"Natural Disasters" — Module 3 Word Power

INTO READING · GRADE 5 · 113 WORDS

HOW TO USE THIS BOOK

Each set takes the module's words through six steps — meaning, blanks, synonyms & antonyms, reading, word partners, and stories — just like a Wordly Wise lesson.

WORD SETS

1	**Story 1. Who Studies Natural Disasters?**	· Warm-Up	15 WORDS
2	**Story 2. Eruption! Volcanoes and the Science of Saving Lives**	· Main Story	30 WORDS
3	**Story 3. Between the Glacier and the Sea: The Alaska Earthquake**	· Warm-Up	8 WORDS
4	**Story 4. Quaking Earth, Racing Waves**	· Main Story	30 WORDS
5	**Story 5. Hurricanes: The Science Behind Killer Storms**	· Main Story	30 WORDS

NAME _____ DATE _____

CCSS L.5.4 · L.5.5 · L.5.6

NAME _____ DATE _____

Directions. Read each word. Fill in the circle next to the meaning that matches BEST.

WORD LIST

suggested · explored · firsthand · breathtaking · occurrence · notable · processes · tremors · spontaneous · thrilling · budding · analyzing · hazards · forecast · every bit as

Q1 L.5.5

suggested

- ○ **A.** to say what will probably happen, especially with the weather
- ○ **B.** to travel around a place to learn about it
- ○ **C.** to give an idea about what someone could do
- ○ **D.** to order someone to do something

Q2 L.5.5

explored

- ○ **A.** to leave a place quickly
- ○ **B.** to travel around a place to learn about it
- ○ **C.** to give an idea about what someone could do
- ○ **D.** to study something carefully to understand it

Q3 L.5.5

firsthand

- ○ **A.** directly, by seeing or doing it yourself
- ○ **B.** from far away
- ○ **C.** by reading about it later
- ○ **D.** just as much as

Q4 L.5.5

breathtaking

- A. slightly scary
- B. so beautiful or amazing that it surprises you
- C. happening naturally without being planned
- D. just starting to develop and showing promise

Q5 L.5.5

occurrence

- A. a small earthquake or a shaking movement
- B. a series of actions or changes that happen one after another
- C. a place where something is kept
- D. something that happens; an event

Q6 L.5.5

notable

- A. very recent
- B. worth noticing because it is important or unusual
- C. just starting to develop and showing promise
- D. very exciting

Q7 L.5.5

processes

- A. a series of actions or changes that happen one after another
- B. a single sudden accident
- C. something that happens; an event
- D. a danger or something that could cause harm

Q8 L.5.5

tremors

- A. a series of actions or changes that happen one after another
- B. a big ocean wave
- C. something that happens; an event
- D. a small earthquake or a shaking movement

Q9 L.5.5

spontaneous

- A. happening naturally without being planned
- B. happening very slowly
- C. worth noticing because it is important or unusual
- D. so beautiful or amazing that it surprises you

Q10 L.5.5

thrilling

- A. just starting to develop and showing promise
- B. very frightening
- C. very exciting
- D. worth noticing because it is important or unusual

Q11 L.5.5

budding

- A. happening naturally without being planned
- B. very exciting
- C. very old and tired
- D. just starting to develop and showing promise

Q12 L.5.5

analyzing

- A. to guess without looking closely
- B. to travel around a place to learn about it
- C. to study something carefully to understand it
- D. to say what will probably happen, especially with the weather

Q13 L.5.5

hazards

- A. a danger or something that could cause harm
- B. a small earthquake or a shaking movement
- C. something that happens; an event
- D. a kind of warning sign

Q14 L.5.5

forecast

- **A.** to give an idea about what someone could do
- **B.** to study something carefully to understand it
- **C.** to say what will probably happen, especially with the weather
- **D.** to remember what happened in the past

Q15 L.5.5

every bit as

- **A.** directly, by seeing or doing it yourself
- **B.** slightly less than
- **C.** far away from
- **D.** just as much as

2 Fill in the Blank

Set 1 · Story 1. Who Studies Natural Disasters? · Part 2 of 6

CCSS L.5.4 · L.5.5 · L.5.6

Directions. Choose the word that best fills in the blank.

WORD LIST

suggested · explored · firsthand · breathtaking · occurrence · notable · processes · tremors · spontaneous · thrilling · budding · analyzing · hazards · forecast · every bit as

Q1 L.5.6

My teacher _____ that I read this book.

○ **A.** explored ○ **B.** suggested ○ **C.** forecast ○ **D.** analyzing

Q2 L.5.6

The kids _____ the old cave with flashlights.

○ **A.** analyzing ○ **B.** suggested ○ **C.** explored ○ **D.** forecast

Q3 L.5.6

She learned _____ how hard farm work is.

○ **A.** thrilling ○ **B.** hazards ○ **C.** every bit as ○ **D.** firsthand

Q4 L.5.6

From the mountaintop, the view was _____.

○ **A.** breathtaking ○ **B.** occurrence ○ **C.** budding ○ **D.** spontaneous

Q5 L.5.6

Snow in July is a rare _____ here.

○ **A.** tremors ○ **B.** occurrence ○ **C.** hazards ○ **D.** processes

Q6 L.5.6

The museum has a(n) _____ collection of old maps.

○ **A.** spontaneous ○ **B.** notable ○ **C.** thrilling ○ **D.** budding

Q7 L.5.6

Scientists study the _____ that shape mountains.

◯ **A.** hazards ◯ **B.** occurrence ◯ **C.** tremors ◯ **D.** processes

Q8 L.5.6

We felt small _____ before the big earthquake.

◯ **A.** hazards ◯ **B.** occurrence ◯ **C.** tremors ◯ **D.** processes

Q9 L.5.6

Our class broke into _____ applause.

◯ **A.** spontaneous ◯ **B.** budding ◯ **C.** breathtaking ◯ **D.** notable

Q10 L.5.6

The roller coaster ride was _____.

◯ **A.** notable ◯ **B.** firsthand ◯ **C.** thrilling ◯ **D.** budding

Q11 L.5.6

The _____ artist sold her first painting.

◯ **A.** thrilling ◯ **B.** budding ◯ **C.** breathtaking ◯ **D.** spontaneous

Q12 L.5.6

The detective is _____ the clues.

◯ **A.** analyzing ◯ **B.** forecast ◯ **C.** explored ◯ **D.** suggested

Q13 L.5.6

Icy roads are common winter _____.

◯ **A.** tremors ◯ **B.** occurrence ◯ **C.** processes ◯ **D.** hazards

Q14 L.5.6

Experts _____ heavy snow for tomorrow.

◯ **A.** explored ◯ **B.** suggested ◯ **C.** analyzing ◯ **D.** forecast

Q15 L.5.6

My little sister is _____ smart as I am.

◯ **A.** breathtaking ◯ **B.** firsthand ◯ **C.** every bit as ◯ **D.** notable

3 Synonyms, Antonyms & Pairs

Set 1 · Story 1. Who Studies Natural Disasters? · Part 3 of 6

CCSS L.5.4 · L.5.5 · L.5.6

Directions. Items 1-6: choose the SYNONYM (same meaning). Items 7-11: choose the ANTONYM (opposite). Items 12-15: choose the example that FITS the word.

Q1 L.5.5

SAME Choose the synonym of **suggested**:

○ **A.** borrowed ○ **B.** shivered ○ **C.** whistled ○ **D.** recommended

Q2 L.5.5

SAME Choose the synonym of **explored**:

○ **A.** folded ○ **B.** toured ○ **C.** polished ○ **D.** sneezed

Q3 L.5.5

SAME Choose the synonym of **breathtaking**:

○ **A.** itchy ○ **B.** stunning ○ **C.** crooked ○ **D.** soggy

Q4 L.5.5

SAME Choose the synonym of **analyzing**:

○ **A.** examining ○ **B.** knitting ○ **C.** giggling ○ **D.** skipping

Q5 L.5.5

SAME Choose the synonym of **forecast**:

○ **A.** scrub ○ **B.** sew ○ **C.** predict ○ **D.** wobble

Q6 L.5.5

SAME Choose the synonym of **every bit as**:

○ **A.** equally ○ **B.** loudly ○ **C.** barely ○ **D.** rarely

Q7 L.5.5

OPPOSITE Choose the antonym of **firsthand**:

○ **A.** for free ○ **B.** upside down ○ **C.** secondhand ○ **D.** on purpose

Q8 L.5.5

OPPOSITE Choose the antonym of **notable**:

◯ **A.** hollow ◯ **B.** salty ◯ **C.** fuzzy ◯ **D.** ordinary

Q9 L.5.5

OPPOSITE Choose the antonym of **spontaneous**:

◯ **A.** planned ◯ **B.** bitter ◯ **C.** rusty ◯ **D.** fluffy

Q10 L.5.5

OPPOSITE Choose the antonym of **thrilling**:

◯ **A.** sticky ◯ **B.** sour ◯ **C.** square ◯ **D.** boring

Q11 L.5.5

OPPOSITE Choose the antonym of **budding**:

◯ **A.** dusty ◯ **B.** experienced ◯ **C.** crunchy ◯ **D.** wooden

Q12 L.5.5

GOES WITH Choose the example that fits **occurrence**:

◯ **A.** a solar eclipse that people watched in the sky ◯ **B.** a pair of glasses for looking at the sun

◯ **C.** a star chart that people hang on the wall ◯ **D.** a telescope that people use to view the sky

Q13 L.5.5

GOES WITH Choose the example that fits **processes**:

◯ **A.** a bottle of water in a lunch box ◯ **B.** water heating up, turning to steam, then rising

◯ **C.** a puddle of water in the driveway ◯ **D.** a glass of cold water on the kitchen table

Q14 L.5.5

GOES WITH Choose the example that fits **tremors**:

◯ **A.** dishes drying in a rack beside the sink ◯ **B.** dishes stacked neatly in a kitchen cabinet

◯ **C.** dishes rattling on a shelf as the floor jiggles ◯ **D.** dishes set out on a table for dinner

Q15 L.5.5

GOES WITH Choose the example that fits **hazards**:

◯ **A.** a wet, slippery floor near the pool ◯ **B.** a dry towel folded on a pool chair

◯ **C.** a cool drink at the pool snack bar ◯ **D.** a lifeguard watching swimmers at the pool

4 Read & Infer

Set 1 · Story 1. Who Studies Natural Disasters? · Part 4 of 6

CCSS RI.5.4 · L.5.4

Directions. Read each short passage. Choose the best meaning of the bold word as it is used.

Q1 RI.5.4

Robin wanted advice about careers. Robin's teacher **suggested** sending a letter to Professor Melendez.

What does **suggested** mean here?

- ○ **A.** to send a letter
- ○ **B.** to give an idea about what someone could do
- ○ **C.** to order someone to do something
- ○ **D.** to teach a class

Q2 RI.5.4

Robin wrote about a family trip. 'Last year, my family **explored** Kilauea, a volcano in Hawaii.'

What does **explored** mean here?

- ○ **A.** to climb to the top
- ○ **B.** to leave a place quickly
- ○ **C.** to take a photo
- ○ **D.** to travel around a place to learn about it

Q3 RI.5.4

Robin's family took a tour of the volcano. 'We saw **firsthand** how a breathtaking natural occurrence can also lead to disaster.'

What does **firsthand** mean here?

- ○ **A.** in a very short time
- ○ **B.** by reading about it later
- ○ **C.** directly, by seeing or doing it yourself
- ○ **D.** from far away

Q4 RI.5.4

Robin's family took a tour of the volcano. 'We saw firsthand how a **breathtaking** natural occurrence can also lead to disaster.'

What does **breathtaking** mean here?

- **A.** very hot
- **B.** so beautiful or amazing that it surprises you
- **C.** very loud
- **D.** slightly scary

Q5 RI.5.4

Robin learned that a volcano can be both beautiful and dangerous. 'We saw firsthand how a breathtaking natural **occurrence** can also lead to disaster.'

What does **occurrence** mean here?

- **A.** something that happens; an event
- **B.** a guided tour
- **C.** a kind of volcano
- **D.** a place where something is kept

Q6 RI.5.4

A tour guide told Robin's family about the volcano. 'Our guide explained that a **notable** eruption in 2014 almost destroyed the nearby town of Pahoa.'

What does **notable** mean here?

- **A.** very recent
- **B.** worth noticing because it is important or unusual
- **C.** very hot
- **D.** very dangerous

Q7 RI.5.4

Robin had many questions about volcanoes. 'What **processes** inside the earth cause them?'

What does **processes** mean here?

- **A.** a list of questions
- **B.** a single sudden accident
- **C.** a series of actions or changes that happen one after another
- **D.** a type of rock

Q8 RI.5.4

Robin lives in California. 'We experience earthquake **tremors** in California sometimes and have to practice safety drills for them.'

What does **tremors** mean here?

- **A.** a crack in a sidewalk
- **B.** a loud thunderclap
- **C.** a small earthquake or a shaking movement
- **D.** a big ocean wave

Q9 RI.5.4

Robin finds earthquakes exciting and scary. 'The **spontaneous** shaking of the earth has always left me feeling both fascinated and scared!'

What does **spontaneous** mean here?

- **A.** very loud
- **B.** happening naturally without being planned
- **C.** very strong
- **D.** happening very slowly

Q10 RI.5.4

Robin has read about other natural disasters. 'I think the swirling winds and drenching rains of hurricanes are as **thrilling** as earthquakes.'

What does **thrilling** mean here?

- **A.** very frightening
- **B.** very windy
- **C.** very exciting
- **D.** very wet

Q11 RI.5.4

Professor Melendez was happy to get Robin's letter. 'The world needs **budding** scientists like you!'

What does **budding** mean here?

- **A.** very famous
- **B.** very old and tired
- **C.** very busy
- **D.** just starting to develop and showing promise

Q12 RI.5.4

Professor Melendez described scientists who study volcanoes. 'They also spend time in labs **analyzing** data about the eruptions.'

What does **analyzing** mean here?

- **A.** to guess without looking closely
- **B.** to give a tour
- **C.** to climb a volcano
- **D.** to study something carefully to understand it

Q13 RI.5.4

Professor Melendez wrote about earthquakes. 'Scientists called seismologists help us prepare for these natural **hazards**.'

What does **hazards** mean here?

- **A.** a danger or something that could cause harm
- **B.** a type of storm
- **C.** a safety drill
- **D.** a kind of warning sign

Q14 RI.5.4

Professor Melendez described another kind of scientist. 'These scientists **forecast** the weather or study the atmosphere and the world's climate.'

What does **forecast** mean here?

