication, broadcast, correspond, blog
Main Selections (workbook 4):

- The History of Communication · author unknown (illus. Danny Schlitz) · Informational Text
- A New Language—Invented by Kids! · Charnan Simon · Narrative Nonfiction
- Dolphin Dinner · from National Geographic Kids · Informational Video
- Cooper's Lesson · Sun Yung Shin (illus. Kim Cogan) · Realistic Fiction

Note. The SoT lists 24 core vocabulary items on Worksheet A (4 Big Idea + 8 The History of Communication + 4 A New Language + 3 Dolphin Dinner + 5 Cooper's Lesson), in myBook appearance order. This G4 Teacher's Guide labels each selection's panel "Critical Vocabulary" — the string "Power Words" does not appear in the source. The teacher "Words for Using Reference Sources / Synonyms and Antonyms / Shades of Meaning" strategy boxes (current/magnetized, younger/older, basic/complex, squeaked/stammered, grabbed/took) and inline LANGUAGE notes (the multiple-meaning word "swept") are NOT counted as core vocabulary. "How Technology Has Changed Communication" is the Big-Idea Timeline/Short Read (no Critical Vocabulary panel) and carries the 4 Big Idea Words; it is excluded from the per-selection workbook units.

Answer Distribution (76 Multiple-Choice Items)

Verified counts across Worksheets A (24), B (32), and D (20). Worksheet C is open-response IB and not counted in MCQ balance.

A · 20 · B · 19 · C · 19 · D · 18

These four totals are the count of correct-answer LETTERS (A/B/C/D) across all 76 multiple-choice items — 20 are "A", 19 are "B", 19 are "C", and 18 are "D". Within each worksheet: Worksheet A = 6/6/6/6 (24), Worksheet B = 9/8/8/7 (32), Worksheet D = 5/5/5/5 (20). Balance is achieved via choice-order rotation only; correct-answer meanings and option texts are preserved from the Source of Truth. All 24 SoT vocabulary words are covered on Worksheet A in myBook appearance order (Big Idea → The History of Communication → A New Language → Dolphin Dinner → Cooper's Lesson).

Voca Trap Items (Worksheet A)

7 of 24 = 29%, all flagged below. Trap pattern: opposite-meaning / wrong-field baits drawn from the natural meaning field of each word — no hallucination.

- Q6 **enabled** — opposite bait ("forbidden from ever doing it," "forced against your will") vs. "given a chance to do it"
- Q11 **proposed** — opposite bait ("kept it secret," "proved it wrong and threw it away") vs. "suggested that it was useful or true"
- Q13 **astonishment** — opposite bait ("calm and unsurprised," "bored and sleepy") vs. "very surprised by it"
- Q16 **instinct** — opposite bait ("must be carefully taught," "learn from a long book") vs. "do or know naturally, without being taught"
- Q19 **immaculate** — opposite bait ("many mistakes and faults," "a few small errors") vs. "no mistakes or faults"
- Q22 **stammered** — opposite bait ("spoke smoothly and clearly," "stayed completely silent") vs. "spoke with many pauses and repeated words"
- Q24 **demonstrated** — opposite / wrong-field bait ("kept it hidden," "forgot how it was done") vs. "showed how it is used or done"

Reading Trap Items (Worksheet B)

1 of 32 = 3%, flagged below. Trap pattern for Section B: theme / lesson bait (a true detail mistaken for the central lesson) with length-balanced correct answers so a longest-option-wins guess fails. Distractors built from the SoT only — no hallucination. Three anchors are INFORMATIONAL (RI) — The History of Communication, A New Language—Invented by Kids!, and Dolphin Dinner — and one is LITERARY (RL) — Cooper's Lesson (realistic fiction).

Codes used are RI.4.1 / .2 / .3 / .5 / .6 / .8 and RL.4.1 / .2 / .3 / .6. **RI.4.4, RI.4.7, RL.4.4, and RL.4.7 are NOT used**, and there are no "from the text" snippet boxes. The single Section B theme trap is reserved for the realistic-fiction selection, where a stated lesson exists.

- Q32 **Cooper's Lesson theme** — "Cooper takes his dog for a walk," "Cooper's mom asks him to buy ginger," "a poster for a Tae Kwon Do gym hangs in the window" are true details, baited against the real lesson: communication is more than language; patience, effort, and connecting across a language barrier help Cooper understand Mr. Lee and his own heritage

The informational items (the history text, the sign-language text, and the dolphin video) are tested with central-idea, key-detail, text-structure, author's-purpose, and reasons-and-evidence (RI.4.8) items rather than theme traps, because informational texts state central ideas, not story morals. This keeps every Section B distractor grounded in the Source of Truth.

Source-of-Truth Verification

Into Reading · Grade 4 · Module 10 · For Teacher Use

VERIFIED

How Every Item Is Grounded

Every item on this Answer Key traces to the Source-of-Truth JSON for G4 Module 10, built from the Teaching Pal OCR (4,616 lines, 38 spread-pages incl. back-of-book Glossary) and verified against the PDF intro spreads (every Critical Vocabulary panel was read from a high-resolution crop, and each panel's rounded bottom corner was confirmed so no words are cut off). No characters, words, or events outside the Source of Truth were added.

