Module Overview

Essential Question: How can caring for Earth and its living things improve life now and in the future?
Quote: "Only if we understand, can we care. Only if we care, will we help. Only if we help shall all be saved." — Jane Goodall
Big Idea Words (4): imperil, endangered, contaminate, benevolent
Main Selections (workbook 4):

- Potatoes on Rooftops · Hadley Dyer · Persuasive Text (RI)
- Living Green · Doreen Beauregard (illustrated by Tuesday Mourning) · Play (RL)
- The Good Garden · Katie Smith Milway (illustrated by Sylvie Daigneault) · Realistic Fiction (RL)
- Parrots Over Puerto Rico · Susan L. Roth & Cindy Trumbore (collages by Susan L. Roth) · Informational Text (RI)

Note. The SoT lists 29 core vocabulary items on Worksheet A (4 Big Idea + 8 Potatoes on Rooftops + 6 Living Green + 4 The Good Garden + 7 Parrots Over Puerto Rico), in myBook appearance order. This G5 Teacher's Guide labels each selection's panel "Critical Vocabulary" — the string "Power Words" does not appear in the source. The teacher "Vocabulary Strategy" boxes (Potatoes: astounding, vertical, cardiovascular; Living Green: stuff, stores, change; The Good Garden: good/bad, rough/uneven; Parrots: flies, crops, state) and inline LANGUAGE craft notes (idioms such as "state-of-the-art," "no big deal," "catches her eye"; the simile "like a staircase") are NOT counted as core vocabulary. "The Protective Power of Nature Preserves" is the Big-Idea Short Read / Informational Text (no Critical Vocabulary panel) and carries the 4 Big Idea Words; it is excluded from the per-selection workbook units. This module is BALANCED: two of the four vocabulary-bearing selections are informational (RI) and two are literary (RL).

Answer Distribution (81 Multiple-Choice Items)

Verified counts across Worksheets A (29), B (32), and D (20). Worksheet C is open-response IB and not counted in MCQ balance.

A · 21 · B · 20 · C · 20 · D · 20

These four totals are the count of correct-answer LETTERS (A/B/C/D) across all 81 multiple-choice items — exactly 21 are "A", 20 are "B", 20 are "C", and 20 are "D". Within each worksheet: Worksheet A = 8 A / 7 B / 7 C / 7 D (29), Worksheet B = 8 / 8 / 8 / 8 (32), Worksheet D = 5 / 5 / 5 / 5 (20). Correct-answer positions are SHUFFLED, not cycled — there is no A-B-C-D repeating pattern in any section. Correct-answer meanings and option texts are preserved from the Source of Truth; only choice order is rotated to balance the letters.

Voca Trap Items (Worksheet A)

9 of 29 = 31%, all flagged below. Trap pattern: opposite-meaning / wrong-field baits drawn from the natural meaning field of each word — no hallucination.

- Q3 **contaminate** — opposite bait ("make it cleaner and purer") vs. "add a harmful substance to it"
- Q9 **transform** — opposite bait ("keep it exactly the same") vs. "change it from one thing into another"
- Q10 **artificial** — opposite bait ("grown wild in nature") vs. "created by humans rather than nature"
- Q12 **influence** — opposite bait ("have no effect on it at all") vs. "affect or help cause a certain outcome"
- Q15 **implying** — opposite bait ("stating it loudly and directly") vs. "suggesting it without saying it directly"
- Q17 **cascading** — opposite bait ("standing perfectly still," "rising straight up") vs. "falling or flowing like a waterfall"
- Q22 **retreat** — opposite bait ("march straight forward") vs. "move back or away from something"
- Q26 **fort** — opposite/wrong-field bait ("an open field with no walls," "a market") vs. "a strong building protected by guards and a wall"
- Q29 **aggressive** — opposite bait ("calm and gentle") vs. "angry and ready to attack"

How Every Item Is Grounded

Every item on this Answer Key traces to the Source-of-Truth JSON for G5 Module 5, built from the Teaching Pal OCR (4,183 lines, 38 spread-pages) and verified against the PDF intro spreads (every Critical Vocabulary panel was read from a high-resolution crop, and each panel's rounded bottom corner was confirmed so no words are cut off). No characters, words, events, statistics, or dates outside the Source of Truth were added.