- **A.** to say what will probably happen, especially with the weather
- **B.** to build a lab
- **C.** to remember what happened in the past
- **D.** to study rocks

Q15 RI.5.4

Professor Melendez agreed with Robin about hurricanes. 'Hurricanes can be **every bit as** dangerous as eruptions and earthquakes; you're absolutely right.'

What does **every bit as** mean here?

- **A.** slightly less than
- **B.** far away from
- **C.** much faster than
- **D.** just as much as

Q1 L.5.6

Dad _____ we leave early to beat the traffic.

◯ **A.** explored ◯ **B.** forecast ◯ **C.** suggested ◯ **D.** analyzing

Q2 L.5.6

We _____ the forest trail all afternoon.

◯ **A.** explored ◯ **B.** analyzing ◯ **C.** suggested ◯ **D.** forecast

Q3 L.5.6

The reporter saw the flood damage _____.

◯ **A.** every bit as ◯ **B.** firsthand ◯ **C.** budding ◯ **D.** notable

Q4 L.5.6

The fireworks show was truly _____.

◯ **A.** firsthand ◯ **B.** spontaneous ◯ **C.** budding ◯ **D.** breathtaking

Q5 L.5.6

Thunderstorms are a common _____ in summer.

◯ **A.** occurrence ◯ **B.** hazards ◯ **C.** processes ◯ **D.** tremors

Q6 L.5.6

The town is _____ for its old stone bridge.

◯ **A.** budding ◯ **B.** spontaneous ◯ **C.** thrilling ◯ **D.** notable

Q7 L.5.6

Baking bread involves several _____.

○ **A.** processes ○ **B.** tremors ○ **C.** occurrence ○ **D.** hazards

Q8 L.5.6

The _____ made the dishes rattle in the cabinet.

○ **A.** hazards ○ **B.** occurrence ○ **C.** tremors ○ **D.** processes

Q9 L.5.6

We didn't plan it at all; we just took a(n) _____ trip to the beach.

○ **A.** breathtaking ○ **B.** budding ○ **C.** spontaneous ○ **D.** notable

Q10 L.5.6

The game had a(n) _____ ending.

○ **A.** budding ○ **B.** thrilling ○ **C.** notable ○ **D.** suggested

Q11 L.5.6

Our school has many _____ musicians.

○ **A.** thrilling ○ **B.** budding ○ **C.** spontaneous ○ **D.** breathtaking

Q12 L.5.6

The coach spent hours _____ the game video.

○ **A.** explored ○ **B.** forecast ○ **C.** suggested ○ **D.** analyzing

Q13 L.5.6

The sign warned hikers about _____ on the trail.

○ **A.** tremors ○ **B.** occurrence ○ **C.** hazards ○ **D.** processes

Q14 L.5.6

It is hard to _____ who will win the game.

○ **A.** suggested ○ **B.** explored ○ **C.** forecast ○ **D.** analyzing

Q15 L.5.6

The sequel was _____ good as the first movie.

○ **A.** thrilling ○ **B.** every bit as ○ **C.** breathtaking ○ **D.** firsthand

NAME _____ DATE _____

Directions. Read each word. Fill in the circle next to the meaning that matches BEST.

WORD LIST

horrified · ramping up · seismographs · plummeted · clogged · evacuation · reservoir · intently · relocated · conferring · hordes · burden · diminished · peter out · consequences · weighed heavily on · detour · widespread · funneled · displacing · relieved · second-guessing · disastrous · dissipate · on edge · jolted · obscured · alarming · victim · breakneck

Q1 L.5.5

horrified

- ○ **A.** blocked so that nothing can pass through
- ○ **B.** slightly surprised
- ○ **C.** found or happening over a large area
- ○ **D.** very shocked and upset

Q2 L.5.5

ramping up

- ○ **A.** to become stronger or more active
- ○ **B.** to hide something so it cannot be seen clearly
- ○ **C.** to stay exactly the same
- ○ **D.** to become smaller or less

Q3 L.5.5

seismographs

- ○ **A.** machines that measure and record how much the ground shakes
- ○ **B.** the results of an action, often bad ones
- ○ **C.** tools that measure how hot the air is
- ○ **D.** a place where a large amount of something is stored

Q4 L.5.5

plummeted

- **A.** to rise a little
- **B.** to drop quickly to a much lower level
- **C.** to force people to leave their homes
- **D.** to wake or move someone suddenly and roughly

Q5 L.5.5

clogged

- **A.** nervous and unable to relax
- **B.** blocked so that nothing can pass through
- **C.** cracked into pieces
- **D.** dangerously fast

Q6 L.5.5

evacuation

- **A.** the act of moving people away from a dangerous place
- **B.** the act of building a new town
- **C.** very large crowds of people
- **D.** a person who is hurt or killed by something bad

Q7 L.5.5

reservoir

- **A.** a narrow tunnel to the surface
- **B.** a different, longer route taken to get somewhere
- **C.** the act of moving people away from a dangerous place
- **D.** a place where a large amount of something is stored

Q8 L.5.5

intently

- **A.** to move someone or something to a new place
- **B.** with a big smile
- **C.** with a loud voice
- **D.** with close attention

Q9 L.5.5

relocated

- A. to move through a narrow space
- B. to slowly spread out and disappear
- C. to move someone or something to a new place
- D. to leave someone behind

Q10 L.5.5

conferring

- A. to drop quickly to a much lower level
- B. to doubt a decision after you have made it
- C. to argue loudly
- D. to talk with others to share ideas before deciding

Q11 L.5.5

hordes

- A. something difficult or heavy that someone has to deal with
- B. quiet pairs of close friends
- C. machines that measure and record how much the ground shakes
- D. very large crowds of people

Q12 L.5.5

burden

- A. something difficult or heavy that someone has to deal with
- B. a person who is hurt or killed by something bad
- C. very large crowds of people
- D. something that makes life easier

Q13 L.5.5

diminished

- A. to make someone worry a lot
- B. to stay strong
- C. to talk with others to share ideas before deciding
- D. to become smaller or less

Q14 L.5.5

peter out

- **A.** to slowly become less and then stop
- **B.** to start suddenly
- **C.** to talk with others to share ideas before deciding
- **D.** to become stronger or more active

Q15 L.5.5

consequences

- **A.** the results of an action, often bad ones
- **B.** the reasons for doing something
- **C.** a place where a large amount of something is stored
- **D.** the act of moving people away from a dangerous place

Q16 L.5.5

weighed heavily on

- **A.** to become stronger or more active
- **B.** to slowly become less and then stop
- **C.** to make someone worry a lot
- **D.** to make someone laugh

Q17 L.5.5

detour

- **A.** the results of an action, often bad ones
- **B.** machines that measure and record how much the ground shakes
- **C.** a different, longer route taken to get somewhere
- **D.** the shortest way home

Q18 L.5.5

widespread

- **A.** happening very quickly
- **B.** found or happening over a large area
- **C.** causing worry or fear
- **D.** very shocked and upset

Q19 L.5.5

funneled

- A. to spread out in every direction
- B. to wake or move someone suddenly and roughly
- C. to move through a narrow space
- D. to move someone or something to a new place

Q20 L.5.5

displacing

- A. to slowly become less and then stop
- B. to force people to leave their homes
- C. to welcome people into their homes
- D. to move through a narrow space

Q21 L.5.5

relieved

- A. very bad and causing great damage or trouble
- B. happy because a worry is gone
- C. blocked so that nothing can pass through
- D. very excited about a party

Q22 L.5.5

second-guessing

- A. to force people to leave their homes
- B. to become smaller or less
- C. to doubt a decision after you have made it
- D. to make a decision very quickly

Q23 L.5.5

disastrous

- A. happy because a worry is gone
- B. nervous and unable to relax
- C. slightly messy
- D. very bad and causing great damage or trouble

Q24 L.5.5

dissipate

- A. to drop quickly to a much lower level
- B. to slowly spread out and disappear
- C. to grow bigger and darker
- D. to hide something so it cannot be seen clearly

Q25 L.5.5

on edge

- A. very sleepy
- B. nervous and unable to relax
- C. dangerously fast
- D. very shocked and upset

Q26 L.5.5

jolted

- A. to doubt a decision after you have made it
- B. to gently rock someone to sleep
- C. to wake or move someone suddenly and roughly
- D. to make someone worry a lot

Q27 L.5.5

obscured

- A. to make something brighter
- B. to slowly spread out and disappear
- C. to hide something so it cannot be seen clearly
- D. to make someone worry a lot

Q28 L.5.5

alarming

- A. found or happening over a large area
- B. causing worry or fear
- C. very bad and causing great damage or trouble
- D. very loud but harmless

Q29 L.5.5

victim

- ○ **A.** a person who is hurt or killed by something bad
- ○ **B.** a person who saves others
- ○ **C.** something difficult or heavy that someone has to deal with
- ○ **D.** a different, longer route taken to get somewhere

Q30 L.5.5

breakneck

- ○ **A.** dangerously fast
- ○ **B.** causing worry or fear
- ○ **C.** happy because a worry is gone
- ○ **D.** very noisy

WORD LIST

horrified · ramping up · seismographs · plummeted · clogged · evacuation · reservoir · intently · relocated · conferring · hordes · burden · diminished · peter out · consequences · weighed heavily on · detour · widespread · funneled · displacing · relieved · second-guessing · disastrous · dissipate · on edge · jolted · obscured · alarming · victim · breakneck

Q1 L.5.6

We were _____ when we saw the damage from the flood.

◯ **A.** widespread ◯ **B.** alarming ◯ **C.** clogged ◯ **D.** horrified

Q2 L.5.6

The store is _____ its holiday sales.

◯ **A.** ramping up ◯ **B.** displacing ◯ **C.** conferring ◯ **D.** second-guessing

Q3 L.5.6

Scientists use _____ to measure earthquakes.

◯ **A.** victim ◯ **B.** consequences ◯ **C.** hordes ◯ **D.** seismographs

Q4 L.5.6

The temperature _____ after the sun went down.

◯ **A.** obscured ◯ **B.** plummeted ◯ **C.** jolted ◯ **D.** funneled

Q5 L.5.6

The sink was _____ with hair.

◯ **A.** horrified ◯ **B.** disastrous ◯ **C.** clogged ◯ **D.** breakneck

Q6 L.5.6

The fire caused the _____ of the whole school.

◯ **A.** burden ◯ **B.** detour ◯ **C.** reservoir ◯ **D.** evacuation

Q7 L.5.6

The town gets its water from a(n) _____ in the hills.

○ **A.** burden ○ **B.** victim ○ **C.** detour ○ **D.** reservoir

Q8 L.5.6

The students listened _____ to the guest speaker.

○ **A.** relocated ○ **B.** ramping up ○ **C.** intently ○ **D.** evacuation

Q9 L.5.6

The zoo _____ the bears to a bigger home.

○ **A.** relocated ○ **B.** weighed heavily on ○ **C.** diminished ○ **D.** plummeted

Q10 L.5.6

The coaches are _____ about the next play.

○ **A.** displacing ○ **B.** ramping up ○ **C.** second-guessing ○ **D.** conferring

Q11 L.5.6

_____ of fans rushed into the stadium.

○ **A.** hordes ○ **B.** consequences ○ **C.** seismographs ○ **D.** evacuation

Q12 L.5.6

Caring for the sick dog was a heavy _____.

○ **A.** reservoir ○ **B.** burden ○ **C.** evacuation ○ **D.** victim

Q13 L.5.6

The noise _____ as the train moved away.

○ **A.** weighed heavily on ○ **B.** relocated ○ **C.** diminished ○ **D.** jolted

Q14 L.5.6

The rain began to _____ by noon.

○ **A.** conferring ○ **B.** peter out ○ **C.** obscured ○ **D.** plummeted

Q15 L.5.6

Skipping practice had serious _____ for the team.

○ **A.** consequences ○ **B.** burden ○ **C.** seismographs ○ **D.** hordes

Q16 L.5.6

The big decision _____ the coach's mind.

◯ **A.** funneled ◯ **B.** diminished ◯ **C.** weighed heavily on ◯ **D.** jolted

Q17 L.5.6

The road was closed, so we took a(n) _____.

◯ **A.** reservoir ◯ **B.** burden ◯ **C.** victim ◯ **D.** detour

Q18 L.5.6

The storm caused _____ power outages.

◯ **A.** relieved ◯ **B.** widespread ◯ **C.** clogged ◯ **D.** on edge

Q19 L.5.6

Fans _____ through the gates into the stadium.

◯ **A.** relocated ◯ **B.** obscured ◯ **C.** funneled ◯ **D.** weighed heavily on

Q20 L.5.6

The flood is _____ thousands of families.

◯ **A.** conferring ◯ **B.** ramping up ◯ **C.** displacing ◯ **D.** second-guessing

Q21 L.5.6

I was _____ to find my lost wallet.

◯ **A.** horrified ◯ **B.** relieved ◯ **C.** breakneck ◯ **D.** alarming

Q22 L.5.6

Stop _____ yourself; your first answer was right.

◯ **A.** ramping up ◯ **B.** second-guessing ◯ **C.** displacing ◯ **D.** conferring

Q23 L.5.6

The flood was _____ for the farmers.

◯ **A.** disastrous ◯ **B.** on edge ◯ **C.** widespread ◯ **D.** relieved

Q24 L.5.6

The fog will _____ when the sun comes out.

◯ **A.** weighed heavily on ◯ **B.** funneled ◯ **C.** plummeted ◯ **D.** dissipate

Q25 L.5.6

Everyone was _____ while waiting for the test results.

○ **A.** widespread ○ **B.** disastrous ○ **C.** horrified ○ **D.** on edge

Q26 L.5.6

A loud crash _____ me awake.

○ **A.** jolted ○ **B.** funneled ○ **C.** diminished ○ **D.** relocated

Q27 L.5.6

Fog _____ the top of the mountain.

○ **A.** obscured ○ **B.** diminished ○ **C.** jolted ○ **D.** plummeted

Q28 L.5.6

The news report had _____ facts about the storm.

○ **A.** clogged ○ **B.** relieved ○ **C.** on edge ○ **D.** alarming

Q29 L.5.6

The _____ of the accident was taken to the hospital.

○ **A.** evacuation ○ **B.** victim ○ **C.** reservoir ○ **D.** detour

Q30 L.5.6

The car raced around the track at _____ speed.

○ **A.** disastrous ○ **B.** relieved ○ **C.** alarming ○ **D.** breakneck

3 Synonyms, Antonyms & Pairs

Set 2 · Story 2. Eruption! Volcanoes and the Science of Saving Lives · Part 3 of 6

CCSS L.5.4 · L.5.5 · L.5.6

Directions. Items 1-12: choose the SYNONYM (same meaning). Items 13-21: choose the ANTONYM (opposite). Items 22-30: choose the example that FITS the word.