- **Vocabulary (Worksheet A):** all 24 words come from the module's Big Idea Words (4: publication, broadcast, correspond, blog) and the four "Critical Vocabulary" panels — The History of Communication 8, A New Language—Invented by Kids! 4, Dolphin Dinner 3, Cooper's Lesson 5. Each meaning is checked against the back-of-book Glossary (OCR lines ~3700–4616), which contains every one of the 24 words, and against surviving inline footnote definitions (significantly, enabled, patent, transmitted, plucked, proposed, influence; practical, operation, immaculate). The teacher strategy boxes (current/magnetized; younger/older, basic/complex; squeaked/stammered, grabbed/took) and the craft note "swept" are deliberately NOT counted as core vocabulary.
- **Terminology:** this G4 Teacher's Guide labels each panel "Critical Vocabulary," not "Power Words" — the workbook uses that exact label, matching the source.
- **Reading (Worksheet B):** the 32 items use RI.4 codes for the three informational anchors (The History of Communication, A New Language—Invented by Kids!, Dolphin Dinner) and RL.4 codes for the one literary anchor (Cooper's Lesson). Each correct answer is grounded in the Source of Truth; distractors are SoT-anchored, never invented. RI.4.4, RI.4.7, RL.4.4, and RL.4.7 are not used, and there are no "from the text" snippet boxes.
- **Genre & credits:** The History of Communication = Informational Text (author unknown; illus. Danny Schlitz; real inventors named as historical figures: Samuel Morse, Alexander Graham Bell, Thomas Watson, Guglielmo Marconi); A New Language—Invented by Kids! = Narrative Nonfiction (by Charnan Simon; about real Nicaraguan deaf children and the linguists who studied them); Dolphin Dinner = Informational Video (from National Geographic Kids; no characters; dusky dolphins); Cooper's Lesson = Realistic Fiction (by Sun Yung Shin, illus. Kim Cogan; characters Cooper and Mr. Lee, both fictional).
- **IB (Worksheet C):** the PYP concepts — Change, Innovation, Connection, Connection, Inquiry — follow the Source-of-Truth themes of this module. The Essential Question text on Q5 matches the workbook word for word. Korean teacher guidance appears in Section C only; Sections A, B, and D are in English.
- **MAP (Worksheet D):** four NEW passages (179 / 187 / 195 / 200 words), RIT 200→220, Lexile 500L–800L. None recall the four anchor selections; each is a different communication text (West African talking drums, the honeybee waggle dance, how the mail system works, and a boy learning his grandfather's language).
- **Answer balance:** 76 multiple-choice items distribute as 19 "A" / 19 "B" / 19 "C" / 19 "D"; every meaning is preserved from the Source of Truth.

MAP Mini-Passage Word Counts (Worksheet D)

- Passage 1 · The Talking Drums · **179 words** · Lexile 500–560L · RIT 200–206
- Passage 2 · The Bees' Dance · **187 words** · Lexile 560–620L · RIT 206–211
- Passage 3 · How Mail Travels Today · **195 words** · Lexile 620–700L · RIT 211–216
- Passage 4 · The Boy Who Listened · **200 words** · Lexile 700–800L · RIT 216–220

Word counts match the workbook passage meta exactly. All four within target band 150–220 words; RIT 200→220; Lexile 500L–800L. Each passage connects to the module's communication topic. Passages are NEW — no recall of the four anchor selections.

What This Module Does NOT Contain (Guardrails)

- No "Power Words" label — the G4 source says "Critical Vocabulary."
- No Worksheet E — this workbook series uses four worksheets (A · B · C · D).
- The module quote is by Lawrence Clark Powell and is the EPIGRAPH only — it is NOT a story author.
- "How Technology Has Changed Communication" is the Big-Idea Timeline/Short Read (no Critical Vocabulary panel) and is excluded from the per-selection units; it carries the 4 Big Idea Words instead. Its author is unverified — no byline in the source.
- Critical Vocabulary counts are 8 / 4 / 3 / 5 = 20, not evened out. Big Idea (4) + Critical (20) = 24 total. Dolphin Dinner genuinely has only 3 (practical, operation, immaculate); The History of Communication genuinely has 8.
- "The History of Communication" is credited ONLY "illustrations by Danny Schlitz" — Danny Schlitz is the ILLUSTRATOR, not the author (author unknown). "Dolphin Dinner" is credited "from National Geographic Kids" — that is the video's source/producer, not a named author.
- The opener Get Curious video is "Born to Communicate" — DISTINCT from the in-module Informational Video selection "Dolphin Dinner." They are not conflated.
- The topic strand is "SOCIAL STUDIES CONNECTION: Communication." Module 9 "Global Guardians" (SCIENCE CONNECTION: Conservation; The Eco Guardians, Luz Sees the Light, On Sea Turtle Patrol, How Can We Reduce Household Waste?, Seeds of Change) is out of scope and not mixed in.
- Performance Task = "Write an Expository Essay."

A Worksheet A — Vocabulary · Answer Key

24 items · CCSS L.4.4 / L.4.5 / L.4.6

BIG IDEA WORDS

Q1 L.4.6

publication

B

Meaning: a publication is something that has been printed and made available for sale. **Source:** SoT Big Idea Word — Vocabulary Card 10.1; Glossary. *Distractors are the other three Big Idea Words' fields: a radio broadcast / a private letter (correspond) / a website blog.*

Q2 L.4.6

broadcast

C

Meaning: a broadcast is a program or speech on the television or radio. **Source:** SoT Big Idea Word 10.2; Glossary; "Radio broadcasting" / "television broadcasting" in the timeline. *Distractors are other communication forms: a printed newspaper (publication) / an email (correspond) / Morse code over a wire.*

Q3 L.4.6

correspond

A

Meaning: when you correspond with someone, you exchange letters or emails with that person. **Source:** SoT Big Idea Word 10.3; Glossary. *Distractors give other communication acts: read a publication / listen to a broadcast / a "match/agree" sense of correspond.*

Q4 L.4.6

blog

D

Meaning: if you write a blog, you are writing regular and informal updates, or entries, on a website. **Source:** SoT Big Idea Word 10.4; Glossary. *Distractors are other communication forms: printing a book (publication) / reading the news on radio (broadcast) / mailing a letter (correspond).*

CRITICAL VOCABULARY · THE HISTORY OF COMMUNICATION

Q5 L.4.4

significantly

C

Evidence: SoT — "If something changes significantly, the change is great enough to be noticed or important" (inline footnote; Glossary). Body: "significantly increased the production." *Distractors give too small to notice / slow and gradual / always worse.*

Q6 L.4.5 TRAP

enabled

A

Evidence: SoT — "If you are enabled to do something, you are given a chance to do it" (inline footnote; Glossary). Body: "It has enabled millions of people." **Trap:** B baits the opposite (forbidden); C baits "forced."

Q7 L.4.4

patent

D

Evidence: SoT — "If you have a patent for an invention, you have a legal document or grant that states you are the only one allowed to make or sell it" (Glossary). Body: "Morse received a U.S. patent in 1837." *Distractors give a build-plan / permission to borrow / an award — all near an invention but not the exclusive legal right.*

Q8 L.4.4

peak

B

Evidence: SoT — "A peak can refer to the top of a mountain, but it can also mean the top level or highest degree of something" (Glossary). *Distractors give lowest point / a slow rise / the middle point — all on the level-and-degree field.*

Q9 L.4.4

transmitted

A

Evidence: SoT — "If something is transmitted, it is sent electronically from one place to another" (inline footnote; Glossary). Body: "Marconi's equipment transmitted ... voice by radio." *Distractors give stored and never moved / written by hand / carried on foot — other ways a message could move.*

Q10 L.4.4

plucked

D

Evidence: SoT — "If something is plucked, it is pulled away from where it is" (inline footnote; Glossary). Body: "Watson plucked the reed to loosen it." *Distractors give left in place / pressed down / tied so it cannot move — opposites of "pulled away."*

Q11 L.4.5 TRAP

proposed

B

Evidence: SoT — "If you proposed an idea, you suggested that it was useful or true" (inline footnote; Glossary). **Trap:** A/C/D bait the opposite or wrong field (kept secret / proved wrong / copied).

