CCSS RI.4.4 · L.4.4

Directions. Read each short passage. Choose the best meaning of the bold word as it is used.

Q1 RI.4.4

All the household waste Americans create comes to about 164 million tons each year. But this is only an **estimate** from the US government.

What does **estimate** mean here?

- ○ **A.** a list of trash
- ○ **B.** a count of every single item
- ○ **C.** a rule made by the government
- ○ **D.** a rough calculation of how much there is

Q2 RI.4.4

The 164 million tons is only an estimate. No one knows the **exact** amount of household waste Americans create.

What does **exact** mean here?

- ○ **A.** only close, not quite right
- ○ **B.** very large and heavy
- ○ **C.** completely correct in every detail
- ○ **D.** dirty and smelly

Q3 RI.4.4

The government says it is about 164 million tons a year. In fact, some **experts** believe it might be up to seven times that amount!

What does **experts** mean here?

- ○ **A.** people who buy new things
- ○ **B.** people who know a lot about a subject
- ○ **C.** people who know nothing about a subject
- ○ **D.** people who collect trash

Q4 RI.4.4

No one knows the exact amount of household waste. **In any case**, a huge number of unwanted items end up in the garbage.

What does **in any case** mean here?

- **A.** no matter what is true
- **B.** only if everything goes as planned
- **C.** for a very long time
- **D.** inside a box or bag

Q5 RI.4.4

No one knows the exact amount of household waste. In any case, a huge number of **unwanted** items end up in the garbage.

What does **unwanted** mean here?

- **A.** brand new and shiny
- **B.** heavy and hard to lift
- **C.** badly needed and loved
- **D.** not needed or wished for anymore

Q6 RI.4.4

A huge number of unwanted items end up in the garbage. There are four basic **categories** of household waste.

What does **categories** mean here?

- **A.** groups of things that are alike in some way
- **B.** piles of garbage
- **C.** single things that stand alone
- **D.** places where trash is burned

Q7 RI.4.4

Paper is one kind of household waste. Paper **makes up** more than one-quarter of the materials Americans throw away.

What does **makes up** mean here?

- **A.** to tell a story that isn't true
- **B.** to throw something away
- **C.** to be a part of a whole
- **D.** to be left out of the whole

Q8 RI.4.4

Trash does not just disappear. When products are thrown away, they often **end up** in landfills.

What does **end up** mean here?

- **A.** to clean up a room
- **B.** to finally be in a place or situation
- **C.** to start out somewhere
- **D.** to stand up straight

Q9 RI.4.4

When products are thrown away, they often end up in landfills. These are places where trash is **buried** in the ground.

What does **buried** mean here?

- **A.** to put something in the ground and cover it
- **B.** to throw something into the ocean
- **C.** to burn something in a fire
- **D.** to dig something up out of the ground

Q10 RI.4.4

Some trash is buried in landfills. Other trash items are burned in **incinerators**.

What does **incinerators** mean here?

- **A.** big bins that keep trash cold
- **B.** big trucks that carry trash
- **C.** big ovens that burn trash
- **D.** big holes where trash is buried

Q11 RI.4.4

Trash can harm the air. For instance, when paper **rots** in landfills or burns in incinerators, it sends out greenhouse gases.

What does **rots** mean here?

- **A.** to blow away in the wind
- **B.** to go soft and bad as it slowly breaks down
- **C.** to stay fresh and whole
- **D.** to turn into plastic

Q12 RI.4.4

When paper rots or burns, it sends out greenhouse gases. These gases **trap** heat in Earth's atmosphere.

What does **trap** mean here?

- **A.** to cool something down
- **B.** to let something escape
- **C.** to keep something from getting out
- **D.** to clean the air

Q13 RI.4.4

What does **as a result** mean here?

- **A.** at the end of a race
- **B.** for no reason at all
- **C.** as quickly as possible
- **D.** because of what happened

Q18 RI.4.4

There are easy ways to make less trash. When shopping, bring **reusable** bags instead of using disposable plastic bags.

What does **reusable** mean here?

- **A.** very heavy to carry
- **B.** made to be thrown away after one use
- **C.** made of shiny paper
- **D.** made to be filled and carried again and again, not thrown away

Q19 RI.4.4

Throwing things away is not the only choice. When you are ready to **get rid of** something, look for ways to reuse it.

What does **get rid of** mean here?

- **A.** to buy something new
- **B.** to fix something broken
- **C.** to throw away or give away something you no longer need
- **D.** to keep something for a long time

Q20 RI.4.4

Scientists are studying whether a fungus can eat plastic. That would help **cut back on** all the plastic trash that fills up landfills.

What does **cut back on** mean here?

- **A.** to cut paper with scissors
- **B.** to reduce how much of something you use
- **C.** to wrap food in plastic
- **D.** to add a lot more of something