Q1 L.5.5

SAME Choose the synonym of **horrified**:

○ **A.** polite ○ **B.** appalled ○ **C.** curious ○ **D.** sleepy

Q2 L.5.5

SAME Choose the synonym of **plummeted**:

○ **A.** dropped ○ **B.** giggled ○ **C.** sang ○ **D.** waved

Q3 L.5.5

SAME Choose the synonym of **intently**:

○ **A.** sloppily ○ **B.** noisily ○ **C.** attentively ○ **D.** sadly

Q4 L.5.5

SAME Choose the synonym of **relocated**:

○ **A.** tickled ○ **B.** painted ○ **C.** moved ○ **D.** melted

Q5 L.5.5

SAME Choose the synonym of **conferring**:

○ **A.** snoring ○ **B.** consulting ○ **C.** juggling ○ **D.** marching

Q6 L.5.5

SAME Choose the synonym of **diminished**:

○ **A.** wandered ○ **B.** shouted ○ **C.** lessened ○ **D.** bounced

Q7 L.5.5

SAME Choose the synonym of **funneled**:

○ **A.** channeled ○ **B.** sprinkled ○ **C.** wobbled ○ **D.** stammered

Q8 L.5.5

SAME Choose the synonym of **displacing**:

◯ **A.** combing ◯ **B.** whistling ◯ **C.** tickling ◯ **D.** uprooting

Q9 L.5.5

SAME Choose the synonym of **second-guessing**:

◯ **A.** doubting ◯ **B.** humming ◯ **C.** bouncing ◯ **D.** sweeping

Q10 L.5.5

SAME Choose the synonym of **dissipate**:

◯ **A.** fold ◯ **B.** fade ◯ **C.** chirp ◯ **D.** bake

Q11 L.5.5

SAME Choose the synonym of **jolted**:

◯ **A.** startled ◯ **B.** combed ◯ **C.** rinsed ◯ **D.** stacked

Q12 L.5.5

SAME Choose the synonym of **obscured**:

◯ **A.** knelt ◯ **B.** hid ◯ **C.** grew ◯ **D.** slept

Q13 L.5.5

OPPOSITE Choose the antonym of **ramping up**:

◯ **A.** sneezing ◯ **B.** borrowing ◯ **C.** winding down ◯ **D.** stirring

Q14 L.5.5

OPPOSITE Choose the antonym of **clogged**:

◯ **A.** unblocked ◯ **B.** fuzzy ◯ **C.** sour ◯ **D.** golden

Q15 L.5.5

OPPOSITE Choose the antonym of **peter out**:

◯ **A.** tip over ◯ **B.** zip up ◯ **C.** build up ◯ **D.** pop open

Q16 L.5.5

OPPOSITE Choose the antonym of **widespread**:

◯ **A.** noisy ◯ **B.** crunchy ◯ **C.** purple ◯ **D.** limited

Q17 L.5.5

OPPOSITE Choose the antonym of **relieved**:

◯ **A.** salty ◯ **B.** plastic ◯ **C.** shiny ◯ **D.** worried

Q18 L.5.5

OPPOSITE Choose the antonym of **disastrous**:

◯ **A.** sticky ◯ **B.** fluffy ◯ **C.** successful ◯ **D.** wooden

Q19 L.5.5

OPPOSITE Choose the antonym of **on edge**:

◯ **A.** on time ◯ **B.** by heart ◯ **C.** in a hurry ◯ **D.** at ease

Q20 L.5.5

OPPOSITE Choose the antonym of **alarming**:

◯ **A.** reassuring ◯ **B.** furry ◯ **C.** bitter ◯ **D.** square

Q21 L.5.5

OPPOSITE Choose the antonym of **breakneck**:

◯ **A.** thirsty ◯ **B.** leisurely ◯ **C.** leafy ◯ **D.** rusty

Q22 L.5.5

GOES WITH Choose the example that fits **seismographs**:

◯ **A.** needles drawing wiggly lines as the earth trembles

◯ **B.** thermometers showing how hot a lava flow is ◯ **C.** radios warning towns that a volcano may erupt

◯ **D.** maps showing where towns sit near a volcano

Q23 L.5.5

GOES WITH Choose the example that fits **evacuation**:

◯ **A.** families watching storm news on TV at home ◯ **B.** families returning to fix homes after a storm

◯ **C.** families buying milk and bread before a storm

◯ **D.** families riding buses away as a hurricane nears

Q24 L.5.5

GOES WITH Choose the example that fits **reservoir**:

◯ **A.** a fast river rushing under a city bridge ◯ **B.** a rain cloud drifting above a city

◯ **C.** a garden hose watering a city lawn ◯ **D.** a lake behind a dam storing water for a city

Q25 L.5.5

GOES WITH Choose the example that fits **hordes**:

- ◯ **A.** two fans sharing a bench in an empty stadium
- ◯ **B.** thousands of fans pouring into a stadium at once
- ◯ **C.** a few fans waiting for a bus after the game
- ◯ **D.** one usher sweeping the stadium after a game

Q26 L.5.5

GOES WITH Choose the example that fits **burden**:

- ◯ **A.** taking a nap on a soft couch after school
- ◯ **B.** hauling heavy grocery bags up five flights of stairs
- ◯ **C.** skipping down the stairs to play in the park
- ◯ **D.** sharing a bag of popcorn with a friend

Q27 L.5.5

GOES WITH Choose the example that fits **consequences**:

- ◯ **A.** a team riding a bus to an away game
- ◯ **B.** a team practicing hard after school
- ◯ **C.** losing a game because the team skipped practice
- ◯ **D.** a team picking new colors for its jerseys

Q28 L.5.5

GOES WITH Choose the example that fits **weighed heavily on**:

- ◯ **A.** a worry that keeps you awake all night
- ◯ **B.** a snack you munch during a movie
- ◯ **C.** a game you play at recess with friends
- ◯ **D.** a song you hum while making breakfast

Q29 L.5.5

GOES WITH Choose the example that fits **detour**:

- ◯ **A.** parking the car in a garage after work
- ◯ **B.** washing the car in the driveway on Sunday
- ◯ **C.** driving around a fallen tree by using a side road
- ◯ **D.** driving straight to school on the usual road

Q30 L.5.5

GOES WITH Choose the example that fits **victim**:

- ◯ **A.** someone injured by a tree falling in a storm
- ◯ **B.** someone selling umbrellas during a storm
- ◯ **C.** someone reporting the storm on the evening news
- ◯ **D.** someone planting a new tree after the storm

4 Read & Infer

Set 2 · Story 2. Eruption! Volcanoes and the Science of Saving Lives · Part 4 of 6

CCSS RI.5.4 · L.5.4

Directions. Read each short passage. Choose the best meaning of the bold word as it is used.

Q1 RI.5.4

Andy Lockhart is a USGS scientist. When the volcano Nevado del Ruiz erupted in 1985, he was **horrified** by the tragedy.

What does **horrified** mean here?

- ○ **A.** very tired
- ○ **B.** very proud
- ○ **C.** slightly surprised
- ○ **D.** very shocked and upset

Q2 RI.5.4

The scientists watched Mount Pinatubo closely. 'The volcano was definitely **ramping up**.'

What does **ramping up** mean here?

- ○ **A.** to blow out smoke
- ○ **B.** to stay exactly the same
- ○ **C.** to become stronger or more active
- ○ **D.** to cool down slowly

Q3 RI.5.4

Instruments recorded two unusual earthquakes. Then the **seismographs** recorded the first earthquake directly under the vent.

What does **seismographs** mean here?

- ○ **A.** cameras that film the sky
- ○ **B.** machines that measure and record how much the ground shakes
- ○ **C.** tools that measure how hot the air is
- ○ **D.** maps that show where volcanoes are

Q4 RI.5.4

The scientists measured the gas coming from the volcano. Then the sulfur dioxide **plummeted**, from 5,000 tons to 1,300 to 260 a day.

What does **plummeted** mean here?

- **A.** to smell bad
- **B.** to spread out
- **C.** to rise a little
- **D.** to drop quickly to a much lower level

Q5 RI.5.4

The drop in gas was puzzling. 'It could mean the volcano's vent was **clogged**, with pressure building.'

What does **clogged** mean here?

- **A.** full of steam
- **B.** cracked into pieces
- **C.** blocked so that nothing can pass through
- **D.** very hot

Q6 RI.5.4

People living near the volcano had to leave. About 10,000 members of the Aeta tribes were moved to **evacuation** camps.

What does **evacuation** mean here?

- **A.** the act of moving people away from a dangerous place
- **B.** the act of building a new town
- **C.** a map of a city
- **D.** a kind of tent

Q7 RI.5.4

The volcanologists estimated the size of the magma chamber. The magma chamber is the **reservoir** of melted rock and gas under the volcano.

What does **reservoir** mean here?

- **A.** a small earthquake
- **B.** a cloud of ash
- **C.** a place where a large amount of something is stored
- **D.** a narrow tunnel to the surface

Q8 RI.5.4

The scientists explained the danger to the military. Military officers listened **intently** to the geologists' briefings.

What does **intently** mean here?

- **A.** with close attention
- **B.** with a loud voice
- **C.** with a big smile
- **D.** with great fear

Q9 RI.5.4

The military prepared for an eruption. The officers **relocated** pregnant women and the elderly.

What does **relocated** mean here?

- **A.** to listen to a briefing
- **B.** to leave someone behind
- **C.** to build a camp
- **D.** to move someone or something to a new place

Q10 RI.5.4

The alert level was raised. 'After **conferring** with VDAP scientists, Ray raised his alert to level four, enlarging the evacuation zone.'

What does **conferring** mean here?

- **A.** to raise an alert
- **B.** to argue loudly
- **C.** to talk with others to share ideas before deciding
- **D.** to fly a helicopter

Q11 RI.5.4

The volcano erupted, and the volcanologists piled into trucks and tore off. That is, until they merged with **hordes** of evacuating Filipinos.

What does **hordes** mean here?

- **A.** very large crowds of people
- **B.** tall piles of ash
- **C.** quiet pairs of close friends
- **D.** long lines of cars

Q12 RI.5.4

Moving people off the air base would not be easy. It would be a huge challenge, and a huge **burden** to the military and their families.

What does **burden** mean here?

- **A.** something that moves very fast
- **B.** something difficult or heavy that someone has to deal with
- **C.** something used to measure gas
- **D.** something that makes life easier

Q13 RI.5.4

The scientists debated moving to level four. Then the earthquakes **diminished**.

What does **diminished** mean here?

- **A.** to move sideways
- **B.** to stay strong
- **C.** to make noise
- **D.** to become smaller or less

Q14 RI.5.4

The scientists did not know what would happen next. 'But it could all just **peter out** to nothing.'

What does **peter out** mean here?

- **A.** to blow up
- **B.** to slowly become less and then stop
- **C.** to fly away
- **D.** to start suddenly

Q15 RI.5.4

The scientists had to make a hard choice. The **consequences**—a costly false evacuation or tragic loss of life—weighed heavily on their minds and their hearts.

What does **consequences** mean here?

- **A.** the names of volcanoes
- **B.** the results of an action, often bad ones
- **C.** the reasons for doing something
- **D.** the rules of a game

Q16 RI.5.4

The scientists had to make a hard choice. The consequences—a costly false evacuation or tragic loss of life—**weighed heavily on** their minds and their hearts.

What does **weighed heavily on** mean here?

- **A.** to lift something heavy
- **B.** to make someone tired
- **C.** to make someone laugh
- **D.** to make someone worry a lot

Q17 RI.5.4

On the morning of June 9, Andy and his colleague hopped into the helicopter. It took a **detour**—to the center of the base.

What does **detour** mean here?

- **A.** the shortest way home
- **B.** a trip in a helicopter
- **C.** a different, longer route taken to get somewhere
- **D.** a safe place to land

Q18 RI.5.4

The helicopter turned. The **widespread** devastation once wrought by this volcano became impossible to miss.

What does **widespread** mean here?

- **A.** happening very quickly
- **B.** very old
- **C.** found or happening over a large area
- **D.** hard to see

Q19 RI.5.4

People drove away from the base. The streets filled with cars, trucks, and buses that **funneled** downhill toward a naval station an hour away.

What does **funneled** mean here?

- **A.** to move through a narrow space
- **B.** to break apart
- **C.** to spread out in every direction
- **D.** to fill with water

Q20 RI.5.4

The danger zone kept growing. The Filipinos extended their evacuation to twelve miles, **displacing** 25,000 people.

What does **displacing** mean here?

- **A.** to welcome people into their homes
- **B.** to force people to leave their homes
- **C.** to feed people
- **D.** to count people

Q21 RI.5.4

People had left Clark Air Base. 'We were just incredibly **relieved** that most everybody was out of the way,' Andy said.

What does **relieved** mean here?

- **A.** happy because a worry is gone
- **B.** very angry
- **C.** very tired
- **D.** very excited about a party

Q22 RI.5.4

The scientists worried that they had made the wrong call. 'I couldn't help **second-guessing** myself,' said team member Dave Harlow.

What does **second-guessing** mean here?

- **A.** to make a decision very quickly
- **B.** to guess a number
- **C.** to win a prize
- **D.** to doubt a decision after you have made it

Q23 RI.5.4

A scientist worried about a false alarm. The scientist imagined committees investigating 'the **disastrous** evacuation, its costs and impact to the Philippine economy.'

What does **disastrous** mean here?

- **A.** very slow
- **B.** very loud
- **C.** very bad and causing great damage or trouble
- **D.** slightly messy

Q24 RI.5.4

A cloud rose from the volcano. Then the cloud slowed, stopped, and started to **dissipate**.

What does **dissipate** mean here?

- **A.** to grow bigger and darker
- **B.** to rain heavily
- **C.** to shoot upward
- **D.** to slowly spread out and disappear

Q25 RI.5.4

For the next few days, Pinatubo shot steam and rumbled. It kept the scientists **on edge**.

What does **on edge** mean here?

- **A.** very sleepy
- **B.** nervous and unable to relax
- **C.** very brave
- **D.** very hungry

Q26 RI.5.4

Something terrible was starting. On June 15, Andy and other scientists were **jolted** from sleep by a cry.

What does **jolted** mean here?

- **A.** to call someone on the phone
- **B.** to wake or move someone suddenly and roughly
- **C.** to give someone a ride
- **D.** to gently rock someone to sleep

Q27 RI.5.4

On June 15, the weather was bad. Clouds **obscured** the top of the volcano and pelting rain blurred Andy's view.

What does **obscured** mean here?

- **A.** to hide something so it cannot be seen clearly
- **B.** to measure something
- **C.** to wash something away
- **D.** to make something brighter

Q28 RI.5.4

The earthquakes grew very strong. The seismograph needles banged up and down, making **alarming** blocks of solid ink.

What does **alarming** mean here?

