Module Overview

Essential Question: What kinds of circumstances push people to create new inventions?
Quote: "I will not follow where the path may lead, but I will go where there is no path, and I will leave a trail." — Muriel Strode
Big Idea Words (4): excel, transcend, illustrious, revere
Main Selections (workbook 4):

- The Inventor's Secret: What Thomas Edison Told Henry Ford · Suzanne Slade (illus. Jennifer Black Reinhardt) · Narrative Nonfiction
- Winds of Hope · Katy Duffield · Narrative Nonfiction / Magazine Article
- Wheelchair Sports: Hang Glider to Wheeler-Dealer · Simon Shapiro (art by Theo Krynauw and Warwick Goldswain) · Informational Text
- Captain Arsenio: Inventions and (Mis)Adventures in Flight · Pablo Bernasconi · Science Fiction / Fantasy

Note. The SoT lists 34 core vocabulary items on Worksheet A (4 Big Idea + 9 The Inventor's Secret + 6 Winds of Hope + 5 Wheelchair Sports + 10 Captain Arsenio), in myBook appearance order. This G5 Teacher's Guide labels each selection's panel "Critical Vocabulary" — the string "Power Words" does not appear in the source. The teacher "Vocabulary Strategy > Words for Using Context Clues" boxes (electricity/engines; withered/windmills; negative cambered/discharged; legible) and inline LANGUAGE notes (idioms "a heap of trouble," "dragged on"; multiple-meaning words "light," "spoke," "stable") are NOT counted as core vocabulary. "Artificial Intelligence Is a Great Invention" is the Big-Idea Short Read / Persuasive Essay (no Critical Vocabulary panel) and carries the 4 Big Idea Words; it is excluded from the per-selection workbook units.

Answer Distribution (86 Multiple-Choice Items)

Verified counts across Worksheets A (34), B (32), and D (20). Worksheet C is open-response IB and not counted in MCQ balance.

A · 22 · B · 21 · C · 22 · D · 21

These four totals are the count of correct-answer LETTERS (A/B/C/D) across all 86 multiple-choice items — exactly 22 are "A", 21 are "B", 22 are "C", and 21 are "D". Within each worksheet: Worksheet A = 9 A / 8 B / 9 C / 8 D (34), Worksheet B = 8 / 8 / 8 / 8 (32), Worksheet D = 5 / 5 / 5 / 5 (20). Balance is achieved via choice-order rotation only; correct-answer meanings and option texts are preserved from the Source of Truth. All 34 SoT vocabulary words are covered on Worksheet A in myBook appearance order (Big Idea → The Inventor's Secret → Winds of Hope → Wheelchair Sports → Captain Arsenio).

Voca Trap Items (Worksheet A)

10 of 34 = 29%, all flagged below. Trap pattern: opposite-meaning / wrong-field baits drawn from the natural meaning field of each word — no hallucination.

- Q6 **chugged** — opposite bait ("moved silently and very fast," "stayed completely still") vs. "moved slowly and noisily"
- Q10 **flop** — opposite bait ("a huge success") vs. "a complete failure"
- Q13 **patents** — opposite bait ("permissions that let everyone copy freely") vs. "no one else is allowed to make or sell it"
- Q16 **photographed** — wrong-field bait ("drawn by hand," "spoken aloud on the radio") vs. "recorded on film or as a computer file"
- Q22 **elite** — opposite bait ("the newest and least practiced") vs. "the best or most skilled"
- Q24 **traditional** — opposite bait ("invented just last week," "built only once and thrown away") vs. "made or done in a certain way for a very long time"
- Q28 **distinguished** — opposite bait ("looked down on and ignored," "ordinary and easily forgotten") vs. "known and respected for its excellence"
- Q29 **eccentric** — opposite bait ("very ordinary") vs. "odd"
- Q31 **evidently** — opposite bait ("for a hidden, secret reason," "by complete accident") vs. "for an obvious reason"
- Q33 **prototype** — opposite / wrong-field bait ("the finished, polished product") vs. "a rough model created to test something before the final form"

Reading Trap Items (Worksheet B)

1 of 32 = 3%, flagged below. Trap pattern for Section B: theme / lesson bait (a true detail mistaken for the central lesson) with length-balanced correct answers so a longest-option-wins guess fails. Distractors built from the SoT only — no hallucination. Three anchors are INFORMATIONAL (RI) — The Inventor's Secret, Winds of Hope, and Wheelchair Sports — and one is LITERARY (RL) — Captain Arsenio (science fiction / fantasy). Codes used are RI.5.1 / .2 / .3 / .5 / .6 / .8 and RL.5.1 / .2 / .3 / .6. **RI.5.4, RI.5.7, RL.5.4, and RL.5.7 are NOT used**, and there are no "from the text" snippet boxes. The single Section B theme trap is reserved for the literary selection, where a stated lesson exists.

- Q32 **Captain Arsenio theme** — "the Motocanary used birds tied with rope," "the diary was ninety pages," "the story mentions Icarus and the Wright brothers" are true details, baited against the real lesson: invention is driven by passion and imagination, and even comical failures are part of the inventive adventure

The informational items (The Inventor's Secret, Winds of Hope, Wheelchair Sports) are tested with central-idea, key-detail, text-structure, point-of-view, and reasons-and-evidence (RI.5.8) items rather than theme traps, because informational texts state central ideas, not story morals. This keeps every Section B distractor grounded in the Source of Truth.

Source-of-Truth Verification

Into Reading · Grade 5 · Module 1 · For Teacher Use

VERIFIED

How Every Item Is Grounded

Every item on this Answer Key traces to the Source-of-Truth JSON for G5 Module 1, built from the Teaching Pal OCR (5,053 lines, 41 spread-pages incl. back-of-book Glossary) and verified against the PDF intro spreads (every Critical Vocabulary panel was read from a high-resolution crop, and each panel's rounded bottom corner was confirmed so no words are cut off). No characters, words, or events outside the Source of Truth were added.

