Module Overview

Essential Question: How do different art forms impact people in different ways?
Quote: "The world is but canvas to our imaginations." — Henry David Thoreau
Big Idea Words (4): provoking, classic, tribute, striking
Main Selections (workbook 4):

- Christo and Jeanne-Claude: Through the Gates and Beyond · Jan Greenberg & Sandra Jordan · Informational Text (RI)
- Rita Moreno (from *Portraits of Hispanic American Heroes*) · Juan Felipe Herrera (paintings by Raúl Colón) · Biography (RI)
- Play, Louis, Play! The True Story of a Boy and His Horn · Muriel Harris Weinstein (illustrated by Patrick Morgan) · Fictionalized Biography (RL)
- Phillis's Big Test · Catherine Clinton (illustrated by Sean Qualls) · Biography (RI)

Note. The SoT lists 31 core vocabulary items on Worksheet A (4 Big Idea + 10 Christo and Jeanne-Claude + 5 Rita Moreno + 5 Play, Louis, Play! + 7 Phillis's Big Test), in myBook appearance order. This G5 Teacher's Guide labels each selection's panel "Critical Vocabulary" — the string "Power Words" does not appear in the source. The teacher "Vocabulary Strategy" boxes (Christo: riveted, fielded; Rita Moreno: garment, sultry; Play, Louis, Play!: influential, mentor) are NOT counted as core vocabulary. "Let's Get Creative" is the module's Big-Idea Short Read / Infographic (no Critical Vocabulary panel) and carries the 4 Big Idea Words; it is excluded from the per-selection workbook units. This module is INFORMATIONAL-HEAVY: three of the four vocabulary-bearing selections are informational (RI) and only one — Play, Louis, Play! — is literary (RL), because it is a fictionalized biography.

Answer Distribution (83 Multiple-Choice Items)

Verified counts across Worksheets A (31), B (32), and D (20). Worksheet C is open-response IB and not counted in MCQ balance.

A · 21 · B · 21 · C · 21 · D · 20

These four totals are the count of correct-answer LETTERS (A/B/C/D) across all 83 multiple-choice items — exactly 21 are "A", 21 are "B", 21 are "C", and 20 are "D". Within each worksheet: Worksheet A = 8 A / 8 B / 8 C / 7 D (31), Worksheet B = 8 / 8 / 8 / 8 (32), Worksheet D = 5 / 5 / 5 / 5 (20). Correct-answer positions are SHUFFLED, not cycled — there is no A-B-C-D repeating pattern in any section. Correct-answer meanings and option texts are preserved from the Source of Truth; only choice order is rotated to balance the letters.

Voca Trap Items (Worksheet A)

9 of 31 = 29%, all flagged below. Trap pattern: opposite-meaning / wrong-field baits drawn from the natural meaning field of each word — no hallucination.

- Q4 **striking** — opposite bait ("dull and easy to ignore") vs. "very impressive or noticeable"
- Q6 **controversy** — opposite bait ("all agree about it at once") vs. "people have strong feelings and disagreements about it"
- Q7 **skeptical** — opposite bait ("completely sure it is true") vs. "you have doubts about it"
- Q10 **persistence** — opposite bait ("gives up at the first problem") vs. "keeps doing something even when it is hard"
- Q12 **ingenious** — opposite bait ("dull and ordinary," "copied from someone else") vs. "very clever or new"
- Q18 **authentic** — opposite bait ("fake or phony") vs. "real and true to himself or herself"
- Q21 **contagious** — opposite bait ("stays with only one person") vs. "spreads quickly among people"
- Q22 **fever** — wrong-field bait ("a sore throat and a cough," "a chill") vs. "a feeling of great excitement"
- Q29 **advised** — opposite bait ("kept your ideas to yourself and said nothing") vs. "told your ideas about what he or she should do"

How Every Item Is Grounded

Every item on this Answer Key traces to the Source-of-Truth JSON for G5 Module 6, built from the Teaching Pal OCR (5,007 lines, 40 spread-pages including the back-of-book Glossary) and verified against the PDF intro spreads (every Critical Vocabulary panel was read from a high-resolution crop, and each panel's rounded bottom corner was confirmed so no words are cut off). The V1 selection *Phillis's Big Test* (V1 Teaching Pal pp.56–71) is grounded in the V1 Teaching Pal and cited as V1 TP p.#; its 7 Critical Vocabulary meanings are the printed footnote definitions. No characters, words, events, statistics, or dates outside the Source of Truth were added.