- **A.** causing worry or fear
- **B.** very messy
- **C.** very slow
- **D.** very loud but harmless

Q29 RI.5.4

The scientists were in danger themselves. Did they have only precious moments before they themselves fell **victim** to an eruption?

What does **victim** mean here?

- **A.** a person who flies helicopters
- **B.** a person who saves others
- **C.** a person who studies volcanoes
- **D.** a person who is hurt or killed by something bad

Q30 RI.5.4

The scientists heard a terrible sound. It was like a wall of rock a mile high racing down at **breakneck** speeds.

What does **breakneck** mean here?

- **A.** dangerously fast
- **B.** very high
- **C.** very rocky
- **D.** very noisy

Watching Pinatubo

In 1985, scientist Andy Lockhart was **(1)** _____ by the tragedy of a volcano in Colombia. Years later, Mount Pinatubo in the Philippines was **(2)** _____. The **(3)** _____ recorded the first earthquake directly under the vent. Then the sulfur dioxide **(4)** _____, which could mean the vent was **(5)** _____, with pressure building. About 10,000 members of the Aeta tribes were moved to **(6)** _____ camps. The volcanologists estimated the size of the magma chamber, the **(7)** _____ of melted rock and gas. Military officers listened **(8)** _____ to the briefings, and the officers **(9)** _____ pregnant women and the elderly. After **(10)** _____ with VDAP scientists, Ray raised the alert to level four. Later, **(11)** _____ of fleeing Filipinos crowded the roads. Evacuating 14,000 people would be a huge **(12)** _____ to the military. Then the earthquakes **(13)** _____, and the scientists knew it could all **(14)** _____ to nothing. The possible **(15)** _____ were a costly false evacuation or a tragic loss of life.

WORD BANK **detour · second-guessing · disastrous · jolted · dissipate · obscured · breakneck · on edge · weighed heavily on · funneled · relieved · widespread · alarming · victim · displacing**

The Big Eruption

Worry about making the wrong choice **(1)** _____ the scientists' minds. On June 9, their helicopter took a **(2)** _____ to the center of the base, and the **(3)** _____ devastation from the volcano's past was impossible to miss. Cars, trucks, and buses **(4)** _____ downhill toward a naval station. The evacuation grew to twelve miles, **(5)** _____ 25,000 people. Andy said they were **(6)** _____ that most everybody was out of the way. Still, team member Dave Harlow

couldn't help **(7)** _____ himself, and he imagined committees investigating a **(8)** _____ evacuation. Once, a cloud rose, slowed, stopped, and started to **(9)** _____. For the next few days, Pinatubo kept the scientists **(10)** _____. On June 15, the scientists were **(11)** _____ from sleep by a cry. Clouds **(12)** _____ the top of the volcano, and the seismograph needles made **(13)** _____ blocks of solid ink. Would the scientists themselves fall **(14)** _____ to the eruption? The sound was like a wall of rock racing down at **(15)** _____ speeds.

NAME _____ DATE _____

Directions. Read each word. Fill in the circle next to the meaning that matches BEST.

WORD LIST

prior · prone · magnitude · aftershocks · literally · survivors · maintenance · remarkable

Q1 L.5.5

prior

- ○ **A.** so unusual or great that people notice and talk about it
- ○ **B.** happening soon after something else
- ○ **C.** happening or existing before something else
- ○ **D.** likely to have something bad happen often

Q2 L.5.5

prone

- ○ **A.** happening or existing before something else
- ○ **B.** likely to have something bad happen often
- ○ **C.** so unusual or great that people notice and talk about it
- ○ **D.** having had something bad happen just once

Q3 L.5.5

magnitude

- ○ **A.** people who live through a dangerous event
- ○ **B.** the smaller shakes of the ground that follow a big earthquake
- ○ **C.** the place where an earthquake begins
- ○ **D.** the size or power of something, such as an earthquake

Q4 L.5.5

aftershocks

- ○ **A.** the giant waves that a big earthquake can cause
- ○ **B.** the size or power of something, such as an earthquake
- ○ **C.** the smaller shakes of the ground that follow a big earthquake
- ○ **D.** the regular work of keeping something in good shape and fixing it

Q5 L.5.5

literally

- A. people who live through a dangerous event
- B. really and truly, not just as a way of speaking
- C. almost completely, but not all the way
- D. slowly and with great care

Q6 L.5.5

survivors

- A. people who live through a dangerous event
- B. the regular work of keeping something in good shape and fixing it
- C. people who help others during a dangerous event
- D. the smaller shakes of the ground that follow a big earthquake

Q7 L.5.5

maintenance

- A. the size or power of something, such as an earthquake
- B. the smaller shakes of the ground that follow a big earthquake
- C. the work of building something brand-new
- D. the regular work of keeping something in good shape and fixing it

Q8 L.5.5

remarkable

- A. happening or existing before something else
- B. so unusual or great that people notice and talk about it
- C. strange in a way that makes people feel uneasy
- D. likely to have something bad happen often

Set 3 · Story 3. Between the Glacier and the Sea: The Alaska Earthquake · Part 2 of 6

CCSS L.5.4 · L.5.5 · L.5.6

Directions. Choose the word that best fills in the blank.

WORD LIST

prior · prone · magnitude · aftershocks · literally · survivors · maintenance · remarkable

Q1 L.5.6

You must have _____ permission from a parent before you go on the class field trip.

◯ **A.** survivors ◯ **B.** remarkable ◯ **C.** prone ◯ **D.** prior

Q2 L.5.6

My little brother is _____ to colds, so he wears a warm hat all winter long.

◯ **A.** prone ◯ **B.** literally ◯ **C.** remarkable ◯ **D.** prior

Q3 L.5.6

Scientists measured the _____ of the earthquake and announced that it was a 9.2.

◯ **A.** aftershocks ◯ **B.** maintenance ◯ **C.** magnitude ◯ **D.** survivors

Q4 L.5.6

Even after the big quake ended, _____ kept rattling the windows for several more days.

◯ **A.** aftershocks ◯ **B.** maintenance ◯ **C.** magnitude ◯ **D.** survivors

Q5 L.5.6

I am not joking: the dog _____ ate my homework, and I have the chewed pages to prove it.

◯ **A.** prone ◯ **B.** literally ◯ **C.** prior ◯ **D.** aftershocks

Q6 L.5.6

Rescue teams searched the fallen buildings for _____ all night after the earthquake.

◯ **A.** aftershocks ◯ **B.** magnitude ◯ **C.** survivors ◯ **D.** maintenance

Q7 L.5.6

The old bridge needs regular _____, or its bolts will rust and it will become unsafe.

◯ **A.** aftershocks ◯ **B.** survivors ◯ **C.** magnitude ◯ **D.** maintenance

Q8 L.5.6

The young pianist gave a(n) _____ performance that made the whole audience stand and cheer.

○ **A.** prone ○ **B.** literally ○ **C.** remarkable ○ **D.** prior

3 Synonyms, Antonyms & Pairs

Set 3 · Story 3. Between the Glacier and the Sea: The Alaska Earthquake · Part 3 of 6

CCSS L.5.4 · L.5.5 · L.5.6

Directions. Items 1-3: choose the SYNONYM (same meaning). Items 4-6: choose the ANTONYM (opposite). Items 7-8: choose the example that FITS the word.

Q1 L.5.5

SAME Choose the synonym of **magnitude**:

◯ **A.** sound ◯ **B.** location ◯ **C.** date ◯ **D.** strength

Q2 L.5.5

SAME Choose the synonym of **literally**:

◯ **A.** actually ◯ **B.** jokingly ◯ **C.** barely ◯ **D.** probably

Q3 L.5.5

SAME Choose the synonym of **remarkable**:

◯ **A.** ordinary ◯ **B.** noisy ◯ **C.** cheerful ◯ **D.** amazing

Q4 L.5.5

OPPOSITE Choose the antonym of **prior**:

◯ **A.** former ◯ **B.** earlier ◯ **C.** previous ◯ **D.** later

Q5 L.5.5

OPPOSITE Choose the antonym of **prone**:

◯ **A.** apt ◯ **B.** protected ◯ **C.** likely ◯ **D.** inclined

Q6 L.5.5

OPPOSITE Choose the antonym of **maintenance**:

◯ **A.** care ◯ **B.** repair ◯ **C.** neglect ◯ **D.** upkeep

Q7 L.5.5

GOES WITH Choose the example that fits **aftershocks**:

◯ **A.** a rumble the day after a quake ◯ **B.** a candle on a birthday cake

◯ **C.** a whistle at the end of a game ◯ **D.** a rainbow after a storm

Q8 L.5.5

GOES WITH Choose the example that fits **survivors**:

- ◯ **A.** books stacked on a desk
- ◯ **B.** people rescued after a flood
- ◯ **C.** birds singing on a fence
- ◯ **D.** cars parked by a store

4 Read & Infer

Set 3 · Story 3. Between the Glacier and the Sea: The Alaska Earthquake · Part 4 of 6

CCSS RI.5.4 · L.5.4

Directions. Read each short passage. Choose the best meaning of the bold word as it is used.

Q1 RI.5.4

Before watching, students think about what they already know about earthquakes. They use their **prior** knowledge.

What does **prior** mean here?

- ○ **A.** shaking hard and very fast
- ○ **B.** bright and full of color
- ○ **C.** happening or existing before something else
- ○ **D.** happening soon after something else

Q2 RI.5.4

Earth's crust is made of plates. Places where ocean and continental plates meet are **prone** to earthquakes.

What does **prone** mean here?

- ○ **A.** likely to have something bad happen often
- ○ **B.** covered with ice and snow all year
- ○ **C.** having had something bad happen just once
- ○ **D.** pushed down underneath another plate

Q3 RI.5.4

The 1964 earthquake shook Alaska for about five minutes. Its 9.2 **magnitude** was the largest ever recorded in North America.

What does **magnitude** mean here?

- ○ **A.** the place where an earthquake begins
- ○ **B.** the size or power of something, such as an earthquake
- ○ **C.** a kind of rock found near a glacier
- ○ **D.** the sound of a loud boom like a bomb

Q4 RI.5.4

The Great Alaska Earthquake brought five minutes of violent shaking. **Aftershocks** kept shaking the land for days.

What does **aftershocks** mean here?

- ○ **A.** the rocks carried by a melting glacier
- ○ **B.** the first five minutes of hard shaking
- ○ **C.** the giant waves that a big earthquake can cause
- ○ **D.** the smaller shakes of the ground that follow a big earthquake

Q5 RI.5.4

In Valdez, the ground dropped almost nine feet. The whole town **literally** shifted sideways.

What does **literally** mean here?

- ○ **A.** really and truly, not just as a way of speaking
- ○ **B.** almost completely, but not all the way
- ○ **C.** slowly and with great care
- ○ **D.** very loudly, like the boom of a bomb

Q6 RI.5.4

The video shares memories from people who lived through the quake. The **survivors** describe a loud boom and oil fires.

What does **survivors** mean here?

- ○ **A.** people who study why earthquakes happen
- ○ **B.** people who live through a dangerous event
- ○ **C.** people who help others during a dangerous event
- ○ **D.** people who sell food at a market

Q7 RI.5.4

Many buildings in Valdez caught fire after the earthquake. Buildings in earthquake areas need careful **maintenance** to stay safe.

What does **maintenance** mean here?

- ○ **A.** the ground dropping nine feet in one day
- ○ **B.** the regular work of keeping something in good shape and fixing it
- ○ **C.** the work of building something brand-new
- ○ **D.** a song people sing at a party

Q8 RI.5.4

Students discuss what was **remarkable** about the 1964 Alaska earthquake. Its 9.2 magnitude was the largest ever recorded in North America.

What does **remarkable** mean here?

- ○ **A.** long and full of hard shaking
- ○ **B.** strange in a way that makes people feel uneasy
- ○ **C.** dull and easy to forget
- ○ **D.** so unusual or great that people notice and talk about it

WORD LIST

geologist · time bomb · wipe out · pinpoint · sliced off · sure enough · builds up · dragged · at risk · molten · parallel · wedged · break free · pent-up · lateral · destruction · violently · given way · triggered · disturbance · thrust · radiate · swamped · uncertain · epicenter · unharmed · ruptured · take action · erected · modified

Q1 L.5.5

geologist

- ○ **A.** a scientist who studies stars
- ○ **B.** something that interrupts or upsets the normal state
- ○ **C.** the act of damaging something so badly it is ruined
- ○ **D.** a scientist who studies rocks and the earth

Q2 L.5.5

time bomb

- ○ **A.** a scientist who studies rocks and the earth
- ○ **B.** a dangerous situation that will cause big trouble later
- ○ **C.** the point on the earth's surface right above where an earthquake starts
- ○ **D.** a clock that rings to wake you

Q3 L.5.5

wipe out

- ○ **A.** to clean something a little
- ○ **B.** to break or burst open suddenly
- ○ **C.** to destroy something completely
- ○ **D.** to spread out in all directions from a center

Q4 L.5.5

pinpoint

- **A.** to do something to deal with a problem
- **B.** to guess roughly
- **C.** to push something hard and suddenly
- **D.** to find or show something exactly

Q5 L.5.5

sliced off

- **A.** to move something heavy slowly along the ground or downward with force
- **B.** to cut a flat piece off something
- **C.** to destroy something completely
- **D.** to glue two pieces together

Q6 L.5.5

sure enough

- **A.** as was expected or predicted
- **B.** for a short time
- **C.** by complete surprise
- **D.** with great, rough force

Q7 L.5.5

builds up

- **A.** to make something start to happen
- **B.** to slowly grow larger or stronger
- **C.** to push something tightly into a small space so it cannot move
- **D.** to break apart quickly

Q8 L.5.5

dragged

- **A.** to move something heavy slowly along the ground or downward with force
- **B.** to break or collapse under pressure
- **C.** to cut a flat piece off something
- **D.** to lift something high into the air

Q9 L.5.5

at risk

- A. held in for a long time and not let out
- B. in a hurry
- C. changed a little to make it better or different
- D. in danger of being hurt or harmed

Q10 L.5.5

molten

- A. not sure
- B. in danger of being hurt or harmed
- C. melted by great heat
- D. hard and cracked

Q11 L.5.5

parallel

- A. side by side and the same distance apart, never meeting
- B. crossing each other in the middle
- C. melted by great heat
- D. moving or happening to the side

Q12 L.5.5

wedged

- A. to pull something loose
- B. to push something tightly into a small space so it cannot move
- C. to build or set something up
- D. to slowly grow larger or stronger

Q13 L.5.5

break free

- A. to stay tied up
- B. to cover or fill with a large amount of water
- C. to find or show something exactly
- D. to escape from something that holds you