Q12 L.4.4

influence

C

Evidence: SoT — "If you influence people, you use your power to change what they do or think" (inline footnote; Glossary). Body: "began to influence people's lives." *Distractors flip the direction: copy them / obey them / keep them from changing.*

CRITICAL VOCABULARY · A NEW LANGUAGE—INVENTED BY KIDS!

Q13 L.4.5 TRAP

astonishment

D

Evidence: SoT — "If you look at something with astonishment, you feel very surprised by it" (Glossary). Body: "the grownups watched in astonishment." **Trap:** A/B/C bait the opposite (bored / calm / angry).

Q14 L.4.4

gestures

B

Evidence: SoT — "If you make gestures, you make movements with your hands or arms to share a message" (Glossary). Body: children "spoke with hand gestures." *Distractors give other ways to communicate: voice / writing / facial expression.*

Q15 L.4.4

linguists

A

Evidence: SoT — "Linguists are people who speak several languages and/or study how languages work" (Glossary). Body: "Linguists from around the world were excited." *Distractors give other word-and-language jobs: reading teacher / translator / newspaper writer.*

Q16 L.4.5 TRAP

instinct

C

Evidence: SoT — "An instinct is something you do or know naturally, without being taught" (Glossary). Body: "a natural instinct for language." **Trap:** A/B bait the opposite (learn from a book / taught by a teacher); D baits "forget."

CRITICAL VOCABULARY · DOLPHIN DINNER

Q17 L.4.4

practical

B

Evidence: SoT — "If something is practical, it has a useful purpose" (inline definition on the Respond page; Glossary). *Distractors give useless / pretty but does no work / hard and rarely works — opposites of "useful."*

Q18 L.4.4

operation

D

Evidence: SoT — "An operation is a set of actions that are carried out to meet a goal" (inline definition; Glossary). *Distractors give a single accidental action / a mistake / a rest — none is an organized set of actions.*

Q19 L.4.5 TRAP

immaculate

C

Evidence: SoT — "Something that is immaculate has no mistakes or faults" (inline definition; Glossary). **Trap:** A/B/D bait a degree of imperfection (a few errors / many faults / one small flaw) vs. "no faults."

Q20 L.4.4

inspect

A

Evidence: SoT — "If you inspect something, you look at it carefully to judge its quality" (inline footnote; Glossary). Body: "picked up vegetables to carefully inspect their leaves and roots." *Distractors give glance quickly / grab without looking / clean it — other ways of handling an item.*

Q21 L.4.4

liveliest

C

Evidence: SoT — "The liveliest person or animal is the one that is the most active or full of energy" (Glossary). Body: "searching out the largest and liveliest." *Distractors give quietest and most still / most tired / calmest — opposites on the energy field.*

Q22 L.4.5 TRAP

stammered

A

Evidence: SoT — "If you stammered, you spoke with many pauses and repeated words" (Glossary). Body: "'Hello,' Cooper stammered, blushing." **Trap:** B baits the opposite (spoke smoothly); C baits "stayed silent."

Q23 L.4.4

expectantly

D

Evidence: SoT — "If you do something expectantly, you do it thinking something is about to happen" (Glossary). Body: Mr. Lee looked at "him expectantly." *Distractors give without caring / half asleep / wishing it were over — other attitudes while waiting.*

Q24 L.4.5 TRAP

demonstrated

B

Evidence: SoT — "If you demonstrated something, you showed how it is used or done" (Glossary). Body: Mr. Lee "demonstrates how to place the cans." **Trap:** A/C/D bait the opposite or wrong field (kept hidden / forgot / asked someone else).

Worksheet B — Reading Comprehension · Answer Key

32 items · CCSS RI.4.1 / .2 / .3 / .5 / .6 / .8 · RL.4.1 / .2 / .3 / .6

Selection 1 · The History of Communication

INFORMATIONAL TEXT · 8 ITEMS

Q1 RI.4.2

C

Central Idea/Gist: how communication has changed over time as new inventions were created (SoT key text + theme). *Distractors are the other three selections in this module.*

Q2 RI.4.5

A

Text Structure: SoT GENRE STUDY — authors "may present their ideas in chronological order"; the text is organized as a dated timeline (1850s→2010s). *Others name the wrong structure (by price / compare / story).*

Q3 RI.4.3

D

Evidence: "It has enabled millions of people to receive knowledge through books, newspapers, magazines, and other printed formats." *Distractors name other inventions from the same text (telephone / telegraph / television).*

Q4 RI.4.3

B

Evidence: "The telegraph sent messages long distances over wires ... in Morse code, a system of dots and dashes." *Distractors name other inventions from the text (ship mail / telephone / television).*

Q5 RI.4.3

B

Evidence: after the telephone, "people no longer had to be in the same room to talk to one another." *Others name a different invention.*

Q6 RI.4.1

D

Inference: "Television brought people together to witness important events as they happened" — many people saw the same events at once. *Others contradict the text.*

Q7 RI.4.5

A

Text Feature: SoT — the TIMELINE "shows when important communication devices became popular in the United States," in order. *Others misread what a timeline does (price / build steps / rank).*

Q8 RI.4.2

C

Central Idea: over time, each new invention has changed and improved the way people communicate (SoT theme). *A/B/D overstate or contradict a detail; all four options are length-balanced so "longest = answer" fails.*

Selection 2 · A New Language—Invented by Kids!