- **Vocabulary (Worksheet A):** all 31 words come from the module's Big Idea Words (4: provoking, classic, tribute, striking) and the four "Critical Vocabulary" panels — Christo and Jeanne-Claude 10, Rita Moreno 5, Play, Louis, Play! 5, Phillis's Big Test 7. Each meaning is taken verbatim from the back-of-book Glossary, cross-checked against the surviving inline myNotes glosses and the visually-read panels. The teacher Vocabulary Strategy boxes are deliberately NOT counted as core vocabulary.
- **Terminology:** this G5 Teacher's Guide labels each panel "Critical Vocabulary," not "Power Words" — the workbook uses that exact label, matching the source.
- **Reading (Worksheet B):** the 32 items use RI.5 codes for the three informational anchors (Christo and Jeanne-Claude, Rita Moreno, Phillis's Big Test) and RL.5 codes for the one literary anchor (Play, Louis, Play!). Each correct answer is grounded in the Source of Truth; distractors are SoT-anchored, never invented. RI.5.4, RI.5.7, RL.5.4, and RL.5.7 are not used, and there are no "from the text" snippet boxes.
- **Genre & credits:** Christo and Jeanne-Claude = Informational Text (by Jan Greenberg and Sandra Jordan; the real environmental artists and their public artwork "The Gates"); Rita Moreno = Biography (by Juan Felipe Herrera, paintings by Raúl Colón; excerpt from *Portraits of Hispanic American Heroes*); Play, Louis, Play! = Fictionalized Biography (by Muriel Harris Weinstein, illustrated by Patrick Morgan; a fictionalized boyhood of Louis Armstrong); Phillis's Big Test = Biography (by Catherine Clinton, illustrated by Sean Qualls; the poet Phillis Wheatley). Only the OCR-excerpted text was used; no outside facts, figures, or dates were added.
- **IB (Worksheet C):** the PYP concepts — Perseverance, Identity, Impact, Creativity, Inquiry — follow the Source-of-Truth themes of this arts module. The Essential Question text on Q5 matches the workbook word for word. Korean teacher guidance appears in Section C only; Sections A, B, and D are in English. No model answer adds a fact, statistic, or date outside the source — the IB model answers describe only what the OCR-excerpted selections actually show.
- **MAP (Worksheet D):** four NEW passages (196 / 206 / 216 / 215 words), RIT 205→225, Lexile 620L–960L. None recall the four anchor selections; each is a different text on an art-forms theme (a community mural, how murals tell a story, a young cellist, an architect who listens), in keeping with this arts module. Two are short literary narratives (Passages 1 and 3) and two are informational (Passages 2 and 4).
- **Answer balance:** 83 multiple-choice items distribute as 21 "A" / 21 "B" / 21 "C" / 20 "D"; positions are shuffled (no A-B-C-D cycle); every meaning is preserved from the Source of Truth.

MAP Mini-Passage Word Counts (Worksheet D)

- Passage 1 · The Mural on Maple Street · **196 words** · Lexile 620–700L · RIT 205–211
- Passage 2 · How Murals Tell a Story · **206 words** · Lexile 740–840L · RIT 211–217
- Passage 3 · The Quiet Cellist · **216 words** · Lexile 760–860L · RIT 217–222
- Passage 4 · The Architect Who Listened · **215 words** · Lexile 860–960L · RIT 219–225

Word counts match the workbook passage meta exactly. All four within target band 160–230 words; RIT 205→225; Lexile 620L–960L. Each passage is on an art-forms theme, matching this module's focus. Passages are NEW — no recall of the four anchor selections.

What This Module Does NOT Contain (Guardrails)

- No "Power Words" label — the G5 source says "Critical Vocabulary."
- No Worksheet E — the V3 workflow uses four worksheets (A · B · C · D).
- The module quote is by Henry David Thoreau (a real American essayist and poet) and is the EPIGRAPH only — it is NOT a story author.
- "Let's Get Creative" is the Big-Idea Short Read / Infographic (no Critical Vocabulary panel) and is excluded from the per-selection units; it carries the 4 Big Idea Words instead. Its author is unverified — no byline in the source.
- Critical Vocabulary counts are 10 / 5 / 5 / 7 = 27, not evened out. Big Idea (4) + Critical (27) = 31 total. Christo and Jeanne-Claude genuinely has the longest panel (10 words).
- The opener Get Curious video is "The World Around Us" — a separate opener video. This module has NO in-module video selection; one is not invented.
- The topic strand is "SOCIAL STUDIES CONNECTION: The Arts." Other modules are OUT OF SCOPE and are not conflated with any Module-6 selection.
- No outside biographical facts were invented. Christo (1935–2020) and Jeanne-Claude (1935–2009) were real environmental artists; "The Gates" (Central Park, February 2005) is an accurate historical artwork. Rita Moreno is a real Puerto Rican performer (her 1962 Oscar for *West Side Story* and a 2004 Presidential Medal are accurate). Louis Armstrong (1901–1971) and Joe "King" Oliver were real jazz musicians — Play, Louis, Play! is a FICTIONALIZED biography (dialogue and scenes are imagined). Phillis Wheatley was a real poet; the only dates used for her (1772, 1773, December 1784) are those printed in the V1 text. Only SoT-verified facts are used; no invented dates beyond those in the source.
- Performance Task = "Write an Expository Essay."