Q14 L.5.5

pent-up

- **A.** used up quickly
- **B.** not hurt or damaged
- **C.** side by side and the same distance apart, never meeting
- **D.** held in for a long time and not let out

Q15 L.5.5

lateral

- **A.** moving in a circle
- **B.** melted by great heat
- **C.** moving or happening to the side
- **D.** held in for a long time and not let out

Q16 L.5.5

destruction

- **A.** the act of damaging something so badly it is ruined
- **B.** a dangerous situation that will cause big trouble later
- **C.** the act of moving something
- **D.** the point on the earth's surface right above where an earthquake starts

Q17 L.5.5

violently

- **A.** with great, rough force
- **B.** with careful planning
- **C.** with a big smile
- **D.** as was expected or predicted

Q18 L.5.5

given way

- **A.** to grow stronger under pressure
- **B.** to break or collapse under pressure
- **C.** to escape from something that holds you
- **D.** to find or show something exactly

Q19 L.5.5

triggered

- A. to make something start to happen
- B. to escape from something that holds you
- C. to do something to deal with a problem
- D. to stop something from happening

Q20 L.5.5

disturbance

- A. something that keeps everything calm
- B. something that interrupts or upsets the normal state
- C. a dangerous situation that will cause big trouble later
- D. the act of damaging something so badly it is ruined

Q21 L.5.5

thrust

- A. to spread out in all directions from a center
- B. to pull something slowly
- C. to push something hard and suddenly
- D. to break or collapse under pressure

Q22 L.5.5

radiate

- A. to destroy something completely
- B. to push something hard and suddenly
- C. to move in one straight line
- D. to spread out in all directions from a center

Q23 L.5.5

swamped

- A. to dry something with heat
- B. to push something tightly into a small space so it cannot move
- C. to cover or fill with a large amount of water
- D. to slowly grow larger or stronger

Q24 L.5.5

uncertain

- **A.** very scared
- **B.** moving or happening to the side
- **C.** changed a little to make it better or different
- **D.** not sure

Q25 L.5.5

epicenter

- **A.** something that interrupts or upsets the normal state
- **B.** the deepest part of the ocean
- **C.** the point on the earth's surface right above where an earthquake starts
- **D.** a scientist who studies rocks and the earth

Q26 L.5.5

unharmed

- **A.** side by side and the same distance apart, never meeting
- **B.** not sure
- **C.** slightly hungry
- **D.** not hurt or damaged

Q27 L.5.5

ruptured

- **A.** to heal slowly
- **B.** to make something start to happen
- **C.** to break or burst open suddenly
- **D.** to move something heavy slowly along the ground or downward with force

Q28 L.5.5

take action

- **A.** to cut a flat piece off something
- **B.** to do something to deal with a problem
- **C.** to cover or fill with a large amount of water
- **D.** to forget about a problem

Q29 L.5.5

erected

- A. to build or set something up
- B. to move something heavy slowly along the ground or downward with force
- C. to break or burst open suddenly
- D. to paint something

Q30 L.5.5

modified

- A. changed a little to make it better or different
- B. copied exactly
- C. in danger of being hurt or harmed
- D. not hurt or damaged

2 Fill in the Blank

Directions. Choose the word that best fills in the blank.

WORD LIST

geologist · time bomb · wipe out · pinpoint · sliced off · sure enough · builds up · dragged · at risk · molten · parallel · wedged · break free · pent-up · lateral · destruction · violently · given way · triggered · disturbance · thrust · radiate · swamped · uncertain · epicenter · unharmed · ruptured · take action · erected · modified

Q1 L.5.6

The _____ explained how the mountain formed.

◯ **A.** epicenter ◯ **B.** destruction ◯ **C.** geologist ◯ **D.** time bomb

Q2 L.5.6

Experts say the old dam is a(n) _____ waiting to break.

◯ **A.** time bomb ◯ **B.** disturbance ◯ **C.** destruction ◯ **D.** geologist

Q3 L.5.6

A big fire could _____ the whole forest.

◯ **A.** pinpoint ◯ **B.** wipe out ◯ **C.** thrust ◯ **D.** take action

Q4 L.5.6

The map app can _____ our location.

◯ **A.** break free ◯ **B.** pinpoint ◯ **C.** radiate ◯ **D.** wipe out

Q5 L.5.6

Grandma _____ a piece of bread for me.

◯ **A.** wedged ◯ **B.** given way ◯ **C.** swamped ◯ **D.** sliced off

Q6 L.5.6

I said it would rain, and _____, it started pouring.

◯ **A.** parallel ◯ **B.** pent-up ◯ **C.** sure enough ◯ **D.** violently

Q7 L.5.6

Dust _____ on the shelf if you don't clean it.

◯ **A.** sliced off ◯ **B.** erected ◯ **C.** ruptured ◯ **D.** builds up

Q8 L.5.6

The tired boy slowly _____ his heavy backpack along the floor because it was too heavy to lift.

◯ **A.** erected ◯ **B.** dragged ◯ **C.** triggered ◯ **D.** wedged

Q9 L.5.6

Animals near the oil spill are _____.

◯ **A.** at risk ◯ **B.** modified ◯ **C.** lateral ◯ **D.** molten

Q10 L.5.6

The _____ lava flowed down the volcano.

◯ **A.** uncertain ◯ **B.** molten ◯ **C.** unharmed ◯ **D.** at risk

Q11 L.5.6

The two roads run _____ to each other.

◯ **A.** at risk ◯ **B.** uncertain ◯ **C.** parallel ◯ **D.** molten

Q12 L.5.6

He _____ a book under the door to keep it open.

◯ **A.** dragged ◯ **B.** given way ◯ **C.** triggered ◯ **D.** wedged

Q13 L.5.6

The puppy tried to _____ from its leash.

◯ **A.** take action ◯ **B.** wipe out ◯ **C.** pinpoint ◯ **D.** break free

Q14 L.5.6

After the long test, the kids ran outside to burn off their _____ energy.

◯ **A.** parallel ◯ **B.** pent-up ◯ **C.** modified ◯ **D.** lateral

Q15 L.5.6

The crab made a quick _____ move across the sand.

◯ **A.** lateral ◯ **B.** uncertain ◯ **C.** pent-up ◯ **D.** unharmed

Q16 L.5.6

The tornado left a path of _____.

○ **A.** epicenter ○ **B.** geologist ○ **C.** destruction ○ **D.** time bomb

Q17 L.5.6

The wind shook the trees _____.

○ **A.** violently ○ **B.** sure enough ○ **C.** sliced off ○ **D.** builds up

Q18 L.5.6

The old bridge had _____ under the heavy truck.

○ **A.** given way ○ **B.** swamped ○ **C.** dragged ○ **D.** ruptured

Q19 L.5.6

The loud noise _____ the car alarm.

○ **A.** given way ○ **B.** ruptured ○ **C.** sliced off ○ **D.** triggered

Q20 L.5.6

The loud music caused a(n) _____ in the library.

○ **A.** time bomb ○ **B.** disturbance ○ **C.** geologist ○ **D.** destruction

Q21 L.5.6

He _____ his hand into the cold water.

○ **A.** radiate ○ **B.** break free ○ **C.** thrust ○ **D.** take action

Q22 L.5.6

Heat seemed to _____ from the campfire.

○ **A.** radiate ○ **B.** break free ○ **C.** wipe out ○ **D.** thrust

Q23 L.5.6

Heavy rain _____ the streets.

○ **A.** swamped ○ **B.** erected ○ **C.** wedged ○ **D.** dragged

Q24 L.5.6

She was _____ about which path to take.

○ **A.** molten ○ **B.** pent-up ○ **C.** unharmed ○ **D.** uncertain

Q25 L.5.6

Towns near the _____ had the most damage.

○ **A.** geologist ○ **B.** disturbance ○ **C.** epicenter ○ **D.** destruction

Q26 L.5.6

The cat fell from the tree but was _____.

○ **A.** parallel ○ **B.** unharmed ○ **C.** lateral ○ **D.** at risk

Q27 L.5.6

The water pipe _____ and flooded the basement.

○ **A.** wedged ○ **B.** triggered ○ **C.** swamped ○ **D.** ruptured

Q28 L.5.6

The town decided to _____ to clean up the river.

○ **A.** pinpoint ○ **B.** radiate ○ **C.** take action ○ **D.** thrust

Q29 L.5.6

Workers _____ a new statue in the park.

○ **A.** dragged ○ **B.** erected ○ **C.** ruptured ○ **D.** swamped

Q30 L.5.6

The _____ bike had a bigger seat and wider tires.

○ **A.** molten ○ **B.** at risk ○ **C.** uncertain ○ **D.** modified

Q12 L.5.5

SAME Choose the synonym of **modified**:

◯ **A.** heavy ◯ **B.** damp ◯ **C.** altered ◯ **D.** shiny

Q13 L.5.5

OPPOSITE Choose the antonym of **wipe out**:

◯ **A.** rebuild ◯ **B.** stretch ◯ **C.** giggle ◯ **D.** whisper

Q14 L.5.5

OPPOSITE Choose the antonym of **at risk**:

◯ **A.** golden ◯ **B.** round ◯ **C.** safe ◯ **D.** sticky

Q15 L.5.5

OPPOSITE Choose the antonym of **break free**:

◯ **A.** hum along ◯ **B.** get stuck ◯ **C.** tip over ◯ **D.** brush off

Q16 L.5.5

OPPOSITE Choose the antonym of **pent-up**:

◯ **A.** released ◯ **B.** hollow ◯ **C.** crispy ◯ **D.** spotted

Q17 L.5.5

OPPOSITE Choose the antonym of **lateral**:

◯ **A.** plain ◯ **B.** vertical ◯ **C.** salty ◯ **D.** fuzzy

Q18 L.5.5

OPPOSITE Choose the antonym of **destruction**:

◯ **A.** comfort ◯ **B.** laughter ◯ **C.** creation ◯ **D.** patience

Q19 L.5.5

OPPOSITE Choose the antonym of **violently**:

◯ **A.** proudly ◯ **B.** neatly ◯ **C.** sadly ◯ **D.** gently

Q20 L.5.5

OPPOSITE Choose the antonym of **uncertain**:

◯ **A.** juicy ◯ **B.** certain ◯ **C.** bumpy ◯ **D.** striped

Q21 L.5.5

OPPOSITE Choose the antonym of **unharmed**:

◯ **A.** injured ◯ **B.** sweet ◯ **C.** sleepy ◯ **D.** rainy

Q22 L.5.5

GOES WITH Choose the example that fits **geologist**:

◯ **A.** someone climbing a cliff for fun on a weekend

◯ **B.** someone putting up a fence at the edge of a cliff

◯ **C.** someone painting a picture of a seaside cliff ◯ **D.** someone examining the layers of a cliff

Q23 L.5.5

GOES WITH Choose the example that fits **time bomb**:

◯ **A.** a crack in a sidewalk that got fixed last week ◯ **B.** a sign telling visitors the dam's height

◯ **C.** a picnic spot with a view of a dam ◯ **D.** a crack in a dam that keeps growing every year

Q24 L.5.5

GOES WITH Choose the example that fits **sure enough**:

◯ **A.** wishing for snow in the middle of July ◯ **B.** predicting a snow day and then waking up to snow

◯ **C.** forgetting your boots on a snowy winter morning ◯ **D.** shoveling the driveway with your dad

Q25 L.5.5

GOES WITH Choose the example that fits **builds up**:

- ◯ **A.** water rising behind a dam a little more each day
- ◯ **B.** water pouring out of a dam all at once
- ◯ **C.** a fish swimming lazily near the bottom of a dam
- ◯ **D.** a ranger locking the gate at the dam

Q26 L.5.5

GOES WITH Choose the example that fits **parallel**:

- ◯ **A.** the branches of a tree spreading out
- ◯ **B.** the two rails of a train track
- ◯ **C.** the crossing roads at a four-way stop
- ◯ **D.** the spokes of a bike wheel

Q27 L.5.5

GOES WITH Choose the example that fits **given way**:

- ◯ **A.** a shelf holding books neatly in a row
- ◯ **B.** a shelf painted blue to match the room
- ◯ **C.** a shelf collapsing under too many heavy books
- ◯ **D.** a shelf being dusted on a Saturday

Q28 L.5.5

GOES WITH Choose the example that fits **disturbance**:

- ◯ **A.** a calm, flat sea on a windless summer afternoon
- ◯ **B.** a sailboat resting at anchor in the harbor
- ◯ **C.** a sudden shake under the sea that pushes water upward
- ◯ **D.** a whale gliding slowly along the ocean floor

Q29 L.5.5

GOES WITH Choose the example that fits **epicenter**:

- ◯ **A.** a far-off town where a quake was barely felt
- ◯ **B.** the school gym used as a quake shelter
- ◯ **C.** the store where you buy quake supplies
- ◯ **D.** the place where a quake's shaking is strongest

Q30 L.5.5

GOES WITH Choose the example that fits **take action**:

- ◯ **A.** neighbors raising a wall before the next flood comes
- ◯ **B.** neighbors chatting about the weather over the fence
- ◯ **C.** neighbors watching the river rise from their porches
- ◯ **D.** neighbors waving at each other across the street

4 Read & Infer

Set 4 · Story 4. Quaking Earth, Racing Waves · Part 4 of 6

CCSS RI.5.4 · L.5.4

Directions. Read each short passage. Choose the best meaning of the bold word as it is used.

Q1 RI.5.4

Kerry Sieh visited a village school on Tello Island in Indonesia. As the students sat quietly listening, **geologist** Kerry Sieh explained the danger under the ocean.

What does **geologist** mean here?

- ○ **A.** a doctor who helps animals
- ○ **B.** a scientist who studies stars
- ○ **C.** a person who builds boats
- ○ **D.** a scientist who studies rocks and the earth

Q2 RI.5.4

Sieh warned the students about a fault under the sea. He explained that under the ocean, 60 miles from their island, was a ticking **time bomb**.

What does **time bomb** mean here?

- ○ **A.** a clock that rings to wake you
- ○ **B.** a big ocean wave
- ○ **C.** a loud bang
- ○ **D.** a dangerous situation that will cause big trouble later

Q3 RI.5.4

Sieh warned the islanders about powerful earthquakes. The quakes would likely cause tsunamis, fast-moving waves that could **wipe out** the entire seaside village.

What does **wipe out** mean here?

- ○ **A.** to cover something with sand
- ○ **B.** to destroy something completely
- ○ **C.** to clean something a little
- ○ **D.** to build something new

Q4 RI.5.4

Sieh studied coral near the fault. By looking at the growth patterns of the coral, he could **pinpoint** the dates of past earthquakes.

What does **pinpoint** mean here?