- **Vocabulary (Worksheet A):** all 34 words come from the module's Big Idea Words (4: excel, transcend, illustrious, revere) and the four "Critical Vocabulary" panels — The Inventor's Secret 9, Winds of Hope 6, Wheelchair Sports 5, Captain Arsenio 10. Each meaning is taken verbatim from the back-of-book Glossary (OCR lines ~3948–5051), which contains every one of the 34 words, and checked against surviving inline myNotes definitions. The teacher Vocabulary Strategy boxes (electricity/engines; withered/windmills; negative cambered/discharged; legible) and the craft notes (idioms, multiple-meaning words) are deliberately NOT counted as core vocabulary.
- **Terminology:** this G5 Teacher's Guide labels each panel "Critical Vocabulary," not "Power Words" — the workbook uses that exact label, matching the source.
- **Reading (Worksheet B):** the 32 items use RI.5 codes for the three informational anchors (The Inventor's Secret, Winds of Hope, Wheelchair Sports) and RL.5 codes for the one literary anchor (Captain Arsenio). Each correct answer is grounded in the Source of Truth; distractors are SoT-anchored, never invented. RI.5.4, RI.5.7, RL.5.4, and RL.5.7 are not used, and there are no "from the text" snippet boxes.
- **Genre & credits:** The Inventor's Secret = Narrative Nonfiction (by Suzanne Slade, illus. Jennifer Black Reinhardt; about the REAL inventors Thomas Edison and Henry Ford — historical figures whose inventions, the electric pen, phonograph, incandescent bulb, and affordable automobile, are accurate); Winds of Hope = Narrative Nonfiction / Magazine Article (by Katy Duffield; about the REAL inventor William Kamkwamba of Malawi, subject of "The Boy Who Harnessed the Wind"); Wheelchair Sports = Informational Text (by Simon Shapiro, art by Theo Krynauw and Warwick Goldswain — two artists); Captain Arsenio = Science Fiction / Fantasy (written and illustrated by Pablo Bernasconi; Captain Arsenio is a FICTIONAL character — the opening references real flight pioneers Icarus and the Wright brothers only as framing).
- **IB (Worksheet C):** the PYP concepts — Perseverance, Circumstances, Innovation, Creativity, Inquiry — follow the Source-of-Truth themes of this module. The Essential Question text on Q5 matches the workbook word for word. Korean teacher guidance appears in Section C only; Sections A, B, and D are in English. No model answer adds a fact outside the source.
- **MAP (Worksheet D):** four NEW passages (195 / 199 / 195 / 204 words), RIT 205→225, Lexile 720L–950L. None recall the four anchor selections; each is a different invention text (Florence Nightingale's hospital reforms, the accidental sticky note, a girl inventing an inclusive sport, and a grandfather building a music box).
- **Answer balance:** 86 multiple-choice items distribute as 22 "A" / 21 "B" / 22 "C" / 21 "D"; every meaning is preserved from the Source of Truth.

MAP Mini-Passage Word Counts (Worksheet D)

- Passage 1 · The Lady of the Lamp's Big Idea · **195 words** · Lexile 720–800L · RIT 205–211
- Passage 2 · The Accidental Invention · **199 words** · Lexile 760–840L · RIT 211–217
- Passage 3 · The Girl Who Invented a Sport · **195 words** · Lexile 800–880L · RIT 217–222
- Passage 4 · The Inventor in the Workshop · **204 words** · Lexile 860–950L · RIT 219–225

Word counts match the workbook passage meta exactly. All four within target band 160–230 words; RIT 205→225; Lexile 720L–950L. Each passage connects to the module's invention/innovation topic. Passages are NEW — no recall of the four anchor selections.

What This Module Does NOT Contain (Guardrails)

- No "Power Words" label — the G5 source says "Critical Vocabulary."
- No Worksheet E — this workbook series uses four worksheets (A · B · C · D).
- The module quote is by Muriel Strode and is the EPIGRAPH only — it is NOT a story author. Muriel Strode was a real American poet.
- "Artificial Intelligence Is a Great Invention" is the Big-Idea Short Read / Persuasive Essay (no Critical Vocabulary panel) and is excluded from the per-selection units; it carries the 4 Big Idea Words instead. Its author is unverified — no byline in the source.
- Critical Vocabulary counts are 9 / 6 / 5 / 10 = 30, not evened out. Big Idea (4) + Critical (30) = 34 total. Captain Arsenio genuinely has 10 (the longest panel); Wheelchair Sports genuinely has 5.
- Captain Arsenio is a FICTIONAL fantasy character. Edison, Ford, and William Kamkwamba are REAL people, and the facts about them in the selections are accurate; no invented biographical details are added.
- The opener Get Curious video is "Morning Miracles." This module has NO in-module video selection; it is not conflated with any selection.
- The topic strand is "SCIENCE CONNECTION: Innovation." This is the FIRST G5 module — there is no prior-module bleed (the TOC spread's left page is the book's "Welcome to myBook!" front matter, not a module).
- Performance Task = "Write an Expository Essay."

Worksheet A — Vocabulary · Answer Key

34 items · CCSS L.5.4 / L.5.5 / L.5.6

BIG IDEA WORDS

Q1 — L.5.6

excel

C

Meaning: if you excel at something, you are very good at it. **Source:** SoT Big Idea Word — Vocabulary Card 1.1; Glossary. *Distractors A/B/D give never tried / afraid / by accident.*

Q2 — L.5.6

transcend

C

Meaning: if you transcend a boundary, you go above or beyond it. **Source:** SoT Big Idea Word 1.2; Glossary. *Distractors give stop in front / draw / hide.*

Q3 — L.5.6

illustrious

B

Meaning: an illustrious person is famous for his or her achievements. **Source:** SoT Big Idea Word 1.3; Glossary. *Distractors give tall / new to a job / drawn brightly.*

Q4 — L.5.6

revere

A

Meaning: if you revere someone, you think very highly of that person. **Source:** SoT Big Idea Word 1.4; Glossary. *Distractors give measure / race / forget.*

CRITICAL VOCABULARY · THE INVENTOR'S SECRET

Q5 — L.5.4

locomotives

D

Evidence: SoT — "Locomotives are the engines that make a train go forward" (inline myNotes; Glossary). Body: "Thomas was curious about locomotives." *Distractors give the tracks / the railway workers / the passenger cars — all train-related but not the engine.*

Q6 — L.5.5 — TRAP

chugged

B

Evidence: SoT — "If a machine chugged along, it moved slowly and noisily" (Glossary). Body: "machines that chugged and purred." **Trap:** A baits the opposite (silent and fast); C baits "still."

Q7 — L.5.4

gadgets

D

Evidence: SoT — "Gadgets are small, specialized machines or electronic devices" (inline myNotes; Glossary). Body: "electric gadgets to make life easier." *Distractors give huge machines too big to carry / plain containers / power-free tools — device-field baits that miss "small" and "electronic."*

Q8 — L.5.4

phonograph

A

Evidence: SoT — "A phonograph is a machine that plays recorded music or sound" (inline myNotes; Glossary). Body: "his new phonograph." *Distractors give a telegraph / a movie camera / a printing machine — other era inventions, but not one that plays recorded sound.*

Q9 L.5.4

sputtered

B

Evidence: SoT — "If something sputtered, it worked in a rough or uneven way and made popping noises" (inline myNotes; Glossary). Body: "His contraption sputtered along for forty feet." *Distractors give smooth / colored / floated.*

Q10 L.5.5 TRAP

flop

A

Evidence: SoT — "Something that is a flop is a complete failure" (inline myNotes; Glossary). Body: "Henry's design was a flop!" **Trap:** B baits the opposite (a huge success).

