## Module Overview

**Essential Question:** How did U.S. westward expansion affect different groups in the nation?
**Quote:** "It takes a thousand voices to tell a single story." — Native American Proverb
**Big Idea Words (4):** victory, native, epic, midland
**Main Selections (workbook 4):**

- Explore the Wild West! · Anita Yasuda (illustrated by Emmanuel Cerisier) · Informational Text (RI)
- The Celestials' Railroad · Bruce Watson · Magazine Article (RI)
- Homesteading · from Prairie Public Broadcasting · Media: Video (RI)
- A Pioneer Sampler · Barbara Greenwood (illustrated by Heather Collins) · Historical Fiction (RL)

Note. The SoT lists 30 core vocabulary items on Worksheet A (4 Big Idea + 8 Explore the Wild West! + 4 The Celestials' Railroad + 5 Homesteading + 9 A Pioneer Sampler), in myBook appearance order. This G5 Teacher's Guide labels each selection's panel "Critical Vocabulary" — the string "Power Words" does not appear in the source. The teacher "Vocabulary Strategy" boxes (A Pioneer Sampler: stalks, steer) and inline LANGUAGE craft notes (idioms such as "a blank canvas," "rough-and-tumble," "reading the weather") are NOT counted as core vocabulary. "Why Go West?" is the Big-Idea Short Read / Informational Text (no Critical Vocabulary panel) and carries the 4 Big Idea Words; it is excluded from the per-selection workbook units. This module is informational-heavy: three of the four vocabulary-bearing selections are informational (RI) and only one, A Pioneer Sampler, is literary (RL).

## Answer Distribution (82 Multiple-Choice Items)

Verified counts across Worksheets A (30), B (32), and D (20). Worksheet C is open-response IB and not counted in MCQ balance.

**A · 21 · B · 20 · C · 21 · D · 20**

*These four totals are the count of correct-answer LETTERS (A/B/C/D) across all 82 multiple-choice items — exactly 21 are "A", 20 are "B", 21 are "C", and 20 are "D". Within each worksheet: Worksheet A = 8 A / 7 B / 8 C / 7 D (30), Worksheet B = 8 / 8 / 8 / 8 (32), Worksheet D = 5 / 5 / 5 / 5 (20). Correct-answer positions are SHUFFLED, not cycled — there is no A-B-C-D repeating pattern in any section. Correct-answer meanings and option texts are preserved from the Source of Truth; only choice order is rotated to balance the letters.*

## Voca Trap Items (Worksheet A)

9 of 30 = 30%, all flagged below. Trap pattern: opposite-meaning / wrong-field baits drawn from the natural meaning field of each word — no hallucination.

- Q3 **epic** — opposite bait ("small and quickly forgotten," "dull and unimportant") vs. "very large and impressive, and sometimes heroic"
- Q5 **knowledge** — opposite bait ("no idea at all about something") vs. "information or understanding about something"
- Q9 **slogans** — opposite / wrong-field bait ("long speeches that are hard to remember," "songs") vs. "short phrases that are catchy and easy to remember"
- Q10 **handy** — opposite / look-alike bait ("not useful at all," "made by hand") vs. "very useful"
- Q12 **consisted** — opposite bait ("had none of those things") vs. "was made up of those things"
- Q21 **ideology** — wrong-field bait ("a single fact you can prove," "a tool for measuring land") vs. "a set of beliefs"
- Q24 **indispensable** — opposite bait ("easy to throw away," "already broken") vs. "necessary"
- Q26 **plod** — opposite bait ("leap high into the air," "run as fast as you can") vs. "move heavily and slowly"
- Q27 **oblivious** — opposite bait ("closely watching it") vs. "unaware of it"

## Reading Trap Items (Worksheet B)

1 of 32 = 3%, flagged below. Trap pattern for Section B: theme/central-idea bait (a true plot detail mistaken for the theme) with length-balanced correct answers so a longest-option-wins guess fails. Distractors built from the SoT only — no hallucination. Three anchors are INFORMATIONAL (RI): Explore the Wild West! (Informational Text), The

Celestials' Railroad (Magazine Article), and Homesteading (Media: Video); one anchor is LITERARY (RL): A Pioneer Sampler (Historical Fiction). Codes used are RI.5.1 / .2 / .3 / .5 / .6 / .8 and RL.5.1 / .2 / .3 / .6. **RI.5.4, RI.5.7, RL.5.4, and RL.5.7 are NOT used**, and there are no "from the text" snippet boxes. The single Section B trap is the theme item on the A Pioneer Sampler selection.