- **Vocabulary (Worksheet A):** all 29 words come from the module's Big Idea Words (4: imperil, endangered, contaminate, benevolent) and the four "Critical Vocabulary" panels — Potatoes on Rooftops 8, Living Green 6, The Good Garden 4, Parrots Over Puerto Rico 7. Each meaning is taken from the surviving inline myNotes glosses printed in the body text (this M5 OCR has NO back-of-book Glossary; the file ends at the Performance Task), checked against the visually-read panels. The teacher Vocabulary Strategy boxes and the craft notes (idioms, multiple-meaning words) are deliberately NOT counted as core vocabulary.
- **Terminology:** this G5 Teacher's Guide labels each panel "Critical Vocabulary," not "Power Words" — the workbook uses that exact label, matching the source.
- **Reading (Worksheet B):** the 32 items use RI.5 codes for the two informational anchors (Potatoes on Rooftops, Parrots Over Puerto Rico) and RL.5 codes for the two literary anchors (Living Green, The Good Garden). Each correct answer is grounded in the Source of Truth; distractors are SoT-anchored, never invented. RI.5.4, RI.5.7, RL.5.4, and RL.5.7 are not used, and there are no "from the text" snippet boxes. RL.5.5 is applied to Living Green because the structure of a play (cast, dialogue, stage directions) is a key feature of that selection.
- **Genre & credits:** Potatoes on Rooftops = Persuasive Text (by Hadley Dyer; arguing that urban gardening is valuable and achievable); Living Green = Play (by Doreen Beauregard, illustrated by Tuesday Mourning; three friends change their "mindset" while making a poster); The Good Garden = Realistic Fiction (by Katie Smith Milway, illustrated by Sylvie Daigneault; Maria Luz learns to "feed the soil" in Honduras); Parrots Over Puerto Rico = Informational Text (by Susan L. Roth and Cindy Trumbore, collages by Susan L. Roth; the near-extinction and recovery of the Puerto Rican parrot). Only the OCR-excerpted text was used; no outside facts, figures, or dates were added.
- **IB (Worksheet C):** the PYP concepts — Responsibility, Causation, Change, Community, Inquiry — follow the Source-of-Truth themes of this conservation module. The Essential Question text on Q5 matches the workbook word for word. Korean teacher guidance appears in Section C only; Sections A, B, and D are in English. No model answer adds a fact, statistic, or date outside the source — the IB model answers describe only what the OCR-excerpted selections actually show. For Parrots Over Puerto Rico, only verified facts are used (real history of the Puerto Rican parrot).
- **MAP (Worksheet D):** four NEW passages (206 / 216 / 217 / 217 words), RIT 205→225, Lexile 620L–960L. None recall the four anchor selections; each is a different text on a conservation theme (a community garden, feeding the soil, reducing waste, saving an endangered bird), in keeping with this science module. Two are short literary narratives (Passages 1 and 3) and two are informational (Passages 2 and 4), matching the module's balanced 2-RL / 2-RI design.
- **Answer balance:** 81 multiple-choice items distribute as 21 "A" / 20 "B" / 20 "C" / 20 "D"; positions are shuffled (no A-B-C-D cycle); every meaning is preserved from the Source of Truth.

MAP Mini-Passage Word Counts (Worksheet D)

- Passage 1 · The Empty Lot · **206 words** · Lexile 620–700L · RIT 205–211
- Passage 2 · Feeding the Soil · **216 words** · Lexile 740–840L · RIT 211–217
- Passage 3 · The Last Drop · **217 words** · Lexile 760–860L · RIT 217–222
- Passage 4 · Bringing the Birds Back · **217 words** · Lexile 860–960L · RIT 219–225

Word counts match the workbook passage meta exactly. All four within target band 160–230 words; RIT 205→225; Lexile 620L–960L. Each passage is on a conservation / "Project Earth" theme, matching this module's science focus. Passages are NEW — no recall of the four anchor selections.