Q11 L.5.4

incandescent

C

Evidence: SoT — "Something that is incandescent gives off a lot of light" (inline myNotes; Glossary). Body: "an incandescent light bulb that burned all night." *Distractors give loud / heavy / frozen.*

Q12 L.5.4

cylinder

D

Evidence: SoT — "A cylinder has circular ends and straight sides. In an engine, a cylinder takes in gas to make other parts move" (inline myNotes; Glossary). Body: "a four-stroke cylinder that burned gas." *Distractors give a square sheet / a tower / a bulb.*

CRITICAL VOCABULARY · THE INVENTOR'S SECRET (CONTINUED)

Q13 L.5.5 TRAP

patents

A

Evidence: SoT — "Patents are legal documents. If you get a patent for an invention, no one else is allowed to make or sell it" (Glossary). Body: Thomas applied for a patent. **Trap:** B baits the opposite (everyone may copy freely).

CRITICAL VOCABULARY · WINDS OF HOPE

Q14 L.5.4

irrigate

C

Evidence: SoT — "To irrigate crops is to supply them with water through a system of pipes, sprinklers, or streams" (inline myNotes; Glossary). Body: a windmill could "pump water to irrigate the family's maize fields." *Distractors give cut / sell / count.*

Q15 L.5.4

inspector

A

Evidence: SoT — "An inspector reviews or examines something carefully" (inline myNotes; Glossary). Body: "a school inspector saw the windmill." *Distractors give a tower builder / bus driver / planter.*

Q16 L.5.5 TRAP

photographed

D

Evidence: SoT — "If someone or something was photographed, its photo was recorded on film or as a computer file" (inline myNotes; Glossary). Body: "photographed for the newspapers." **Trap:** B/C bait the wrong field (drawn by hand / spoken on radio).

Q17 L.5.4

prestigious

A

Evidence: SoT — "Something prestigious is impressive and important" (inline myNotes; Glossary). Body: "the prestigious TED conference." *Distractors give tiny / broken / empty.*

Q18 L.5.4

auditorium

B

Evidence: SoT — "An auditorium is a large room where an audience gathers for a presentation or performance" (inline myNotes; Glossary). Body: "a rousing ovation from the auditorium of inventors." *Distractors give a device / a generator / a field.*

Q19 L.5.4

impoverished

D

Evidence: SoT — "To be impoverished is to be poor" (inline myNotes; Glossary). Body: bringing electricity "to impoverished villages in rural Africa." *Distractors give crowded / underground / new.*

CRITICAL VOCABULARY · WHEELCHAIR SPORTS

Q20 L.5.4

maneuver

C

Evidence: SoT — "To maneuver something is to move it" (inline myNotes; Glossary). Body: the heavy chair was "hard to maneuver." *Distractors give hold still / leave it / take it apart — motion baits, opposite of skillful moving.*

Q21 L.5.4

specialized

B

Evidence: SoT — "If a company specialized in something, it provided a specific type of product" (Glossary). Body: the company "specialized in meeting the needs of athletes." *Distractors give sold everything / gave away free / closed down.*

Q22 L.5.5 TRAP

elite

D

Evidence: SoT — "Elite members of a group are those who are the best or most skilled" (inline myNotes; Glossary). **Trap:** A baits the opposite (newest and least practiced).

Q23 L.5.4

objective

C

Evidence: SoT — "An objective is a goal" (inline myNotes; Glossary). Body: designers met athletes' objectives. *Distractors give a problem / a result / a set of rules — goal-field baits, but not the goal itself.*

CRITICAL VOCABULARY · WHEELCHAIR SPORTS (CONTINUED)

Q24 L.5.5 TRAP

traditional

A

Evidence: SoT — "Something that is traditional has been made or done in a certain way for a very long time" (inline myNotes; Glossary). Body: "a traditional wheelchair." **Trap:** B baits the opposite (invented just last week).

Q25 L.5.4

passionate

B

Evidence: SoT — "To have a passionate feeling is to have strong emotions about it" (inline myNotes; Glossary). Body: "This passionate impulse has resulted in many failures." *Distractors give no feelings / sleepy / bored.*

Q26 L.5.4

impulse

D

Evidence: SoT — "An impulse is the desire to do something" (inline myNotes; Glossary). Body: "This passionate impulse." *Distractors give a machine / a finished invention / a written plan.*

Q27 L.5.4

contribution

C

Evidence: SoT — "A person who helps to make something has made a contribution to that work" (inline myNotes; Glossary). Body: "each has made a different contribution." *Distractors give refused / watched / only after.*

Q28 L.5.5 TRAP

distinguished

B

Evidence: SoT — "A distinguished group is known and respected for its excellence" (inline myNotes; Glossary). Body: "the distinguished pages of aviation history." **Trap:** A/D bait the opposite (looked down on / ordinary).

Q29 L.5.5 TRAP

eccentric

A

Evidence: SoT — "Someone who is eccentric is odd" (Glossary). Body: "a long series of eccentric projects." **Trap:** B baits the opposite (very ordinary).

Q30 L.5.4

circumstances

C

Evidence: SoT — "The way an event happened or the causes of it are its circumstances" (Glossary). Body: the diary found "under circumstances to be discussed later." (Also the key word in the module EQ.) *Distractors give viewers / prizes / pictures.*

Q31 L.5.5 TRAP

evidently

D

Evidence: SoT — "If something happened evidently, it happened for an obvious reason" (inline myNotes; Glossary). Body: "Evidently, it was harder ... to find enough birds." **Trap:** A/B bait the opposite (hidden reason / no reason).

Q32 L.5.4

acceleration

C

Evidence: SoT — "Acceleration is the act of moving faster" (inline myNotes; Glossary). Body: "The acceleration of the runner would allow ... the wings to beat." *Distractors give stopping / turning / resting.*

Q33 L.5.5 TRAP

prototype

B

Evidence: SoT — "A prototype is a rough model created to test something before creating it in its final form" (inline myNotes; Glossary). **Trap:** A baits the opposite (finished, polished product).