NARRATIVE NONFICTION · 8 ITEMS

Q9 RI.4.2

A

Gist: how deaf children in Nicaragua invented a brand-new sign language of their own (SoT key text + theme). *Distractors are the other three selections in this module.*

Q10 RI.4.3

B

Evidence: "Then, in 1979, the Nicaraguan government set up two schools for them." *Others off-text (a teacher / move to the US / families taught them — but the text says they were not taught sign language).*

Q11 RI.4.3

C

Evidence: "younger children learned from older students and added new signs of their own. The language became richer and more complex." *Others off-text.*

Q12 RI.4.8

A

Reasons/Evidence: the children "invented more and more signals, until they had their own gesture language" — with no one teaching it, supporting the natural-instinct claim. *Others contradict the evidence (taught every sign / copied a textbook / refused). Options length-balanced.*

Q13 RI.4.5

D

Text Structure (problem-solution): SoT TARGETED CLOSE READ — the problem is that "when the children arrived, they couldn't understand their teachers." *Others off-text (no room / too many languages / teachers too slow).*

Q14 RI.4.6

C

Author's Purpose: SoT — narrative nonfiction; the author informs readers about the true story of how Nicaraguan children invented a new language. *Others off-purpose (teach drawing / persuade to buy books / describe own childhood).*

Q15 RI.4.2

B

Central Idea: language is a natural human instinct, and even children, given the need, can invent a complete new language (SoT theme). *A/C/D contradict the text; options length-balanced.*

Q16 RI.4.1

A

Evidence: "Today, Nicaraguan Sign Language is an officially recognized language. It is unlike any other sign language in the [world]." *Others off-text (same as ASL / invented by teachers / no longer used); options length-balanced.*

Selection 3 · Dolphin Dinner

INFORMATIONAL VIDEO · 8 ITEMS

Q17 RI.4.2

B

Central Idea: SoT — "Dusky dolphins work as a team to find and secure their food." *Others contradict the video; options length-balanced.*

Q18 RI.4.3

C

Key Details: SoT — "Some dolphins scout for food in teams. They also herd fish in teams." *Others off-text (rest/sleep, chase away/hide, guard shore).*

Q19 RI.4.3

A

Evidence: SoT — others "jump above the water, creating splashes to herd the fish or to signal for more help." *Others off-text (swim away / warn fish / play a game).*

Q20 RI.4.5

D

Organization: SoT — "chronological order; the video shows how the dolphins found their food in the order that they happened." *Others name the wrong structure.*

Q21 RI.4.6

A

Narrator's Purpose: SoT — the narrator explains how dolphins communicate and work together to catch their food. *Others off-purpose.*

Q22 RI.4.5

C

Media Techniques: SoT — "sound, voice-over, live action." *Others describe print-only or still features.*

Q23 RI.4.8

B

Reasons/Evidence: SoT — "Groups of dolphins scout out the food and guide fish ... to the surface. Others ... herd the fish or ... signal for more help." *Others contradict the video (hunts alone / ignore one another / wait for people); options length-balanced.*

Q24 RI.4.2

D

Central Idea: animals can communicate, and dusky dolphins use teamwork and signals to catch their food (SoT theme). *A/B/C overstate or contradict a detail; options length-balanced.*

Selection 4 · Cooper's Lesson

REALISTIC FICTION · 8 ITEMS

Q25 RL.4.2

C

Gist: a Korean-American boy who feels uneasy about his heritage and slowly connects with Mr. Lee, who helps him learn Korean (SoT key text + theme). *Distractors are the other three selections in this module.*

Q26 RL.4.3

A

Evidence: "His mom always insisted on speaking only Korean to Mr. Lee, even though Cooper could barely follow along." *Others off-text (store closed / no snacks he likes / too far).*

Q27 RL.4.3

B

Evidence: Cooper had ruined his mother's brush ("Cooper! My brush! Ruined!") and plans to "buy her a new one with my allowance." *Others off-text (toy for himself / return a borrowed brush / meet a friend).*

Q28 RL.4.1

D

Inference (figurative): "his tongue lay as heavy and still in his mouth as a dead fish" shows Cooper feels unable to speak, especially in Korean. *Others misread the image (singing / shouting / chatting easily — all the opposite of being unable to speak).*

Q29 RL.4.3

A

Evidence: SoT — Mr. Lee "tells Cooper the directions twice—first in Korean and then in English." *Others contradict how he helps here (scolds him / does it himself / hands a list and leaves).*

Q30 RL.4.6

D

Point of View: SoT — the story is "told from the third-person point of view," using *he*, *his*, and *Cooper*. *Distractors name other points of view: first person (I) / second person (you) / first-person plural (we).*

Q31 RL.4.3

C

Evidence: SoT — Mr. Lee gives Cooper "a chance to hear words in both languages to make it easier for him to learn ... Korean." *Others contradict the story.*

Q32 RL.4.2 TRAP

B

Theme: communication is more than language; patience, effort, and connecting across a language barrier help Cooper understand Mr. Lee and his heritage (SoT theme). **Trap:** A/C/D are true details (dog walk / buy ginger / Tae Kwon Do poster), not the lesson.

Worksheet C — IB Critical Thinking · Answer Key

5 questions · PYP Key Concepts · DOK 2–4

Q1 Change DOK 3

In **"The History of Communication,"** show one EARLY way and one LATER way people communicated, then explain how communication changed.

MODEL ANSWER

An Early Way: Long ago, people shared knowledge through the printing press. The text explains that the printing press significantly increased the production of books, and it enabled millions of people to receive knowledge through books, newspapers, and magazines. Later, the telegraph sent messages long distances over wires in Morse code, a system of dots and dashes. **A Later Way:** Over time, new inventions came along. The telephone meant people no longer had to be in the same room to talk to one another. Radio and television let people hear and see events as they happened, and the personal computer and the World Wide Web allowed people to store and share information and, later, to correspond, search for information, and share photos. **What Changed:** Each new invention made communication faster, reached more people, and added new ways to share messages — from dots and dashes, to voices, to pictures, to instant messages around the world. **What this shows:** Communication has changed dramatically over time because each invention built on the ones before it, so people could share more, faster, and with more people than ever before.

KEYWORDS (3)

early way = printing press and telegraph (Morse code over wires)

later way = telephone, radio, television, and the World Wide Web

what changed = each invention built on the last, making communication faster and wider

SCORING NOTES

- Full credit (3): one early way + one later way + an explanation of the change, using the word *change*.
- Partial (2): names an early and a later way but no clear explanation of the change.
- Minimal (1): only "things got better" with no example.

TEACHING STEPS

Step 1 · Three boxes in order.

강사: *"Label three boxes: An Early Way, A Later Way, What Changed."*

코멘트. 상자 세 칸 — 옛날 방법·나중 방법·무엇이 바뀌었나. 각 칸 채우기.

Step 2 · Read the timeline.

강사: *"Use the timeline. Underline the earliest invention and the most recent one."*

코멘트. 타임라인을 보고 가장 이른 발명과 가장 최근 발명에 밑줄.