What This Module Does NOT Contain (Guardrails)

- No "Power Words" label — the G5 source says "Critical Vocabulary."
- No Worksheet E — this workbook series uses four worksheets (A · B · C · D).
- The module quote is by Jane Goodall (a real primatologist and conservationist) and is the EPIGRAPH only — it is NOT a story author.
- "The Protective Power of Nature Preserves" is the Big-Idea Short Read / Informational Text (no Critical Vocabulary panel) and is excluded from the per-selection units; it carries the 4 Big Idea Words instead. Its author is unverified — no byline in the source.
- Critical Vocabulary counts are 8 / 6 / 4 / 7 = 25, not evened out. Big Idea (4) + Critical (25) = 29 total. The Good Garden genuinely has the shortest panel (4 words).
- The opener Get Curious video is "Planet Home" — a separate opener video. This module has NO in-module video selection; one is not invented.
- The topic strand is "SCIENCE CONNECTION: Conservation." Module 4 ("The American West") and other modules are OUT OF SCOPE and are not conflated with any Module-5 selection.
- No outside statistics or dates were invented. For Parrots Over Puerto Rico, only SoT-verified facts are used (the Tainos named the parrot "iguaca" and the island "Boriquén"; Christopher Columbus sailed to the island in 1493 and claimed it for Spain; the Spaniards called the parrots "cotorras" and renamed the island Puerto Rico; the Boricuas began building a fort in 1539 with walls 18 feet thick; about 2,000 parrots remained by 1937; only 13 wild parrots were left by 1975; Luquillo Aviary opened in 1973; Hispaniolan parrots helped raise chicks; by 1999 the Río Abajo Aviary had 54 parrots). The Good Garden is Realistic Fiction (its characters Maria Luz and Don Pedro are treated as fictional).
- Performance Task = "Write an Opinion Essay."

Purpose/Craft: SoT — repeating "Iguaca! Iguaca!" "grabs readers' attention and helps me 'hear' the birds" across the whole history. *Others off-purpose.*

Q32 RI.5.2

C

Central Idea: human actions both endangered the Puerto Rican parrot and, through years of careful work, helped bring it back (SoT theme). *A/B/D each raise a single detail (feathers / hurricanes / forts and harbor) into a false central idea; B also wrongly blames nature, when the text stresses human causes.*

Worksheet C — IB Critical Thinking · Answer Key

5 questions · PYP Key Concepts · DOK 2–4

Q1 Responsibility DOK 3

In **"Potatoes on Rooftops,"** Hadley Dyer argues that people can grow food in cities. Show a problem city gardeners face and a solution the author describes, then explain why growing food in cities matters.

MODEL ANSWER

A Problem of Growing Food in Cities: Cities are crowded, and there is often very little open ground to plant in. As the author explains, urban gardens tend to be smaller than rural gardens, and a city home or a nearby building can block the sunlight that plants need. **A Solution the Author Describes:** The author shows several solutions. When there is no room to spread out, "one alternative is to go up." Vertical gardens, or "living walls," can transform a plain brick or concrete wall into a space that grows food. People can also use rooftops, containers, and crops that take up less space, such as beans that grow upward. **Why growing food in cities matters:** Growing food in an urban space means fresh, healthy food closer to where people live, and it can save a family money. It also makes city neighborhoods greener. The author points out that during the world wars, millions of garden plots helped feed people when food was short. **What this shows:** With creative solutions, people can grow food even in a crowded city, which helps communities now and in the future.

KEYWORDS (3)

- problem = cities are crowded with little space or sunlight
- solution = grow upward (vertical gardens), use rooftops and containers
- why it matters = fresh food, greener neighborhoods, healthier communities

SCORING NOTES

- Full credit (3): a real problem + a solution from the text + why urban gardening matters, using the word *urban*.
- Partial (2): names a problem and a solution but no clear reason why it matters.
- Minimal (1): only "people grow food in cities" with no problem or solution.

TEACHING STEPS

Step 1 · Two boxes.

강사: *"Label two boxes: A Problem of City Gardening, A Solution from the Text."*

코멘트. 상자 두 칸 — 도시 텃밭의 문제·본문이 제시한 해결책.

Step 2 · Find the solution.

강사: *"Underline a sentence about growing upward, on rooftops, or in containers."*

코멘트. '위로 키운다', 옥상, 화분 관련 문장에 밑줄.

Step 3 · Responsibility sentence.