Worksheet C — IB Critical Thinking · Answer Key

5 questions · PYP Key Concepts · DOK 2–4

Q1 Perseverance DOK 3

In **"Christo and Jeanne-Claude: Through the Gates and Beyond,"** the artists faced controversy before their work was built. Show a problem they faced and how they overcame it, then explain why their persistence mattered.

MODEL ANSWER

A Problem the Artists Faced: Christo and Jeanne-Claude wanted to put a huge work of art in Central Park, but their idea caused a controversy. The mayor was skeptical of their proposal, and it seemed as if everyone had an opinion about whether the project should happen. They also had to figure out how to set up thousands of gates without digging holes in the park's grass, and who would pay for such an ambitious undertaking. **How They Overcame It:** The artists kept working on the idea for many years. They found an ingenious solution — solid bases that held the gates up without digging into the ground. They paid for the whole project themselves. After 26 years of energy and persistence, they finally got a "yes," and "The Gates" was set up along the paths of Central Park in 2005. **Why their persistence mattered:** Without persistence, the artists would have given up when people doubted them. Because they kept going for so long, an idea many people once questioned became a striking work of public art that thousands of people came to see. **What this shows:** An ambitious work of art can overcome controversy when the artists believe in their vision and refuse to give up.

KEYWORDS (3)

problem = controversy; a skeptical mayor and many opinions

overcame = 26 years of persistence; an ingenious solution; paid for it themselves

why it mattered = a doubted idea became a striking public artwork

SCORING NOTES

- Full credit (3): a real problem + how they overcame it + why persistence mattered, using the word *persistence*.
- Partial (2): names a problem and a solution but no clear reason why persistence mattered.
- Minimal (1): only "they built an artwork" with no problem or solution.

Q2 Identity DOK 3

In **"Rita Moreno,"** the actress faced unfair, stereotypical roles. Show the challenge she faced and the choice she made, then explain how she became a role model.

MODEL ANSWER

A Challenge She Faced: Early in her career, Rita Moreno was often given stereotypical roles that did not show who she really was. Hollywood had discriminatory practices that limited the parts a Puerto Rican performer could play. **The Choice She Made:** Rita Moreno chose to fight these unfair practices instead of accepting them. She worked hard at her talent for acting, singing, and dancing. She took on the strong, willful role of Anita in *West Side Story*, a performance that helped her win an Oscar, and she refused to keep playing the same stereotypical parts. **How she became a role model:** By staying true to herself, Rita Moreno became an authentic model for Latine children. She showed that a performer could be proud of her identity and still reach the very top of her field. The text notes that she was later honored with a Presidential Medal. **What this shows:** Through talent and determination, an artist can break through discrimination and become an authentic role model for others.

KEYWORDS (3)

Q3 Impact DOK 3

In **"Play, Louis, Play!"** a mentor helps Louis, and Louis's music changes how people feel. Show the steps, then explain how one person's music can impact others.

MODEL ANSWER

The Start: Louis began as a poor boy in New Orleans with a simple "hock-shop horn." He loved music but had little money and no easy path to a career. **The Help:** The cornet player Joe "King" Oliver noticed young Louis. He became Louis's mentor and friend and gave him what may have been his biggest break — a chance to play. The two even played duets and took turns playing solos. **The Impact:** As Louis played, his music set everyone "in a fever." The excitement was contagious, spreading quickly from listener to listener. With his mentor's help and his own gift, Louis grew into one of the most influential figures in jazz. **How one person's music can impact others:** One musician's playing can change how a whole room of people feels, filling them with excitement and joy. Music can spread from person to person almost like a feeling that catches on. **What this shows:** With a mentor's help and his own talent, a poor boy's music can spread joy and change his life and the lives of those who hear it.

Q4 Creativity DOK 3

In **"Phillis's Big Test,"** a young enslaved poet had to prove that her poems were her own. Show what inspired Phillis to write and how she shared her poems, then explain how poetry can impact people.