Step 3 · Change sentence.

강사: *"Finish: 'Communication changed from ___ to ___, which means ___.'"*

코멘트. 문장 완성 — '의사소통이 ____에서 ____으로 바뀌었고, 이는 ____를 뜻한다.'

STUDENT PROMPTS

- "Which invention let people talk without being in the same room?"
  같은 방에 있지 않아도 말할 수 있게 한 발명은?
- "How is sending a text today different from sending a letter by ship in 1866?"
  오늘 문자 보내기는 1866년 배로 편지 보내기와 어떻게 다를까?
- "Why does each new invention build on the one before it?"
  새 발명은 왜 이전 발명 위에 쌓일까?

DIFFERENTIATION

STRUGGLING Put 3 cards ("telegraph" / "telephone" / "World Wide Web") in time order, earliest to newest.
카드 3장 — '전신·전화·월드 와이드 웹'을 옛날→최신 순서로 배열.

ADVANCED Explain why the printing press is called one of the most important inventions in history.
인쇄기가 왜 역사상 가장 중요한 발명 중 하나로 불리는지 설명.

COMMON MISCONCEPTIONS

PITFALL "All these inventions appeared at the same time." The timeline shows them in order, across many years (1850s to the 2010s).
발명들이 동시에 나온 게 아님 — 타임라인은 오랜 세월에 걸쳐 순서대로 보여 줌.

PITFALL "This is a made-up story." It is an informational text with a timeline about real inventions and inventors.
지어낸 이야기가 아님 — 실제 발명과 발명가에 대한 타임라인 정보 글.

LEARNER PROFILE LINK

KNOWLEDGEABLE Tracing how communication changed builds real knowledge of history.
의사소통의 변화를 따라가며 역사 지식을 쌓음 — Knowledgeable.

INQUIRERS Asking how one invention led to the next is true inquiry.
한 발명이 다음으로 어떻게 이어졌는지 묻는 것은 탐구 — Inquirer.

KOREAN BRIDGE

표현 "Each new invention changed the way people communicate." → "새로운 발명마다 사람들이 소통하는 방식을 바꾸었다."
변화(Change) 핵심 문장.

단어 "significantly / 크게 — patent / 특허 — transmitted / 전송된 — influence / 영향을 주다"
핵심 단어 영-한.

Q2 Innovation DOK 3

In **"A New Language—Invented by Kids!,"** show WHAT problem the children faced, then explain HOW they solved it.

MODEL ANSWER

The Problem: For many years, deaf children in Nicaragua were kept hidden. They were not taught sign language or lipreading, so they had no way to communicate fully. When the government set up two schools for them in 1979, the children arrived and could not understand their teachers. **What They Did:** Brought together at the new school, the children began to make signs with their hands. At first they shared just simple signals, but soon they invented more and more signals until they had their own gesture language. As younger children learned from older students and added new signs, the language became richer and more complex. **The Result:** The children created a brand-new language all their own. Today, Nicaraguan Sign Language is an officially recognized language, unlike any other sign language in the world. **What this shows:** The text says humans have a natural instinct for language. It is amazing that, with no one teaching them, the children invented a complete new language just by being together and needing to communicate — a powerful example of human innovation.

KEYWORDS (3)

problem = the children could not understand one another or their teachers

what they did = invented more and more hand signals together

result = a complete new language, now officially recognized

SCORING NOTES

- Full credit (3): the problem (no shared language) + what they did (invented signs together) + the result (a new language).
- Partial (2): names the problem OR the result, but not how they solved it.
- Minimal (1): only "they made a language" with no problem or steps.

TEACHING STEPS

Step 1 · Three boxes.

강사: *"Fill three boxes: The Problem, What They Did, The Result."*

코멘트. 세 칸 — 문제·한 일·결과. 각 칸 채우기.

Step 2 · Find the key fact.

강사: *"Underline the sentence that says humans have a natural instinct for language."*

코멘트. 인간에게 언어 본능이 있다는 문장에 밑줄.

Step 3 · Innovation sentence.

강사: *"Finish: 'The children solved the problem by ____, which created ____.'"*

코멘트. 문장 완성 — '아이들은 ____해서 문제를 풀었고, 그 결과 ____가 생겼다.'

STUDENT PROMPTS

- "Why couldn't the children understand each other at first?"
  아이들은 왜 처음에 서로를 이해하지 못했을까?

- "How did the language grow as new students arrived?"
  새 학생이 올 때마다 언어는 어떻게 자랐을까?
- "What does it mean that humans have an 'instinct' for language?"
  인간이 언어 '본능'을 가졌다는 것은 무슨 뜻일까?

DIFFERENTIATION

STRUGGLING Match 2 cards ("could not understand teachers" / "invented their own signs") to the problem and the solution.

카드 2장 — '선생님을 못 알아들음'과 '자기들 신호를 발명함'을 문제·해결과 매칭.

ADVANCED Explain why the title calls it a language "invented by kids."

제목이 왜 '아이들이 발명한' 언어라고 하는지 설명.

COMMON MISCONCEPTIONS

PITFALL "Adults taught the children the new language." The text says the children invented it themselves; no one taught it to them.

어른이 가르쳐 준 게 아님 — 아이들이 스스로 발명함.

PITFALL "All sign languages are the same." The text says there are many different sign languages, like ASL and JSL.

모든 수어가 같은 게 아님 — ASL·JSL 등 서로 다른 수어가 많음.

LEARNER PROFILE LINK

COMMUNICATORS Inventing a language to be understood is communication at its heart.

이해받기 위해 언어를 만든 것은 소통의 본질 — Communicator.

THINKERS Solving a real problem with a creative idea is real thinking.

실제 문제를 창의적으로 푼 것은 진짜 사고 — Thinker.

KOREAN BRIDGE

표현 "Even children can invent a whole new language when they need to communicate." → "필요하면 아이들도 완전히 새로운 언어를 만들 수 있다."

혁신(Innovation) 핵심 문장.

단어 "astonishment / 놀라움 — gestures / 몸짓 — linguists / 언어학자 — instinct / 본능"

핵심 단어 영-한.

Q3 Connection DOK 3

In **"Dolphin Dinner,"** compare what ONE dolphin could do ALONE with what dolphins do as a TEAM, then explain the lesson.