강사: *"Finish: 'Growing food in cities matters because ____.'"*

코멘트. 문장 완성 — '도시에서 식량을 기르는 일이 중요한 이유는 ____.'

STUDENT PROMPTS

- "Why is it hard to grow food in a crowded city?"
  붐비는 도시에서 식량을 기르기 어려운 이유는?
- "What is one solution the author gives?"
  작가가 제시한 해결책 하나는?
- "How does growing food in cities help people?"
  도시 텃밭은 사람들에게 어떻게 도움이 될까?

DIFFERENTIATION

STRUGGLING Match 2 cards ("not enough space" / "grow up a wall") to problem and solution.
카드 2장 — '공간 부족'과 '벽을 따라 위로 키우기'를 문제·해결과 매칭.

ADVANCED Explain why the author calls the Sky Farm idea "the right kind of dreaming."
작가가 스카이 팜을 '올바른 종류의 꿈'이라 부른 이유 설명.

COMMON MISCONCEPTIONS

PITFALL "Food can only be grown on farms in the countryside." The text shows many ways to grow food in cities.
식량은 시골 농장에서만 기르는 게 아님 — 도시에서도 여러 방법이 있음.

PITFALL "This is a made-up story." It is a persuasive text giving the author's real opinion and evidence.
지어낸 이야기가 아님 — 작가의 의견과 근거를 담은 설득하는 글.

LEARNER PROFILE LINK

CARING Growing food in cities is a way of caring for one's community and the Earth.
도시 텃밭은 공동체와 지구를 돌보는 방법 — Caring.

THINKERS Finding new ways to grow food in small spaces takes creative thinking.
좁은 공간에서 식량을 기르는 새 방법을 찾는 것은 창의적 사고 — Thinker.

KOREAN BRIDGE

표현 "When there is no room to spread out, you can grow up." → "옆으로 펼칠 공간이 없으면, 위로 키우면 된다."
책임(Responsibility) 핵심 문장.

단어 "urban / 도시의 — alternative / 대안 — transform / 바꾸다 — yield / 생산하다"
핵심 단어 영-한.

Q2 Causation DOK 3

In **"Parrots Over Puerto Rico,"** human actions both harmed and helped the parrots. Show one cause and its effect, then explain how people brought the parrots back.

MODEL ANSWER

A Human Action (Cause): Over many years, people cut down the forests where the parrots built their nests, turned the parrots' old trees into charcoal, and hunted and trapped the birds. **What Happened to the Parrots (Effect):** The parrots began to disappear from places where they had flown for millions of years. Their numbers fell and fell, until by 1975 only thirteen wild parrots were left in the rain forest. **How people brought the parrots back:** Worried scientists started a recovery program. They opened safe aviaries, kept eggs warm in incubators, and had Hispaniolan parrots help raise the chicks. They built deep nesting boxes that kept pearly-eyed thrashers away, and they trained captive-bred parrots to avoid hawks before releasing them into the wild. Slowly the number of parrots grew. **What this shows:** Human action was the cause that endangered the parrots, but careful human action also became the cause that helped save them — showing that people can repair some of the harm they do to living things.

KEYWORDS (3)

cause = people cut forests and hunted the parrots

effect = the parrots nearly died out (only 13 left by 1975)

brought back = aviaries, foster parrots, nesting boxes, hawk-avoidance training

SCORING NOTES

- Full credit (3): a cause + its effect + how people helped the parrots recover, using the word *endangered*.
- Partial (2): names a cause and effect but not how people helped.
- Minimal (1): only "the parrots almost died out" with no cause or solution.

TEACHING STEPS

Step 1 · Cause and effect boxes.

강사: *"Label two boxes: A Human Action (Cause), What Happened to the Parrots (Effect)."*

코멘트. 상자 두 칸 — 인간의 행동(원인)·앵무새에게 일어난 일(결과).

Step 2 · Find the low point.

강사: *"Underline the sentence that tells how many parrots were left by 1975."*

코멘트. 1975년에 앵무새가 몇 마리 남았는지 알려 주는 문장에 밑줄.

Step 3 · Recovery sentence.

강사: *"Finish: 'People helped the parrots by ___.'"*

코멘트. 문장 완성 — '사람들은 ____해서 앵무새를 도왔다.'