- Q32 **A Pioneer Sampler theme** — "Willy carries water in two buckets," "George gets to cut the hay," "a pony skips by" are true plot details, baited against the real theme: through hard work and cooperation, even a young pioneer can prove that he is needed by his family

Because three selections are informational and one is literary, Section B tests the RI selections with central idea, key details, relationships among events/ideas, text structure (RI.5.5), author's purpose/point of view (RI.5.6), and reasons-and-evidence (RI.5.8), and tests A Pioneer Sampler with RL codes (theme, character, point of view, key details). RI.5.8 fits the reasons-and-evidence structure of Explore the Wild West! and The Celestials' Railroad especially well. Every Section B distractor is grounded in the Source of Truth.

# Source-of-Truth Verification

## How Every Item Is Grounded

Every item on this Answer Key traces to the Source-of-Truth JSON for G5 Module 4, built from the Teaching Pal OCR (3,829 lines, 31 spread-pages) and verified against the PDF intro spreads (every Critical Vocabulary panel was read from a high-resolution crop, and each panel's rounded bottom corner was confirmed so no words are cut off). The V1 selections *Explore the Wild West!* (V1 Teaching Pal pp.250–267) and *The Celestials' Railroad* (V1 Teaching Pal pp.268–277) are grounded in the V1 Teaching Pal and cited as V1 TP p.#. No characters, words, events, statistics, or dates outside the Source of Truth were added.

- **Vocabulary (Worksheet A):** all 30 words come from the module's Big Idea Words (4: victory, native, epic, midland) and the four "Critical Vocabulary" panels — Explore the Wild West! 8, The Celestials' Railroad 4, Homesteading 5, A Pioneer Sampler 9. Each meaning is taken from the surviving inline myNotes glosses printed in the body text (this M4 OCR has NO back-of-book Glossary; the file ends at the Performance Task), checked against the visually-read panels. The teacher Vocabulary Strategy boxes and the craft notes (idioms, multiple-meaning words) are deliberately NOT counted as core vocabulary.
- **Terminology:** this G5 Teacher's Guide labels each panel "Critical Vocabulary," not "Power Words" — the workbook uses that exact label, matching the source.
- **Reading (Worksheet B):** the 32 items use RI.5 codes for the three informational anchors (Explore the Wild West!, The Celestials' Railroad, Homesteading) and RL.5 codes for the one literary anchor (A Pioneer Sampler). Each correct answer is grounded in the Source of Truth; distractors are SoT-anchored, never invented. RI.5.4, RI.5.7, RL.5.4, and RL.5.7 are not used, and there are no "from the text" snippet boxes.
- **Genre & credits:** Explore the Wild West! = Informational Text (by Anita Yasuda, illustrated by Emmanuel Cerisier; the pioneers' journey west by wagon train); The Celestials' Railroad = Magazine Article (by Bruce Watson; the Chinese workers, known as "Celestials," who built the first transcontinental railroad); Homesteading = Media: Video (from Prairie Public Broadcasting; the Homestead Act and homesteading life); A Pioneer Sampler = Historical Fiction (by Barbara Greenwood, illustrated by Heather Collins; the fictional Robertson family in 1840). Only the OCR-excerpted text was used; no outside facts, figures, or dates were added.
- **IB (Worksheet C):** the PYP concepts — Perspective, Causation, Change, Community, Inquiry — follow the Source-of-Truth themes of this social-studies module. The Essential Question text on Q5 matches the workbook word for word. Korean teacher guidance appears in Section C only; Sections A, B, and D are in English. No model answer adds a fact, statistic, or date outside the source — the IB model answers describe only what the OCR-excerpted selections actually show.
- **MAP (Worksheet D):** four NEW passages (194 / 201 / 199 / 201 words), RIT 205→225, Lexile 620L–960L. None recall the four anchor selections; each is a different text on a westward-expansion theme (a Native family's removal, the golden-spike ceremony, building a sod house, Manifest Destiny), in keeping with this social-studies module. Three are informational (RI) and one (Passage 1) is a short literary narrative, matching the module's RI-heavy / one-RL balance.
- **Answer balance:** 82 multiple-choice items distribute as 21 "A" / 20 "B" / 21 "C" / 20 "D"; positions are shuffled (no A-B-C-D cycle); every meaning is preserved from the Source of Truth.