MODEL ANSWER

What Inspired Phillis to Write: Phillis was brought from Africa to Boston as an enslaved child. The Wheatleys' twins, Nathaniel and Mary, "eagerly shared their lessons" and taught her English, Latin, and Greek. Books "opened up a whole new world" to her, and "glorious sonnets had inspired her to try her own hand at writing." **How She Shared Her Poems:** Soon she was "reciting her poems to the Wheatleys' friends." But she "was not content to recite her verse in drawing rooms" — she wanted her own book. To prove the poems were hers, she faced eighteen learned men, and they signed a document "testifying to Wheatley's authorship." **How poetry can impact people:** Phillis knew that books "would be there for her children and her children's children." Her book, published in 1773, made her the first African American to publish a book of poetry. **What this shows:** Poetry can inspire a young writer, and a book of poems can carry one person's voice to many people for years to come.

KEYWORDS (3)

inspired = books, glorious sonnets, and the twins' lessons

shared = recited to friends; a book published in 1773

impact = a book lasts for her children's children

Q5 Inquiry DOK 4

Essential Question: How do different art forms impact people in different ways? Use ideas from TWO of the selections in this module to answer.

MODEL ANSWER

Different art forms impact people in different ways — some surprise a whole city, while others change how one person feels. In **"Christo and Jeanne-Claude: Through the Gates and Beyond,"** a huge work of public art impacts thousands of people at once. After 26 years of persistence, the artists filled Central Park's paths with striking fabric gates, and people from New York to Japan came to see and talk about the work. In **"Play, Louis, Play!"** the art of music impacts people in a more personal, feeling way. When Louis Armstrong played, his music set everyone "in a fever," and the excitement was contagious, spreading from listener to listener. **My Big Idea:** Both selections show that art has power, but it reaches people differently. A giant public artwork can bring a whole city together to wonder and discuss, while a single musician's playing can fill people with joy and excitement. Different art forms — visual art and music — impact people in their own special ways, just as the Essential Question suggests.

KEYWORDS (3)

- Christo and Jeanne-Claude = public art impacts a whole city at once
- Play, Louis, Play! = music impacts people's feelings, person to person
- Big Idea: different art forms impact people in their own ways

SCORING NOTES

- Full credit (4): two selections named + how each art form impacts people + a Big Idea answering the EQ.
- Partial (3): two selections + impacts, Big Idea weak.
- Developing (2): one selection only.
- Minimal (1): generic ("art is good") without naming a selection.

SYNTHESIS FRAME

SELECTION 1 IDEA	CONNECTING WORD	SELECTION 2 IDEA
Name the selection and how its art form impacts people: Christo and Jeanne-Claude = public art moves a whole city to wonder and discuss; Rita Moreno = acting and performance break stereotypes and inspire others; Play, Louis, Play! = music fills people with excitement; Phillis's Big Test = poetry lets one voice be heard for generations.	BOTH / WHILE — joins two selections (for example Christo and Jeanne-Claude WHILE Play, Louis, Play!) into one Big Idea answering "How do different art forms impact people in different ways?"	A different selection than Selection 1 — so the two together show more than one way that art forms impact people.

REAL-WORLD CONNECTION

KOREA 서로 다른 예술 형태는 사람들에게 저마다 다른 방식으로 영향을 준다 — 거대한 공공 미술은 도시 전체를 놀라게 하고, 음악은 한 사람 한 사람의 마음을 움직인다.

Meeting (3)	Names 2 selections + an impact for each + a Big Idea.
Approaching (2)	Names 2 selections but only retells events — no clear answer to the EQ.
Beginning (1)	Generic ("art is good") without text evidence.

Watch out: Many G5 students will retell one event (the gates were set up; Louis played his horn) and stop. Push them to explain HOW the art form impacts people — a whole city, a community, or one listener — and to write a Big Idea that connects two selections. The EQ asks how different art forms impact people in DIFFERENT ways.

TEACHING STEPS

Step 1 · Two selection cards.

강사: *"Pick 2 selections. For each, name the art form."*

코멘트. 선택지 둘 — 각각의 예술 형태를 적기.

Step 2 · Name the impact.

강사: *"Under each, write how that art form impacts people."*

코멘트. 각각 아래 — 그 예술이 사람들에게 어떤 영향을 주는지 적기.

Step 3 · Big Idea sentence.

강사: *"Write one sentence answering the EQ. Connect both selections."*

코멘트. EQ에 답하는 한 문장 — 두 선택지를 연결.

STUDENT PROMPTS

  고른 선택지마다 어떤 예술 형태가 나오니?