Q34 L.5.4

conceived

A

Evidence: SoT — "If you thought of the idea to create something, you conceived it" (Glossary). Body: "when he conceived of this contraption." *Distractors give threw away / copied / finished building.*

Worksheet B — Reading Comprehension · Answer Key

32 items · CCSS RI.5.1 / .2 / .3 / .5 / .6 / .8 · RL.5.1 / .2 / .3 / .6

Selection 1 · The Inventor's Secret

NARRATIVE NONFICTION · 8 ITEMS

Q1 RI.5.2

C

Central Idea/Gist: how two curious boys, Edison and Ford, became great inventors through hard work and persistence (SoT key text + theme). *Others name a different selection.*

Q2 RI.5.5

A

Text Structure: SoT — the author "alternated between talking about Thomas and Henry to make comparisons." *Others name the wrong structure.*

Q3 RI.5.3

C

Evidence: both boys "just had to see how things worked" and loved to experiment (SoT). *Others off-text (same town / same year / built a car as kids).*

Q4 RI.5.3

B

Evidence: "His contraption sputtered along for forty feet, then collapsed. Henry's design was a flop!" *Others off-text.*

Q5 RI.5.6

B

Point of View: SoT — a narrator tells the story; "the pronoun he is used," not "I." *Others claim first person or a non-human narrator.*

Q6 RI.5.1

A

Inference: the repeated "What's his secret?" shows Henry badly wants to figure out how Thomas keeps succeeding (SoT). *Others off-text.*

Q7 RI.5.8

A

Reasons/Evidence: Henry "spent long nights, and Saturdays, working on his car" after failures, until he built an affordable car (SoT). *Others are details, not evidence of persistence.*

Q8 RI.5.2

B

Central Idea: the "secret" is to keep working hard and never give up ("Keep at it!"); Henry "had known Thomas's secret all along" (SoT). *A/C/D invent a literal object.*

Selection 2 · Winds of Hope

NARRATIVE NONFICTION / MAGAZINE ARTICLE · 8 ITEMS

Q9 RI.5.2

D

Gist: how William Kamkwamba built a windmill from scrap to bring electricity and water to his village (SoT key text + theme). *Others name a different selection.*

Q10 RI.5.3

D

Evidence: "The drought of 2001 dragged on and on"; the family had less and less maize (SoT). *Others off-text (flood / storm / cows).*

Q11 RI.5.3

B

Evidence: "because of the drought, there was no money to pay his school fees" (SoT). *Others off-text.*

Q12 RI.5.5

C

Text Structure: SoT GENRE STUDY — magazine articles "often tell events in chronological order"; William's true story is told year by year (2001, 2006, 2007, 2014). *Others name the wrong structure.*

Q13 RI.5.3

D

Evidence: in a junkyard William "dug through piles of twisted metal, rusted cars, and worn-out tractors," using a bicycle frame (SoT). *Others off-text (kit / factory / ordered).*

Q14 RI.5.1

C

Inference: though he could not attend school, William "still wanted to learn" and took apart radios — curious, creative, determined (SoT). *Others contradict the text.*

Q15 RI.5.8

D

Reasons/Evidence: his machine "powered four lights and two radios in his house" and "recharged village cell phones" (SoT). *Others are details, not evidence of community change.*

Q16 RI.5.2

B

Central Idea: with creativity and persistence, even a boy with little schooling can invent something that transforms his community (SoT theme). *A/C/D overstate or contradict a detail.*

Selection 3 · Wheelchair Sports: Hang Glider to Wheeler-Dealer

INFORMATIONAL TEXT · 8 ITEMS

Q17 RI.5.2

B

Central Idea: how wheelchairs and wheelchair sports have been invented and improved so athletes can compete (SoT key text + theme). *Others name a different selection.*

Q18 RI.5.3

D

Evidence: her steel chair was "heavy ... and hard to maneuver," and the frustration "gave her an idea" (SoT). *Others off-text.*

Q19 RI.5.3

C

Evidence: an "aluminum frame made it strong, but light: it was half the weight of her regular chair, and she could really move in it" (SoT). *Others off-text.*

Q20 RI.5.5

D

Text Structure: the "Why They're Better" section explains cause and effect using force and center of mass (SoT). *Others name the wrong structure.*

Q21 RI.5.6

C

Text/Graphic Features: SoT — the diagrams help readers "understand how center of mass affects how people can move," a science concept hard to grasp from text alone. *Others off-purpose.*

Q22 RI.5.3

C

Evidence: before Dr. Guttmann, patients "were left to lie in bed, doing nothing"; he "believed he could use sports" to get them active (SoT). *Others contradict the text.*

Q23 RI.5.8

B

Reasons/Evidence: the lighter Quickie "will let an athlete move faster, stop faster, and change direction easily" (SoT). *Others are details, not evidence.*

Q24 RI.5.2

B

Central Idea: inventing and adapting specialized equipment lets athletes with disabilities compete and excel (SoT theme). *A/C/D overstate or contradict a detail.*

Selection 4 · Captain Arsenio

SCIENCE FICTION / FANTASY · 8 ITEMS

Q25 RL.5.2

D

Gist: an eccentric character who keeps trying — and comically failing — to build a flying machine (SoT key text + theme). *Others name a different selection.*

Q26 RL.5.3

A

Character: SoT — confidence plus "stubbornness and recklessness"; he "doesn't think about how dangerous ... they might be." *Others contradict the story.*

Q27 RL.5.6

C

Point of View: SoT — the captain is confident he will succeed, but the narrator notes "Obvious results" and "does not have much trust in Captain Arsenio's contraption." *Others off-text.*

Q28 RL.5.3

A

Plot: SoT — the Motocanary "did fly for a few feet before crashing into a tree"; it "took two days to get the captain down." *Others off-text.*

Q29 RL.5.1

A

Inference: SoT — "a small problem" does not match the picture; "He doesn't like to admit how bad things get or how wrong he might be." *Others misread him.*

Q30 RL.5.3

D

Compare: SoT — both projects "seem very dangerous and risky, yet Captain Arsenio thinks both ideas will work." *Others off-text.*

Q31 RL.5.6

A

Author's Purpose: SoT — "The author's purpose is to entertain. The story is about a made-up character with many funny details." *Others off-purpose.*

Q32 RL.5.2 TRAP

A

Theme: invention is driven by passion and imagination, and even comical failures are part of the inventive adventure (SoT theme).
Trap: B/C/D are true details, not the lesson.

Worksheet C — IB Critical Thinking · Answer Key

5 questions · PYP Key Concepts · DOK 2–4

Q1 Perseverance DOK 3

In **"The Inventor's Secret,"** show one FAILURE and one later SUCCESS, then explain "the secret."