## MAP Mini-Passage Word Counts (Worksheet D)

- Passage 1 · The Long Walk Home · **194 words** · Lexile 620–700L · RIT 205–211
- Passage 2 · Driving the Golden Spike · **201 words** · Lexile 740–840L · RIT 211–217
- Passage 3 · A Roof of Earth · **199 words** · Lexile 760–860L · RIT 217–222
- Passage 4 · Manifest Destiny · **201 words** · Lexile 860–960L · RIT 219–225

Word counts match the workbook passage meta exactly. All four within target band 160–230 words; RIT 205→225; Lexile 620L–960L. Each passage is on a westward-expansion theme, matching this module's social-studies focus. Passages are NEW — no recall of the four anchor selections.

## What This Module Does NOT Contain (Guardrails)

- No "Power Words" label — the G5 source says "Critical Vocabulary."
- No Worksheet E — the V3 workflow uses four worksheets (A · B · C · D).
- The module quote is a "Native American Proverb" and is the EPIGRAPH only — it has no single named author and is NOT a story author.
- "Why Go West?" is the Big-Idea Short Read / Informational Text (no Critical Vocabulary panel) and is excluded from the per-selection units; it carries the 4 Big Idea Words instead. Its author is unverified — no byline in the source.
- Critical Vocabulary counts are 8 / 4 / 5 / 9 = 26, not evened out. Big Idea (4) + Critical (26) = 30 total. The Celestials' Railroad genuinely has the shortest panel (4 words).
- One of the four main selections is a Media: Video (Homesteading). It is still a vocabulary-bearing main selection and is classified RI for CCSS. RI.5.7 (multimedia integration) would be its natural fit but is EXCLUDED per spec, so it is tested with other RI codes.
- The opener Get Curious video is "Life in the Wild West" — a separate opener video, NOT the in-module video selection (Homesteading).
- The topic strand is "SOCIAL STUDIES CONNECTION: Westward Expansion." Module 3 ("Natural Disasters") and Module 5 ("Project Earth": Potatoes on Rooftops, Living Green, The Good Garden, Parrots Over Puerto Rico) are OUT OF SCOPE and are not conflated with any Module-4 selection.
- No outside statistics or dates were invented. The only facts used are those verified in the SoT (the Louisiana Purchase of 1803, the Lewis and Clark expedition of 1804–1806, the Oregon Trail, the May 10, 1869 joining at Promontory, the Homestead Act of 160-acre claims, and the fictional 1840 setting of A Pioneer Sampler). Anita Yasuda and Bruce Watson are the credited V1 authors.
- Performance Task = "Write an Expository Essay."

# Worksheet C — IB Critical Thinking · Answer Key

5 questions · PYP Key Concepts · DOK 2–4

## Q1 Perspective DOK 3

In **"Explore the Wild West!,"** Anita Yasuda shows that the West sounded very different in newspaper ads than it was on the trail. Show each view, then explain why hearing the pioneers' side matters.

### MODEL ANSWER

**What the Newspaper Ads Showed:** Newspaper advertisements "made the West sound amazing." Stories of "plenty of good farmland for everyone," free land in Oregon, and gold encouraged many people in the eastern United States to move. **What Pioneers Really Faced:** The reports "did not give a complete picture of the daily hardships of western life." Pioneers walked all day for weeks, sometimes as far as 2,000 miles, and faced washed-out roads, risky river crossings, snow, and disease. Even fresh water was hard to find — one woman wrote of sucking on a rag soaked in vinegar. **Why hearing the pioneers' side matters:** If we only read the ads, moving west sounds easy and exciting. The pioneers' own words show the hardships behind the journey. Hearing both sides gives us the fuller, truer story. **What this shows:** As the module proverb says, "It takes a thousand voices to tell a single story" — the history of the West is only complete when we listen to the people who lived it.

### KEYWORDS (3)

ads' view = the West sounded amazing, with good farmland and gold

pioneers' view = long walks, river crossings, disease, and little water

why it matters = hearing both sides gives the fuller, truer story of the West

### SCORING NOTES

- Full credit (3): what the ads showed + what pioneers really faced + why hearing the pioneers' side matters, using the word *hardships*.

## Q2 Causation DOK 3

In **"The Celestials' Railroad,"** Chinese workers did hard, dangerous work, yet they were left out of the picture. Show the cause and the effect, then explain what was unfair.