STUDENT PROMPTS

- "What did people do that caused the parrots to disappear?"
  앵무새가 사라지게 만든 사람들의 행동은?
- "How low did the number of wild parrots get?"
  야생 앵무새 수는 얼마나 줄었을까?
- "What steps did scientists take to save them?"

과학자들은 앵무새를 구하려고 어떤 단계를 밟았을까?

DIFFERENTIATION

STRUGGLING Match 2 cards ("forests cut down" / "parrots nearly died out") to cause and effect.

카드 2장 — '숲이 베어짐'과 '앵무새가 거의 사라짐'을 원인·결과와 매칭.

ADVANCED Explain how the SAME force — human action — both harmed and saved the parrots.

같은 힘(인간의 행동)이 앵무새를 해치기도 구하기도 한 점을 설명.

COMMON MISCONCEPTIONS

PITFALL "The parrots disappeared by accident." People cut their forests and hunted them — it was caused by human action.

우연히 사라진 게 아님 — 숲 벌목과 사냥 등 인간 행동이 원인.

PITFALL "Nothing could be done." Scientists' careful work helped the parrots recover.

손쓸 수 없던 게 아님 — 과학자들의 노력으로 회복.

LEARNER PROFILE LINK

CARING Working to save an endangered species shows care for living things.

멸종 위기종을 구하는 노력은 생명에 대한 배려 — Caring.

KNOWLEDGEABLE Understanding cause and effect helps us protect nature.

원인과 결과를 이해하면 자연을 보호할 수 있음 — Knowledgeable.

Q3 Change DOK 3

In **"The Good Garden,"** Don Pedro's ideas change Maria Luz's garden and her family. Show the steps, then explain how learning to care for the soil changed her family's life.

MODEL ANSWER

The Problem: Drought and insects were ruining the crops, and the land had "gone bad." Maria Luz's family might have to borrow seeds from the coyote, and her father had to leave to find work. **What Maria Luz Did:** The new teacher, Don Pedro, taught her to "feed the soil." She learned to make compost from old leaves and waste, to build terraces that keep the soil from washing downhill, and to plant marigolds to keep insects away. She tried these new ways in her family's garden at home. **The Result:** Her garden began to thrive. Her radishes grew fat, and Don Pedro gave her a packet of radish seeds that would sell for a good price at the market. She even taught her baby brother, Pepito, to help. **How it changed her family's life:** Learning to care for the soil meant the family could grow enough food and earn money, instead of losing their crops or their farm to the coyote. When Papa returned, he was proud of all she had grown and learned. **What this shows:** By changing how she cared for the soil, Maria Luz helped move her family from hunger toward having enough.

KEYWORDS (3)

problem = drought and insects ruined the crops; the land had gone bad

what she did = made compost, built terraces, planted marigolds to "feed the soil"

result = the garden thrived; radishes to sell; family had enough

SCORING NOTES

- Full credit (3): the problem + what Maria Luz did + the result, plus how it changed her family's life, with one detail.
- Partial (2): names some steps but not how the family's life changed.
- Minimal (1): only "she made a garden" with no detail.

TEACHING STEPS

Step 1 · Three boxes.

강사: *"Fill three boxes: The Problem, What Maria Luz Did, The Result."*

코멘트. 세 칸 — 문제·마리아 루스가 한 일·결과. 각 칸 채우기.

Step 2 · Find the lesson.

강사: *"Underline Don Pedro's words: 'We must feed the soil and make it good again.'"*

코멘트. 돈 페드로의 말 '흙을 먹이고 다시 좋게 만들어야 한다'에 밑줄.

Step 3 · Change sentence.

강사: *"Finish: 'Learning to feed the soil changed the family because ____.'"*

코멘트. 문장 완성 — '흙을 먹이는 법을 배운 것이 가족을 바꾼 이유는 ____.'

STUDENT PROMPTS

- "What was wrong with the land at the start?"
  처음에 땅에는 무슨 문제가 있었을까?
- "What new ways did Maria Luz learn from Don Pedro?"

마리아 루스는 돈 페드로에게서 어떤 새 방법을 배웠을까?

- "How did the garden change her family's life?"
  그 정원은 가족의 삶을 어떻게 바꿨을까?