- ○ **A.** to find or show something exactly
- ○ **B.** to guess roughly
- ○ **C.** to cut something
- ○ **D.** to dive underwater

Q5 RI.5.4

The scientists needed samples of old coral. Using underwater chainsaws, they **sliced off** slabs of coral heads that were hundreds of years old.

What does **sliced off** mean here?

- ○ **A.** to paint a surface
- ○ **B.** to dig a deep hole
- ○ **C.** to cut a flat piece off something
- ○ **D.** to glue two pieces together

Q6 RI.5.4

The scientists studied the coral to find a pattern. **Sure enough**, they found that on one section of the fault, earthquakes occurred in pairs about every 200 years.

What does **sure enough** mean here?

- ○ **A.** for a short time
- ○ **B.** very slowly
- ○ **C.** as was expected or predicted
- ○ **D.** by complete surprise

Q7 RI.5.4

As the plates press together, the islands slowly sink. The more years between earthquakes, the more stress **builds up** at the fault.

What does **builds up** mean here?

- ○ **A.** to fall down
- ○ **B.** to slowly grow larger or stronger
- ○ **C.** to break apart quickly
- ○ **D.** to move sideways

Q8 RI.5.4

As the oceanic plate slips slowly downward, it squeezes the continental plate sideways. The islands on top of the continental plate are **dragged** down too.

What does **dragged** mean here?

- **A.** to lift something high into the air
- **B.** to measure how much an island sinks
- **C.** to squeeze something sideways a little
- **D.** to move something heavy slowly along the ground or downward with force

Q9 RI.5.4

The scientists decided to warn people. 'As we came to realize what we were learning, and how much **at risk** people were,' said Sieh, 'we couldn't keep quiet.'

What does **at risk** mean here?

- **A.** in a hurry
- **B.** in a good mood
- **C.** in the middle
- **D.** in danger of being hurt or harmed

Q10 RI.5.4

Earth's outer layer is broken into plates. The plates drift on top of the **molten** rock underneath.

What does **molten** mean here?

- **A.** covered in coral
- **B.** full of water
- **C.** melted by great heat
- **D.** hard and cracked

Q11 RI.5.4

Earth's plates move in different ways. Earth's plates don't all move **parallel** to each other and in the same direction.

What does **parallel** mean here?

- **A.** crossing each other in the middle
- **B.** side by side and the same distance apart, never meeting
- **C.** stuck together
- **D.** moving very fast

Q12 RI.5.4

The plates press against each other. They're **wedged** together most of the time, but stress builds up as the plates bump and grind together.

What does **wedged** mean here?

- ○ **A.** to push something tightly into a small space so it cannot move
- ○ **B.** to pull something loose
- ○ **C.** to drift on water
- ○ **D.** to grind into dust

Q13 RI.5.4

Stress builds up between the plates. Finally the plates **break free** along a section of the fault, releasing pent-up energy in an earthquake.

What does **break free** mean here?

- ○ **A.** to escape from something that holds you
- ○ **B.** to build a wall
- ○ **C.** to stay tied up
- ○ **D.** to fall asleep

Q14 RI.5.4

Stress builds up between the plates. Finally the plates break free along a section of the fault, releasing **pent-up** energy in an earthquake.

What does **pent-up** mean here?

- ○ **A.** used up quickly
- ○ **B.** very loud
- ○ **C.** held in for a long time and not let out
- ○ **D.** very cold

Q15 RI.5.4

When the plates break free, energy is released. The force makes objects move up and down and in a **lateral** motion.

What does **lateral** mean here?

- ○ **A.** moving under water
- ○ **B.** moving very slowly
- ○ **C.** moving in a circle
- ○ **D.** moving or happening to the side

Q16 RI.5.4

Stuck plates finally break free in an earthquake. The force makes objects move up and down and side to side, and it can cause great **destruction**.

What does **destruction** mean here?

- ○ **A.** the act of damaging something so badly it is ruined
- ○ **B.** a kind of rock
- ○ **C.** the act of moving something
- ○ **D.** a type of wave

Q17 RI.5.4

A huge earthquake struck. The ground shook so **violently** that people were knocked off their feet.

What does **violently** mean here?

- ○ **A.** with a quiet voice
- ○ **B.** with great, rough force
- ○ **C.** with a big smile
- ○ **D.** with careful planning

Q18 RI.5.4

Pressure had been building along the fault for hundreds of years. Like a twig you bend until it breaks, the pressure had finally **given way**.

What does **given way** mean here?

- ○ **A.** to break or collapse under pressure
- ○ **B.** to point the way
- ○ **C.** to grow stronger under pressure
- ○ **D.** to move away

Q19 RI.5.4

Along a section of the fault, the plates suddenly, violently separated. This **triggered** earth-shaking waves.

What does **triggered** mean here?

- ○ **A.** to stop something from happening
- ○ **B.** to shake the ground
- ○ **C.** to make something start to happen
- ○ **D.** to separate two things

Q20 RI.5.4

A tsunami is not an ordinary wave. A tsunami is started by a **disturbance**, such as an undersea earthquake, that shifts water at the ocean floor.

What does **disturbance** mean here?

- **A.** something that interrupts or upsets the normal state
- **B.** something that measures waves
- **C.** something found on a beach
- **D.** something that keeps everything calm

Q21 RI.5.4

An undersea earthquake moves the ocean floor. Water is **thrust** up from the bottom of the sea all the way to the ocean's surface.

What does **thrust** mean here?

- **A.** to push something hard and suddenly
- **B.** to pull something slowly
- **C.** to cool down
- **D.** to float gently

Q22 RI.5.4

Water is pushed up to the ocean's surface. Then waves begin to **radiate** out in all directions.

What does **radiate** mean here?

- **A.** to sink to the bottom
- **B.** to freeze solid
- **C.** to spread out in all directions from a center
- **D.** to move in one straight line

Q23 RI.5.4

The tsunami traveled across the ocean. Waves **swamped** the coast of Thailand 75 minutes later, then India and Sri Lanka, and even Africa.

What does **swamped** mean here?

- **A.** to dig up
- **B.** to blow away
- **C.** to cover or fill with a large amount of water
- **D.** to dry something with heat

Q24 RI.5.4

After the earthquake, Sieh went back to check on the islands. On January 1, he flew back to Indonesia, **uncertain** of what he'd find.

What does **uncertain** mean here?

- **A.** very scared
- **B.** very angry
- **C.** very tired
- **D.** not sure

Q25 RI.5.4

Sieh visited the islanders after the quake. Their island was more than 200 miles from the **epicenter** of the quake, the most powerful point.

What does **epicenter** mean here?

- **A.** the top of a volcano
- **B.** the point on the earth's surface right above where an earthquake starts
- **C.** the deepest part of the ocean
- **D.** the edge of a map

Q26 RI.5.4

Sieh worried about the people on the islands. People were shaken and scared, but **unharmed**.

What does **unharmed** mean here?

- **A.** slightly hungry
- **B.** very far away
- **C.** very scared
- **D.** not hurt or damaged

Q27 RI.5.4

Another big quake could still come. The thousands of miles of the fault that hadn't **ruptured** in December were still ripe for another quake.

What does **ruptured** mean here?

- **A.** to sink slowly
- **B.** to stay ripe
- **C.** to heal slowly
- **D.** to break or burst open suddenly

Q28 RI.5.4

The earthquakes proved the scientists were right. The quakes convinced some islanders to **take action**.

What does **take action** mean here?

- **A.** to act in a play
- **B.** to do something to deal with a problem
- **C.** to take a photo
- **D.** to forget about a problem

Q29 RI.5.4

Many people on Simuk moved to higher ground. They rebuilt their town at the island's highest point, the hill where Sieh **erected** his GPS station.

What does **erected** mean here?

- **A.** to leave a home
- **B.** to build or set something up
- **C.** to paint something
- **D.** to measure sinking

Q30 RI.5.4

Many people on Simuk rebuilt their town on high ground. Their **modified** town is better prepared for tsunamis.

What does **modified** mean here?

- **A.** changed a little to make it better or different
- **B.** very small
- **C.** copied exactly
- **D.** very old

Q1 L.5.6

A(n) _____ collected rock samples on the beach.

◯ **A.** disturbance ◯ **B.** destruction ◯ **C.** time bomb ◯ **D.** geologist

Q2 L.5.6

The leaky gas pipe in the old building was a(n) _____.

◯ **A.** geologist ◯ **B.** destruction ◯ **C.** time bomb ◯ **D.** disturbance

Q3 L.5.6

The flood threatened to _____ the town's crops.

◯ **A.** radiate ◯ **B.** wipe out ◯ **C.** break free ◯ **D.** take action

Q4 L.5.6

Doctors tried to _____ the cause of the pain.

◯ **A.** wipe out ◯ **B.** pinpoint ◯ **C.** thrust ◯ **D.** take action

Q5 L.5.6

The chef _____ thin pieces of ham.

◯ **A.** dragged ◯ **B.** ruptured ◯ **C.** given way ◯ **D.** sliced off

Q6 L.5.6

We heard a bark, and _____, the puppy was at the door.

◯ **A.** unharmed ◯ **B.** parallel ◯ **C.** violently ◯ **D.** sure enough

Q7 L.5.6

Snow _____ on the roof during a long storm.

○ **A.** pinpoint ○ **B.** builds up ○ **C.** erected ○ **D.** wedged

Q8 L.5.6

The fishermen _____ their heavy wooden boat up the sandy beach, one slow step at a time.

○ **A.** swamped ○ **B.** sliced off ○ **C.** dragged ○ **D.** triggered

Q9 L.5.6

Houses near the river are _____ of flooding.

○ **A.** at risk ○ **B.** molten ○ **C.** pent-up ○ **D.** modified

Q10 L.5.6

The worker poured _____ metal into a mold.

○ **A.** molten ○ **B.** at risk ○ **C.** lateral ○ **D.** uncertain

Q11 L.5.6

Draw two _____ lines on your paper.

○ **A.** pent-up ○ **B.** unharmed ○ **C.** parallel ○ **D.** molten

Q12 L.5.6

The ball got _____ between two rocks.

○ **A.** swamped ○ **B.** wedged ○ **C.** sliced off ○ **D.** triggered

Q13 L.5.6

The boat finally managed to _____ from the ice.

○ **A.** break free ○ **B.** radiate ○ **C.** thrust ○ **D.** wipe out

Q14 L.5.6

She cried to let out her _____ feelings.

○ **A.** parallel ○ **B.** pent-up ○ **C.** modified ○ **D.** lateral

Q15 L.5.6

The ground made a(n) _____ motion during the earthquake.

○ **A.** parallel ○ **B.** lateral ○ **C.** pent-up ○ **D.** molten

Q16 L.5.6

The fire caused great _____ in the forest.

○ **A.** epicenter ○ **B.** time bomb ○ **C.** destruction ○ **D.** geologist

Q17 L.5.6

The boat rocked _____ in the storm.

○ **A.** pinpoint ○ **B.** sure enough ○ **C.** builds up ○ **D.** violently

Q18 L.5.6

The ice had _____ beneath the skater.

○ **A.** ruptured ○ **B.** erected ○ **C.** dragged ○ **D.** given way

Q19 L.5.6

The heavy snow _____ an avalanche.

○ **A.** triggered ○ **B.** given way ○ **C.** ruptured ○ **D.** wedged

Q20 L.5.6

A sudden _____ on the ocean floor can start a tsunami.

○ **A.** geologist ○ **B.** epicenter ○ **C.** time bomb ○ **D.** disturbance

Q21 L.5.6

The volcano _____ ash high into the sky.

○ **A.** break free ○ **B.** wipe out ○ **C.** thrust ○ **D.** take action

Q22 L.5.6

Ripples _____ out when you drop a stone in a pond.

○ **A.** radiate ○ **B.** thrust ○ **C.** pinpoint ○ **D.** break free

Q23 L.5.6

A big wave _____ the little boat.

○ **A.** erected ○ **B.** given way ○ **C.** swamped ○ **D.** sliced off

Q24 L.5.6

The future of the old theater is _____.

○ **A.** unharmed ○ **B.** lateral ○ **C.** modified ○ **D.** uncertain

Q25 L.5.6

The _____ of the quake was under the sea.

○ **A.** disturbance ○ **B.** geologist ○ **C.** epicenter ○ **D.** destruction

Q26 L.5.6

All the passengers walked away _____.

○ **A.** at risk ○ **B.** unharmed ○ **C.** lateral ○ **D.** uncertain

Q27 L.5.6

The balloon _____ when it hit the cactus.

○ **A.** ruptured ○ **B.** triggered ○ **C.** swamped ○ **D.** dragged

Q28 L.5.6

We must _____ before the problem gets worse.

○ **A.** radiate ○ **B.** pinpoint ○ **C.** wipe out ○ **D.** take action

Q29 L.5.6

The campers _____ their tent near the lake.

○ **A.** swamped ○ **B.** wedged ○ **C.** erected ○ **D.** sliced off

Q30 L.5.6

We followed a(n) _____ version of the recipe.