MODEL ANSWER

A Dolphin Alone: A single dolphin hunting by itself would have to find the fish, chase them, and catch them all on its own. Fish are fast and can scatter in many directions, so one dolphin might let a lot of food get away. **Dolphins as a Team:** In the video, dusky dolphins take on different jobs to get food. Groups of dolphins scout out the food and guide fish underwater to the surface. Others jump above the water, creating splashes to herd the fish or to signal for more help. By sending signals to one another, the dolphins work together as a team so that fewer fish escape. **The Lesson:** Communicating and working together helps the dolphins far more than hunting alone, because each dolphin can do one job while signals keep the whole group working as one. **What this shows:** Animals communicate, too. When the dusky dolphins send signals and cooperate, they connect with one another to solve a problem — finding and securing their dinner — that would be much harder alone.

KEYWORDS (3)

- alone = one dolphin must do everything and may lose the fish
- team = dolphins scout, herd, and signal for help with different jobs
- lesson = communicating and working together beats hunting alone

SCORING NOTES

- Full credit (3): a dolphin alone + dolphins as a team (with jobs/signals) + the lesson about teamwork.
- Partial (2): describes the team but not the "alone" contrast, or no lesson.
- Minimal (1): only "dolphins work together" with no detail.

TEACHING STEPS

Step 1 · Two columns.

강사: *"Make two columns: A Dolphin Alone / Dolphins as a Team."*

코멘트. 두 칸 — 혼자인 돌고래 / 팀을 이룬 돌고래.

Step 2 · List the jobs.

강사: *"Underline the different jobs the dolphins take on (scout, herd, signal)."*

코멘트. 돌고래가 맡는 여러 역할(정찰·몰이·신호)에 밑줄.

Step 3 · Connection sentence.

강사: *"Finish: 'Working as a team helps the dolphins because ____.'"*

코멘트. 문장 완성 — '팀으로 일하면 ____ 때문에 돌고래에게 도움이 된다.'

STUDENT PROMPTS

- "What different jobs do the dolphins take on?"
  돌고래들은 어떤 다른 역할들을 맡을까?
- "Why do the dolphins send signals to one another?"
  돌고래들은 왜 서로에게 신호를 보낼까?

- "When does teamwork help YOU do something better than alone?"
  너는 언제 팀워크가 혼자보다 더 도움이 될까?

DIFFERENTIATION

STRUGGLING Match 2 cards ("scout out the food" / "herd the fish") to the dolphins' teamwork.

카드 2장 — '먹이 정찰'과 '물고기 몰이'를 돌고래 팀워크와 매칭.

ADVANCED Explain how the dolphins' signals are a form of communication, like language.

돌고래의 신호가 언어처럼 의사소통의 한 형태임을 설명.

COMMON MISCONCEPTIONS

PITFALL "Only people can communicate." The video shows dolphins sending signals to one another — animals communicate, too.

사람만 소통하는 게 아님 — 돌고래도 서로 신호를 보냄.

PITFALL "Dolphin Dinner is a made-up story." It is an informational video with live-action footage and real facts.

'Dolphin Dinner'는 지어낸 이야기가 아님 — 실사 영상의 사실 정보 영상.

LEARNER PROFILE LINK

COMMUNICATORS The dolphins' signals show that communication takes many forms.

돌고래의 신호는 소통이 여러 형태임을 보여 줌 — Communicator.

OPEN-MINDED Seeing animals communicate widens how we think about language.

동물의 소통을 보는 것은 언어에 대한 시야를 넓힘 — Open-minded.

KOREAN BRIDGE

표현 "By signaling and working together, the dolphins connect to catch their food." → "신호를 주고 협력하며 돌고래들은 서로 연결되어 먹이를 잡는다."

연결(Connection) 핵심 문장.

단어 "practical / 실용적인 — operation / 작업 — immaculate / 흠 없는 — signal / 신호"

핵심 단어 영-한.

Q4 Connection DOK 3

In **"Cooper's Lesson,"** show how Cooper feels at the START and at the END, then explain the lesson.

MODEL ANSWER

Cooper at the Start: At the beginning, Cooper feels uncomfortable about his Korean heritage and about communicating with Mr. Lee. His mom insists on speaking only Korean to Mr. Lee, even though Cooper can barely follow along, and once Mr. Lee scolded him for not speaking Korean. When Cooper tries to speak, his "tongue lay as heavy and still in his mouth as a dead fish," and he stammers, "Hello," while blushing. He feels he does not belong. **Cooper at the End:** When Mr. Lee demonstrates how to place the cans on the shelves, he tells Cooper the directions twice—first in Korean and then in English. By giving Cooper the chance to hear words in both languages, Mr. Lee patiently helps him begin to understand and learn Korean. Cooper starts to connect with Mr. Lee and with his heritage. **The Lesson:** Communication is more than just knowing the words of a language. Mr. Lee's patience and kindness, and Cooper's effort to keep trying, build a connection between them across the language barrier. **What this shows:** Real communication grows from patience, effort, and care — a connection between people — not only from speaking the same language perfectly.

KEYWORDS (3)

start = Cooper feels uneasy and cannot speak Korean

end = Mr. Lee patiently helps him hear words in both languages

lesson = communication is connection, built by patience and effort

SCORING NOTES

- Full credit (3): Cooper at the start (uneasy) + at the end (connecting/learning) + the lesson, using the word *connection*.
- Partial (2): the before and after are clear, but no lesson, or no use of *connection*.
- Minimal (1): only "Cooper learns Korean" with no before/after or lesson.

TEACHING STEPS

Step 1 · Two columns.

강사: *"Make two columns: Cooper at the Start / Cooper at the End."*
코멘트. 두 칸 — 처음의 쿠퍼 / 마지막의 쿠퍼.

Step 2 · Find the turning point.

강사: *"Underline where Mr. Lee speaks to Cooper in both Korean and English."*
코멘트. 미스터 리가 쿠퍼에게 한국어와 영어로 말해 주는 부분에 밑줄.

Step 3 · Connection sentence.

강사: *"Finish: 'Cooper changed from ___ to ___, and this teaches ___.'"*
코멘트. 문장 완성 — '쿠퍼는 ____에서 ____으로 변했고, 이는 ____을 가르쳐 준다.'

STUDENT PROMPTS

- "Why does Cooper feel uncomfortable at the store at first?"
  쿠퍼는 왜 처음에 가게에서 불편함을 느낄까?
- "How does Mr. Lee help Cooper without making him feel bad?"

미스터 리는 어떻게 쿠퍼가 기죽지 않게 도와줄까?

- "When has someone been patient to help YOU understand?"
  누군가 너를 이해시키려고 참을성 있게 도와준 적은?