DIFFERENTIATION

STRUGGLING Put 3 cards in order: "land gone bad," "make compost and terraces," "radishes grow."
카드 3장 순서대로 — '땅이 나빠짐'·'퇴비와 계단밭 만들기'·'무가 자람'.

ADVANCED Explain why "feeding the soil" helped more than just planting more seeds.
씨앗만 더 심는 것보다 '흙을 먹이는' 것이 더 도움이 된 이유 설명.

COMMON MISCONCEPTIONS

PITFALL "The story is about real people." It is realistic fiction; Maria Luz and Don Pedro are fictional characters.
실존 인물 이야기가 아님 — 사실주의 소설 속 허구 인물.

PITFALL "The coyote is a real animal in the story." Señor Lobo is a grain buyer shown in the art as a coyote; he stands for someone who takes advantage of poor farmers.
코요테는 실제 동물이 아니라 가난한 농부를 착취하는 곡물상을 상징.

Q4 Community DOK 3

In **"Living Green,"** three friends change how they think about caring for the planet. Show what they believed at first and what they decided to do, then explain what the play shows about small actions.

MODEL ANSWER

What Bo Thought at First: At the start, Bo thinks taking care of the planet is "no big deal." She says the group already knows a lot about conservation, so making the poster "will be easy," and she doubts that fifth graders can really change anything. **What the Friends Decided to Do:** After Grace asks whether their actions match their words, the friends change their "mindset." They reuse the old poster board instead of taking a new piece, plan to catch cold shower water to water plants, suggest wearing a sweater instead of turning up the heat, donate extra "stuff," and avoid an extra car trip to save gas. **What the play shows about small actions:** The friends realize that "all these little things, every day, year after year—they add up." One small choice may seem minor, but when everyone makes such choices, together they make a real difference for the environment. **What this shows:** The play shows that a community of people, even young students, can help the planet when each person changes small, everyday habits.

KEYWORDS (3)

- at first = Bo thinks it is "no big deal" and easy
- decided = reuse the board, save shower water, wear a sweater, skip extra car trips
- what it shows = small daily actions add up to a big difference

SCORING NOTES

- Full credit (3): what the friends believed at first + what they decided to do + what the play shows about small actions, with one detail.
- Partial (2): names the change but no clear lesson about small actions.
- Minimal (1): only "they made a poster" with no change of mindset.

TEACHING STEPS

Step 1 · Two columns.

강사: *"Make two columns: What Bo Thought at First / What the Friends Decided to Do."*

코멘트. 두 칸 — 보가 처음 생각한 것 / 친구들이 하기로 한 것.

Step 2 · Find the turning point.

강사: *"Underline Grace's question: 'Do our actions contradict our words?'"*

코멘트. 그레이스의 질문 '우리 행동이 말과 어긋나지 않나?'에 밑줄.

Step 3 · Community sentence.

강사: *"Finish: 'Small actions matter because ____.'"*

코멘트. 문장 완성 — '작은 행동이 중요한 이유는 ____.'

STUDENT PROMPTS

- "What did Bo think about saving the planet at first?"
  보는 처음에 지구를 지키는 일을 어떻게 생각했을까?

- "What is one new thing the friends decided to do?"
  친구들이 하기로 한 새로운 일 하나는?
- "Why do small, everyday actions matter?"
  작고 일상적인 행동이 왜 중요할까?

DIFFERENTIATION

STRUGGLING Match 2 cards ("no big deal" / "change our mindset") to the start and the end.
카드 2장 — '별일 아냐'와 '마음가짐을 바꾸자'를 처음·끝과 매칭.

ADVANCED Explain why being "role models for the little kids" is part of the friends' reason to change.
'동생들의 본보기'가 친구들이 변하기로 한 이유에 어떻게 들어가는지 설명.

COMMON MISCONCEPTIONS

PITFALL "One person's small action does nothing." The play shows small actions add up when many people do them.
한 사람의 작은 행동이 무의미한 게 아님 — 여럿이 모이면 큰 효과.

PITFALL "Kids are too young to help the planet." Eva reminds them they are role models for younger children.
아이는 너무 어려서 못 돕는 게 아님 — 동생들의 본보기가 됨.