MODEL ANSWER

A Failure: Both Thomas and Henry failed many times. As a boy, Thomas set the baggage car on fire with an experiment, and one of his designs exploded and set the school fence ablaze. Henry built a steam engine from a ten-gallon can, but it exploded; later his contraption sputtered along for only forty feet and collapsed, so his design was a flop. **A Later Success:** Thomas kept experimenting until he created the electric pen, the phonograph, and an incandescent light bulb that burned all night. Henry kept working long nights and Saturdays until he built the Quadricycle and, in the end, a car that ordinary families could afford. **The Secret:** At dinner, Thomas banged his fist and shouted, "Keep at it!" Henry smiled because he had known Thomas's secret all along. **What this shows:** The secret is persistence — curiosity, hard work, and refusing to give up after failure. The author repeats "What's his secret?" again and again to show how badly Henry wanted the answer, and to reveal that great inventions come from not giving up.

KEYWORDS (3)

- failure = exploding engines, a flop that collapsed after forty feet
- success = phonograph, light bulb, and an affordable car
- the secret = persistence — "Keep at it!" and never giving up

SCORING NOTES

- Full credit (3): one failure + one later success + an explanation of the secret, using the word *persistence*.
- Partial (2): names a failure and a success but no clear explanation of the secret.
- Minimal (1): only "they kept trying" with no example.

TEACHING STEPS

Step 1 · Three boxes.

강사: *"Label three boxes: A Failure, A Later Success, The Secret."*

코멘트. 상자 세 칸 — 실패·나중 성공·비밀. 각 칸 채우기.

Step 2 · Find the repeated question.

강사: *"Underline 'What's his secret?' each time it appears."*

코멘트. 'What's his secret?'가 나올 때마다 밑줄.

Step 3 · Secret sentence.

강사: *"Finish: 'The inventor's secret is ____, because ____.'"*

코멘트. 문장 완성 — '발명가의 비밀은 ____이고, 그 이유는 ____이다.'

STUDENT PROMPTS

- "What did Henry do after his engine failed?"

엔진이 실패한 뒤 헨리는 무엇을 했을까?

- "Why does the author keep repeating 'What's his secret?'"
  작가는 왜 'What's his secret?'를 계속 반복할까?
- "When did YOU keep trying after a failure?"
  너는 실패한 뒤에도 계속 도전한 적이 언제니?

DIFFERENTIATION

STRUGGLING Match 2 cards ("the engine exploded" / "he built an affordable car") to failure and success.
카드 2장 — '엔진 폭발'과 '저렴한 차 완성'을 실패·성공과 매칭.

ADVANCED Explain how Thomas's "Keep at it!" connects to the whole module's Essential Question.
토머스의 'Keep at it!'이 모듈 핵심 질문과 어떻게 연결되는지 설명.

COMMON MISCONCEPTIONS

PITFALL "The secret was a special machine or tool." The text shows the secret is hard work and not giving up, not an object.
비밀은 특별한 기계가 아님 — 끈기와 노력임.

PITFALL "This is a made-up story." It is narrative nonfiction about the real inventors Edison and Ford.
지어낸 이야기가 아님 — 실존 발명가 에디슨과 포드의 실화.

LEARNER PROFILE LINK

RISK-TAKERS Edison and Ford kept experimenting even after failures and explosions.
실패에도 계속 실험한 에디슨과 포드 — Risk-taker.

THINKERS Learning from each failure to improve the next design is real thinking.
실패마다 배워 다음 설계를 개선 — Thinker.

KOREAN BRIDGE

표현 "The inventor's secret is to keep trying and never give up." → "발명가의 비밀은 계속 도전하고 결코 포기하지 않는 것이다."
끈기(Perseverance) 핵심 문장.

단어 "sputtered / 털털거리다 — flop / 실패작 — incandescent / 백열의 — patents / 특허"
핵심 단어 영-한.

Q2 Circumstances DOK 3

In **"Winds of Hope,"** show WHAT problem William faced, then explain HOW he solved it.

MODEL ANSWER

The Problem: A drought in 2001 meant William's maize would not grow, so his family had only a little food and feared they would starve. Because of the drought, there was no money to pay his school fees, so his education stopped at eighth grade. **What He Did:** Though he could not attend school, William still wanted to learn. He read science books at the village library and found a book about windmills. He pictured the windmill he wanted to build, then dug through a junkyard for scrap metal, old tractor parts, and a bicycle frame. With his two best friends, he built a tower and raised the windmill to the top. **The Result:** When the wind blew, the blades turned and powered lights and radios in his house, and later recharged village cell phones; a windmill could also pump water to irrigate the fields. **What this shows:** Hard circumstances — drought, hunger, and no school — pushed William to invent. It is amazing that, with little money and only an eighth-grade education, his curiosity and persistence let him build something that changed his whole community.

KEYWORDS (3)

- problem = drought, hunger, and no money for school
- what he did = learned from library books and built a windmill from junkyard scrap
- result = electricity and water for his family and village

SCORING NOTES

- Full credit (3): the problem (drought/no school) + what he did (built from scrap) + the result (electricity/water), using the word *circumstances*.
- Partial (2): names the problem OR the result, but not how he solved it.
- Minimal (1): only "he built a windmill" with no problem or steps.

TEACHING STEPS

Step 1 · Three boxes.

강사: *"Fill three boxes: The Problem, What He Did, The Result."*

코멘트. 세 칸 — 문제·한 일·결과. 각 칸 채우기.

Step 2 · Find the cause.

강사: *"Underline the sentence that says the drought left no money for school."*

코멘트. 가뭄으로 학비가 없었다는 문장에 밑줄.

Step 3 · Circumstances sentence.

강사: *"Finish: 'The circumstances of ____ pushed William to ____.'"*

코멘트. 문장 완성 — '____라는 상황이 윌리엄을 ____하게 밀어붙였다.'

STUDENT PROMPTS

- "How did the drought change William's life?"
  가뭄은 윌리엄의 삶을 어떻게 바꾸었을까?
- "Where did William get the parts for his windmill?"

윌리엄은 풍차 부품을 어디서 구했을까?

- "How can a hard situation push someone to invent?"
  힘든 상황이 어떻게 발명을 밀어붙일 수 있을까?

DIFFERENTIATION

STRUGGLING Match 2 cards ("a drought with no food" / "a windmill that made electricity") to problem and result.
카드 2장 — '먹을 것 없는 가뭄'과 '전기를 만든 풍차'를 문제·결과와 매칭.

ADVANCED Explain why the title is "Winds of Hope."
제목이 왜 'Winds of Hope(희망의 바람)'인지 설명.