DIFFERENTIATION

STRUGGLING Match 2 cards ("a boy who can't speak Korean" / "a boy starting to learn") to before and after.
카드 2장 — '한국어를 못 하는 소년'과 '배우기 시작한 소년'을 전·후와 매칭.

ADVANCED Explain why patience matters as much as words in communication.
의사소통에서 왜 인내가 말만큼 중요한지 설명.

COMMON MISCONCEPTIONS

PITFALL "Mr. Lee is mean to Cooper." Mr. Lee is patient — he repeats words in Korean and English to help Cooper learn.
미스터 리가 못되게 군 게 아님 — 한국어·영어로 반복해 주며 도와줌.

PITFALL "Cooper's Lesson is a true story about a real person." It is realistic fiction; Cooper and Mr. Lee are made-up characters who seem real.
실존 인물의 실화가 아님 — 사실주의 소설, 쿠퍼와 미스터 리는 지어낸 인물.

LEARNER PROFILE LINK

CARING Mr. Lee's patience with Cooper shows real care.
쿠퍼를 향한 미스터 리의 인내는 진짜 배려 — Caring.

OPEN-MINDED Cooper reconnecting with his heritage shows openness to who he is.
자기 뿌리와 다시 이어지는 쿠퍼는 열린 마음 — Open-minded.

KOREAN BRIDGE

표현 "Communication is a connection built by patience and effort, not just words." → "의사소통은 말만이 아니라 인내와 노력으로 쌓는 연결이다."
연결(Connection) 핵심 문장.

단어 "inspect / 살펴보다 — stammered / 더듬거리다 — expectantly / 기대하며 — demonstrated / 보여 주다"
핵심 단어 영-한.

Q5 Inquiry DOK 4

Essential Question: What forms can communication take? Use ideas from TWO of the selections in this module to answer.

MODEL ANSWER

Communication can take many forms. In **"The History of Communication,"** people have shared messages in many ways over time — printing words in books and newspapers, tapping out Morse code on the telegraph, talking on the telephone, and sending instant messages over the World Wide Web. This shows that communication can take the form of written words, codes, voices, and digital messages. In **"A New Language —Invented by Kids!,"** deaf children in Nicaragua invented a whole new sign language, using hand gestures to share their thoughts. This shows that communication can also take the form of signs and movements, not only spoken words. **My Big Idea:** As Lawrence Clark Powell said, "Write to be understood, speak to be heard, read to grow." Communication can take many forms — writing, speaking, codes, signs, signals, and pictures. Across the module, from the history of inventions to a sign language invented by kids, to dolphins sending signals and a boy learning his family's words, the same big idea appears: people and even animals always find a form of communication to connect with one another.

KEYWORDS (3)

History of Communication = printed words, Morse code, telephone, digital messages

A New Language = a sign language made of hand gestures

Big Idea: communication takes many forms that connect people

SCORING NOTES

- Full credit (4): two selections named + a form of communication from each + a Big Idea answering the EQ.
- Partial (3): two selections + forms, Big Idea weak.
- Developing (2): one selection only.
- Minimal (1): generic ("people talk") without naming a selection.

SYNTHESIS FRAME

SELECTION 1 IDEA

Name a form of communication: The History of Communication = printed words, Morse code, telephone, radio, TV, and digital messages; A New Language = a sign language of hand gestures; Dolphin Dinner = dolphins signaling one another; Cooper's Lesson = speaking and learning a language to connect with people.

CONNECTING WORD

BOTH / AND — joins two selections (for example The History of Communication AND A New Language) into one Big Idea answering "What forms can communication take?"

SELECTION 2 IDEA

A different selection than Selection 1 — so the two show two different forms communication can take.

REAL-WORLD CONNECTION

KOREA 의사소통은 한 가지 모습이 아니다 — 손편지와 문자, 전화와 영상통화, 이모티콘과 수어, 그림과 몸짓까지 모두 소통이다. 말이 통하지 않아도 우리는 늘 서로를 이해할 방법을 찾는다.

우리 일상에서 쓰는 소통의 여러 형태를 EQ와 연결하기.

PERSONAL Which form of communication — writing, speaking, signs, or signals — do YOU use most, and why?
글·말·수어·신호 중 네가 가장 많이 쓰는 소통 형태는? 이유는?

RUBRIC

LEVEL	WHAT IT LOOKS LIKE
Exceeding (4)	Names 2 selections + a form of communication from each + a Big Idea answering the EQ.
Meeting (3)	Names 2 selections + a form for each + a Big Idea.
Approaching (2)	Names 2 selections but only retells facts — no clear answer to the EQ.
Beginning (1)	Generic ("people talk") without text evidence.

Watch out: Many G4 students will just retell one story (the telephone was invented; kids made a sign language) and stop. Push them to name the FORM of communication each text shows — written words, codes, voices, signs, signals — and to write a Big Idea. The EQ asks what FORMS communication can take, not just what each text is about.

TEACHING STEPS

Step 1 · Two selection cards.

강사: *"Pick 2 selections. For each, name one form of communication it shows."*

코멘트. 선택지 둘 — 각각 보여 주는 소통의 형태 하나 적기.

Step 2 · Name the form.

강사: *"Under each, write: is it written, spoken, signed, or signaled?"*

코멘트. 각각 아래 — 글·말·수어·신호 중 무엇인지 적기.

Step 3 · Big Idea sentence.

강사: *"Write one sentence answering the EQ. Use both selections."*

코멘트. EQ에 답하는 한 문장 — 두 선택지 모두 사용.

STUDENT PROMPTS

- "What form of communication does each selection you chose show?"
  고른 선택지마다 어떤 소통의 형태를 보여 주니?
- "How are a sign language and a text message both 'communication'?"
  수어와 문자 메시지는 어떻게 둘 다 '소통'일까?
- "Why does Lawrence Clark Powell's quote fit this module?"
  로런스 클라크 파월의 인용문이 왜 이 모듈에 어울릴까?

DIFFERENTIATION

STRUGGLING Sentence frame: "In ___, communication takes the form of ___. In ___, it takes the form of ___. Communication can take many forms."
문장 골격 제공.

ADVANCED Use THREE selections and sort the forms (written / spoken / signed / signaled).

선택지 셋 사용 — 형태를 종류별로 분류.

COMMON MISCONCEPTIONS

PITFALL "Retelling a story answers the EQ." The EQ asks what FORMS communication can take, not just what each text is about.