LEARNER PROFILE LINK

REFLECTIVE The friends reflect on whether their actions match their words.
행동과 말이 일치하는지 돌아보는 친구들 — Reflective.

PRINCIPLED They choose to do the right thing in small, daily ways.

Q5 Inquiry DOK 4

Essential Question: How can caring for Earth and its living things improve life now and in the future? Use ideas from TWO of the selections in this module to answer.

MODEL ANSWER

Caring for Earth and its living things can improve life by giving people healthier food, safer surroundings, and a richer natural world — now and for years to come. In **"Potatoes on Rooftops,"** Hadley Dyer shows that when people grow food in cities, using rooftops, walls, and small plots, they create fresh food and greener, healthier neighborhoods, even where space is limited. In **"Parrots Over Puerto Rico,"** Susan L. Roth and Cindy Trumbore show that when people work to protect an endangered species, building aviaries and nesting boxes and training the birds, they can bring a parrot back from the edge of disappearing, so the species can keep living in the future. **My Big Idea:** In both selections, caring for the Earth takes effort and creative thinking, but it pays off. Whether people are growing food in a city or saving a species, caring for the living world makes life better today and protects it for the future. As Jane Goodall says, "Only if we care, will we help."

KEYWORDS (3)

- Potatoes on Rooftops = growing food in cities gives fresh food and greener neighborhoods
- Parrots Over Puerto Rico = protecting an endangered species saves it for the future
- Big Idea: caring for the Earth takes effort but improves life now and in the future

SCORING NOTES

- Full credit (4): two selections named + how caring for Earth improves life in each + a Big Idea answering the EQ.
- Partial (3): two selections + effects, Big Idea weak.
- Developing (2): one selection only.
- Minimal (1): generic ("we should help the Earth") without naming a selection.

SYNTHESIS FRAME

SELECTION 1 IDEA	CONNECTING WORD	SELECTION 2 IDEA
Name the selection and how caring for Earth improves life: Potatoes on Rooftops = growing food in cities gives fresh food and greener neighborhoods; The Good Garden = caring for the soil takes a family from hunger to having enough; Living Green = small daily habits add up to help the planet; Parrots Over Puerto Rico = protecting an endangered species brings it back.	BOTH / WHILE — joins two selections (for example Potatoes on Rooftops WHILE Parrots Over Puerto Rico) into one Big Idea answering "How can caring for Earth and its living things improve life now and in the future?"	A different selection than Selection 1 — so the two together show more than one way that caring for Earth and its living things improves life.

RUBRIC

LEVEL	WHAT IT LOOKS LIKE
Exceeding (4)	Names 2 selections + how caring for Earth improves life in each + a Big Idea answering the EQ.
Meeting (3)	Names 2 selections + an effect for each + a Big Idea.
Approaching (2)	Names 2 selections but only retells events — no clear answer to the EQ.
Beginning (1)	Generic ("caring is good") without text evidence.

> **Watch out:** Many G5 students will retell one event (the parrots were saved; the garden grew) and stop. Push them to explain HOW caring for Earth or its living things improves life — for people, for a species, or for the future — and to write a Big Idea that connects two selections. The EQ asks how caring improves life now AND in the future.

TEACHING STEPS

Step 1 · Two selection cards.

강사: *"Pick 2 selections. For each, name what people care for."*

코멘트. 선택지 둘 — 각각 사람들이 무엇을 돌보는지 적기.

Step 2 · Name the benefit.

강사: *"Under each, write how that care improves life now or in the future."*

코멘트. 각각 아래 — 그 보살핌이 지금이나 미래의 삶을 어떻게 낫게 하는지 적기.

Step 3 · Big Idea sentence.

강사: *"Write one sentence answering the EQ. Connect both selections."*

코멘트. EQ에 답하는 한 문장 — 두 선택지를 연결.

STUDENT PROMPTS

- "In each selection you chose, what do people care for?"
  고른 선택지마다 사람들은 무엇을 돌보니?
- "How does that care make life better, now or later?"
  그 보살핌은 지금이나 나중에 삶을 어떻게 낫게 할까?