COMMON MISCONCEPTIONS

PITFALL "William bought a windmill." The text says he built it from junkyard scrap.
윌리엄이 풍차를 산 게 아님 — 고물상 부품으로 직접 만듦.

PITFALL "This is a made-up character." William Kamkwamba is a real person from Malawi.
지어낸 인물이 아님 — 말라위의 실존 인물 윌리엄 캄콰바.

LEARNER PROFILE LINK

INQUIRERS William taught himself from library books when he could not go to school.
학교에 못 가도 도서관 책으로 스스로 배움 — Inquirer.

CARING He uses his invention to help impoverished villages.
발명으로 가난한 마을을 도움 — Caring.

KOREAN BRIDGE

표현 "Difficult circumstances can push a person to invent something new." → "어려운 상황은 사람을 새로운 발명으로 밀어붙일 수 있다."
상황(Circumstances) 핵심 문장.

단어 "irrigate / 물을 대다 — inspector / 조사관 — prestigious / 명망 있는 — impoverished / 가난한"
핵심 단어 영-한.

Q3 Innovation DOK 3

In **"Wheelchair Sports,"** compare the TRADITIONAL chair with the SPORTS chair, then explain the lesson.

MODEL ANSWER

Traditional Wheelchair: Marilyn Hamilton's first wheelchair had a steel frame that made it heavy — close to 27 kilograms — and hard to maneuver. It was so heavy that playing tennis left her hands badly blistered, and she hated it. **Sports "Quickie" Wheelchair:** Using hang-glider technology, Marilyn and her friends built a new chair with an aluminum frame. It was strong but light — about half the weight of her old chair — so she could really move in it. Later they made it more stable by giving it a lower center of mass and a wider wheelbase with negative-cambered wheels. **The Lesson:** Because the Quickie was lighter and better designed, athletes could move faster, stop faster, and change direction more easily. **What this shows:** Inventing better, specialized equipment helps athletes excel. Marilyn understood the need and had the connection to hang-gliding technology, so she could turn a problem into a new invention that changed wheelchair sports for millions of people.

KEYWORDS (3)

traditional = heavy steel frame, hard to maneuver

sports chair = light aluminum frame, lower center of mass, cambered wheels

lesson = better specialized equipment lets athletes excel

SCORING NOTES

- Full credit (3): the traditional chair + the sports chair (with a design feature) + the lesson about specialized equipment.
- Partial (2): describes one chair but not the contrast, or no lesson.
- Minimal (1): only "the new chair was better" with no detail.

TEACHING STEPS

Step 1 · Two columns.

강사: *"Make two columns: Traditional Wheelchair / Sports Wheelchair."*

코멘트. 두 칸 — 일반 휠체어 / 스포츠 휠체어.

Step 2 · List the differences.

강사: *"Underline words about weight, frame, and wheels."*

코멘트. 무게·프레임·바퀴에 관한 단어에 밑줄.

Step 3 · Innovation sentence.

강사: *"Finish: 'The sports wheelchair helps athletes because ____.'"*

코멘트. 문장 완성 — '스포츠 휠체어는 ____ 때문에 선수에게 도움이 된다.'

STUDENT PROMPTS

- "What was wrong with the traditional wheelchair?"
  일반 휠체어의 문제는 무엇이었을까?
- "How did hang-glider technology help the new design?"

행글라이더 기술이 새 설계에 어떻게 도움이 됐을까?

- "How does better equipment help YOU do something well?"
  더 좋은 장비는 네가 무언가를 잘하도록 어떻게 도와줄까?

DIFFERENTIATION

STRUGGLING Match 2 cards ("heavy steel" / "light aluminum") to the two chairs.
카드 2장 — '무거운 강철'과 '가벼운 알루미늄'을 두 휠체어와 매칭.

ADVANCED Explain how center of mass makes the sports chair harder to tip over.
무게 중심이 스포츠 휠체어를 왜 덜 넘어지게 하는지 설명.

COMMON MISCONCEPTIONS

PITFALL "Heavier is stronger and better." The text shows the lighter chair is easier to move and just as strong.
무거울수록 좋은 게 아님 — 가벼운 게 더 잘 움직이고 똑같이 튼튼함.

PITFALL "Only Marilyn's idea mattered." The text shows she worked with friends who made hang gliders.
마릴린 혼자 한 게 아님 — 행글라이더 만드는 친구들과 함께 함.

LEARNER PROFILE LINK

THINKERS Using force and center of mass to redesign a chair is creative thinking.
힘과 무게 중심으로 휠체어를 다시 설계 — Thinker.

OPEN-MINDED Borrowing hang-glider technology for a wheelchair shows an open mind.
행글라이더 기술을 휠체어에 빌려 옴 — Open-minded.

KOREAN BRIDGE

표현 "Inventing specialized equipment helps athletes excel." → "특화된 장비를 발명하면 선수들이 더 잘하게 된다."
혁신(Innovation) 핵심 문장.

단어 "maneuver / 다루다 — specialized / 특화된 — elite / 정상급의 — traditional / 전통적인"
핵심 단어 영-한.

Q4 Creativity DOK 3

In **"Captain Arsenio,"** show how he feels at the START of a project and how it ENDS, then explain what the story teaches.

MODEL ANSWER

At the Start of a Project: Captain Arsenio begins each invention full of confidence and excitement. He is sure his idea will work and ends every project diary entry with the bold words "It cannot fail!" He shows great patience and determination, even though he has little knowledge of physics and only useless materials. **How the Project Ends:** Each project ends in a comical disaster. The Motocanary flew only a few feet before crashing into a tree, and it took two days to get the captain down. The Flying Runner and the Corkscrewpterus also started off well and then crashed, because he focused on getting off the ground but forgot how to stay in the air or land safely. **What the Story Teaches:** The author makes us laugh at the silly failures while still admiring the captain's passion. **What this shows:** Invention is driven by passion and imagination. Even when an inventor's ideas are eccentric and end in failure, the courage to keep dreaming and trying is part of the inventive adventure.

KEYWORDS (3)

start = full of confidence — "It cannot fail!"

end = a comical crash, like the Motocanary stuck in a tree

lesson = passion and imagination drive invention, even through failure

SCORING NOTES

- Full credit (3): how he feels at the start + how a project ends + the lesson, using the word *imagination*.
- Partial (2): the start and the ending are clear, but no lesson, or no use of *imagination*.
- Minimal (1): only "his inventions failed" with no start/end or lesson.

TEACHING STEPS

Step 1 · Two columns.

강사: *"Make two columns: At the Start / How It Ends."*

코멘트. 두 칸 — 시작할 때 / 끝날 때.