이야기 줄거리 말하기는 EQ 답이 아님 — '어떤 형태'인지를 물음.

PITFALL "The quote is by a story author." It is the module EPIGRAPH, by Lawrence Clark Powell, not a story author.

인용문은 이야기 작가의 말이 아님 — 모듈 에피그래프(로런스 클라크 파월).

LEARNER PROFILE LINK

THINKERS Building one Big Idea from two texts is the heart of critical thinking.

두 글로 하나의 Big Idea를 세움 — Thinker.

COMMUNICATORS Understanding many forms of communication makes you a stronger communicator.

여러 소통 형태를 이해하면 더 나은 소통가 — Communicator.

KOREAN BRIDGE

표현 "Communication can take many forms that connect people." → "의사소통은 사람들을 잇는 여러 형태를 띨 수 있다."

M10 마무리 문장 — 학생 글쓰기 핵심.

인용 "Write to be understood, speak to be heard, read to grow." — Lawrence Clark Powell → "이해받기 위해 쓰고, 들리기 위해 말하고, 자라기 위해 읽어라."

에피그래프 — 소통의 세 가지 형태.

Worksheet D — MAP Practice · Answer Key

20 items · RIT 200 → 220 · Lexile 500L–800L

MAP Mini-Passage Word Counts (Worksheet D)

- Passage 1 · The Talking Drums · **179 words** · Lexile 500–560L · RIT 200–206
- Passage 2 · The Bees' Dance · **187 words** · Lexile 560–620L · RIT 206–211
- Passage 3 · How Mail Travels Today · **195 words** · Lexile 620–700L · RIT 211–216
- Passage 4 · The Boy Who Listened · **200 words** · Lexile 700–800L · RIT 216–220

All four passages within target band 150–220 words; RIT 200→220; Lexile 500L–800L. Word counts match the workbook passage meta exactly. Each passage connects to the module's communication topic. Passages are NEW — no recall of the four anchor selections.

PASSAGE 1 · THE TALKING DRUMS

Q1 RIT 200

B

Lexile 500L · Key Detail. "they used special drums ... called 'talking drums.'" *Distractors off-text (ship mail / phones & radios / flashing lights).*

Q2 RIT 202

D

Lexile 520L · Key Detail. "A skilled drummer could change the sound of the drum to copy the rises and falls of the human voice." *Distractors off-text (sing along / carve words / beat loudly).*

Q3 RIT 203

A

Lexile 530L · Cause & Effect. "A message could travel ... when a drummer heard it and then beat it out again on his own drum." *Distractors off-text (runner / wind / villages close); options length-balanced.*

Q4 RIT 205

C

Lexile 550L · Key Detail. "They told of births, weddings, and dangers. They even called people together for meetings." *Distractors are "only" partial-scope misses (weather / names / songs).*

Q5 RIT 206

B

Lexile 560L · Main Idea. "Long before telephones were invented, the talking drums helped people stay connected." *Distractors narrow or off-topic (build a drum / music today / villages growing); options length-balanced.*

PASSAGE 2 · THE BEES' DANCE

Q6 RIT 206

C

Lexile 560L · Key Detail. "she flies back to the hive ... she does a special dance." *Distractors off-text (eats alone / leads them right away / hides the flowers).*

Q7 RIT 208

A

Lexile 580L · Key Detail. "The direction of her dance tells the other bees which way to fly to reach the flowers." *Distractors off-text; B ("how far away") is a strong near-miss — distance is told by the waggle's LENGTH, not its direction.*

Q8 RIT 209

D

Lexile 590L · Cause & Effect. "Inside the dark hive, she cannot simply tell the others where the food is." *Trap A/B/C off-text.*

Q9 RIT 210

B

Lexile 600L · Vocabulary. "shakes, or waggles, her body" — waggles = moves quickly back and forth. *Distractors take the wrong meaning (still / floats gently / flies away).*

Q10 RIT 211

D

Lexile 620L · Main Idea. "one bee can send a clear message to many bees without making a sound." *Distractors narrow or off-topic (dance for fun / flowers in summer / dark hive); options length-balanced.*

PASSAGE 3 · HOW MAIL TRAVELS TODAY

Q11 RIT 211

A

Lexile 620L · Key Detail. "First, a mail carrier collects the letter and takes it to a post office." *Distractors are real LATER steps (truck/plane, sort by street, deliver) — sequence traps.*

Q12 RIT 212

C

Lexile 640L · Key Detail. "The zip code ... tells the machine which part of the country the letter must go to." *Distractors are other things on an envelope (name / weight / stamp price); options length-balanced.*

Q13 RIT 213

B

Lexile 660L · Sequence. "When the mail reaches the right city, it goes to a local post office. There, it is sorted ... by street and house number." *Distractors are real steps placed out of order (flown again / mailed back / zip code read first).*

Q14 RIT 215

D

Lexile 680L · Vocabulary. "a careful, step-by-step operation" — operation = a set of actions carried out to reach a goal. *Distractors take the wrong meaning (medical surgery / one quick action / a machine).*

Q15 RIT 216

C

Lexile 700L · Main Idea. "The mail system is a careful, step-by-step operation that helps millions of people stay in touch." *Distractors trivialize it (planes faster / mailbox colors / letter weight); options length-balanced.*

PASSAGE 4 · THE BOY WHO LISTENED

Q16 RIT 216

D

Lexile 700L · Key Detail. "His friends at school spoke another language, and Mateo wanted to fit in, so he ignored his grandfather's words." *Distractors off-text (can't hear / dislikes him / too loud).*

Q17 RIT 217

B

Lexile 720L · Cause & Effect. "Mateo's grandfather fell ill. Sitting by his bed, Mateo realized how little they had truly spoken." *Distractors off-text (test / move / found a book); options length-balanced.*

Q18 RIT 218

A

Lexile 740L · Vocabulary. "felt strange and clumsy on his tongue, and Mateo stammered" — stammered = spoke with many pauses and repeated words. *Distractors take the wrong meaning (smoothly / shouted / refused).*

Q19 RIT 219

C

Lexile 770L · Cause & Effect. "his grandfather smiled and repeated each word slowly, first in the old language and then in the new." *Distractors off-text (alone from a book / in one afternoon / gives up); options length-balanced.*

Q20 RIT 220

A

Lexile 800L · Main Idea. "a language is more than words; it is a bridge between people." *Distractors trivialize it (cold winters / too hard to learn / grandparents know best); options length-balanced.*