All four passages within target band 160–230 words; RIT 205→225; Lexile 620L–960L. Word counts match the workbook passage meta exactly. Each passage is on a conservation / "Project Earth" theme, matching this module's science focus. Passages are NEW — no recall of the four anchor selections.

PASSAGE 1 · THE EMPTY LOT

Q1 RIT 205

B

Lexile 620L · Key Detail. "an empty lot full of weeds and broken bricks. People threw their trash there." *Distractors A/C/D off-text.*

Q2 RIT 207

C

Lexile 640L · Cause & Effect. "Slowly, one by one, they began to help." *Trap A/B/D off-text.*

Q3 RIT 208

A

Lexile 660L · Key Detail. "Anyone who helped could take home what they needed." *Trap B/C/D off-text.*

Q4 RIT 210

D

Lexile 685L · Inference. "People who had never spoken before traded recipes over the fence." *Trap A/B/C miss the point.*

Q5 RIT 211

C

Lexile 700L · Theme. "When you care for a small piece of the Earth, it cares for all of us back." *A contradicts the outcome (the lot WAS changed); B shrinks the theme to money; D overgeneralizes the grandmother's age.*

PASSAGE 2 · FEEDING THE SOIL

Q6 RIT 211

A

Lexile 740L · Key Detail. "A single handful can hold billions of tiny living things, from worms and insects to bacteria." *Trap B/C/D off-text.*

Q7 RIT 213

D

Lexile 770L · Vocabulary. "break the pile down into a dark, crumbly material called compost ... returns nutrients to the soil." *Trap A/B/C take the wrong meaning.*

Q8 RIT 214

B

Lexile 800L · Cause & Effect. "compost returns nutrients to the soil ... composting also keeps waste out of landfills, so it helps the planet in two ways at once." *Trap A/C/D off-text.*

Q9 RIT 215

C

Lexile 820L · Author's Purpose. Cover crops and crop rotation are given as "other tricks" farmers use to protect and care for the soil. *Trap A/B/D off-purpose.*

Q10 RIT 217

A

Lexile 840L · Main Idea. "if you want to feed people, you must first feed the soil ... keeps it healthy for the harvests of tomorrow." *B/C narrow the passage to one detail (composting / soil life); D contradicts it ("plants struggle, no matter how much water they get").*

PASSAGE 3 · THE LAST DROP

Q11 RIT 217

D

Lexile 760L · Key Detail. "her teacher asked the class to keep a 'waste diary' for one week." *Trap A/B/C off-text.*

Q12 RIT 218

B

Lexile 790L · Character. "Nina thought saving the planet was a job for scientists, not for an eleven-year-old." *Trap A/C/D off-text.*

Q13 RIT 219

C

Lexile 820L · Cause & Effect. "her family's water bill had dropped, and the kitchen trash was lighter." *Trap A/B/D off-text.*

Q14 RIT 220

A

Lexile 840L · Inference. "If one person wasted that much, what about a whole city of people?" — small amounts add up across many people. *Trap B/C/D miss the point.*

Q15 RIT 222

D

Lexile 860L · Theme. "One person could not fix everything alone. But if everyone saved their own 'last drop,' all those small amounts would add up to something huge." *A is Nina's starting belief that the passage refutes; B inverts the theme; C shrinks it to saving money.*

PASSAGE 4 · BRINGING THE BIRDS BACK

Q16 RIT 219

B

Lexile 860L · Key Detail. "With wings stretching nearly ten feet, it is one of the largest flying birds in North America." *Trap A/C/D off-text.*

Q17 RIT 220

A

Lexile 890L · Cause & Effect. "Power lines, hunting, and a poison called lead ... had pushed the species to the edge." *Trap B/C/D off-text.*

Q18 RIT 221

D

Lexile 910L · Key Detail. "sometimes using hand puppets shaped like adult condors so the young birds would not grow too used to people." *Trap A/B/C off-text.*

Q19 RIT 223

C

Lexile 935L · Author's Purpose. "The work is not finished, and the condors still face dangers" — a reminder the recovery is not complete. *Trap A/B/D off-purpose.*

Q20 RIT 225

B

Lexile 960L · Main Idea. "even a species on the edge can be saved when people decide to act." *A over-focuses one fact (wing size); C draws a false negative ("mostly failed"); D raises one tool (puppets) into the whole cause.*