Step 2 · Find the repeated line.

강사: *"Underline 'It cannot fail!' in each project entry."*

코멘트. 각 프로젝트의 'It cannot fail!'에 밑줄.

Step 3 · Lesson sentence.

강사: *"Finish: 'Captain Arsenio teaches us that ____.'"*

코멘트. 문장 완성 — '아르세니오 선장은 우리에게 ____을 가르쳐 준다.'

STUDENT PROMPTS

- "How does the captain feel before each experiment?"
  선장은 각 실험 전에 어떤 기분일까?
- "Why do the projects keep failing?"
  프로젝트들은 왜 계속 실패할까?
- "Can a failure still be worth trying? Why?"

실패해도 도전할 가치가 있을까? 왜?

DIFFERENTIATION

STRUGGLING Match 2 cards ("It cannot fail!" / "crashed into a tree") to the start and the end.

카드 2장 — 'It cannot fail!'과 '나무에 추락'을 시작·끝과 매칭.

ADVANCED Explain how the narrator's funny comments shape the way we see the captain.

해설자의 익살스러운 말이 선장을 보는 시선을 어떻게 바꾸는지 설명.

COMMON MISCONCEPTIONS

PITFALL "Captain Arsenio is a real inventor." He is a made-up fantasy character; only the framing names real pioneers like the Wright brothers.

실존 발명가가 아님 — 지어낸 판타지 인물.

PITFALL "The story wants us to copy his ideas." The author's purpose is to entertain with a funny, eccentric character.

그의 발명을 따라 하라는 게 아님 — 재미를 주려는 목적.

LEARNER PROFILE LINK

RISK-TAKERS The captain dares to try wild ideas, even when they are sure to be hard.

엉뚱한 아이디어에도 과감히 도전 — Risk-taker.

REFLECTIVE Readers reflect on what failure and passion really mean.

실패와 열정의 의미를 되돌아봄 — Reflective.

KOREAN BRIDGE

표현 "Passion and imagination drive invention, even through failure." → "열정과 상상력은 실패를 거치면서도 발명을 이끈다."

창의성(Creativity) 핵심 문장.

단어 "passionate / 열정적인 — eccentric / 별난 — prototype / 시제품 — conceived / 착안하다"

핵심 단어 영-한.

Q5 Inquiry DOK 4

Essential Question: What kinds of circumstances push people to create new inventions? Use ideas from TWO of the selections in this module to answer.

MODEL ANSWER

Many different circumstances push people to invent. In **"Winds of Hope,"** a drought left William Kamkwamba's family hungry and too poor to pay his school fees. This hard circumstance — need and hardship — pushed him to build a windmill from junkyard scrap to bring electricity and water to his village. In **"Wheelchair Sports,"** Marilyn Hamilton broke her back and found that her heavy wheelchair was hard to maneuver for tennis. Her frustration — a problem she lived with every day — pushed her to invent a lighter sports wheelchair using hang-glider technology. **My Big Idea:** As Muriel Strode said, "I will not follow where the path may lead, but I will go where there is no path, and I will leave a trail." People are pushed to invent by many circumstances — hardship and need, a problem to solve, curiosity, or the desire to help others. Across the module, from Edison and Ford's curiosity to William's drought and Marilyn's accident, the same big idea appears: when people face a circumstance that has no easy answer, they create something new to make a path forward.

KEYWORDS (3)

- Winds of Hope = drought and poverty push William to build a windmill
- Wheelchair Sports = an accident and a daily problem push Marilyn to invent a lighter chair
- Big Idea: many circumstances — need, problems, curiosity — push people to invent

SCORING NOTES

- Full credit (4): two selections named + a circumstance that pushed an invention in each + a Big Idea answering the EQ.
- Partial (3): two selections + circumstances, Big Idea weak.
- Developing (2): one selection only.
- Minimal (1): generic ("people invent things") without naming a selection.

SYNTHESIS FRAME

SELECTION 1 IDEA	CONNECTING WORD	SELECTION 2 IDEA
Name a circumstance that pushed an invention: The Inventor's Secret = curiosity and the era's needs push Edison and Ford; Winds of Hope = drought and poverty push William; Wheelchair Sports = an accident and a daily problem push Marilyn; Captain Arsenio = a passionate urge to fly pushes the captain.	BOTH / AND — joins two selections (for example Winds of Hope AND Wheelchair Sports) into one Big Idea answering "What circumstances push people to invent?"	A different selection than Selection 1 — so the two show two different circumstances that push people to invent.

REAL-WORLD CONNECTION

KOREA 발명은 한 가지 이유에서만 나오지 않는다 — 어려움과 필요, 풀고 싶은 문제, 호기심, 남을 돕고 싶은 마음이 모두 사람을 발명으로 이끈다. 길이 없을 때 우리는 새 길을 만든다.

우리 주변의 발명을 EQ와 연결하기.

PERSONAL What problem in YOUR life makes you want to invent or improve something?

네 삶의 어떤 문제가 무언가를 발명하거나 개선하고 싶게 만드니?

RUBRIC

LEVEL	WHAT IT LOOKS LIKE
Exceeding (4)	Names 2 selections + a circumstance that pushed an invention in each + a Big Idea answering the EQ.
Meeting (3)	Names 2 selections + a circumstance for each + a Big Idea.
Approaching (2)	Names 2 selections but only retells facts — no clear answer to the EQ.
Beginning (1)	Generic ("people invent things") without text evidence.

Watch out: Many G5 students will just retell one story (William built a windmill; Marilyn made a chair) and stop. Push them to name the CIRCUMSTANCE that pushed the invention — drought, an accident, curiosity, a daily problem — and to write a Big Idea. The EQ asks what KINDS of circumstances push people to invent, not just what each text is about.

TEACHING STEPS

Step 1 · Two selection cards.

강사: *"Pick 2 selections. For each, name one circumstance that pushed an invention."*

코멘트. 선택지 둘 — 각각 발명을 밀어붙인 상황 하나 적기.

Step 2 · Name the circumstance.

강사: *"Under each, write: was it hardship, a problem, curiosity, or helping others?"*

코멘트. 각각 아래 — 어려움·문제·호기심·이타심 중 무엇인지 적기.

Step 3 · Big Idea sentence.

강사: *"Write one sentence answering the EQ. Use both selections."*

코멘트. EQ에 답하는 한 문장 — 두 선택지 모두 사용.