### MODEL ANSWER

**What the Chinese Workers Did:** Thousands of Chinese workers took the dangerous jobs no one else would touch. They hung from ropes over the edges of cliffs, tapped holes into the mountains, and set off dynamite, and they worked 12 hours straight without complaint. It was "on the backs of the Chinese workers that the first transcontinental railroad was built." **How They Were Treated:** Even so, few of the other workers bothered to learn their names. They were known as "Celestials," because they called China the Celestial Kingdom, and no one knows their names today. When the cameras recorded the golden-spike ceremony, the Chinese workers were left out of the picture. **Why it was unfair:** The workers who made the greatest sacrifice received the least credit. Their labor and sacrifice connected the east and west coasts, yet the history left them out, simply because of who they were. **What this shows:** Cause and effect are clear — their hard work built the railroad (cause), but discrimination erased them from the story (effect). True history should remember the people who actually did the work.

### KEYWORDS (3)

- cause = Chinese workers took the dangerous jobs no one else would touch, without complaint
- effect = they were left out of the photograph and the history
- why unfair = the greatest sacrifice received the least credit

### SCORING NOTES

- Full credit (3): what the workers did (cause) + how they were treated (effect) + why it was unfair, using the word *sacrifice*.
- Partial (2): names the work and the unfair treatment but no clear explanation.
- Minimal (1): only "they built the railroad" with no mention of unfairness.

**코멘트.** 문장 완성 — '노동자들은 ____했지만, ____되었다.'

## Q3 Change DOK 3

In **"Homesteading,"** the Homestead Act changed the American West. Show the steps, then explain what a homesteader had to do to keep the land.

### MODEL ANSWER

**The Law:** The Homestead Act offered free, or low-cost, western land. Congress passed a law allowing anyone to claim about 160 acres of land in the West. **What People Did:** Drawn by the promise of free land, many pioneers traveled west, claimed a homestead, and built a residence on the open land. **The Result:** Year by year, settlers turned empty claims into farms, and the once-undeveloped parts of the West were settled and changed. The Homestead Act and the railroads together helped develop America. **What a homesteader had to do to keep the land:** The land was free, but it was not easy. To keep a homestead, a settler had to live on it and improve it — building a home, breaking the tough soil, planting crops, and surviving hard weather. It took years of constant hard work and determination. **What this shows:** The Homestead Act changed the West by inviting ordinary people to earn land through their own labor.

### KEYWORDS (3)

- the law = anyone could claim about 160 acres of western land
- what people did = pioneers moved west and built a homestead
- to keep it = live on it and improve it through years of hard work

### SCORING NOTES

- Minimal (1): only "people got free land" with no detail.

### TEACHING STEPS

**강사:** *"Finish: 'To keep a homestead, a settler had to ____.'"*

**코멘트.** 문장 완성 — '홈스테드를 지키려면 정착민은 ____해야 했다.'

### STUDENT PROMPTS

  홈스테드 법은 사람들에게 무엇을 주었을까?
- "What did a homesteader have to do to keep the land?"

## Q4 Community DOK 3

In **"A Pioneer Sampler,"** young Willy wants to do "real work" and finally proves himself. Show the problem and how he solves it, then explain what the story shows about pioneer families.

### MODEL ANSWER

**Willy's Problem at the Start:** Willy is given the job of carrying water to the workers during the hay harvest. He feels the job is unimportant — "Stupid buckets," he grumbles — and wishes he could do "real work" like his older brother, George, who gets to cut the hay. **How Willy Proves Himself:** When rain threatens the harvest, Willy steers the oxen and helps save a load of hay before it can be ruined. Pa praises him: "You saved that load. You've got a real farmer's eye for weather." **What the story shows about pioneer families:** Pioneer life took constant hard work, and the whole family had to pull together. Even the youngest child, doing a job that seemed small, turned out to be needed. The harvest could not have been saved without everyone helping. **What this shows:** The story shows that in a pioneer family, every member — child and adult alike — had a part to play, and cooperation was the key to survival.

### KEYWORDS (3)

problem = Willy must carry water and wishes he could do "real work"

solution = he steers the oxen and saves a load of hay from the rain

## DIFFERENTIATION

## Q5 Inquiry DOK 4

**Essential Question:** How did U.S. westward expansion affect different groups in the nation? Use ideas from TWO of the selections in this module to answer.