○ **A.** modified ○ **B.** pent-up ○ **C.** molten ○ **D.** parallel

WORD LIST

moisture · series · evaporates · condenses · cluster · whirlpool · surge · feeding · eventually · inland · dies out · change course · axis · counterclockwise · regions · rip · deadly · especially · mobile · anchored · smashes · washes out · foundations · spawn · category · severe · track · invading · polluted · make a huge difference

Q1 L.5.5

moisture

- ○ **A.** a large amount of heat
- ○ **B.** a group or class of things that share a quality
- ○ **C.** large areas of land or water
- ○ **D.** a small amount of water or wetness in the air or in something

Q2 L.5.5

series

- ○ **A.** a group of similar things close together
- ○ **B.** a group of things that come one after another
- ○ **C.** a sudden, powerful movement of water forward or upward
- ○ **D.** a single thing that stands alone

Q3 L.5.5

evaporates

- ○ **A.** to turn into ice
- ○ **B.** to enter a place by force
- ○ **C.** to change from a liquid into a gas
- ○ **D.** to start moving in a different direction

Q4 L.5.5

condenses

- A. to change from a gas into a liquid
- B. to melt into water
- C. to give something what it needs to grow or keep going
- D. to tear or pull something apart or out with force

Q5 L.5.5

cluster

- A. the strong bottom parts that hold up a building
- B. a group of similar things close together
- C. a long line of things far apart
- D. an imaginary line that something spins around

Q6 L.5.5

whirlpool

- A. a calm, flat pool of water
- B. a small amount of water or wetness in the air or in something
- C. a group of things that come one after another
- D. a spinning mass of water or air

Q7 L.5.5

surge

- A. a sudden, powerful movement of water forward or upward
- B. a spinning mass of water or air
- C. the strong bottom parts that hold up a building
- D. a gentle wave on a calm day

Q8 L.5.5

feeding

- A. to have a big, important effect
- B. to slowly become weaker and then stop
- C. to take something away from
- D. to give something what it needs to grow or keep going

Q9 L.5.5

eventually

- A. every morning
- B. more than usual; very much
- C. in the end, after a long time
- D. in the direction opposite to the way a clock's hands move

Q10 L.5.5

inland

- A. away from the coast, toward the middle of the land
- B. high up in the clouds
- C. in the direction opposite to the way a clock's hands move
- D. in the end, after a long time

Q11 L.5.5

dies out

- A. to follow and watch the path of something
- B. to slowly become weaker and then stop
- C. to move to a new place
- D. to destroy or carry away something with flowing water

Q12 L.5.5

change course

- A. to slow down and stop
- B. to cause something to start or form
- C. to start moving in a different direction
- D. to change from a gas into a liquid

Q13 L.5.5

axis

- A. a group of things that come one after another
- B. an imaginary line that something spins around
- C. a small amount of water or wetness in the air or in something
- D. the outer edge of a circle

Q14 L.5.5

counterclockwise

- A. in the end, after a long time
- B. away from the coast, toward the middle of the land
- C. straight up and down
- D. in the direction opposite to the way a clock's hands move

Q15 L.5.5

regions

- A. large areas of land or water
- B. a group or class of things that share a quality
- C. rooms inside a house
- D. an imaginary line that something spins around

Q16 L.5.5

rip

- A. to hit something very hard and break it
- B. to tear or pull something apart or out with force
- C. to fold something neatly
- D. to change from a liquid into a gas

Q17 L.5.5

deadly

- A. made dirty and unsafe by harmful things
- B. able to be moved easily from place to place
- C. able to cause death
- D. able to cause a small scratch

Q18 L.5.5

especially

- A. in the direction opposite to the way a clock's hands move
- B. only once
- C. more than usual; very much
- D. away from the coast, toward the middle of the land

Q19 L.5.5

mobile

- **A.** very large and heavy
- **B.** able to be moved easily from place to place
- **C.** very serious or harsh
- **D.** able to cause death

Q20 L.5.5

anchored

- **A.** able to cause death
- **B.** painted a bright color
- **C.** held firmly in place so it cannot move
- **D.** very serious or harsh

Q21 L.5.5

smashes

- **A.** to hit something very hard and break it
- **B.** to touch something gently
- **C.** to enter a place by force
- **D.** to destroy or carry away something with flowing water

Q22 L.5.5

washes out

- **A.** to destroy or carry away something with flowing water
- **B.** to cause something to start or form
- **C.** to clean something with soap
- **D.** to follow and watch the path of something

Q23 L.5.5

foundations

- **A.** a sudden, powerful movement of water forward or upward
- **B.** the roofs that cover a building
- **C.** a spinning mass of water or air
- **D.** the strong bottom parts that hold up a building

Q24 L.5.5

spawn

- **A.** to tear or pull something apart or out with force
- **B.** to change from a liquid into a gas
- **C.** to stop something from growing
- **D.** to cause something to start or form

Q25 L.5.5

category

- **A.** a group of similar things close together
- **B.** a group or class of things that share a quality
- **C.** large areas of land or water
- **D.** a long list of names

Q26 L.5.5

severe

- **A.** slightly wet
- **B.** able to be moved easily from place to place
- **C.** very serious or harsh
- **D.** held firmly in place so it cannot move

Q27 L.5.5

track

- **A.** to slowly become weaker and then stop
- **B.** to follow and watch the path of something
- **C.** to start moving in a different direction
- **D.** to stop something from moving

Q28 L.5.5

invading

- **A.** to have a big, important effect
- **B.** to change from a gas into a liquid
- **C.** to leave a place quietly
- **D.** to enter a place by force

Q29 L.5.5

polluted

- A. made dirty and unsafe by harmful things
- B. made cold by ice
- C. able to be moved easily from place to place
- D. held firmly in place so it cannot move

Q30 L.5.5

make a huge difference

- A. to give something what it needs to grow or keep going
- B. to hit something very hard and break it
- C. to have a big, important effect
- D. to cause a small problem

2 Fill in the Blank

Set 5 · Story 5. Hurricanes: The Science Behind Killer Storms · Part 2 of 6

CCSS L.5.4 · L.5.5 · L.5.6

Directions. Choose the word that best fills in the blank.

WORD LIST

moisture · series · evaporates · condenses · cluster · whirlpool · surge · feeding · eventually · inland · dies out · change course · axis · counterclockwise · regions · rip · deadly · especially · mobile · anchored · smashes · washes out · foundations · spawn · category · severe · track · invading · polluted · make a huge difference

Q1 L.5.6

The bread got moldy from the _____ in the bag.

◯ **A.** surge ◯ **B.** category ◯ **C.** whirlpool ◯ **D.** moisture

Q2 L.5.6

The book is the first in a(n) _____ of five.

◯ **A.** series ◯ **B.** category ◯ **C.** moisture ◯ **D.** cluster

Q3 L.5.6

A puddle _____ on a hot, sunny day.

◯ **A.** dies out ◯ **B.** washes out ◯ **C.** evaporates ◯ **D.** smashes

Q4 L.5.6

Steam _____ into drops on the cold mirror.

◯ **A.** washes out ◯ **B.** condenses ◯ **C.** smashes ◯ **D.** dies out

Q5 L.5.6

A(n) _____ of grapes hung from the vine.

◯ **A.** whirlpool ◯ **B.** surge ◯ **C.** series ◯ **D.** cluster

Q6 L.5.6

The boat was pulled into a(n) _____ in the river.

◯ **A.** series ◯ **B.** moisture ◯ **C.** whirlpool ◯ **D.** cluster

Q7 L.5.6

The storm _____ flooded the beach houses.

◯ **A.** category ◯ **B.** surge ◯ **C.** whirlpool ◯ **D.** axis

Q8 L.5.6

The dry wind kept _____ the wildfire.

◯ **A.** feeding ◯ **B.** track ◯ **C.** invading ◯ **D.** condenses

Q9 L.5.6

We _____ found our way home after getting lost.

◯ **A.** eventually ◯ **B.** especially ◯ **C.** counterclockwise ◯ **D.** inland

Q10 L.5.6

The family moved _____ to escape the floods.

◯ **A.** counterclockwise ◯ **B.** eventually ◯ **C.** especially ◯ **D.** inland

Q11 L.5.6

The campfire _____ if no one adds more wood.

◯ **A.** smashes ◯ **B.** dies out ◯ **C.** condenses ◯ **D.** evaporates

Q12 L.5.6

The ship had to _____ to avoid the iceberg.

◯ **A.** spawn ◯ **B.** rip ◯ **C.** make a huge difference ◯ **D.** change course

Q13 L.5.6

Earth turns on its _____ once a day.

◯ **A.** series ◯ **B.** cluster ◯ **C.** axis ◯ **D.** moisture

Q14 L.5.6

Turn the lid _____ to open the jar.

◯ **A.** counterclockwise ◯ **B.** especially ◯ **C.** inland ◯ **D.** eventually

Q15 L.5.6

Polar bears live in cold _____.

◯ **A.** axis ◯ **B.** regions ◯ **C.** foundations ◯ **D.** surge

Q16 L.5.6

Be careful not to _____ the page.

○ **A.** make a huge difference ○ **B.** spawn ○ **C.** rip ○ **D.** change course

Q17 L.5.6

Some mushrooms are _____ if you eat them.

○ **A.** anchored ○ **B.** mobile ○ **C.** polluted ○ **D.** deadly

Q18 L.5.6

I love fruit, _____ strawberries.

○ **A.** especially ○ **B.** counterclockwise ○ **C.** eventually ○ **D.** inland

Q19 L.5.6

The _____ clinic travels from town to town.

○ **A.** deadly ○ **B.** mobile ○ **C.** severe ○ **D.** polluted

Q20 L.5.6

The tent was _____ with strong ropes.

○ **A.** mobile ○ **B.** severe ○ **C.** deadly ○ **D.** anchored

Q21 L.5.6

The wave _____ against the rocks.

○ **A.** condenses ○ **B.** smashes ○ **C.** dies out ○ **D.** evaporates

Q22 L.5.6

Heavy rain sometimes _____ the dirt path.

○ **A.** washes out ○ **B.** smashes ○ **C.** evaporates ○ **D.** dies out

Q23 L.5.6

The workers poured concrete for the house's _____.

○ **A.** axis ○ **B.** cluster ○ **C.** foundations ○ **D.** regions

Q24 L.5.6

Warm water can _____ powerful storms.

○ **A.** track ○ **B.** spawn ○ **C.** rip ○ **D.** change course

Q25 L.5.6

This hurricane is a(n) _____ 5, the most destructive kind.

◯ **A.** surge ◯ **B.** series ◯ **C.** whirlpool ◯ **D.** category

Q26 L.5.6

The town had _____ flooding after the storm.

◯ **A.** mobile ◯ **B.** polluted ◯ **C.** severe ◯ **D.** anchored

Q27 L.5.6

Scientists use satellites to _____ storms.

◯ **A.** change course ◯ **B.** track ◯ **C.** rip ◯ **D.** spawn

Q28 L.5.6

Weeds are _____ the garden.

◯ **A.** make a huge difference ◯ **B.** washes out ◯ **C.** feeding ◯ **D.** invading

Q29 L.5.6

Fish cannot live in the _____ river.

◯ **A.** severe ◯ **B.** polluted ◯ **C.** anchored ◯ **D.** deadly

Q30 L.5.6

Wearing a seat belt can _____ in a crash.

◯ **A.** rip ◯ **B.** spawn ◯ **C.** make a huge difference ◯ **D.** track

3 Synonyms, Antonyms & Pairs

Directions. Items 1-12: choose the SYNONYM (same meaning). Items 13-21: choose the ANTONYM (opposite). Items 22-30: choose the example that FITS the word.

Q1 L.5.5

SAME Choose the synonym of **moisture**:

○ **A.** dampness ○ **B.** silence ○ **C.** sparkle ○ **D.** gravel

Q2 L.5.5

SAME Choose the synonym of **series**:

○ **A.** basket ○ **B.** blanket ○ **C.** cushion ○ **D.** sequence

Q3 L.5.5

SAME Choose the synonym of **cluster**:

○ **A.** pillow ○ **B.** puddle ○ **C.** bunch ○ **D.** ladder

Q4 L.5.5

SAME Choose the synonym of **feeding**:

○ **A.** fueling ○ **B.** hushing ○ **C.** rinsing ○ **D.** folding

Q5 L.5.5

SAME Choose the synonym of **eventually**:

○ **A.** finally ○ **B.** hourly ○ **C.** upward ○ **D.** nearby

Q6 L.5.5

SAME Choose the synonym of **rip**:

○ **A.** hum ○ **B.** sip ○ **C.** tear ○ **D.** pat

Q7 L.5.5

SAME Choose the synonym of **especially**:

○ **A.** indoors ○ **B.** particularly ○ **C.** sideways ○ **D.** forward

Q8 L.5.5

SAME Choose the synonym of **smashes**:

◯ **A.** yawns ◯ **B.** whispers ◯ **C.** nods ◯ **D.** crashes

Q9 L.5.5

SAME Choose the synonym of **washes out**:

◯ **A.** cheers up ◯ **B.** warms up ◯ **C.** lines up ◯ **D.** sweeps away

Q10 L.5.5

SAME Choose the synonym of **spawn**:

◯ **A.** produce ◯ **B.** polish ◯ **C.** chew ◯ **D.** borrow

Q11 L.5.5

SAME Choose the synonym of **track**:

◯ **A.** follow ◯ **B.** giggle ◯ **C.** shrug ◯ **D.** sneeze

Q12 L.5.5

SAME Choose the synonym of **invading**:

◯ **A.** winking ◯ **B.** napping ◯ **C.** attacking ◯ **D.** sewing

Q13 L.5.5

OPPOSITE Choose the antonym of **inland**:

◯ **A.** backward ◯ **B.** overnight ◯ **C.** offshore ◯ **D.** upstairs

Q14 L.5.5

OPPOSITE Choose the antonym of **dies out**:

◯ **A.** hiccups ◯ **B.** tiptoes ◯ **C.** snores ◯ **D.** strengthens

Q15 L.5.5

OPPOSITE Choose the antonym of **change course**:

◯ **A.** fall asleep ◯ **B.** keep going straight ◯ **C.** clap along ◯ **D.** dress up

Q16 L.5.5

OPPOSITE Choose the antonym of **counterclockwise**:

◯ **A.** clockwise ◯ **B.** overhead ◯ **C.** outdoors ◯ **D.** downhill

Q17 L.5.5

OPPOSITE Choose the antonym of **deadly**:

◯ **A.** curly ◯ **B.** harmless ◯ **C.** silky ◯ **D.** freckled

Q18 L.5.5

OPPOSITE Choose the antonym of **mobile**:

◯ **A.** fragrant ◯ **B.** slippery ◯ **C.** stationary ◯ **D.** noisy

Q19 L.5.5

OPPOSITE Choose the antonym of **anchored**:

◯ **A.** unattached ◯ **B.** soggy ◯ **C.** tidy ◯ **D.** marbled

Q20 L.5.5

OPPOSITE Choose the antonym of **severe**:

◯ **A.** pointy ◯ **B.** silver ◯ **C.** mild ◯ **D.** sandy

Q21 L.5.5

OPPOSITE Choose the antonym of **polluted**:

◯ **A.** velvet ◯ **B.** clean ◯ **C.** dotted ◯ **D.** bumpy

Q22 L.5.5

GOES WITH Choose the example that fits **evaporates**:

◯ **A.** a puddle slowly vanishing in the hot sun ◯ **B.** a puddle growing bigger during a rainstorm

◯ **C.** a puddle splashed by a kid in rain boots ◯ **D.** a puddle freezing solid on a winter night

Q23 L.5.5

GOES WITH Choose the example that fits **condenses**:

◯ **A.** sugar stirred into a glass of lemonade ◯ **B.** drops forming on a cold glass of lemonade

◯ **C.** ice melting in a glass of lemonade ◯ **D.** lemonade spilling across a picnic table

Q24 L.5.5

GOES WITH Choose the example that fits **whirlpool**:

◯ **A.** the ring you scrub off a bathtub ◯ **B.** the steam you see above a hot bath

◯ **C.** the drip you hear from a leaky faucet ◯ **D.** the swirl you see as a bathtub drains

Q25 L.5.5

GOES WITH Choose the example that fits **surge**:

◯ **A.** seawater rushing over a seawall in a hurricane ◯ **B.** seawater drying into salt on a warm rock

◯ **C.** seawater lapping gently at a sandy beach ◯ **D.** seawater sitting still in a tide pool

Q26 L.5.5

GOES WITH Choose the example that fits **axis**:

◯ **A.** the dust collecting on top of an old globe ◯ **B.** the map printed on the outside of a globe

◯ **C.** the pole running through the middle of a globe ◯ **D.** the price tag stuck to the bottom of a globe

Q27 L.5.5

GOES WITH Choose the example that fits **regions**:

◯ **A.** a lizard sunning itself on a desert rock ◯ **B.** the deserts of the American Southwest

◯ **C.** a single grain of sand from a desert ◯ **D.** a cactus growing beside a desert road

Q28 L.5.5

GOES WITH Choose the example that fits **foundations**:

◯ **A.** the chimney on top of a house ◯ **B.** the curtains hanging in a house's windows

◯ **C.** the mailbox standing in front of a house ◯ **D.** the concrete base buried under a house

Q29 L.5.5

GOES WITH Choose the example that fits **category**:

◯ **A.** a dog chasing its own tail in the backyard ◯ **B.** a bat hanging upside down in a dark cave

◯ **C.** a whale leaping high out of the ocean waves ◯ **D.** the 'mammals' label for dogs, whales, and bats

Q30 L.5.5

GOES WITH Choose the example that fits **make a huge difference**:

◯ **A.** a life jacket sitting unused in a closet ◯ **B.** a life jacket saving someone who fell into a lake

◯ **C.** a life jacket that matches your swimsuit ◯ **D.** a life jacket hanging on a hook by the dock

4 Read & Infer

Set 5 · Story 5. Hurricanes: The Science Behind Killer Storms · Part 4 of 6

CCSS RI.5.4 · L.5.4

Directions. Read each short passage. Choose the best meaning of the bold word as it is used.