STUDENT PROMPTS

- "What circumstance pushed the inventor in each selection you chose?"
  고른 선택지마다 어떤 상황이 발명가를 밀어붙였니?
- "How are a drought and a broken back both 'circumstances' that lead to invention?"
  가뭄과 부상이 어떻게 둘 다 발명으로 이어지는 '상황'일까?
- "Why does Muriel Strode's quote fit this module?"
  뮤리얼 스트로드의 인용문이 왜 이 모듈에 어울릴까?

DIFFERENTIATION

STRUGGLING Sentence frame: "In ____, ____ pushed someone to invent ____. In ____, ____ pushed someone to invent ____. Many circumstances push people to invent."

문장 골격 제공.

ADVANCED Use THREE selections and sort the circumstances (hardship / problem / curiosity / helping others).

선택지 셋 사용 — 상황을 종류별로 분류.

COMMON MISCONCEPTIONS

PITFALL "Retelling a story answers the EQ." The EQ asks what KINDS of circumstances push people to invent, not just what each text is about.

이야기 줄거리 말하기는 EQ 답이 아님 — '어떤 상황'인지를 물음.

PITFALL "The quote is by a story author." It is the module EPIGRAPH, by Muriel Strode, not a story author.

인용문은 이야기 작가의 말이 아님 — 모듈 에피그래프(뮤리얼 스트로드).

LEARNER PROFILE LINK

INQUIRERS Asking what pushes people to invent is the heart of inquiry.

무엇이 발명을 밀어붙이는지 묻는 것이 탐구의 핵심 — Inquirer.

THINKERS Building one Big Idea from two texts is real critical thinking.

두 글로 하나의 Big Idea를 세움 — Thinker.

KOREAN BRIDGE

표현 "Many circumstances — hardship, problems, and curiosity — push people to create new inventions." → "어려움·문제·호기심 등 여러 상황이 사람들을 새로운 발명으로 밀어붙인다."

M1 마무리 문장 — 학생 글쓰기 핵심.

인용 "I will not follow where the path may lead, but I will go where there is no path, and I will leave a trail." — Muriel Strode → "길이 이끄는 곳을 따르지 않고, 길이 없는 곳으로 가 흔적을 남기겠다."

에피그래프 — 발명가의 길.

Worksheet D — MAP Practice · Answer Key

20 items · RIT 205 → 225 · Lexile 720L–950L

MAP Mini-Passage Word Counts (Worksheet D)

- Passage 1 · The Lady of the Lamp's Big Idea · **195 words** · Lexile 720–800L · RIT 205–211
- Passage 2 · The Accidental Invention · **199 words** · Lexile 760–840L · RIT 211–217
- Passage 3 · The Girl Who Invented a Sport · **195 words** · Lexile 800–880L · RIT 217–222
- Passage 4 · The Inventor in the Workshop · **204 words** · Lexile 860–950L · RIT 219–225

All four passages within target band 160–230 words; RIT 205→225; Lexile 720L–950L. Word counts match the workbook passage meta exactly. Each passage connects to the module's invention/innovation topic. Passages are NEW — no recall of the four anchor selections.

PASSAGE 1 · THE LADY OF THE LAMP'S BIG IDEA

Q1 RIT 205

D

Lexile 720L · Key Detail. "she was sent to care for wounded soldiers in a crowded army hospital." *Distractors A/B/C off-text.*

Q2 RIT 207

A

Lexile 740L · Cause & Effect. "many men died not from their wounds but from illnesses that spread in the dirt." *Trap B/C/D off-text.*

Q3 RIT 208

B

Lexile 760L · Key Detail. "She carefully counted how many soldiers died each month and drew her numbers as colorful charts." *Trap A/C/D off-text.*

Q4 RIT 210

D

Lexile 780L · Vocabulary. "Leaders who saw her charts were convinced" — convinced = made to believe she was right. *Trap A/B/C take the wrong meaning.*

Q5 RIT 211

C

Lexile 800L · Main Idea. "Her circumstances pushed her to invent better ways of caring for the sick." *Trap A/B/D narrow or off-topic.*

PASSAGE 2 · THE ACCIDENTAL INVENTION

Q6 RIT 211

D

Lexile 760L · Key Detail. "Spencer Silver was trying to create a very strong glue." *Trap A/B/C off-text.*

Q7 RIT 213

B

Lexile 790L · Key Detail. "the paper bookmarks kept slipping out of his hymn book." *Trap A/C/D off-text.*

Q8 RIT 214

A

Lexile 810L · Cause & Effect. "the bookmark stayed in place but did not tear the page when removed." *Trap B/C/D off-text.*

Q9 RIT 215

B

Lexile 820L · Vocabulary. "the little square of paper that clings to a desk" — clings = holds on tightly. *Trap A/C/D take the wrong meaning.*

Q10 RIT 217

C

Lexile 840L · Main Idea. "sometimes a mistake, looked at in a new way, can lead to a great invention." *Trap A/B/D narrow or off-topic.*

PASSAGE 3 · THE GIRL WHO INVENTED A SPORT

Q11 RIT 217

B

Lexile 800L · Key Detail. "invented by a twelve-year-old named Priya." *Trap A/C/D off-text.*

Q12 RIT 218

C

Lexile 820L · Cause & Effect. "her younger brother used a wheelchair and could not join in the games that needed running." *Trap A/B/D off-text.*

Q13 RIT 219

A

Lexile 840L · Sequence. "First, she made a list of rules from games she already liked." *Trap B/C/D out of order.*

Q14 RIT 220

D

Lexile 860L · Inference. "she fixed them, just as an inventor improves a machine" — inventing means testing, finding problems, and improving. *Trap A/B/C misread it.*

Q15 RIT 222

C

Lexile 880L · Main Idea. "a problem you care about, plus a creative idea, can lead to something new that brings people together." *Trap A/B/D trivialize it.*

PASSAGE 4 · THE INVENTOR IN THE WORKSHOP

Q16 RIT 219

C

Lexile 860L · Key Detail. "to build a music box that played a tune he remembered from his childhood." *Trap A/B/D off-text.*

Q17 RIT 220

D

Lexile 880L · Cause & Effect. "This time the box chimed three clear notes before stopping." *Trap A/B/C off-text.*

Q18 RIT 221

A

Lexile 900L · Vocabulary. "sat hunched over his workbench" — hunched = bent his back and leaned forward. *Trap B/C/D take the wrong meaning.*

Q19 RIT 223

B

Lexile 920L · Inference. The box finally "played the whole tune," and he closed his eyes and listened — he is moved with joy. *Trap A/C/D misread the moment.*

Q20 RIT 225

A

Lexile 950L · Theme. "inventing was not about getting it right the first time. It was about caring enough to keep trying … until the idea came to life." *Trap B/C/D trivialize it.*