### MODEL ANSWER

U.S. westward expansion affected different groups in very different ways — it brought opportunity to some and hardship or unfair treatment to others. In **"Explore the Wild West!,"** Anita Yasuda shows the pioneers. They went west for gold, farmland, religious freedom, or patriotic reasons, but they faced long walks, risky river crossings, disease, and little fresh water. In **"The Celestials' Railroad,"** Bruce Watson shows another group: the Chinese workers who took the dangerous jobs no one else would touch to build the railroad. Their labor and sacrifice connected the coasts, yet they faced discrimination and were left out of the picture. **My Big Idea:** The same westward expansion that offered pioneers a new life came at a heavy cost — hardships for the pioneers and unfair treatment for the Chinese workers. As the module proverb says, "It takes a thousand voices to tell a single story." To understand the American West, we must listen to all the groups it affected, not just the ones who were celebrated.

### KEYWORDS (3)

Explore the Wild West! = pioneers found new chances but faced many hardships on the trail

The Celestials' Railroad = Chinese workers sacrificed and built the railroad but faced discrimination

Big Idea: expansion affected different groups very differently — opportunity for some, loss for others

### SCORING NOTES

- Full credit (4): two selections named + which group each shows and how expansion affected them + a Big Idea answering the EQ.
- Partial (3): two selections + effects, Big Idea weak.
- Developing (2): one selection only.
- Minimal (1): generic ("the West changed") without naming a selection.

### SYNTHESIS FRAME

| SELECTION 1 IDEA | CONNECTING WORD | SELECTION 2 IDEA |
|---|---|---|
| Name the group and how expansion affected them: Explore the Wild West! = pioneers sought new lives but faced hardships on the trail; The Celestials' Railroad = Chinese workers sacrificed and were left out of the picture; Homesteading = pioneers gained free land through hard work; A Pioneer Sampler = a settler family's life took constant labor and cooperation. | BOTH / WHILE — joins two selections (for example Explore the Wild West! WHILE The Celestials' Railroad) into one Big Idea answering "How did U.S. westward expansion affect different groups in the nation?" | A different group than Selection 1 — so the two show how expansion affected different groups in different ways (opportunity for some, loss for others). |

### REAL-WORLD CONNECTION

KOREA 같은 역사적 사건도 집단에 따라 전혀 다르게 다가온다 — 서부 팽창은 개척민에게는 새 삶의 기회였지만 고난의 길이었고, 중국인 노동자에게는 희생과 차별이었다. 역사를 제대로 알려면 모든 목소리를 들어야 한다.

## RUBRIC

| LEVEL | WHAT IT LOOKS LIKE |
|---|---|
| Exceeding (4) | Names 2 selections + which group each shows and how expansion affected them + a Big Idea answering the EQ. |
| Meeting (3) | Names 2 selections + an effect for each group + a Big Idea. |
| Approaching (2) | Names 2 selections but only retells events — no clear answer to the EQ. |
| Beginning (1) | Generic ("the West grew") without text evidence. |

**Watch out:** Many G5 students will retell one event (the railroad was built; the pioneers walked west) and stop. Push them to name the GROUP and explain HOW expansion affected that group — gain or loss — and to write a Big Idea that compares two groups. The EQ asks how expansion affected DIFFERENT groups, not just what happened.

## TEACHING STEPS

**Step 1 · Two selection cards.**

**강사:** *"Pick 2 selections. For each, name the group it shows."*
**코멘트.** 선택지 둘 — 각각 어떤 집단을 보여 주는지 적기.

**Step 2 · Name the effect.**

**강사:** *"Under each, write how expansion affected that group — a gain or a loss."*
**코멘트.** 각각 아래 — 팽창이 그 집단에 어떤 영향(이득 또는 상실)을 줬는지 적기.

**Step 3 · Big Idea sentence.**

**강사:** *"Write one sentence answering the EQ. Compare both groups."*
**코멘트.** EQ에 답하는 한 문장 — 두 집단을 비교.

## STUDENT PROMPTS

  고른 선택지마다 어떤 집단을 보여 주니?
- "Was expansion a gain or a loss for that group?"
  팽창은 그 집단에게 이득이었을까, 상실이었을까?

ADVANCED Use THREE selections and sort the groups into "gained" and "lost."

PITFALL "Expansion was good (or bad) for everyone." It helped some groups and harmed others — that contrast is the point.