Q1 RI.5.4

Warm ocean water helps hurricanes grow. Hurricanes not only need heat to form, but they also need **moisture**—lots of it.

What does **moisture** mean here?

- **A.** a large amount of heat
- **B.** a cloud of dust
- **C.** a small amount of water or wetness in the air or in something
- **D.** a strong gust of wind

Q2 RI.5.4

Hurricanes don't form all at once. A hurricane goes through a **series** of four stages as it grows.

What does **series** mean here?

- **A.** a single thing that stands alone
- **B.** a kind of storm
- **C.** a map of the ocean
- **D.** a group of things that come one after another

Q3 RI.5.4

Hurricanes form over warm oceans. The warm surface water **evaporates**, sending water vapor into the air.

What does **evaporates** mean here?

- **A.** to turn into ice
- **B.** to change from a liquid into a gas
- **C.** to fall as rain
- **D.** to spin in a circle

Q4 RI.5.4

Water vapor rises into the air. Some of the water vapor **condenses** into water droplets, forming clouds.

What does **condenses** mean here?

- ○ **A.** to change from a gas into a liquid
- ○ **B.** to melt into water
- ○ **C.** to rise into the sky
- ○ **D.** to blow away

Q5 RI.5.4

Thunderstorms begin to join together. A **cluster** of thunderstorms joins to form a single large weather system.

What does **cluster** mean here?

- ○ **A.** a group of similar things close together
- ○ **B.** a kind of tornado
- ○ **C.** a flash of lightning
- ○ **D.** a long line of things far apart

Q6 RI.5.4

The storm begins to spin. Soon a **whirlpool** of hot, moist air is spiraling around a low-pressure center.

What does **whirlpool** mean here?

- ○ **A.** a calm, flat pool of water
- ○ **B.** a cloud that brings snow
- ○ **C.** a spinning mass of water or air
- ○ **D.** a tall wall of rock

Q7 RI.5.4

Big waves crashed onto the shore during the storm. These waves were part of Fitow's storm **surge**.

What does **surge** mean here?

- ○ **A.** a sudden, powerful movement of water forward or upward
- ○ **B.** a gentle wave on a calm day
- ○ **C.** a kind of tropical storm
- ○ **D.** a list of storm names

Q8 RI.5.4

A hurricane grows stronger over warm water. The strong winds draw up more heat and water vapor from the ocean surface, **feeding** the storm.

What does **feeding** mean here?

- **A.** to take something away from
- **B.** to break something apart
- **C.** to give something what it needs to grow or keep going
- **D.** to cool something down

Q9 RI.5.4

A hurricane moves across the ocean. It may **eventually** reach a coast and move inland.

What does **eventually** mean here?

- **A.** far away
- **B.** in the end, after a long time
- **C.** every morning
- **D.** only once

Q10 RI.5.4

A hurricane moves across the ocean. It may eventually reach a coast and move **inland**.

What does **inland** mean here?

- **A.** under the ocean
- **B.** high up in the clouds
- **C.** across the sky
- **D.** away from the coast, toward the middle of the land

Q11 RI.5.4

A hurricane may reach a coast and move inland. Soon it may become just a tropical storm, and eventually it **dies out**.

What does **dies out** mean here?

- **A.** to spin faster
- **B.** to move to a new place
- **C.** to turn into rain
- **D.** to slowly become weaker and then stop

Q12 RI.5.4

Hurricanes don't always go where people expect. Sometimes a hurricane may **change course** and move back out over the ocean.

What does **change course** mean here?

- **A.** to start moving in a different direction
- **B.** to drop heavy rain
- **C.** to slow down and stop
- **D.** to grow much bigger

Q13 RI.5.4

Hurricane winds curve as they blow. They curve because the Earth moves as it spins on its **axis**.

What does **axis** mean here?

- **A.** the outer edge of a circle
- **B.** an imaginary line that something spins around
- **C.** a path that a storm follows
- **D.** a line on a map that shows height

Q14 RI.5.4

Hurricane winds spin in a circle. In the Northern Hemisphere, the winds in a hurricane blow **counterclockwise**.

What does **counterclockwise** mean here?

- **A.** very fast
- **B.** in the direction opposite to the way a clock's hands move
- **C.** in a zigzag
- **D.** straight up and down

Q15 RI.5.4

Hurricanes are given names. Different lists are used for hurricanes in the Atlantic and Pacific **regions**.

What does **regions** mean here?

- **A.** lists of names
- **B.** rooms inside a house
- **C.** kinds of storms
- **D.** large areas of land or water

Q16 RI.5.4

Hurricane winds are extremely powerful. Strong gusts of wind **rip** huge trees out of the ground.

What does **rip** mean here?

- **A.** to plant a seed
- **B.** to blow gently
- **C.** to tear or pull something apart or out with force
- **D.** to fold something neatly

Q17 RI.5.4

Hurricane winds pick up objects. The wind can even turn small objects, such as a road sign or a lawn chair, into **deadly** flying missiles.

What does **deadly** mean here?

- **A.** able to cause death
- **B.** able to float
- **C.** able to fly
- **D.** able to cause a small scratch

Q18 RI.5.4

Hurricanes cause the most damage in crowded places. Hurricanes are **especially** destructive when they hit an area where many people live.

What does **especially** mean here?

- **A.** far away
- **B.** very quietly
- **C.** only once
- **D.** more than usual; very much

Q19 RI.5.4

Hurricane Andrew hit an area south of Miami in 1992. Many of the buildings there were **mobile** homes, which do not weigh as much as houses.

What does **mobile** mean here?

- **A.** built on a hill
- **B.** very large and heavy
- **C.** able to be moved easily from place to place
- **D.** made of brick

Q20 RI.5.4

Mobile homes do not weigh as much as houses. They also are not well **anchored** to the ground.

What does **anchored** mean here?

- **A.** made of wood
- **B.** held firmly in place so it cannot move
- **C.** painted a bright color
- **D.** floating on water

Q21 RI.5.4

The storm surge is very dangerous. The surging water **smashes** into buildings and washes out roads.

What does **smashes** mean here?

- **A.** to touch something gently
- **B.** to wash something clean
- **C.** to hit something very hard and break it
- **D.** to dig something up

Q22 RI.5.4

The storm surge is very dangerous. The surging water smashes into buildings and **washes out** roads.

What does **washes out** mean here?

- **A.** to clean something with soap
- **B.** to fill something with sand
- **C.** to build a road
- **D.** to destroy or carry away something with flowing water

Q23 RI.5.4

The storm surge can do great damage. It may also wash away beaches and remove the soil around the **foundations** of houses.

What does **foundations** mean here?

- **A.** the strong bottom parts that hold up a building
- **B.** the paint on a building
- **C.** the roofs that cover a building
- **D.** the windows of a building

Q24 RI.5.4

Hurricanes can also cause tornadoes. Some hurricanes do not cause any tornadoes; others **spawn** many of them.

What does **spawn** mean here?

- **A.** to stop something from growing
- **B.** to cause something to start or form
- **C.** to name something
- **D.** to measure something

Q25 RI.5.4

Scientists rate hurricanes on a scale. The scale rates a hurricane from **Category** 1 (least powerful) to **Category** 5 (most destructive).

What does **category** mean here?

- **A.** a kind of wind
- **B.** a group or class of things that share a quality
- **C.** a path a storm follows
- **D.** a long list of names

Q26 RI.5.4

The strongest hurricanes do great harm. They can cause widespread damage to property, **severe** inland flooding, and significant loss of life.

What does **severe** mean here?

- **A.** very bright
- **B.** slightly wet
- **C.** very serious or harsh
- **D.** very sudden

Q27 RI.5.4

Technology helps people stay safe. Because technology has become so advanced, scientists can **track** hurricanes better and warn people in advance.

What does **track** mean here?

- **A.** to build something
- **B.** to follow and watch the path of something
- **C.** to stop something from moving
- **D.** to name something

Q28 RI.5.4

People cannot stop hurricanes. Scientists may not be able to prevent a hurricane from **invading** where people live.

What does **invading** mean here?

- **A.** to enter a place by force
- **B.** to clean a place
- **C.** to rain on a place
- **D.** to leave a place quietly

Q29 RI.5.4

Hurricanes can damage water systems. The water supply may be cut off or **polluted**.

What does **polluted** mean here?

- **A.** made dirty and unsafe by harmful things
- **B.** made by hand
- **C.** made cold by ice
- **D.** made larger

Q30 RI.5.4

Being prepared is important. Knowing where to go and what to do if a hurricane strikes can **make a huge difference** in keeping you and your family safe.

What does **make a huge difference** mean here?

- **A.** to change the weather
- **B.** to make a big mess
- **C.** to have a big, important effect
- **D.** to cause a small problem

Q1 L.5.6

Plants pull _____ from the soil.

◯ **A.** surge ◯ **B.** series ◯ **C.** moisture ◯ **D.** cluster

Q2 L.5.6

The team won a(n) _____ of games in a row.

◯ **A.** whirlpool ◯ **B.** category ◯ **C.** moisture ◯ **D.** series

Q3 L.5.6

Sweat _____ from your skin and cools you down.

◯ **A.** dies out ◯ **B.** smashes ◯ **C.** washes out ◯ **D.** evaporates

Q4 L.5.6

Water vapor _____ on the outside of a cold glass.

◯ **A.** condenses ◯ **B.** dies out ◯ **C.** washes out ◯ **D.** smashes

Q5 L.5.6

A(n) _____ of stars shone in the sky.

◯ **A.** surge ◯ **B.** series ◯ **C.** whirlpool ◯ **D.** cluster

Q6 L.5.6

The water spun like a(n) _____ as the bathtub drained.

◯ **A.** whirlpool ◯ **B.** moisture ◯ **C.** cluster ◯ **D.** category

Q7 L.5.6

The _____ of seawater covered the coastal road.

○ **A.** cluster ○ **B.** category ○ **C.** surge ○ **D.** axis

Q8 L.5.6

Logs kept _____ the campfire all night.

○ **A.** invading ○ **B.** track ○ **C.** make a huge difference ○ **D.** feeding

Q9 L.5.6

If you keep practicing, you will _____ get better.

○ **A.** eventually ○ **B.** especially ○ **C.** inland ○ **D.** counterclockwise

Q10 L.5.6

The storm traveled 100 miles _____ before it weakened.

○ **A.** eventually ○ **B.** inland ○ **C.** counterclockwise ○ **D.** especially

Q11 L.5.6

The cheering slowly _____ as the crowd went home.

○ **A.** evaporates ○ **B.** condenses ○ **C.** dies out ○ **D.** washes out

Q12 L.5.6

The river may _____ after a big flood.

○ **A.** spawn ○ **B.** track ○ **C.** rip ○ **D.** change course

Q13 L.5.6

A top whirls around its _____.

○ **A.** whirlpool ○ **B.** axis ○ **C.** series ○ **D.** moisture

Q14 L.5.6

The skaters circled the rink _____.

○ **A.** eventually ○ **B.** especially ○ **C.** inland ○ **D.** counterclockwise

Q15 L.5.6

Different _____ of the country have different weather.

○ **A.** regions ○ **B.** foundations ○ **C.** axis ○ **D.** surge

Q16 L.5.6

The strong wind can _____ shingles off a roof.

○ **A.** change course ○ **B.** make a huge difference ○ **C.** rip ○ **D.** spawn

Q17 L.5.6

Lightning can be _____.

○ **A.** mobile ○ **B.** deadly ○ **C.** polluted ○ **D.** anchored

Q18 L.5.6

It was _____ cold this morning.

○ **A.** counterclockwise ○ **B.** inland ○ **C.** especially ○ **D.** eventually

Q19 L.5.6

They lived in a(n) _____ home near the beach.

○ **A.** mobile ○ **B.** deadly ○ **C.** polluted ○ **D.** severe

Q20 L.5.6

The boat stayed _____ in the bay during the storm.

○ **A.** mobile ○ **B.** anchored ○ **C.** severe ○ **D.** deadly

Q21 L.5.6

The angry giant _____ the wall with his fist.

○ **A.** condenses ○ **B.** smashes ○ **C.** evaporates ○ **D.** dies out

Q22 L.5.6

The flood _____ the little bridge every few years.

○ **A.** evaporates ○ **B.** condenses ○ **C.** smashes ○ **D.** washes out

Q23 L.5.6

Water damaged the _____ of the old houses.

○ **A.** series ○ **B.** axis ○ **C.** foundations ○ **D.** regions

Q24 L.5.6

One good idea can _____ many others.

○ **A.** spawn ○ **B.** change course ○ **C.** make a huge difference ○ **D.** rip

Q25 L.5.6

Put each book in the right _____ on the shelf.

○ **A.** surge ○ **B.** whirlpool ○ **C.** cluster ○ **D.** category

Q26 L.5.6

She has a(n) _____ cold and must stay in bed.

○ **A.** severe ○ **B.** polluted ○ **C.** anchored ○ **D.** mobile

Q27 L.5.6

The app lets you _____ your package.

○ **A.** change course ○ **B.** spawn ○ **C.** rip ○ **D.** track
